Board Chair Letter

Office of Retirement Services

Police and Fire Department Retirement Plan

December 15, 2023

The Honorable Mayor and City Council
Members of the Police and Fire Department Retirement Plan
City of San José
San José, California

Dear Mayor, Council Members, and Plan Members:

The Pension Plan earned a time-weighted net of investment fees rate of return of 7.7%* for the fiscal year, compared to a 7.5% return for its policy benchmark and a 7.6% return for the Investment Metrics universe net median of public funds greater than \$1 billion. The Plan outperformed the net rate of return of 6.625% assumed by the Board and Plan's actuary for the fiscal year ended June 30, 2023. The Pension Plan earned a time-weighted net of investment fees rate of return of 8.8%* and 6.7%* for the three-year and five-year periods ending June 30, 2023, respectively, while the Investment Metrics universe net median earned a time-weighted rate of return of 8.3% and 6.5% for the same periods.

The Healthcare Plans earned a time-weighted net of investment fees rate of return of 8.1%* for the fiscal year, compared to a 7.6% return for its policy benchmark. Additionally, the Healthcare Plans earned a time-weighted net of investment fees rate of return of 6.6%* and 5.3%* for the three-year and five-year periods ending June 30, 2023, respectively.

Performance for the City of San José Police and Fire Department Retirement Plan over the fiscal year exceeded its Policy and Investable Benchmarks. Compared to the Public Peer Group over \$1 Billion Net Return, performance over the fiscal year ranked better than median, while also taking on less risk than the peers. The Plan's net position increased from \$4,675,142,000 to \$5,020,851,000 (see the Financial Section beginning on page 14). The net increase in the Plan's net position for fiscal year 2022-2023 was \$345,709,000.

The Board believes that the professional services rendered by the staff, investment consultant, actuary, and counsel have produced a sound fund capable of sustained growth over the long term. The Board of Administration and Retirement Services staff are available to provide additional information as requested.

Sincerely,

Franco Vado, Chair
Board of Administration

* The Plan's Total Investment Return percentages are unaudited numbers, typically provided by the investment consultant (currently Meketa Investment Group) based on the investment returns calculated by the Plan's custodian bank. In 2023, the Plan discovered that certain investment management fees were invoiced outside of, and not originally included in, the custodian bank's calculation of investment performance, covering the period of June 30, 2015 through June 30, 2023. To address this issue, the Plan engaged Macias Gini & O'Connell LLP to perform specific Agreed-Upon-Procedures ("AUP") to tabulate the invoice management fees for their inclusion in recalculated investment performance figures (as reflected in the AUP Report). The Total Investment Return percentages listed here with an asterisk are based on Macias Gini & O'Connell LLP's recalculated investment performance figures (as reflected in the AUP Report). This represents a more comprehensive total investment return than previously provided by Meketa Investment Group. The AUP Report is included with this ACFR after the "Report on Investment Activity" section on page 90.

Police and Fire Department Retirement Plan

Annual Comprehensive Financial Report for the Fiscal Years Ended June 30, 2023 and June 30, 2022

Letter of Transmittal

Office of Retirement Services

Police and Fire Department Retirement Plan

December 15, 2023

Board of Administration
San José Police and Fire Department Retirement Plan
1737 North First Street, Suite 600
San José, CA 95112

Dear Trustees:

I am pleased to present the Annual Comprehensive Financial Report (ACFR) of the San José Police and Fire Department Retirement Plan (Plan) for the fiscal year ended June 30, 2023. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Plan's management.

This ACFR was prepared to conform to the principles of governmental accounting and reporting set forth by the Governmental Accounting Standards Board (GASB) and the reporting requirements prescribed by the Government Finance Officers' Association of the United States and Canada (GFOA). Transactions of the Plan are reported on an accrual basis of accounting. For an overview and analysis of the financial activities of the Plan for the fiscal years ended June 30, 2023 and 2022, please refer to the Management's Discussion and Analysis (MD&A) on page 17.

Macias Gini & O'Connell LLP, the Plan's independent auditor, has audited the accompanying financial statements. Because the cost of a control should not exceed the benefits to be derived, management believes internal control is adequate and the accompanying statements, schedules, and tables are fairly presented and free from material misstatement. Sufficient internal controls over financial reporting exist to provide reasonable assurance regarding the safekeeping of assets and fair presentation of the financial statements and supporting schedules.

The financial audit provides reasonable assurance that the Plan's financial statements are presented in conformity with generally accepted accounting principles and are free of material misstatement. The Plan recognizes that even sound and well-designed internal controls have their inherent limitations in that errors may still occur as a result of factors such as carelessness, faulty judgment, communication breakdowns, and/or that internal controls can be circumvented by internal or external collusion. The Plan continuously reviews internal controls to ensure that the Plan's operating policies and procedures are being adhered to and that the controls are adequate to ensure accurate and reliable financial reporting and to safeguard the Plan's assets.

I am proud to report that the GFOA awarded its Certificate of Achievement for Excellence in Financial Reporting to the Plan for its ACFR for the fiscal year ended June 30, 2022. This was the 23rd consecutive year that the Plan has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the Plan must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Letter of Transmittal *(continued)*

The Plan also received the Public Pension Standards Award in recognition of meeting professional standards for plan design and administration by the Public Pension Coordinating Council.

I encourage you to review this report carefully. I trust that you and the members of the Plan will find this ACFR helpful in understanding the Plan.

Funding

The Plan's funding objective for both its defined benefit pension plan and its defined benefit other post-employment benefits (OPEB) healthcare plan is to meet long-term benefit obligations through contributions and investment income. As of the most recent actuarial valuation dated June 30, 2022, the funding ratio of the defined benefit pension plan and the defined benefit Police and Fire OPEB plans were 79.6%, 36.0% and 34.0%, respectively, based on the actuarial value of assets.

For the valuation of pension and OPEB benefits, the actuarial assumption for the net rate of return to be earned by the Plan is currently 6.625% and 6.00%, respectively. The impact of the difference between the actual net rate of return earned by the Plan and the assumption rates will result in an investment gain or loss that will be reflected in the pension and OPEB unfunded liabilities in next year's ACFR, respectively. The net increase in Plan net position for fiscal year 2022-2023 was \$345,709,000. Details of the components of this increase are included in the *Statement of Changes in Plan Net Position* on page 30. The defined benefit pension plan's funding progress is presented on page 148 and the defined benefit OPEB plan's funding progress is presented on pages 166 for Police and 182 for Fire.

Investment Summary

The Board of Administration has exclusive control of all investments of the Plan and is responsible for the establishment of investment objectives, strategies, and policies. Members of the Board serve in a fiduciary capacity and must discharge their duties with respect to the Plan and the investment portfolio solely in the interest of, and for the exclusive purposes of providing benefits to, members of the Plan and defraying the reasonable cost of administration.

The Investment Policy Statement for the Plan has been revised as of October 2023. Notable changes were revisions to the verbiage and changes to the Appendices, but there was no change to the asset allocation.

Absolute performance for the Plan over the fiscal year was positive due to a resurgence in both domestic and international equities along with fixed income providing attractive yields in the latter half of the fiscal year. Over the past fiscal year, the Plan's time-weighted rate of return, net of investment fees, was 7.7%* for the fiscal year, compared to a 7.5% return for its policy benchmark and a 7.6% return for the Investment Metrics universe net median of public funds greater than \$1 billion. Additionally, the Plan Pension Plan earned a time-weighted rate of return, net of investment fees, of 8.8%* and 6.7%* for the three-year and five-year periods ending June 30, 2023, respectively, while the Investment Metrics universe net median earned a time-weighted rate of return, net of investment fees of 8.3% and 6.5% for the same periods.

The Plan outperformed the actuarially assumed rate of return of 6.625% by 1.1%. Fiscal Year 2022-23 saw a significant rebound in the markets overall, especially in the first half of the 2023. Both the equity and bond markets experienced a strong positive performance in the first half of the 2023. The Plan captured this positive performance effectively, ultimately slightly outperforming compared to the policy benchmark return of 0.2%.

The Plan's 0.2% outperformance relative to the policy benchmark was attributable to both investment manager selection decisions and allocation effects. The Plan's public equity, market neutral strategies, and core private real estate managers contributed to a large proportion of the relative outperformance to the benchmark.

Letter of Transmittal *(continued)*

The Healthcare Plans' time-weighted rate of return, net of investment fees, was 8.1%* on investments for the fiscal year, compared to a 7.6% return for its policy benchmark. In addition, the Healthcare Plans earned a time-weighted rate of return, net of investment fees, of 6.6%* and 5.3%* for the three-year and five-year periods ending June 30, 2023, respectively.

The net position of the Plan increased from \$4,675,142,000 to \$5,020,851,000 (see the Financial Section beginning on page 14).

Major Initiatives

The Investment Program continued to manage portfolio investments and move initiatives forward during the fiscal year. The continuity of the Investment Program is a testament to the human capital and infrastructure that are in place.

During the fiscal year, the Office of Retirement Services (ORS) completed filling the vacancies of their staffing in all the divisions. In addition, new Board trustees were onboarded.

In October 2017, the City Auditor issued report 17-06, *Audit of Retirement Services: Greater Transparency Needed in the Budgeting Process, Interactions Among Stakeholders, Investment Policies, and Plan Administration*. The report was published with five separate findings which are covered in 25 different recommendations and five of the 25 recommendations are addressed to the City. ORS has addressed and completed all of the recommendations this past fiscal year with the addition of new performance measures in the budget process.

The ORS' Internal Audit Division continues to conduct operational audits in the Benefits, Accounting, Investments and IT divisions as part of the Five-Year Internal Audit Plan. This has resulted in numerous recommendations to improve the efficiency of the operations of ORS, some of which have already been implemented and some of which ORS continues to work on.

With the resurgence of pre-COVID life, ORS has also seen the return of the in-person Open Enrollment Health Fair for retirees. Open Enrollment for 2023 consisted of 795 change requests, up from 553 in the previous year. There were 368 Health in Lieu re-enrollment requests and 118 Anthem, 85 Kaiser, 92 Delta, and 132 VSP enrollment requests processed. More than half the requests were submitted directly through the member portal, MemberDirect.

Last year saw an escalation of the municipal code "Medicare Mandate" compliance enforcement efforts to transition Medicare eligible retirees and dependents from non-Medicare health plans to Medicare health plans. Staff identified 134 members aged 65 and older who were out of compliance with the Medicare Mandate. Staff mailed compliance notifications to affected members and continued efforts to contact all members on the list to assist them with their transition into an ORS offered Medicare plan. This effort resulted in identifying 11 members who were exempt, 95 members who were successfully transitioned to Medicare and 28 members whose healthcare was terminated for non-compliance. Staff continues to work with the remaining few who lost their health coverage.

Letter of Transmittal *(continued)*

Conclusion

I would like to take this opportunity to thank the members of the Plan for their patience and confidence in the ORS staff, whose dedication, commitment to the Plan and diligent work helped to ensure the Plan's continued success during the past year. I also want to express my gratitude to the Board of Administration for its dedicated effort in supporting the staff through this past year. Finally, I would like to thank the City staff for their support, as well as the consultants.

Respectfully Submitted,

Roberto L. Peña
Chief Executive Officer
Office of Retirement Services

* The Plan's Total Investment Return percentages are unaudited numbers, typically provided by the investment consultant (currently Meketa Investment Group) based on the investment returns calculated by the Plan's custodian bank. In 2023, the Plan discovered that certain investment management fees were invoiced outside of, and not originally included in, the custodian bank's calculation of investment performance, covering the period of June 30, 2015 through June 30, 2023. To address this issue, the Plan engaged Macias Gini & O'Connell LLP to perform specific Agreed-Upon-Procedures ("AUP") to tabulate the invoice management fees for their inclusion in recalculated investment performance figures (as reflected in the AUP Report). The Total Investment Return percentages listed here with an asterisk are based on Macias Gini & O'Connell LLP's recalculated investment performance figures (as reflected in the AUP Report). This represents a more comprehensive total investment return than previously provided by Meketa Investment Group. The AUP Report is included with this ACFR after the "Report on Investment Activity" section on page 90.

Independent Auditor's Report

Independent Auditor's Report

Board of Administration of the City of San José
Police and Fire Department Retirement Plan
San José, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the City of San José Police and Fire Department Retirement Plan (Plan), a pension trust fund and postemployment healthcare fund of the City of San José, California, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of June 30, 2023, and the changes in its fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

Prior Period Financial Statements

The financial statements of the Plan as of and for the year ended June 30, 2022, were audited by other auditors whose report dated November 3, 2022, expressed an unmodified opinion on those financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditor's Report *(continued)*

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in the employer's net pension liability and related ratios – defined benefit pension plan, schedule of investment returns – defined benefit pension plan, schedule of employer contributions – defined benefit pension plan, schedule of changes in employer's net OPEB liability and related ratios – postemployment healthcare plans, schedule of investment returns – postemployment healthcare plans, schedule of employer contributions – postemployment healthcare plans, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Independent Auditor's Report *(continued)*

Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Plan's basic financial statements. The combining schedule of defined benefit pension plan net position, combining schedule of changes in defined benefit pension plan net position, schedules of administrative expenses and other, schedules of payments to consultants, and schedules of investment expenses (other supplemental information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory, investment, actuarial, and statistical sections of the Annual Comprehensive Financial Report but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2023, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

Board of Administration
San José Police and Fire Department Retirement Plan
1737 North First Street, Suite 600
San José, California 95112-4505

The Office of Retirement Services is pleased to provide this overview and analysis of the financial activities of the Police and Fire Department Retirement Plan (the Plan) for the fiscal years ended June 30, 2023 and 2022. The Plan, consisting of a single employer Defined Benefit Pension Plan and three Postemployment Healthcare Plans, was established to provide retirement benefits for sworn employees of the Police and Fire Departments of the City of San José (City). We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Letter of Transmittal, which begins on page 4 of this report, and in the financial section which follows this discussion.

