The Secretary stated this item should be sent to all interested parties, including the actuary. The actuary needs to be prepared to address the issues raised.

Ms. Dent stated most of the memo is informational; however there is one part of the memo regarding the request for the actuary to provide alternate SRBR structures.

OLD BUSINESS/CONTINUED-DEFERRED ITEMS

10. Oral update on Travel Audit compliance.

Mrs. Niebla stated the Committee established in August will deal with the remaining three open items, and that Committee meets following this Board meeting.

11. Board discussion and direction to staff re: ongoing litigation/case law on Public Records requests and how it relates to trustees' cell phones, PDAs, etc. and possibility of purchasing cell phones for Board member's use on retirement-related issues.

Ms. Dent stated there is ongoing litigation with the City of San Jose regarding Public Records Act (PRA) requests related to cell phones or PDA devices. There is some case law on the issue from the Appellate Courts, which held that information put on a personal device was not public record. That decision was based on procedural law. The private device is not owned by the public, or controlled by the City, and the City Attorney's Office holds a similar position. The stipend has not been addressed by the courts.

Chair Bacigalupi stated if someone decides they are interested in a separate device for Board business, that request should come to the Board for creation of a policy.

- 12. Request for discussion and Board approval of the following staff recommendations regarding physicians' disability forms:**
- a. \$50 maximum fee per two-part form, Statement of Medical Condition and Request for Work Restrictions. Fees for two-part form only paid once per body part,
 - b. \$200 maximum fees paid per applicant, and
 - c. No reimbursement for prior paid fees.

Mrs. Busse responded to questions regarding surveyed data and stated that staff received feedback from 12 CA Public Plans surveyed, and addressed questions related to multiple body parts.

Chair Bacigalupi stated the applicants don't know what body part(s) will be enough to qualify the medical evidence to show the disability.

Ms. Dent stated the applicant is in a position to know which injury is most significant. There needs to be a rule that treats all applicants the same.

Mr. Swift stated historically the Board paid upwards of \$500 for medical legal evaluations. Those evaluations had the doctor look at all body parts and produce a 10-15 page report. The Medical Director now performs that

function but now wants applicants to pay for a form. The doctors in the field can still charge what fee they choose for filling out the form.

Chair Bacigalupi stated this item needs more work and referred it to the Committee, and requested Board members to participate.

Item deferred until after the Committee obtains additional data.

13. Review of staff report on services provided to the Board by the Medical Director and request for Board direction on the potential for issuing RFP for medical services.

Chair Bacigalupi stated he has received information on this matter, and needs more time to gather additional details related to the history of the medical director position.

Item deferred