Financial Highlights for Fiscal Year 2023

- As of June 30, 2023, the Plan had \$5,020,851,000 in plan net position restricted for pension benefits and postemployment healthcare benefits. Plan net position of \$4,721,487,000 restricted for pension benefits is available to meet the Plan's ongoing obligations to plan participants and their beneficiaries. The Postemployment Healthcare Plans' net position of \$299,364,000 is available for the exclusive use of retiree medical benefits.
- The Plan's total net position held in trust for pension benefits and postemployment healthcare benefits increased during the fiscal year ended June 30, 2023 by approximately \$345,709,000 or 7.3% from the prior fiscal year, primarily as a result of the appreciation in the fair value of investments caused by the strong returns in public equity and high yield bonds.
- Additions to plan net position during fiscal year ended June 30, 2023 were \$655,995,000, which includes employer and employee contributions of \$232,513,000 and \$43,960,000, respectively, and net investment income of \$379,522,000. This represents an increase of \$691,267,000 or 1,959.8% of total additions from the prior fiscal year amount of \$(35,272,000).
- Deductions from plan net position for fiscal year ended June 30, 2023 increased by \$17,747,000 from \$292,539,000 to \$310,286,000 over the prior fiscal year, or approximately 6.1%, due to an increase in retirement benefit payments. The increase in retirement benefits payments was attributable to an increased number of retired members and beneficiaries as well as cost-of-living adjustments.

Overview of the Financial Statements

The Plan's financial statements, notes to the financial statements, required supplementary and other supplemental information for the year ended June 30, 2023, were prepared in conformity with the principles of governmental accounting and reporting set forth by the Governmental Accounting

Management's Discussion and Analysis (unaudited) (continued)

Standards Board (GASB) and the reporting requirements prescribed by the Government Finance Officers' Association of the United States and Canada (GFOA). The following discussion and analysis are intended to serve as an introduction to the Plan's financial statements, which are comprised of these components:

1. Statements of Plan Net Position
2. Statements of Changes in Plan Net Position
3. Notes to Basic Financial Statements

Please note, however, that this report also contains required supplementary information and other supplemental information in addition to the basic financial statements themselves.

The **Statements of Plan Net Position** are a snapshot of account balances at fiscal year-end. It indicates the assets available for future payments to retirees and any current liabilities that are owed at this time.

The **Statements of Changes in Plan Net Position**, on the other hand, provide a view of current year additions to and deductions from the Plan.

Both statements are in compliance with accounting principles generally accepted in the United States of America (GAAP) as set forth by the GASB. GAAP requires state and local government pension plans and other postemployment benefit plan reports to use the full accrual method of accounting and make certain disclosures. The Plan complies with all significant requirements of these pronouncements.

The *Statements of Plan Net Position* and the *Statements of Changes in Plan Net Position* report information about the Plan's activities. These statements include all assets and liabilities, using the full accrual basis of accounting, which recognizes contributions as revenue when currently due pursuant to legal requirements and benefits and refunds of contributions when due and payable under the provisions of the Plan. All of the fiscal year's additions and deductions are taken into account regardless of when cash is received or paid. All realized gains and losses are reported at the trade date, not the settlement date. In addition, both realized and unrealized gains and losses on investments are reported.

These two statements report the Plan's net position restricted for pension benefits and postemployment healthcare benefits (net position)—the difference between assets and liabilities. Over time, increases and decreases in the Plan's net position are one indicator of whether its financial health is improving or deteriorating. Other factors, such as the net pension liability and the net OPEB liability, should also be considered in measuring the Plan's overall health.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the financial statements (see *Notes to Basic Financial Statements* beginning on page 32 of this report).

Required Supplementary Information. In addition to the financial statements and accompanying notes, this report presents certain required supplementary information concerning employer contributions and the Plan's progress in funding its obligations to provide pension and other postemployment healthcare benefits to members and beneficiaries (see Required Supplementary Information beginning on page 74 of this report). The *Schedule of Changes in the Employer's Net Pension Liability and Related Ratios of the Defined Benefit Pension Plan* was prepared using the Plan's net position.

Other Supplemental Information. The *Combining Schedules of Defined Benefit Pension Plan Net Position and Changes in Defined Benefit Pension Plan Net Position*, *Schedules of Administrative Expenses and Other*, *Payments to Consultants*, and *Investment Expenses* are presented immediately following the Required Supplementary Information.

Management's Discussion and Analysis (unaudited) (continued)

Financial Analysis

As previously noted, plan net position may serve over time as a useful indication of the Plan's financial position (see Tables 1a and 1c on page 19). At the close of fiscal years 2023 and 2022, the Plan's total assets exceeded the Plan's total liabilities. The Plan's financial statements do not include the total pension liability or the total OPEB liability for the Defined Benefit Pension Plan and the Postemployment Healthcare Plans, respectively.

The Pension Plan's net position as a percentage of the total pension liability and the Postemployment Healthcare Plan's total OPEB liability should also be considered when evaluating the Plan's financial health. Based on the June 30, 2022 actuarial valuation rolled forward to June 30, 2023, the net position of the Defined Benefit Pension Plan was 80.9% of the total pension liability, and the net position of the Other Postemployment Employee Benefit Plan was 38.9% for Police and 37.3% for Fire. For more information on the results and impact of the June 30, 2022 actuarial valuations, please see Notes 4 and 5 to the financial statements beginning on page 63.

As of June 30, 2023, 2022 and 2021

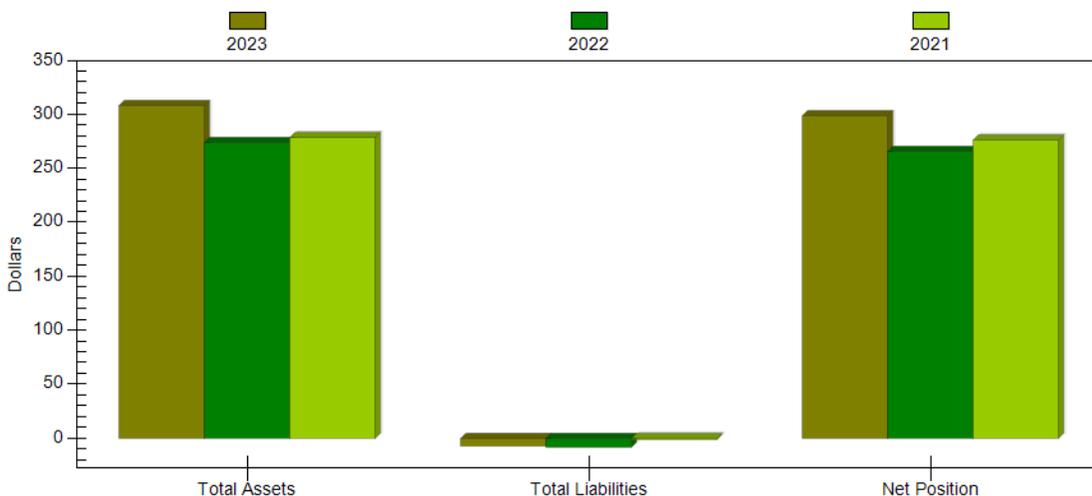

(Dollars in millions)

Management's Discussion and Analysis (unaudited) *(continued)*

As of June 30, 2023, \$4,721,487,000 and \$299,364,000 in total net position was restricted for pension benefits and postemployment healthcare benefits, respectively (see Tables 1a and 1c on page 19). Plan net position restricted for pension benefits of \$4,721,487,000 is available to meet the Plan's ongoing obligations to pension plan participants and their beneficiaries. Postemployment Healthcare Plan net position of \$299,364,000 is available for the exclusive use of retiree medical benefits.

As of June 30, 2023, total net position restricted for pension benefits and for the postemployment healthcare benefits increased by 7.1% and 12.9% from the prior year, primarily due to the net appreciation in the fair value of investments of \$314,040,000 and \$13,466,000 for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan, respectively. The appreciation in the fair value of investments was caused by the strong returns in public equities and high-yield bonds during the fiscal year. The Plan's current asset allocation is discussed in detail in Note 2(c) of the financial statements on page 48.

As of June 30, 2022, \$4,409,869,000 and \$265,273,000, in total net position was restricted for pension benefits and postemployment healthcare benefits, respectively (see Tables 1b and 1d on pages 19 - 20). Plan net position restricted for pension benefits of \$4,409,869,000 was available to meet the Plan's ongoing obligations to pension plan participants and their beneficiaries. Postemployment Healthcare Plan net position of \$265,273,000 was available for the exclusive use of retiree medical benefits.

As of June 30, 2022, total net position restricted for pension benefits and for the postemployment healthcare benefits decreased by (6.7)% and (4.0)% from the prior year, primarily due to the net depreciation in the fair value of investments of \$(332,752,000) and \$(32,741,000) for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan, respectively. The depreciation in the fair value of investments was caused by the severe downturn in public equities and bonds during the second half of the fiscal year. The Plan's current asset allocation is discussed in detail in Note 2(c) of the financial statements on page 48.

As of June 30, 2023, receivables decreased by \$(53,125,000) or (55.8)% in the Defined Benefit Pension Plan and by \$(7,526,000) or (51.3)% in the Postemployment Healthcare Plans. Receivables in the Defined Benefit Pension Plan and the Postemployment Healthcare Plans decreased mainly due to pending investment trades at year end, compared with June 30, 2022, causing a decrease in receivables from brokers and other and accrued investment income receivables. In the previous year, receivables increased by \$11,275,000 or 13.4% and \$7,665,000 or 109.3% in the Defined Benefit Pension Plan and Postemployment Healthcare Plans, respectively, due to an increase in receivables from brokers and others for year-end investment trades.

As of June 30, 2023, total liabilities for the Defined Benefit Pension Plan and the Postemployment Healthcare Plans increased by \$21,197,000, or 45.5% and decreased by \$(183,000) or (2.1)%, respectively, compared with June 30, 2022, mainly due to payables to brokers and others for year-end investment trades as a result of the timing of investment transactions. In the previous year, total liabilities for the Defined Benefit Pension Plan and the Postemployment Healthcare Plans increased by \$16,610,000, or 55.5% and \$6,838,000 or 387.6%, respectively, compared with June 30, 2021, due to the timing of year-end investment trades.

POLICE AND FIRE PLAN ACTIVITIES

In the fiscal year ended June 30, 2023, the Plan's combined Defined Benefit Pension Plan and Postemployment Healthcare Plans net position increased by \$345,709,000, or 7.4%, primarily due to the strong returns in public equity and high-yield bonds during the fiscal year which led to the Plan earning significant investment gains. Key elements of the Plan's financial activities are described in the sections that follow.

Management's Discussion and Analysis (unaudited) (continued)

Additions to Plan Net Position

The assets needed to fund retirement benefits are accumulated through the collection of employer and employee contributions along with earnings on investments (net of investment expense). Total Additions to the Defined Benefit Pension Plan and Postemployment Healthcare Plans for the fiscal year ended June 30, 2023, were \$594,274,000 and \$61,721,000, respectively (see Tables 2a and 2c on pages 23 - 24).

For the fiscal year ended June 30, 2023, total additions for the Defined Benefit Pension Plan and Postemployment Healthcare Plans increased by \$645,117,000 or 1,268.8% and \$46,150,000 or 296.4%, respectively. The primary cause of the decrease from prior year in the Defined Benefit Pension Plan and Postemployment Healthcare Plans was due to the increase in net investment income of \$654,412,000 and \$46,960,000, respectively, due to the strong returns from public equity and high-yield bonds during the fiscal year.

The Plan's time-weighted net investment fee rate of return, as determined by the Plan's investment consultant on an investment (non-GAAP) basis, for the fiscal year ended June 30, 2023 for the Defined Benefit Pension Plan, was 7.7%* compared to (5.1)%* for fiscal year 2022.

For the fiscal year ended June 30, 2022, total additions for the Defined Benefit Pension Plan and Postemployment Healthcare Plans decreased by \$(1,325,536,000) or (104.0)% and \$(78,295,000), or (83.4)%, respectively. The primary cause of the decrease from the prior year in the Defined Benefit Pension Plan and Postemployment Healthcare Plans was due to the decrease in net investment income of \$(1,338,839,000) and \$(80,295,000), respectively, due to the severe market downturn during the second half of the fiscal year.

The Plan's time-weighted net rate of return, as determined by the Plan's investment consultant on an investment (non-GAAP) basis, for the fiscal year ended June 30, 2022, for the Defined Benefit Pension Plan was (5.1)%* compared to 26.2%* for fiscal year 2021.

Deductions from Plan Net Position

The Plan was created to provide a monthly pension allowance, survivor benefits, permanent disability benefits, and postemployment healthcare benefits to qualified members and their beneficiaries. The cost of such programs includes recurring benefit payments and healthcare premium payments, as designated by the San José Municipal Code, refunds of contributions to terminated employees, and the cost of administering the Plan.

Deductions for the fiscal year ended June 30, 2023, totaled \$282,656,000 and \$27,630,000 for the Defined Benefit Pension Plan and Postemployment Healthcare Plans, respectively. Deductions for the Defined Benefit Pension Plan increased by \$16,729,000 or 6.3% from the previous year due to an increase in benefit payments (see Table 2a on page 23). The increase in benefit payments is primarily due to continued increases in the number of retirees and beneficiaries with higher final average salaries and added cost of living adjustments. Deductions for the Postemployment Healthcare Plans increased by \$1,018,000 or 3.8% from the previous year mainly due to the increase in healthcare insurance premiums. (see Table 2c on page 24).

Deductions for the fiscal year ended June 30, 2022, totaled \$265,927,000 and \$26,612,000 for the Defined Benefit Pension Plan and Postemployment Healthcare Plans, respectively. Deductions for the Defined Benefit Pension Plan increased by \$15,853,000 or 6.3% from the previous year due to an increase in benefit payments. The increase in benefit payments is primarily due to continued increases in the number of retirees and beneficiaries with higher final average salaries and added cost of living adjustments (see Table 2b on page 23). Deductions for the Postemployment Healthcare Plans increased by \$528,000 or 2.0% from the previous year mainly due to the increase in healthcare insurance premiums. (see Table 2d on page 24).

¹ Net of investment expenses of \$312 and \$310 in 2022 and 2021, respectively.

Reserves

The Plan is required by the City of San José Municipal Code to establish various reserves in the Plan's net position. The Plan's net position is allocated between the Defined Benefit Pension Plan (which includes the Retirement Fund and the Cost-of-Living Fund) and the Postemployment Healthcare Plans (which include the Postemployment Healthcare 401(h) Plan, the Police Department Postemployment 115 Healthcare Subtrust and the Fire Department Postemployment 115 Healthcare Subtrust). The Defined Benefit Pension Plan Retirement Fund and the Defined Benefit Cost-of-Living Fund both have a General Reserve and an Employee Contributions Reserve. The Postemployment Healthcare 401(h) and 115 Subtrust Funds have a General Reserve only (see table on page 51 for a complete listing and year-end balances of the Plan's reserves).

Management's Discussion and Analysis (unaudited) (continued)

The Plan's reserves are established from employer and employee contributions and the accumulation of investment income, after satisfying investment and administrative expenses. Additionally, the appreciation or depreciation in the fair value of investments is held in the unrealized gain/loss account, a component of each Plan's General Reserve.

With the implementation of Measure F, a medical in-lieu component of the General Reserve was created to account for those members who elected to be in the medical in-lieu credit program. These members are retirees who are eligible for medical insurance and/or dental insurance but who opt not to take it and instead elect to be in the in-lieu credit program. These members are given credits worth 25% of the lowest cost plan, which can be used in future years if the retiree opts to enroll in a City medical or dental plan. See Note 2 of the financial statements for additional information.

The Plan's Fiduciary Responsibilities

The Plan's Board of Administration is the fiduciary trustee of the Defined Benefit Pension Plan and Postemployment Healthcare Plans. Under the California Constitution and the San José Municipal Code, Plan assets may only be used for the exclusive benefit of providing benefits to plan participants and their beneficiaries and defraying reasonable costs of administration.

Economic Factors and Rates Affecting Next Year

The Plan's actuarial valuations as of June 30, 2021, were used to determine the contribution rates and dollar amounts effective June 25, 2023 for fiscal year 2023-2024. The annual determined contribution rates and dollar amounts were adopted by the Board in April 2023. The June 30, 2022 actuarial valuations include Board adopted actuarial assumption changes recommended by the Plan's actuary in the June 30, 2022 Preliminary Valuation Results and Economic Assumption Review presented in November and December 2022, respectively.

The Investment Policy Statement for the Plan has been revised as of October 2023. Notable changes were revisions to the verbiage and changes to the Appendices, but there was no change to the asset allocation.

Defined Benefit Pension Plan

The Plan's funding objective is to meet long-term benefit obligations through contributions and investment income. The Plan's actuarial valuation for funding purposes uses a five-year smoothing method for investment gains and losses. This means that the current year's gains or losses compared to the actuarially assumed rate of return, as calculated at year-end, are recognized over five years. The unfunded actuarial liability (UAL) of \$1,154.8 million, as of June 30, 2022, does not include the impact of approximately \$85.8 million of net deferred investment losses yet to be recognized, primarily resulting from unfavorable investment returns during fiscal year 2022. It is anticipated that future actuarial valuations will recognize these remaining deferred net investment gains as described above and the smoothing of any new gains or losses over a five-year period.

The Plan is exposed to general investment market risk. In a pension plan context, this is the risk that the long-term rate of return earned on the pension plan assets could be below the actuarially assumed rate of return, which is 6.625%, net of investment expenses, in the actuarial valuation as of June 30, 2022. With all other actuarial variables being equal, underperforming the assumed rate of return would increase the UAL and decrease the funded status of the Plan, thereby increasing required contributions to the Plan. Conversely, with all other actuarial variables being equal, overperforming the assumed rate of return would decrease the UAL and increase the funded status of the Plan, thereby decreasing required contributions to the Plan.

In addition to investment market risk, the Plan is exposed to non-economic or demographic risk. The demographic assumptions, which include rates of termination, retirement, disability and mortality, are often unique to the Plan's provisions and the specific demographics of the Plan participants. Deviations from these actuarial assumptions cause the Plan to experience gains or losses, which in turn can lead to

Management's Discussion and Analysis (unaudited) *(continued)*

volatility in the contribution rates. To minimize this risk, every two years, the Plan's actuary conducts an experience study to assess whether the experience of the Plan is conforming to the actuarial assumptions.

The actuarial assumptions may be adjusted where it is determined that current assumptions will not provide the most accurate expectation of what may happen in the future. The Board approved to make changes to the June 30, 2022 actuarial valuation as a result of the economic assumptions review presented in October 2021. The assumed price inflation and amortization payment growth rate assumptions were updated for the June 30, 2022 valuation. See Actuarial section for the effects of these changes.

Contribution rates for fiscal year 2023-2024, as determined by the June 30, 2022 actuarial valuation, includes the impact of the changes stated above and the recognition of smoothed deferred investment gains and losses.

Postemployment Healthcare Plans

The Measure F Framework became effective as of March 31, 2017. A Voluntary Employees' Beneficiary Association (VEBA) for retiree healthcare was created and Tier 1 members were eligible for an irrevocable opt-out of the defined benefit retiree healthcare plan, while Tier 2 members were required to move out of the defined benefit retiree healthcare plan and into the VEBA. The VEBA opt-in election period was October 18, 2017 through December 15, 2017, and the healthcare contributions of members who opted in to the VEBA was transferred out of the Postemployment Healthcare Plan in March 2018. The IRS approved allowing eligible employees who are rehired into the City from calendar years 2018 through 2022 to opt-in to the VEBA if they were not employed during the initial opt-in period.

Historically, members and City contributions to the Plan have been negotiated through collective bargaining separately for Police and Fire and have not been actuarially determined. With the implementation of Measure F, member contributions were fixed at 8.0% of pay; the City's contribution toward the explicit subsidy (or premium subsidy) is actuarially determined separately for Police and Fire; and the City also pays the implicit subsidy (difference between the expected claims cost for a retiree or spouse and the total (retiree plus City) premium on pay-as-you-go basis as part of active health premiums. In addition, the City has an option to limit its contribution for the explicit subsidy to 11% of Police and Fire payroll.

In March 2018, the Board approved the contribution policy that sets the City health care contributions for Tier 1 members as a flat dollar amount, beginning with fiscal year 2019.

Management's Discussion and Analysis (unaudited) (continued)

Requests for Information

This financial report is designed to provide the Board of Administration, Mayor and City Council, our membership, taxpayers, and stakeholders, with a general overview of the Plan's finances and to account for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Police and Fire Department Retirement Plan
1737 North First Street, Suite 600
San José, California 95112-4505

Respectfully Submitted,

Roberto L. Peña

Chief Executive Officer
Office of Retirement Services

** The Plan's Total Investment Return percentages are unaudited numbers, typically provided by the investment consultant (currently Meketa Investment Group) based on the investment returns calculated by the Plan's custodian bank. In 2023, the Plan discovered that certain investment management fees were invoiced outside of, and not originally included in, the custodian bank's calculation of investment performance, covering the period of June 30, 2015 through June 30, 2023. To address this issue, the Plan engaged Macias Gini & O'Connell LLP to perform specific Agreed-Upon-Procedures ("AUP") to tabulate the invoice management fees for their inclusion in recalculated investment performance figures (as reflected in the AUP Report). The Total Investment Return percentages listed here with an asterisk are based on Macias Gini & O'Connell LLP's recalculated investment performance figures (as reflected in the AUP Report). This represents a more comprehensive total investment return than previously provided by Meketa Investment Group. The AUP Report is included with this ACFR after the "Report on Investment Activity" section on page 90.*

Annual Comprehensive Financial Report 2022-2023 San José Police & Fire Retirement Plan

(concluded)

Notes to the Basic Financial Statements

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the City of San José Police and Fire Department Retirement Plan (the Plan) is provided for financial reporting purposes only. Readers should refer to the City of San José Municipal Code (SJMC) for more complete information.

(a) General

The Plan was established in 1961 to provide retirement benefits for certain employees of the City of San José (City). The current Plan consists of a single employer Defined Benefit Pension Plan and three Postemployment Healthcare Plans. On January 27, 2011, the Plan requested a compliance statement and favorable determination letter from the Internal Revenue Service (IRS) under the streamline procedures of the voluntary compliance program for the Defined Benefit Pension Plan and the Postemployment Healthcare Plans. The most recent favorable determination letter from the IRS is dated August 26, 2016. The Defined Benefit Pension Plan and three Postemployment Healthcare Plans is held and administered in the 1961 Police and Fire Department Retirement Plan; it includes all provisions of SJMC Chapter 3.36, 3.54 and 3.56, respectively.

The Postemployment Healthcare 401(h) Plan, which was established under Internal Revenue Code (IRC) Section 401(h), is an account within the pension plan which is used for the funding and payment of the retiree healthcare benefits. As a 401(h) plan, the healthcare benefits must be subordinate to the pension plan benefits. The medical benefits are considered subordinate if, when ignoring contributions for past service benefit, the contributions for medical benefits are no greater than 25% of the actual contributions to both the pension and medical benefits. The Postemployment Healthcare 401(h) Plan, is held and administered in Police and Fire Department Retirement Healthcare Trust Fund; it includes all provisions of SJMC Chapter 3.36.

The IRC Section 115 Trust was established on May 22, 2012 by the San José City Council (Ordinance number 29065) to provide an alternative to the existing 401(h) account. The healthcare trust was clarified by the San José City Council (Ordinance number 29260) on June 12, 2013, which declared that the Police Department Postemployment Healthcare Plan and the Fire Department Postemployment Healthcare Plan may be structured as two wholly separate sub-trusts of one trust. Employer contributions to the new trust funds began in fiscal year 2013. On August 6, 2013, the City obtained a private letter ruling from the IRS assuring the pre-tax treatment of employee contributions to the new trust funds. On July 9, 2014, the Plan received a private letter ruling from the IRS on the tax qualification of the new Section 115 Trust. As of this date, it has not been determined if or when employee contributions will begin to go into the Section 115 subtrusts. The healthcare trusts are held and administered in the Police Department Health Care Trust Fund and Fire Department Health Care Trust Fund; they include all provisions of SJMC Chapter 3.54 and 3.56, respectively.

The City and the bargaining units representing sworn Police and Fire members engaged in settlement discussions concerning litigation arising out of a voter-approved ballot measure, known as Measure B, which passed in 2012. On August 25, 2015, the City Council approved the terms of the Alternative Pension Reform Settlement Framework (Public Safety Framework) for the two sworn bargaining units, the San José Police Officers' Association (SJPOA) and the San José Firefighters International Association of Fire Fighters, Local 230 (IAFF). The Public Safety Framework included an agreement that a ballot measure would be placed on the November 8, 2016 election for the voters to replace Measure B.

On November 8, 2016, the voters approved the Alternative Pension Reform Act known as Measure F. Measure F included, among other things, prohibiting any enhancements to defined retirement benefits without voter approval; codifying the Tier 2 pension benefit; closing the defined benefit retiree healthcare plan; and prohibiting retroactive defined retirement benefit enhancements. The City Council approved Ordinance number 29879 on February 14, 2017, amending the San José Municipal Code to reflect the terms of Measure F and the Public Safety Framework, and the changes to the Municipal Code became effective thirty (30) days after February 14, 2017. Most terms of Measure F and the Public Safety Framework were implemented on June 18, 2017. The provisions of the Public Safety Framework include,

Notes to the Basic Financial Statements *(continued)*

NOTE 1 - DESCRIPTION OF THE PLAN *(continued)*

(a) General *(continued)*

but are not limited to, revising Tier 2 benefits; allowing rehired Tier 1 employees to remain in Tier 1; creating a defined contribution Voluntary Employee Beneficiary Association (VEBA) for retiree healthcare (medical and dental) and a one-time irrevocable election to opt in to the defined contribution VEBA from the defined benefit retiree healthcare plan for eligible employees; defining the qualifications for members of the independent medical panel; and creating a Guaranteed Purchasing Power benefit for Tier 1 retirees. All Tier 1 employees were eligible to opt-in to the VEBA, while all Tier 2 employees and Tier 1 employees who enter the Plan after June 18, 2017, with "Classic" membership in California Public Employees' Retirement System (CalPERS) were required to move in to the defined contribution VEBA.

The VEBA opt-in election period was October 18, 2017 through December 15, 2017, and the Internal Revenue Service issued favorable private letter rulings to each of the Section 115 Trusts on February 7, 2018. The IRS ruled that allowing the contributions to the VEBA to be made from the Sections 115 Trusts is consistent with Code Section 115(1) and will not compromise the Section 115 Trusts' status under Code Section 115. The contributions for the members who opted in to the VEBA and opted out of the defined benefit healthcare plan were transferred in March 2018 for the initial opt-in period. The IRS approved allowing eligible employees who are rehired into the City from calendars years 2018 through 2022 to opt-in to the VEBA if they were not employed during the initial opt-in period. The VEBA is being administered by the City, not the Office of Retirement Services, and therefore it is also not under the jurisdiction of the Retirement Board.

The Plan is considered to be a part of the City's financial reporting entity and is included in the City's basic financial statements as a pension and postemployment healthcare trust fund. The Plan is administered by the Chief Executive Officer of the Office of Retirement Services, an employee of the City, who serves at the pleasure of the Police and Fire Department Plan Board of Administration (Board of Administration). The nine-member Board of Administration is composed of two City employees elected by members of the Plan, two retired Plan members elected by the retiree associations, four public members who are not connected with the City and have significant banking or investment experience, and another public member who is selected by the eight Board members and approved by the City Council. The Board is appointed by the City Council and serves in accordance with Section 2.08, Part 12 of the San José Municipal Code. The contribution and benefit provisions and all other requirements are established by City ordinance. The Plan is responsible for all direct administrative costs except for certain support services, which are provided and funded directly by the City. The Plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974.

All sworn officers of the City's Police and Fire departments are required to be members of the Plan. Participants of the Postemployment Healthcare Plans are also participants of the Defined Benefit Pension Plan.

With the passage of Measure F, rehires with prior Tier 1 City service who were in Tier 2, became part of the Tier 1 membership in the Defined Benefit Pension Plan effective June 18, 2017. In addition, employees in Tier 2 who have "Classic" membership with CalPERS may be moved to Tier 1 subject to the identification of these employees and confirmation of "Classic" membership with CalPERS. The Plan members are categorized into four membership types based on when they entered the Plan. Police Tier 1 members are those members who entered the Plan prior to August 4, 2013, Tier 1 rehires who did not take a return of contributions, or "Classic" CalPERS members. Fire Tier 1 members are those members who entered the Plan prior to January 2, 2015, Tier 1 rehires who did not take a return of contributions, or "Classic" CalPERS members. Police Tier 2 members are those employees who were newly hired on or after August 4, 2013. Fire Tier 2 members are those employees who were newly hired on or after January 2, 2015.

Notes to the Basic Financial Statements (continued)

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

(a) General (continued)

The following table summarizes the Plan members as of June 30, 2023 and 2022, respectively.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

(b) Pension, Disability and Healthcare Benefits

Effective September 30, 1994, the Plan entered into an agreement with CalPERS that extends reciprocal retirement benefits to members. In certain situations, this agreement could result in improved retirement benefits for members who move from one eligible retirement system to another.

The following table summarizes the pension, disability and healthcare benefits for Police members. Please consult the Municipal Code for complete information.

	Police Tier 1 ¹	Police Tier 1 Classic ²	Police Tier 2 ³
Contributions			
Employee	18.99% of base salary (Pension: 10.99% ⁵ , Retiree Healthcare: 8.00%) as of 6/26/2022	15.17% of base salary (Pension: 11.17%, VEBA: 4.00%) as of 6/26/2022	18.37% of base salary (Pension: 14.37%, VEBA: 4.00%) as of 6/26/2022
City	Pension: 33.24% (Normal cost) + Flat dollar amount (UAL); Retiree Healthcare: Flat dollar amount as of 6/26/2022	Pension: 33.24% (Normal cost) + Flat dollar amount (UAL) as of 6/26/2022	14.37% of base salary (Pension: 14.37%) as of 6/26/2022
Service required to leave contributions in retirement plan	10 years of service (20 years must have elapsed from date of entry into retirement plan to collect pension)	10 years of service	5 years service with the City in the Police and Fire Department Plan (Years of Service = 2080 hours worked within applicable 12-month period)
Service Retirement			
Age / years of service	50 with 25 years of service 55 with 20 years of service 30 years of service at any age (with reciprocity, must be 50 years of age) Mandatory retirement at 70 years of age	50 with 25 years of service 55 with 20 years of service 30 years of service at any age (with reciprocity, must be 50 years of age) Mandatory retirement at 70 years of age	57 with 5 years of service with the City in the Plan 50 with 5 years of service with the City in the Plan (A reduction factor of 7.0% per year for each year between age 57 and Tier 2 member's age at retirement, prorated to the closest month)
Early retirement	50-54 with 20 years of service (discounted pension) Allowance reduced pursuant to Municipal Code Section 3.36.810	50-54 with 20 years of service (discounted pension) Allowance reduced pursuant to Municipal Code Section 3.36.810	N/A
Deferred vested retirement	55 with 10 years of service only if 20 years have elapsed from date of membership. (Qualifying members can begin receiving benefits at age 50 with at least 25 years of service.)	55 with 10 years of service only if 20 years have elapsed from date of membership. (Qualifying members can begin receiving benefits at age 50 with at least 25 years of service.)	At least 5 years of service with the City in the Plan (This applies to members who separate from City service before retirement and leave their contributions in the retirement system.) Can begin at age 50 with reduction factor of 7.0% per year for each year between age 57 and the Tier 2 member's age at retirement, prorated to the closest month

(b) Pension, Disability and Healthcare Benefits *(continued)*

Police Tier 1 ¹		Police Tier 1 Classic ²	Police Tier 2 ³
Cost-of-Living Adjustments (COLA)			
COLA	Retirees are eligible for a 3% annual cost-of-living adjustment (COLA). Regular COLAs are compounded and paid each February. There is no proration of COLA	Retirees are eligible for a 3% annual cost-of-living adjustment (COLA). Regular COLAs are compounded and paid each February. There is no proration of COLA	Retirees are eligible for an annual cost-of-living adjustment (COLA) limited to the increase in the Consumer Price Index (San José-San Francisco-Oakland, U.S. Bureau of Labor Statistics index, CPI-U, December to December), capped at 2.0% per year. COLAs are applied annually on February 1st. The first COLA will be prorated based on the number of months retired prior to February 1st. Partial months are not included in the proration

¹ Police Tier 1 employees are those hired before August 4, 2013 .

² Employees with "Classic" membership from a CalPERS or reciprocal agency. A CalPERS "Classic" member is a member who previously worked for a CalPERS or other reciprocal agency and meets the following criteria: 1. First established CalPERS membership or membership in a CalPERS reciprocal agency prior to January 1, 2013. 2. AND is hired by the City of San José after a break in service of less than six months. 3. AND did not have concurrent (overlapping) service with the other agency. City of San José Reciprocity election form must be submitted within thirty days of the first day of employment with the City. Employees in Tier 1 Classic are not eligible for the defined benefit retiree healthcare plan.

³ Police Tier 2 employees are those hired on or after August 4, 2013.

⁴ Employees who opted-in to the VEBA are not eligible for the Defined Benefit Retiree Healthcare Plan (Medical or Dental Benefits.)

⁵ Police rehires (hired between August 4, 2013 and June 18, 2017) will have an additional contribution rate for the cost of the retroactive benefit.

The following table summarizes the pension, disability and healthcare benefits for Fire members. Please consult the Municipal Code for complete information.

Fire Tier 1 ¹		Fire Tier 1 Classic ²	Fire Tier 2 ³
Contributions			
Employee	20.11% of base salary (Pension: 12.11% ⁵ , Retiree Healthcare: 8.00%) as of 6/26/2022	16.29% of base salary (Pension: 12.29% VEBA: 4.00%) as of 6/26/2022	19.18% of base salary (Pension: 15.18%, VEBA: 4.00%) as of 6/26/2022
City	Pension: 34.34% (Normal cost) + Flat dollar amount (UAL); Retiree Healthcare: Flat dollar amount as of 6/26/2022	Pension: 34.34% (Normal cost) + Flat dollar amount (UAL) as of 6/26/2022	15.18% of base salary (Pension: 15.18%) as of 6/26/2022
Service required to leave contributions in retirement plan	10 years (20 years must have elapsed from date of entry into system to collect pension)	10 years	5 years of service with the City in the Plan (Year of Service = 2080 hours worked in the applicable 12-month period)

Police Tier 1 / Tier 1 Classic	
Death After Retirement	
Service retirees and service connected disability retirees	<p>To surviving spouse / domestic partner: 37.5% to 42.5% of member's Final Compensation depending on years of service and date of retirement [SJMC 3.36.1230, 1270(B,C,D)]</p> <p>And to surviving children:</p> <p>1 Child: Final Compensation x 25.0% [SJMC 3.36.1230(D), 1300 (B)]</p> <p>2 Children: Final Compensation x 37.5% [SJMC 3.36.1230(D), 1300(D1)]</p> <p>3 or more children: Final Compensation x 50.0% [SJMC 3.36.1230(D), 1300(F1)]</p> <p>If no surviving spouse / domestic partner nor surviving children: \$1,000 death benefit to estate [SJMC 3.36.1230(E)]</p>
Non-service connected disability retirees	<p>To surviving spouse / domestic partner:</p> <p>Police Tier 1: 24.0% to 42.5% of member's Final Compensation depending on the years of service and date of retirement [SJMC 3.36.1240(C), 1280(B,C)]</p> <p>Police Tier 1 Classic: Final Compensation x 24.0% + 0.75% for each year in excess of 2 years (37.5% maximum) [SJMC 3.36.1240(C), 1280(B)]</p> <p>And to surviving children:</p> <p>1 Child: Final Compensation x 25.0% [SJMC 3.36.1240(D), 1300(B)]</p> <p>2 Children: Final Compensation x 37.5% [SJMC 3.36.1240(D), 1300(D1)]</p> <p>3 or more children: Final Compensation x 50.0% [SJMC 3.36.1240(D), 1300(F1)]</p> <p>If no surviving spouse / domestic partner nor surviving children: \$1,000 death benefit to estate [SJMC 3.36.1240(E)]</p>
Optional Settlements	
Optional settlements	Retiree may choose an optional settlement at retirement that reduces their allowance to provide a higher survivorship allowance to their spouse / domestic partner
Post-Retirement Marriage	
Post-retirement marriage	If a retiree marries after retirement, the retiree can elect to take a reduction on their pension benefit in order to allow for a survivorship benefit to the surviving spouse / domestic partner. Police Tier 1 only : This election must be made within 30 days of marriage or establishment of domestic partnership [SJMC 3.36.1468(B3)]

Note: The maximum total combined benefit payable to a surviving spouse / domestic partner and surviving children is 75% of Final Compensation. If necessary, the children's survivorship allowance will be reduced so that the total benefit does not exceed 75% of Final Compensation.

The following table summarizes the survivorship pension and health benefits for Police Tier 2. Please consult the Municipal Code for complete information.

Police Tier 2	
Death Before Retirement	
Non-service connected death with less than 2 years of service	<p>Greater of:</p> <p>(1) Return of contributions, plus interest, to surviving spouse / domestic partner; where there is no surviving spouse / domestic partner to member's surviving children, or where there are no surviving children either, to the member's estate or</p> <p>(2) \$1,000, whichever is greater [SJMC 3.36.1210]</p>

Notes to the Basic Financial Statements *(continued)*

NOTE 1 - DESCRIPTION OF THE PLAN *(continued)*

(c) Death Benefits *(continued)*

Police Tier 2	
Non-service connected death with more than 2 years of service, but not eligible for a service retirement	<p>To surviving spouse / domestic partner: 24% of Final Compensation + 0.75% of Final Compensation for each year in excess of 2 years of service (37.5% maximum)</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1210(G), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1210(G), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1210(G), 1300(F1)]</p> <p>There is an 80% cap on Final Compensation that can be paid to survivors. [SJMC 3.36.1205, 1210(F), 1280(B)]</p> <p>If no surviving spouse / domestic partner nor surviving children, to the estate: Return of contributions, plus interest, or \$1,000 whichever is greater [SJMC 3.36.1210(E), 1210(I)]</p>
Non-service connected death before retirement, but while eligible for service retirement	<p>To surviving spouse / domestic partner: 37.5% to 42.5% of member's Final Compensation depending on the years of service [SJMC 3.36.1200(F), 1270(B)]</p> <p>For example: Member's benefit = 76.0% Survivorship benefit = 38.0% of Final Compensation Member's benefit = 80.0% Survivorship benefit = 40.0% of Final Compensation Member's benefit = 82.0% Survivorship benefit = 41.0% of Final Compensation Member's benefit = 85.0% Survivorship benefit = 42.5% of Final Compensation</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1200(G), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1200(G), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1200(G), 1300(F1)]</p> <p>If no surviving spouse / domestic partner nor surviving children, to the estate: Return of contributions, plus interest, or \$1,000, whichever is greater [SJMC 3.36.1200(E), 1200(I)]</p>
Service Connected Death	
Service connected death regardless of years of service	<p>To surviving spouse / domestic partner: 37.5% to 42.5% of member's Final Compensation depending on years of service</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1200(G), 1300(B)] 2 Children: Final Compensation x 50.0% [SJMC 3.36.1200(G), 1300(D2)] 3 or more children: Final Compensation x 75.0% [SJMC 3.36.1200(G), 1300(F2)]</p> <p>There is an 80.0% cap on Final Compensation that can be paid to survivors [SJMC 3.36.1200(F), 1205, 1270(B)]</p> <p>If no surviving spouse / domestic partner nor surviving children, to the estate: Return contributions, plus interest, or \$1,000 whichever is greater [SJMC 3.36.1200(E), 1200(I)]</p>

Notes to the Basic Financial Statements *(continued)*

NOTE 1 - DESCRIPTION OF THE PLAN *(continued)*

(c) Death Benefits *(continued)*

Police Tier 2	
Death After Retirement	
Service retirees	To surviving spouse / domestic partner: Survivorship allowance equal to 50.0% joint and survivor annuity as determined by the plan's actuaries
Optional Settlements	
Optional settlements	Retiree may choose an optional settlement at retirement that reduces their allowance to provide a higher survivorship allowance to their spouse / domestic partner
Post-Retirement Marriage	
Post-retirement marriage	If a retiree marries after retirement, the retiree can elect to take a reduction on their pension benefit in order to allow for a survivorship benefit to the surviving spouse / domestic partner

Note: The maximum total combined benefit payable to a surviving spouse / domestic partner and surviving children is 80% of Final Compensation. If necessary, the children's survivorship allowance will be reduced so that the total benefit does not exceed 80% of Final Compensation.

The following table summarizes the survivorship pension and health benefits for Fire Tier 1. Please consult the Municipal Code for complete information.

Fire Tier 1 / Tier 1 Classic	
Death Before Retirement	
Non-service connected death with less than 2 years of service	Return of contributions, plus interest, to surviving spouse / domestic partner, surviving children, or estate or \$1,000, whichever is greater [SJMC 3.36.1250 (C-E)]
Non-service connected death with more than 2 years of service, but not eligible for a service retirement	To surviving spouse / domestic partner: 24.0% to 0.75% for each year in excess of 2 years x Final Compensation (45.0% maximum) [SJMC 3.36.1270(E), 1210(F), 1280(B)(D)] And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1210(G), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1210(G), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1210(G), 1300(F1)] If no surviving spouse / domestic partner nor surviving children: Return of contributions, plus interest, to estate or \$1,000, whichever is greater [SJMC 3.36.1200(E), 1200(I)]
Non-service connected death before retirement, but while eligible for service retirement	To surviving spouse / domestic partner: 37.5% to 45.0% of member's Final Compensation depending on years of service [SJMC 3.36.1200(A), (F), 1270(B)(D)] For example: Member's benefit = 81.0% Survivorship benefit = 40.5% of Final Compensation Member's benefit = 84.0% Survivorship benefit = 42.0% of Final Compensation Member's benefit = 87.0% Survivorship benefit = 43.5% of Final Compensation Member's benefit = 90.0% Survivorship benefit = 45.0% of Final Compensation And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1200(G), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1200(G), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1200(G), 1300(F1)] If no surviving spouse / domestic partner nor surviving children: Return of contributions, plus interest, to estate or \$1,000, whichever is greater [SJMC 3.36.1200(E), 1200(I)]

Notes to the Basic Financial Statements *(continued)*

NOTE 1 - DESCRIPTION OF THE PLAN *(continued)*

(c) Death Benefits *(continued)*

Fire Tier 1 / Tier 1 Classic	
Service connected death regardless of years of service	<p>To surviving spouse / domestic partner: 37.5% to 45.0% for member's Final Compensation depending on the years of service [SJMC 3.36.1200(F), 1270(B)]</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1200(G), 1300(B)] 2 Children: Final Compensation x 50.0% [SJMC 3.36.1200(G), 1300(D2)] 3 or more children: Final Compensation x 75.0% [SJMC 3.36.1200(G), 1300(F2)]</p> <p>If no surviving spouse / domestic partner nor surviving children: Return of contributions, plus interest, to estate or \$1,000, whichever is greater [SJMC 3.36.1200(E), 1200(I)]</p>
Death After Retirement	
Service retirees and service connected disability retirees	<p>To surviving spouse / domestic partner: 37.5% to 45.0% of member's Final Compensation depending on years of service and date of retirement [SJMC 3.36.1230, 1270(B-E)]</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1230(D), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1230(D), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1230(D), 1300(F1)]</p> <p>If no surviving spouse / domestic partner nor surviving children: \$1,000 death benefit to estate [SJMC 3.36.1230(E)]</p>
Non-service connected disability retirees	<p>To surviving spouse / domestic partner:</p> <p>Fire Tier 1: 24.0% to 45.0% of member's Final Compensation depending on the years of service and date of retirement [SJMC 3.36.1240(C), 1280(B,C,D,)]</p> <p>Fire Tier 1 Classic: Final Compensation x 24.0% + 0.75% for each year in excess of 2 years (37.5% maximum) [SJMC 3.36.1240(C), 1280(B)]</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1240(D), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1240(D), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1240(D), 1300(F1)]</p> <p>If no surviving spouse / domestic partner nor surviving children: \$1,000 death benefit to estate [SJMC 3.36.1240(E)]</p>
Optional Settlements	
Optional settlements	Retiree may choose an optional settlement at retirement that reduces their allowance to provide a higher survivorship allowance to their spouse / domestic partner
Post-Retirement Marriage	
Post-retirement marriage	If a retiree marries after retirement, the retiree can elect to take a reduction on their pension benefit in order to allow for a survivorship benefit to the surviving spouse / domestic partner. Fire Tier 1 only: This election must be made within 30 days of marriage or establishment of domestic partnership. [SJMC 3.36.1468(B3)]

Note: The maximum total combined benefit payable to a surviving spouse / domestic partner and surviving children is 75% of Final Compensation. If necessary, the children's survivorship allowance will be reduced so that the total benefit does not exceed 75% of Final Compensation.

Notes to the Basic Financial Statements *(continued)*

NOTE 1 - DESCRIPTION OF THE PLAN *(continued)*

(c) Death Benefits *(continued)*

The following table summarizes the survivorship pension and health benefits for Fire Tier 2. Please consult the Municipal Code for complete information.

Fire Tier 2	
Death Before Retirement	
Service connected death regardless of years of service	<p>To surviving spouse / domestic partner: 37.5% to 45.0% of member's Final Compensation depending on the years of service [SJMC 3.36.1200(F), 1205, 1270(B)]</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1200(G), 1300(B)] 2 Children: Final Compensation x 50.0% [SJMC 3.36.1200(G), 1300(D2)] 3 or more children: Final Compensation x 75.0% [SJMC 3.36.1200(G), 1300(F2)]</p> <p>There is an 80.0% cap on Final Compensation that can be paid to survivors</p> <p>If no surviving spouse / domestic partner nor surviving children, to the estate: Return of contributions, plus interest, or \$1,000, whichever is greater [SJMC 3.36.1200(E), 1200(I)]</p>
Non-service connected death with less than 2 years of service	<p>Greater of:</p> <p>(1) Return of contributions, plus interest, to surviving spouse / domestic partner; where there is no surviving spouse / domestic partner to member's surviving children, or where there are no surviving children either, to the member's estate, or</p> <p>(2) \$1,000, whichever is greater [SJMC 3.36.1250(C-E)]</p>
Non-service connected death with more than 2 years of service, but not eligible for a service retirement	<p>To surviving spouse / domestic partner: 24.0% + 0.75% for each year in excess of 2 years x Final Compensation (45% maximum) [SJMC 3.36.1210(F), 1205, 1280(B)(D)]</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1210(G), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1210(G), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1210(G), 1300(F1)]</p> <p>There is an 80.0% cap on Final Compensation that can be paid to survivors</p> <p>If no surviving spouse / domestic partner nor surviving children to the estate: Return of contributions, plus interest, or \$1,000 whichever is greater [SJMC 3.36.1210(E), 1210(I)]</p>
Non-service connected death before retirement, but while eligible for service retirement	<p>To surviving spouse / domestic partner: 37.5% to 45.0% of member's Final Compensation depending on the years of service [SJMC 3.36.1200(A), (F), 1270(B)]</p> <p>For example: Member's benefit = 81.0% Survivorship benefit = 40.5% of Final Compensation Member's benefit = 84.0% Survivorship benefit = 42.0% of Final Compensation Member's benefit = 87.0% Survivorship benefit = 43.5% of Final Compensation Member's benefit = 90.0% Survivorship benefit = 45.0% of Final Compensation</p> <p>And to surviving children: 1 Child: Final Compensation x 25.0% [SJMC 3.36.1200(G), 1300(B)] 2 Children: Final Compensation x 37.5% [SJMC 3.36.1200(G), 1300(D1)] 3 or more children: Final Compensation x 50.0% [SJMC 3.36.1200(G), 1300(F1)]</p> <p>If no surviving spouse / domestic partner nor surviving children, to the estate: Return of contributions, plus interest, or \$1,000, whichever is greater [SJMC 3.36.1200(E), 1200(I)]</p>

Notes to the Basic Financial Statements *(continued)*

NOTE 1 - DESCRIPTION OF THE PLAN *(continued)*

(c) Death Benefits *(continued)*

Fire Tier 2	
Death After Retirement	
Service retirees	To surviving spouse / domestic partner: Survivorship allowance equal to 50.0% joint and survivor annuity as determined by the Plan's actuaries
Non-service connected disability retirees	To surviving spouse / domestic partner: Survivorship allowance equal to 50.0% joint and survivor annuity as determined by the Plan's actuaries
Optional Settlements	
Optional settlements	Retiree may choose an optional settlement at retirement that reduces their allowance to provide a higher survivorship allowance to their spouse / domestic partner
Post-Retirement Marriage	
Post-retirement marriage	If a retiree marries after retirement, the retiree can elect to take a reduction on their pension benefit in order to allow for a survivorship benefit to the surviving spouse / domestic partner

Note: The maximum total combined benefit payable to a surviving spouse / domestic partner and surviving children is 80% of Final Compensation. If necessary, the children's survivorship allowance will be reduced so that the total benefit does not exceed 80% of Final Compensation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The accompanying financial statements present only the financial activities of the Plan in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). The financial statements of the Plan are intended to present only the plan net position and changes in plan net position of the Plan. They do not purport to, and do not, present fairly the financial position of the City of San José, California, as of June 30, 2023 and 2022, and the changes in its financial position for the years then ended in conformity with U.S. GAAP. The Plan is reported in a pension and postemployment healthcare trust fund in the City of San José's basic financial statements.

(b) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Contributions are recognized when due pursuant to legal requirements. Benefits and refunds of contributions are recognized when currently due and payable under the provisions of the Plan. Activities of the Defined Benefit Pension Plan and the Postemployment Healthcare Plans are accounted for separately. It is required by the Municipal Code that transactions of the Defined Benefit Pension Plan be accounted for in two funds: a Retirement Fund and a Cost-of-Living Fund.

The preparation of the financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

(c) Investments

The City of San José Municipal Code Charter Section 3.36.530 delegates authority to the Board of Administration to invest the monies of the Plan as provided in Section 3.36.540. The Board has adopted detailed investment guidelines consistent with conditions and limitations set forth in Section 3.36.540.

Notes to the Basic Financial Statements *(continued)*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(c) Investments *(continued)*

The Defined Benefit Pension Plan investment policy was updated and approved by the Board on May 4, 2023, with the asset allocation being updated and approved on March 3, 2022. The asset allocation was prepared to align with the long-term expected returns of the underlying asset classes and the Plan's adopted actuarial assumed rate of return as utilized in the June 30, 2022 and June 30, 2021 valuations, respectively.

The Plan's investment allocation for year ended June 30, 2023 and 2022 are as follows:

PENSION		As of June 30,			
	2023	2022		2023	2022
Asset Class	Target Asset Allocation		Asset Class	Target Asset Allocation	
Public equity	42.0%	42.0%	Private real assets	4.0%	4.0%
Private equity	9.0%	9.0%	Venture / Growth capital	4.0%	4.0%
Cash and cash equivalents	8.0%	8.0%	Market neutral strategies	3.0%	3.0%
Core real estate	5.0%	5.0%	Emerging market bonds	2.0%	2.0%
Immunized cash flows	5.0%	5.0%	High yield bonds	2.0%	2.0%
Investment grade bonds	4.5%	4.5%	Treasury inflation-protected securities	2.0%	2.0%
Growth real estate	4.0%	4.0%	Long-term government bonds	1.5%	1.5%
Private debt	4.0%	4.0%			

The Postemployment Healthcare Plan investment policy was approved on January 6, 2022, and the asset allocation policy was adopted on April 1, 2021. There were no changes to the policy or allocation for the fiscal year ending June 30, 2023. The asset allocation was prepared to align with the long-term expected returns of the underlying asset classes and the Plan's adopted actuarial assumed rate of return as utilized in the June 30, 2022 and June 30, 2021 valuations, respectively.

HEALTHCARE		As of June 30,			
	2023	2022		2023	2022
Asset Class	Target Asset Allocation		Asset Class	Target Asset Allocation	
Public equity	58%	58%	Short-term investment grade bonds	6%	6%
Investment grade bonds	14%	14%	Commodities	5%	5%
Core real estate	12%	12%	Long-term government bonds	5%	5%

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price on the last business day of the fiscal year at current exchange rates, if applicable. Investments that do not have an established market, such as private equity, commingled real estate funds and certain pooled fund investments, are reported at estimated fair value based on the most recently available investor reports or audited financial statements issued by the manager of those funds. The fund manager provides an estimated unrealized gain / loss of the fund based on the most recently available audited financial statements and other fund information. See Note 3 for more detailed information on the fair value of investments.

The fair value of derivative instrument investments that are not exchange traded, such as swaps and rights is determined by the Plan's custodian bank based on the base fair value of similar instruments. Futures contracts are marked-to-market at the end of each trading day, and the settlement of gains or losses occur on the following business day through variation margins. The fair value of international currency forwards represents the unrealized gain or loss on the related contracts, which is calculated based on the difference between the specified contract exchange rate and the exchange rate at the end of the reporting period.

Notes to the Basic Financial Statements *(continued)*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(c) Investments *(continued)*

Purchases and sales of securities are reflected on the trade date. Investment income is recognized as earned.

Investment expenses presented within the accompanying financial statements consist of management and performance fees and other investment-related fees. Other investment-related fees include expenses for shared investment-related administration, consultants, custody, and legal services. These fees are disclosed within the Investment Expenses in the Statement of Changes in Plan Net Position and detailed in the Investment Expenses Schedule in the Other Supplemental Information section.

The investment expenses do not include the commissions and fees paid to transact public securities. Partnership management fees paid for the private equity program are drawn from the committed capital and reported as an increase in the cost basis. These fees and costs are included within the net asset value (NAV) or public securities cost and are also reported in the net appreciation / (depreciation) in fair value of investments line items on the financial statements.

For the fiscal years ended June 30, 2023 and 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 7.94% and (4.81)%, respectively. For the fiscal years ended June 30, 2023 and 2022, the annual money-weighted rate of return on healthcare plan investments, net of healthcare plan investment expenses, was 8.22% and (9.62)%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

(d) Other Assets

Capital assets are recorded at cost and comprise of all costs related to the development of a new pension administration system. Total costs are allocated to both the Federated City Employees' Retirement System and the Plan. The capital asset went into production on February 1, 2019 and is being amortized using the straight line method of amortization over a 10 year period ending 2029. It is being amortized per GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*.

The Plan applies GASB Statement No. 87, *Leases*, to its leased assets. GASB Statement No. 87 establishes a single model for lease accounting based on the principle that leases are a form of financing that create a long term obligation. Leases are recorded as an intangible capital asset for the right to use the underlying asset (leased asset). The value of the right to use asset and the corresponding liability are initially measured using the present value of the payments expected to be made over the lease term. The right to use asset is then amortized over the lease term and the liability is reduced by payments made pursuant to the lease. The Plan's principal leased asset is its office space in San José, California, the term of which expires March 31, 2025, with an option to extend for an additional five years. Lease expense is not significant to the Plan.

The Plan applies GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)*, to its subscription assets. GASB Statement No. 96 establishes a SBITA as a right-to-use subscription asset, an intangible asset, and a corresponding subscription liability for government end users. Subscription assets are recorded as a liability for future lease payments and an intangible capital asset for the right to use the underlying asset (subscription asset). The subscription liability is the present value of payments expected to be made during the lease term. The right to use asset is then amortized over the lease term and the liability is reduced by payments made pursuant to the lease. The Plan's subscription leased assets are composed of numerous investment related subscriptions, the terms of which expire through June 30, 2025. The subscription lease expense is not significant to the Plan.

Notes to the Basic Financial Statements *(continued)*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(d) Other Assets *(continued)*

For fiscal year ended 2023 and 2022, the amortization expense was \$756,374 and \$641,123, respectively.

<i>(Dollars in thousands)</i>	As of June 30, 2022	Additions	Deletions	As of June 30, 2023
Other depreciable assets and amortization				
Pension administration system, cost	\$ 4,163	\$ 38	-	\$ 4,201
Leased and subscription assets, cost	\$ 796	\$ 107	-	\$ 903
Less accumulated amortization for:	(1,597)	(756)	-	(2,353)
Other depreciable assets, net of accumulated amortization	\$ 3,362	\$ (611)	-	\$ 2,751

Other depreciable assets, net of accumulated amortization	\$ 3,925	\$ (563)	-	\$ 3,362

(e) Plan Net Position Restricted for Pension and Postemployment Healthcare Benefits

The Plan is required by the City of San José Municipal Code to establish various reserves in the plan net position. The plan net position is allocated between the Defined Benefit Pension Plan (which includes the Retirement Fund and the Cost-of-Living Fund) and the Postemployment Healthcare Plans (which include the 401(h) and the two 115 Subtrusts).

As of June 30, 2023 and 2022, plan net position totaling \$5,020,851,000 and \$4,675,142,000, respectively, is allocated as follows (dollars in thousands):

	Retirement Fund	Cost-of- Living Fund	Total Defined Benefit Pension Plan	Post- employ- ment Health - care 401(h)	Police Depart- ment Health - care Subtrust	Fire Depart- ment Health - care Subtrust	Total OPEB	Grand Total
June 30, 2023								
Employee contributions reserve	\$ 360,792	\$ 88,138	\$ 448,930	\$ -	\$ -	\$ -	-	\$ 448,930
General reserve	2,341,428	1,931,129	4,272,557	6,831	183,666	106,475	296,972	4,569,529
Retiree healthcare in-lieu premium credit	-	-	-	2,392	-	-	2,392	2,392
Total	\$2,702,220	\$2,019,267	\$4,721,487	\$ 9,223	\$ 183,666	\$ 106,475	\$ 299,364	\$5,020,851

Notes to the Basic Financial Statements *(continued)*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(e) Plan Net Position Restricted for Pension and Postemployment Healthcare Benefits *(continued)*

Employee contribution reserve	\$ 363,175	\$ 88,583	\$ 451,758	\$ -	\$ -	\$ -	\$ -	\$ 451,758
General reserve	2,184,120	1,773,991	3,958,111	14,550	155,037	93,962	263,549	4,221,660
Transfer				1,179		(1,179)		
Retiree healthcare in-lieu premium credit	-	-	-	1,724	-	-	1,724	1,724
Total	\$2,547,295	\$1,862,574	\$4,409,869	\$ 17,453	\$ 155,037	\$ 92,783	\$ 265,273	\$4,675,142

Employee Contributions Reserve represents the total accumulated employee contributions of current active and deferred members plus credited interest. The reserve is accounted for separately due to the possibility of a return of accumulated employee contributions, plus credited interest, to the member upon separation from City employment. Terminated members' returns of contributions are paid from the Defined Benefit Pension Plan only. No employee contributions are paid out of the healthcare plans' reserves.

General Reserve is a reserve that represents net earnings resulting from interest earnings, employer contributions, and realized and unrealized investment gains and losses. It also represents an accumulation of funds necessary to pay all accumulated vested retirement obligations.

Transfer - In January 2022, it was determined that the Fire 401(h) plan was overdrawn in the amount of \$1,179,000 due to benefit expenses. A transfer in the same amount was made from the Fire 115 Trust to cover the overdrawn amount and thus reduce the Fire 401(h) account balance to zero. Because employee contributions are still going into the Fire 401(h) account but employer contributions are going into the Fire 115 Trust, any benefit expenses that are not covered by the employee contributions will come out of the Fire 115 Trust.

Retiree Healthcare In-lieu Premium Credit - With the implementation of Measure F, a medical in-lieu component of the General Reserve was created to account for those members who elected to be in the medical in-lieu credit program. These members are retirees who are eligible for medical insurance and/or dental insurance but who opt not to take it and instead elect to be in the in-lieu credit program. These members are given credits worth 25% of the lowest cost plan, which can be used in future years if the retiree opts to enroll in a City medical or dental plan.

(f) Allocation of Investment Income

Earnings on investments, excluding unrealized gains and losses, are recorded first in the general reserve category of plan net position. An allocation is made semi-annually from the general reserve category to the employee contributions category of plan net position based on the balance in that account at an annual rate of 2%, as specified by the City of San José Municipal Code.

Notes to the Basic Financial Statements *(continued)*

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(g) Implementation of Governmental Accounting Standards Board (GASB) Statements

GASB Statement No. 99, *Omnibus 2022*, was issued in April 2022. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The practice issues addressed by this Statement are as follows: classification and reporting of derivative instruments within the scope of Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument, clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives; clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability; extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt; clarification of provisions in Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statements; terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*; terminology used in Statement 53 to refer to resource flows statements. Provisions related to leases and SBITAs were effective and implemented for the fiscal year beginning July 1, 2022. Provisions related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 will be implemented in the fiscal year beginning July 1, 2023.

GASB Statement No. 100, *Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62*, was issued in June 2022. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature. In addition, information about the quantitative effects on beginning balances of each accounting change and error correction should be disclosed by the reporting unit in a tabular format to reconcile beginning balances as previously reported to beginning balances as restated. The Plan will adopt the provisions of Statement No. 100 for the fiscal year beginning with July 1, 2023, if applicable.

GASB Statement No. 101, *Compensated Absences*, was issued in June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that a liability for certain types of compensated absences—including parental leave, military leave, and jury duty leave—not be recognized until the leave commences. This Statement also requires that a liability for specific types of compensated absences not be recognized until the leave is used. The Plan will adopt the provisions of Statement No. 101 for the fiscal year beginning with July 1, 2024.

NOTE 3 - INVESTMENTS

Investments are subject to certain types of risks, including interest rate risk, custodial credit risk, credit quality risk, foreign currency risk, and concentration of credit risk. The following describes those risks:

Notes to the Basic Financial Statements *(continued)*

NOTE 3 - INVESTMENTS *(continued)*

Interest Rate Risk – The fair value of fixed income investments fluctuates in response to changes in market interest rates. Increases in prevailing interest rates generally translate into decreases in fair value of those instruments. The fair value of interest-sensitive instruments may also be affected by the creditworthiness of the issuer, prepayment options, and other general interest rate conditions. Certain fixed income investments have call provisions that could result in shorter maturity periods. Additionally, most other types of investments are also sensitive to changes in interest rates, generally to a lesser extent. The Plan's asset allocation details how much of the Plan's investments are fixed income, as well as other types of investments. The Plan does not have a policy regarding interest rate risk.

Market Risk - General market risk factors exist that could cause depreciation or appreciation of the Plan's investment portfolio. These risks include general, economic, political and regulatory risks. The Plan's investments may be impacted by changes caused by global and domestic market conditions and industry-specific economic and regulatory conditions.

The following tables provide the segmented time distribution for fixed income investments based on expected maturity (in months and years) as of June 30, 2023 and 2022.

INVESTMENT MATURITIES AT FAIR VALUE

¹ Private debt is a combination of fixed income and separately managed accounts. The separately managed accounts are not included in this table.

Notes to the Basic Financial Statements *(continued)*

NOTE 3 - INVESTMENTS *(continued)*

Custodial Credit Risk – Custodial credit risk is the risk that the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party, if that outside party fails. The Plan does not have a policy regarding custodial credit risk. As of June 30, 2023 and 2022, all of the Plan’s investments are held in the Plan’s name and / or are not exposed to custodial credit risk.

Credit Quality Risk – The Plan’s investment policy allows for investments in a wide variety of domestic and international debt securities that may carry a high rating, low rating, or be unrated. Generally credit risk is managed through establishing investment guidelines for every investment manager. Investment managers may, as part of their investment strategy, invest in securities where the issuer’s ability or willingness to pay is limited. At times, these debt securities may be converted into other debt, equity, or hybrid securities that have different risk and return characteristics than the securities initially purchased. The Plan may hedge against the possible adverse effects of currency fluctuations on the Plan’s portfolio of international fixed income obligations when it is considered appropriate. This is typically achieved using forward currency contracts. Short-term investments may consist of commercial paper rated at least A1 or P1, repurchase agreements, short-term U.S. securities, and other money market investments. Nationally recognized statistical rating organizations provide ratings of debt securities’ quality based on a variety of factors, such as the financial condition of the issuers, which provide investors with some idea of the issuer’s ability to meet its obligations.

The following tables provide information for the portfolio as of June 30, 2023 and 2022 concerning credit risk. These tables reflect only securities held in the Plan's name.

RATINGS OF FIXED INCOME INVESTMENTS

As of June 30, 2023 and 2022 (Dollars in thousands)

Notes to the Basic Financial Statements *(continued)*

NOTE 3 - INVESTMENTS *(continued)*

Foreign Currency Risk – This is the risk that changes in the exchange rates will adversely affect the fair value of underlying investments. To mitigate this risk, the Plan’s investment policy permits individual investment managers to mitigate the impact of currency fluctuation on the underlying asset value. The Plan’s investment managers enter into international forward currency contracts, which are commitments to purchase or sell stated amounts of international currency. The Plan utilizes these contracts to control exposure and facilitate the settlement of international security purchase and sale transactions. At June 30, 2023 and 2022, the Plan’s net position in these contracts is recorded at fair value as international currency contract investments. The fair values of international currency contracts are determined by quoted currency prices from national exchanges. The Plan’s commitments relating to international currency contracts are settled on a net basis.

The following tables provide information as of June 30, 2023 and 2022, concerning the fair value of investments that are subject to foreign currency risk:

FOREIGN CURRENCY RISK ANALYSIS

Notes to the Basic Financial Statements *(continued)*

NOTE 3 - INVESTMENTS *(continued)*

Investment Concentration Risk – The Plan’s investment policy specifies that investments shall be diversified with the intent to minimize the risk of large investment losses. The total portfolio shall be constructed in a way to provide prudent diversification with regard to the concentration of holdings in individual asset classes, issues, issuers, geographies or industries. In addition, assets will be assigned to a variety of investment managers that employ a range of investment management strategies. No single investment management firm shall be authorized to manage more than 15% of the Plan’s assets without Board approval, with the exception of passive management where the Plan’s assets are not held in the Plan’s name at the Plan’s custodian bank. In such cases, there is no concentration limit. As a general rule, Plan assets placed with an investment manager should not represent more than 10% of the total assets managed by that firm, without prior Board approval. As of June 30, 2023 and 2022, the Plan did not hold investments in any one issuer, excluding U.S. government guaranteed investments, that represented 5% or more of the total plan net position or total investments.

Derivatives – The Plan’s investment policy allows for investments in derivative instruments that comply with the Plan’s objectives of providing a cost effective means of managing portions of a portfolio and to manage risk through hedging activities. The Plan is currently authorized to use derivative strategies to equitize cash during portfolio transitions until physical securities are in place and to reproduce or replicate a physical holding that corresponds to a Board approved policy benchmark. In addition to the Plan’s internal derivative policies, it is understood that the mandates of certain investment managers retained by the Plan may use derivatives.

Derivative investments are reported at fair value. Derivative instruments traded on a national or international exchange are valued at the last reported sales price on the last business day of the fiscal year at current exchange rates, if applicable. Futures contracts are marked-to-market at the end of each trading day, and the settlement of gains or losses occur on the following business day through variation margins. As a result, futures have no fair value as of June 30, 2023 or 2022. The fair value of international currency forwards represents the unrealized gain or loss on the related contracts, which is calculated based on the difference between the specified contract exchange rate and the exchange rate at the end of the reporting period.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offer Rates*. GASB 93 addresses upcoming changes and the eventual removal of a global reference rate called LIBOR (London Interbank Offered Rate) which is often used as a reference rate for variable and derivative instruments. GASB 93 addresses allowable exceptions to existing contracts and agreements where LIBOR can be replaced with another IBOR (Interbank Offered Rate) without needing a new contract. GASB 93 also identifies the SOFR (Secured Overnight Financing Rate) and the FFR (Federal Funds Rate) as benchmarks for evaluating interest rate swaps. Finally, GASB 93 modifies lease agreements to allow for a change in the IBOR without being considered a modification to a lease. GASB 93 did not have a significant impact on the financial statements as the Plan does not have any direct exposure to derivative contracts tied to LIBOR as of June 30, 2023 and 2022.

The fair values and notional amounts for derivative instruments outstanding as of June 30, 2023 and 2022, classified by type, and the changes in fair value of such derivative instruments for the years then ended as reported in the 2023 and 2022 financial statements are as follows (amounts in thousands):

Notes to the Basic Financial Statements (continued)

NOTE 3 - INVESTMENTS (continued)

Investment	Net Appreciation / (Depreciation) in Fair Value of Investments through June 30, 2023		Fair Value at June 30, 2023		Notional Amount / Shares	
	Derivative Instruments	Classification	Amount	Classification		Amount

Total Derivative Instruments		\$	(4,231)		\$ -	

Derivative investments are also subject to counterparty credit risk (non-exchange traded). The following describes the risks applicable to the investment derivative instruments that are reported as of June 30, 2023 and 2022.

Counterparty Credit Risk - The Plan is exposed to credit risk on derivative instruments that are in asset positions and non-exchange traded. The Plan's investments in forward currency contracts bear counterparty credit risk in that parties to the contracts may fail to perform according to the terms of the contract. As of June 30, 2023, total commitments in forward currency contracts to purchase and sell international currencies were \$1,076,000, with fair values of \$1,076,000 and \$1,076,000, respectively, held by counterparties with S&P rating of at least BBB+. As of June 30, 2022, total commitments in forward currency contracts to purchase and sell international currencies were \$372,000 with fair values of \$372,000 and \$372,000, respectively, held by counterparties with S&P rating of at least AA- and above.

Notes to the Basic Financial Statements *(continued)*

NOTE 3 - INVESTMENTS (continued)

Fair Value Measurements - The Plan categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for an asset or liability, either directly or indirectly. Inputs to the valuation include: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in markets that are not active; 3) inputs other than quoted prices that are observable for the asset or liability; and 4) market-corroborated inputs.

Level 3 inputs are unobservable inputs for an asset or liability where there are little market activities. The inputs into the determination of fair value are based upon the best information in the circumstances and may require management judgment or estimation.

The Plan has the following recurring fair value measurements as of June 30, 2023 and 2022:

Investments Measured At Fair Value As of June 30, 2023 <i>(Dollars in thousands)</i>	Fair Value Measurement Using				Net Asset Value (NAV)
	Total	Level 1	Level 2	Level 3	
Investments by Fair Value Level

Equity and Fixed Income Securities

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets issued by pricing vendors for these securities. Debt and equity securities classified in Level 2 of the fair value hierarchy are valued using prices determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices for similar securities that are observable in the market place. Debt and equity securities classified in Level 3 are securities whose inputs to valuation techniques are unobservable by the market place. Many of these securities are priced by the issuers or industry groups for these securities. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the custodian bank.

Alternative Investments

Alternative investments include public equity, private equity, core real estate, investment grade bonds, growth real estate, private debt, market neutral strategies, emerging market bonds, private real assets, high yield bonds, long-term government bonds, venture / growth capital, and commodities. These are investments for which exchange quotations are not readily available and are valued at estimated fair value, as determined in good faith by the General Partner (GP) of each investment firm retained by the Plan. These investments are initially valued at cost with subsequent adjustments that reflect third party transactions, financial operating results and other factors deemed relevant by the GP. The assets in the alternative investment program are classified as Level 3 assets or at the NAV. A more detailed explanation of the Level 3 and NAV valuation methodologies follows.

Notes to the Basic Financial Statements *(continued)*

NOTE 3 - INVESTMENTS *(continued)*

Investments in non-public equity securities are valued by the GP using one or more valuation methodologies outlined in GASB Statement No. 72, *Fair Value Measurement and Application*, depending upon the availability of data required by each methodology. In some cases, the GP may use multiple approaches to estimate a valuation range. For the immediate time period following a transaction, the determination of the fair value for equity securities, in which no liquid trading market exists, can generally be approximated based on the transaction price (absent any significant developments). Thereafter, or in the interim, if significant developments relating to such portfolio company or industry occur which may suggest a material change in value, the GP should value each investment by applying generally accepted valuation methods including: (1) the market approach (such as market transaction and comparable public company multiples, which are based on a measurement of the company's historical and projected financial performance with typical metrics including enterprise value / latest 12 months earnings before interest, taxes, depreciation and amortization (EBITDA) or projected fiscal year EBITDA) or (2) the income or discounted cash flow approach.

The determination of fair value using these methodologies should take into consideration a range of factors, including but not limited to, the price at which the investment was acquired, the nature of the investment, local market conditions, trading value on public exchanges for comparable securities, current and projected operating performance, and financing transactions subsequent to the acquisition of the investment. Because of the subjective nature of estimated fair value of the private investments, such value may differ significantly from the values that would have been used had a ready market existed for these investments. These financial instruments have been classified as Level 3 or NAV in the fair value hierarchy, provided that the NAV is calculated and used as a practical expedient to estimate fair value in accordance with GAAP requirements. These investments are not categorized within the fair value hierarchy.

The following tables present the category, fair value, unfunded commitments, redemption frequency and redemption notice period for investments for which fair value is presented using the NAV as of June 30, 2023 and 2022:

Investments Measured at the NAV				
As of June 30, 2023				
<i>(Dollars in thousands)</i>	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

Commodities	12,509	-	Daily	3 Days
Total Investments Measured at NAV	\$ 3,182,057	\$ 556,369		

Public equity - Public equities are shares of ownership of a firm listed on an exchange; the Plan holds global public equities to benefit from their total return (capital appreciation plus current yield) over a long-term horizon. The commingled funds liquidity ranges from daily to monthly and the notice periods are between one day and thirty days.

Private equity - This type generally invests in privately held companies. These investments cannot be redeemed early from the funds. Instead, the nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the fund. The only way to exit these funds is through a sale in a secondary market. The commingled investment offers daily liquidity with a one-day notice.

Core real estate - This type includes investments in open-ended real estate commingled funds. Core real estate funds typically invest in physical properties. The goal of core real estate is to produce price appreciation and income while maintaining a low correlation to stocks and bonds held by the Plan. The open-ended real estate funds offer quarterly redemptions with notice periods of three months.

Investment grade bonds - The purpose of investment grade bonds is to produce returns and income for the Plan by providing exposure to rates and credit risk. The commingled funds offer daily liquidity with a notice period of one day to three days.

Growth real estate - The goal of growth real estate is to produce price appreciation and income while maintaining a low correlation to stocks and bonds. The only way to exit these funds is through a sale in a secondary market.

Private debt - This type includes investments in private debt limited partnership funds. These investments cannot be redeemed early from the funds. Instead, the nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the fund. The only way to exit these funds is through a sale in a secondary market.

Market neutral strategies - This type includes investments in limited partnership hedge funds that invest both long and short in a wide array of securities, including listed and OTC derivatives, and typically use leverage and hedging to capture directional market movements or relative market mispricing. The redemption frequencies range from monthly to bi-annual with notice periods of 45 days to 60 days.

Notes to the Basic Financial Statements (continued)

NOTE 3 - INVESTMENTS (continued)

Emerging market bonds - Emerging market bonds funds typically invest in contractual cash flows of governments and other sovereign entities, corporations, securitizations, and derivatives thereof in emerging market countries with a sovereign rating less than BBB-. One partnership has quarterly redemption period with a notice period of 45 days; the other has a daily redemption period with a one-day notice period.

Private real assets - Private real assets are physical or tangible assets that have value due to their substance and properties. The goal of real assets is to help the portfolio maintain purchasing power through periods of inflation. The only way to exit these funds is through a sale in a secondary market.

High yield bonds - The primary purpose of high yield bonds is to provide the Plan with exposure to high yielding corporate debt. The commingled funds offer daily liquidity with a notice period of three days.

Long-term government bonds - The purpose of long-term government bonds is to provide a positive return in highly stressed market environments, with a low correlation to equity risk. The commingled fund offers daily liquidity with a notice period of three days.

Venture / Growth capital - This type includes investments in venture capital limited partnership funds, which generally invest in early stage privately held companies. These investments cannot be redeemed early from the funds. Instead, the nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the fund. The only way to exit these funds is through a sale in a secondary market.

Commodities - Commodities are physical or tangible assets that have value due to their substance and properties. The goal of commodities is to help the portfolio maintain purchasing power through periods of inflation. The commodities fund offers daily liquidity with three business days' notice.

NOTE 4 - DEFINED BENEFIT PENSION PLAN: NET PENSION LIABILITY AND CONTRIBUTIONS

Net Pension Liability. The components of the net pension liability (i.e., the total pension liability determined in accordance with GASB Statement No. 67, *Financial Reporting for Pension Plans - An Amendment of GASB Statement No. 25*, less the plan net position) as of June 30, 2023 and 2022, were as follows (dollars in thousands):

	2023	2022
Total pension liability	\$ 5,838,544	\$ 5,631,166
Plan fiduciary net position	4,721,487	4,409,869
Net pension liability	\$ 1,117,057	\$ 1,221,297
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	80.9 %	78.3 %

Actuarial Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and investment return. Experience studies are performed by the Board's actuary to determine appropriate revision to the actuarial assumptions, as actual results are compared with past expectations and new estimates are made about the future. The last experience study was performed in October 2021. The next experience study is scheduled for the latter half of 2023.

Notes to the Basic Financial Statements *(continued)*

NOTE 4 - DEFINED BENEFIT PENSION PLAN: NET PENSION LIABILITY AND CONTRIBUTIONS (continued)

The total pension liability as of June 30, 2023 and 2022 is based on results of an actuarial valuation date of June 30, 2022 and 2021, respectively, and rolled-forward to June 30, 2023 and 2022 using standard roll forward procedures. A summary of the actuarial assumptions used to determine the total pension liability is shown below.

Actuarial Assumptions		
Valuation date	June 30, 2022	June 30, 2021
Measurement date	June 30, 2023	June 30, 2022
Inflation rate	2.50%	2.25%
Discount rate	6.625% (net of investment expenses) The long-term expected return on assets based on Meketa's capital market assumptions for a 10-year and 20-year time horizons is 5.9 % and 6.9%, respectively.	6.625% (net of investment expenses) The long-term expected return on assets based on Meketa's capital market assumptions for a 10-year and 20-year time horizons is 5.89 % and 6.75%, respectively.
Post-retirement mortality		
(a) Healthy retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy male and female retirees projected using SOA MP-2021 on a generational basis from the base year of 2010	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy male and female retirees projected using SOA MP-2021 on a generational basis from the base year of 2010
(b) Disabled retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled male and female retirees projected using SOA MP-2021 on a generational basis from the base year of 2010	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled male and female retirees projected using SOA MP-2021 on a generational basis from the base year of 2010
(c) Beneficiaries	1.032 times the 2010 General Member Mortality Table (PubG-2010) for healthy males and females retirees	1.032 times the 2010 General Member Mortality Table (PubG-2010) for healthy males and females retirees
(d) Healthy non-annuitant	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy males and females employees	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy males and females employees
Rate of service retirement, withdrawal, death, disability retirements	Based upon the June 30, 2021 actuarial experience analysis	Based upon the June 30, 2021 actuarial experience analysis
Salary increase		
Wage inflation	Reflect currently bargained across-the-board increases and 3.00% per annum (0.50% real wage growth) thereafter. For this valuation, Fire members have bargained increases of 3.00% for FYE 2023. The bargaining agreement for Police members has expired	Bargained increases and 3.00% per annum (0.75% real wage growth) thereafter. For this valuation, Fire Members have bargained increases of 4.25% for FYE 2022 and 3.00% for FYE 2023. Police members bargained increases of 3.85% for FYE 2022.
Merit increase	Merit component added based on an individual's years of service ranging from 6.50% to 0.60%	Merit component added based on an individual's years of service ranging from 6.50% to 0.60%
Cost-of-living adjustment	Tier 1 - 3% per year Tier 2 - 2% per year	Tier 1 - 3% per year Tier 2 - 2% per year

Notes to the Basic Financial Statements *(continued)*

NOTE 4 - DEFINED BENEFIT PENSION PLAN: NET PENSION LIABILITY AND CONTRIBUTIONS (continued)

The assumption for the long-term expected rate of return on pension plan investments of 6.625% for the valuation years ended June 30, 2022 and 2021, was selected by estimating the median nominal rate of return based on long-term capital market assumptions adopted by the Board, including nominal expected rates of return for each asset class, and reducing the estimated median by a margin so that there is estimated to be a greater than 50 percent probability of achieving the return.

Best estimates of geometric real rates of return for each major asset class included in the Plan's target asset allocation as of June 30, 2023 and 2022, (see the discussion of the Plan's investment policy) are summarized in the following table:

Asset Class	2023		2022	
	Target Asset Allocation	Long-Term Expected Real Rate of Return	Target Asset Allocation	Long-Term Expected Real Rate of Return
Public equity	42.0%	6.4%	42.0%	4.9%
Private equity	9.0%	7.9%	9.0%	7.4%
Cash and cash equivalents	8.0%	0.3%	8.0%	(0.5)%
Core real estate	5.0%	3.8%	5.0%	3.8%
Immunized cash flows	5.0%	0.3%	5.0%	(0.5)%
Investment grade bonds	4.5%	2.1%	4.5%	0.2%
Growth real estate	4.0%	6.2%	4.0%	6.5%
Private debt	4.0%	6.2%	4.0%	5.0%
Private real assets	4.0%	6.5%	4.0%	5.9%
Venture / Growth capital	4.0%	8.8%	4.0%	7.9%
Market neutral strategies	3.0%	3.4%	3.0%	2.2%
Emerging market bonds	2.0%	3.5%	2.0%	2.2%
High yield bonds	2.0%	4.6%	2.0%	2.2%
Treasury inflation-protected securities	2.0%	1.9%	2.0%	0.2%
Long-term government bonds	1.5%	2.3%	1.5%	0.6%

Discount Rate. The discount rate used to measure the total pension liability was 6.625% for the measurement years ended June 30, 2023 and 2022. It is assumed that Plan member contributions and City contributions will be made based on the actuarially determined rates based on the Board's funding policy. Based on those assumptions, the Plan's net position is expected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in Discount Rate. In accordance with GASB Statement No. 67 regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the following presents the net pension liability of the City, as of June 30, 2023 and 2022, calculated using the discount rate of 6.625%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1.0% lower (5.625%) or 1.0% higher (7.625%) than the current rate (in thousands):

Notes to the Basic Financial Statements *(continued)*

NOTE 4 - DEFINED BENEFIT PENSION PLAN: NET PENSION LIABILITY AND CONTRIBUTIONS (continued)

	2023			2022		
	1% Decrease (5.625%)	Discount Rate (6.625%)	1% Increase (7.625%)	1% Decrease (5.625%)	Discount Rate (6.625%)	1% Increase (7.625%)
Total pension liability	\$ 6,675,448	\$ 5,838,544	\$ 5,160,745	\$ 6,444,068	\$ 5,631,166	\$ 4,973,234
Plan fiduciary net position	4,721,487	4,721,487	4,721,487	4,409,869	4,409,869	4,409,869
Net pension liability	\$ 1,953,961	\$ 1,117,057	\$ 439,258	\$ 2,034,199	\$ 1,221,297	\$ 563,365
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	70.7 %	80.9 %	91.5 %	68.4 %	78.3 %	88.7 %

On June 24, 2008, the City Council adopted Ordinance No. 28332 amending Chapter 3.36 of Title 3 of the San José Municipal Code to provide the City with the option to make lump sum payments of City required contributions to the Plan (referred to as prefunding).

In January 2011, the Board adopted a funding policy (referred to as the floor methodology) setting the City's funding policy contribution amount to be the greater of the dollar amount reported in the actuarial valuation or the dollar amount determined by applying the percentage rate of contribution reported in the valuation to the actual payroll, if actual payroll exceeds the actuarial payroll, for the fiscal year.

In October 2014, the Board approved implementing an incremental reduction approach to determining "actuarial equivalence" for the prefunding when the economic expansion has exceeded 58 months in duration and / or the S&P 500 has returns in excess of 130%. This approach will ensure that as business expansions and / or market valuation mature and exceed historic norms, the Plan reduces the incentive for the City to prefund its contributions. The incremental reduction to the discount rate that is used to calculate the prefunding is 15% per year, up to a maximum of 45%. In March 2022, the Board approved a modification to the incremental reduction approach that added market valuations as an additional criterion for triggering a reduction in the prefunding discount rate.

In February 2016, the Board approved the City's request that the floor methodology for Tier 1 be used only for the annual employer Normal Cost contribution (which includes administrative expenses) and that the annual employer unfunded actuarial liability (UAL) contribution be set at the dollar amount recommended by the actuary and adopted by the Board in the annual actuarial valuation report beginning fiscal year 2017.

San José City Council Ordinance No. 29266 and Ordinance No. 29511 implemented the terms of a stipulated arbitration award for Police Tier 2 and Fire Tier 2 pension benefits, respectively. Police Tier 2 members are any new Plan members hired on or after August 4, 2013; Fire Tier 2 members are any new Plan members hired on or after January 2, 2015. The new tiers include significant benefit changes from the existing Police Tier 1 and Fire Tier 1 plans as described in Note 1. In addition, the contribution rates for Police Tier 2 and Fire Tier 2 members include a change in the cost sharing between the City and active Police Tier 2 and Fire Tier 2 members, which is a 50/50 split of all costs, including UAL. Currently, Police Tier 1 and Fire Tier 1 members split normal cost with 8/11 paid by the City and 3/11 paid by Police Tier 1 and Fire Tier 1 members. The responsibility for funding the UAL is generally not shared with the Police Tier 1 and Fire Tier 1 employees.

Beginning September 2014, the Board approved the City's request to exclude Tier 2 from the floor methodology to ensure that the City does not pay more than the actuarially determined contribution (ADC). Therefore, the contribution rate determined by the actuary multiplied by the actual payroll is used to determine the contribution.

On May 5, 2022, the Board approved the City's decision to prefund Tier 1 contributions for the fiscal year ending June 30, 2023. On May 6, 2021, the Board approved the City's decision to prefund the contributions for the fiscal year ending June 30, 2022.

Notes to the Basic Financial Statements *(continued)*

NOTE 4 - DEFINED BENEFIT PENSION PLAN: NET PENSION LIABILITY AND CONTRIBUTIONS (continued)

The City's contributions for the Defined Benefit Pension Plan during the fiscal years ended June 30, 2023 and 2022 were as follows.

Fiscal Year	2023				
Actuarial Valuation Year	2021				
(Dollars in thousands)	Police Tier 1	Fire Tier 1	Police Tier 2 ¹	Fire Tier 2 ¹	Total
Actual payroll	\$80,465	\$71,105	\$76,503	\$26,283	\$254,356

Total Contributions for the Fiscal Year	\$105,784	\$93,121	\$9,928	\$3,213	\$212,046

¹ Police Tier 2 and Fire Tier 2 City contribution rates include UAL percentage of (0.12)% and (0.07)%, respectively.

² Beginning of year

Contributions to the Defined Benefit Pension Plan are actuarially determined to provide adequate asset to pay benefits when due. The City's Tier 1 UAL contribution is actuarially determined as a minimum dollar amount. All other contributions are an actuarially determined percentage of each member's covered payroll. The contribution rates and amounts for fiscal years ended June 30, 2023 and 2022 were based on the actuarial valuations performed as of June 30, 2021 and 2020, respectively.

Notes to the Basic Financial Statements (continued)

NOTE 4 - DEFINED BENEFIT PENSION PLAN: NET PENSION LIABILITY AND CONTRIBUTIONS (continued)

The City and the participating member's contribution rates in effect for the Defined Benefit Pension Plan during the fiscal years ended June 30, 2023 and 2022 were as follows:

Period	City-Board Adopted						Member ²			
	Police Tier 1		Police Tier 2	Fire Tier 1		Fire Tier 2	Police Tier 1	Police Tier 2	Fire Tier 1	Fire Tier 2
	Police Tier 1	UAL Dollar Amount ³			UAL Dollar Amount ³					
6/25/23 - 6/30/23	33.84%		14.35%	34.25%		15.11%	11.06%	14.35%	11.99%	15.11%
6/26/22 - 6/24/23 ¹	33.24%	\$ 76,350,000	14.37%	34.34%	\$ 69,689,000	15.18%	10.99%	14.37%	12.11%	15.18%
7/01/21 - 6/25/22 ¹	32.47%	\$ 80,921,000	14.43%	33.70%	\$ 70,887,000	15.28%	10.85%	14.43%	11.91%	15.28%

¹ The actual contribution rates paid by the City for fiscal years ended June 30, 2023 and June 30, 2022, respectively, differed from what is above for Tier 1 due to the City funding the actuarially determined contribution amount based on the greater of the dollar amount reported in the actuarial valuation or the dollar amount determined by applying the percentage of payroll reported in the valuation to the actual payroll, if actual payroll exceeds the actuarial payroll, for the fiscal year.

² Under Measure F, certain Tier 2 members who had previous Tier 1 service or prior service with a reciprocal employer were reclassified to Tier 1. Ordinance No. 30145, which became effective October 12, 2018, amended the Municipal Code to reflect these changes. Effective 3/24/2019, reclassified Tier 1 members paid an additional 1.96% in contributions, members with prior Federated Service, reclassified Tier 1 paid an additional 0.87% in contributions, and Classic Tier 1 members paid an additional 0.22% and 0.18% in contributions for the years ending June 30, 2022 and 2023, respectively.

³ Contributions are structured as a normal cost, plus a payment on the unfunded actuarial liability (UAL). Tier 1 City contributions are administered as a normal cost contribution rate based on payroll plus a dollar amount payment on the UAL.

NOTE 5 - POSTEMPLOYMENT HEALTHCARE PLAN: NET OPEB LIABILITY AND CONTRIBUTIONS

Net OPEB Liability. The components of the net Other Postemployment Benefit (OPEB) liability of the Plan, including all of the healthcare sub-trusts, (i.e., the Plan's liability determined in accordance with GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, less the plan fiduciary net position) as of June 30, 2023 and 2022, were as follows (dollars in thousands):

	Police		Fire	
	2023	2022	2023	2022
Total OPEB liability	\$ 492,797	\$ 500,489	\$ 288,507	\$ 289,631
Plan fiduciary net position	191,682	171,369	107,682	93,904
Net OPEB liability	\$ 301,115	\$ 329,120	\$ 180,825	\$ 195,727
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	38.9 %	34.2 %	37.3 %	32.4 %

As of June 30, 2023, the Plan's total net position for the 401(h) was \$9,223, of which \$8,012 was allocated towards the Police sub-trust, and \$1,211 was allocated towards the Fire sub-trust. As of June 30, 2022, the Plan's total net position for 401(h) was \$17,453, of which \$16,332 was allocated towards the Police sub-trust, and \$1,121 was allocated towards the Fire sub-trust.

Actuarial Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and investment return. Experience studies are performed by the Board's actuary to determine appropriate revisions to the actuarial

Notes to the Basic Financial Statements *(continued)*

NOTE 5 - POSTEMPLOYMENT HEALTHCARE PLAN: NET OPEB LIABILITY AND CONTRIBUTIONS (continued)

assumptions, as actual results are compared with past expectations and new estimates are made about the future. The last experience study was performed in October 2021. The next experience study is scheduled for the latter half of 2023.

The total OPEB liability as of June 30, 2023 and 2022 is based on results of an actuarial valuation date of June 30, 2022 and 2021, and rolled-forward to June 30, 2023 and 2022 using generally accepted actuarial procedures.

A summary of the actuarial assumptions used to determine the total OPEB liability is shown below.

Actuarial Assumptions		
Valuation date	June 30, 2022	June 30, 2021
Measurement date	June 30, 2023	June 30, 2022
Actuarial cost method	Entry age normal, level of percentage of pay	Entry age normal, level of percentage of pay
Discount rate	6.00%	6.00%
Inflation rate	2.50%	2.25%
Projected payroll increases		
Wage inflation rate	Reflect currently bargained across-the-board increases and 3.00% per annum (0.50% real wage growth) thereafter. For this valuation, Fire members have bargained increases of 3.00% for FYE 2023. The bargaining agreement for Police members has expired	Bargained increases and 3.00% per annum (0.75% real wage growth) thereafter. Fire members have bargained increases of 4.25% for FYE 2022 and 3.00% for FYE 2023. Police members have bargained increases of 3.85% for FYE 2022
Merit increase	Merit component added based on an individual's years of service ranging from 6.50% to 0.60%.	Merit component added based on an individual's years of service ranging from 6.50% to 0.60%.
Rates of Mortality	Mortality is projected from 2010 on a generational basis using the SOA MP-2021 projection scale	Mortality is projected from 2010 on a generational basis using the SOA MP-2021 projection scale
Healthy retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010 (A)) for healthy male and female retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010 (A)) for healthy male and female retirees
Disabled retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled male and female retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled male and female retirees
Beneficiaries	1.032 times the 2010 Public General Above Median Income Mortality Table (Pub(g)-2010 (A)) for healthy males and females retirees	1.032 times the 2010 Public General Above Median Income Mortality Table (Pub(g)-2010 (A)) for healthy males and females retirees
Healthy non-annuitant	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy males and females members	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy males and females active members
Healthcare Cost Trend Rates		
Medical	The valuation assumes that future medical inflation will be at a rate of 7.16% to 3.94% per annum graded down over a 51 year period for medical pre-age 65 and 4.27% to 3.94% per annum for medical post-age 65. For fiscal year beginning 2023, actual calendar year 2023 premiums are combined with a trend assumption for calendar year 2024	The valuation assumes that future medical inflation will be at a rate of 7.49% to 3.78% per annum graded down over a 55 year period for medical pre-age 65 and 4.15% to 3.78% per annum for medical post-age 65. For fiscal year beginning 2022, actual calendar year 2022 premiums are combined with a trend assumption for calendar year 2023
Dental	Dental inflation is assumed to be 3.50%	Dental inflation is assumed to be 3.50%

Notes to the Basic Financial Statements *(continued)*

NOTE 5 - POSTEMPLOYMENT HEALTHCARE PLAN: NET OPEB LIABILITY AND CONTRIBUTIONS **(continued)**

The assumption for the long-term expected rate of return on OPEB plan investments of 6.00% for the valuation years ended June 30, 2022 and 2021, respectively, was selected by estimating the median nominal rate of return based on long-term capital market assumptions adopted by the Board, including nominal expected rates of return for each asset class, and reducing the estimated median by a margin so that there is estimated to be a greater than 50 percent probability of achieving the return.

Best estimates of geometric real rates of return for each major asset class included in the Plan's target asset allocation as of June 30, 2023 and 2022, are summarized in the following table. The assets are invested in both a 401(h) within the pension plan and in 115 subtrusts. The table refers only to the 115 subtrusts. The allocation for the 401(h) is described above in Note 4 (see the discussion of the Plan's investment policy).

Asset Class	2023		2022	
	Target Asset Allocation	Long-Term Expected Real Rate Return	Target Asset Allocation	Long-Term Expected Real Rate of Return
Public equity	58.0%	6.5%	58.0%	5.0%
Investment grade bonds	14.0%	2.1%	14.0%	0.2%
Core real estate	12.0%	3.8%	12.0%	3.8%
Short-term investment grade bonds	6.0%	0.9%	6.0%	(0.3)%
Commodities	5.0%	3.0%	5.0%	2.3%
Long-term government bonds	5.0%	2.3%	5.0%	0.6%

Discount Rate. The discount rate used to measure the total OPEB liability was 6.00% for the measurement years ended June 30, 2023 and 2022, respectively, and is based on the long-term expected rate of return on investments. It is assumed that Plan member contributions are 8.0% of pay for employees eligible to participate in the postemployment healthcare plan, and the City contributes the actuarially determined contribution toward the explicit subsidy up to maximum of 11.0% of the total Police and Fire payroll. The City also contributes the implicit subsidy on a pay-as-you-go basis.

Based on those assumptions, the Plan's fiduciary net position is expected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in Discount Rate. In accordance with GASB Statement No. 74 regarding the disclosure of the sensitivity of the net OPEB liability to changes in the discount rate, the following presents the net OPEB liability of the City, as of June 30, 2023 and 2022, calculated using the discount rate of 6.00%, respectively, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate (dollars in thousands):

	Police					
	2023			2022		
	1% Decrease (5.00%)	Discount Rate (6.00%)	1% Increase (7.00%)	1% Decrease (5.00%)	Discount Rate (6.00%)	1% Increase (7.00%)
Total OPEB liability	\$ 568,740	\$ 492,797	\$ 432,059	\$ 578,039	\$ 500,489	\$ 438,437

For the fiscal year ended June 30, 2023, Police Department and Fire Department employer contributions were made to the Police Department Postemployment 115 Healthcare Plan and the Fire Department Postemployment 115 Healthcare Plan, respectively. Employee postemployment healthcare contributions were made to the Postemployment Healthcare 401(h) Plan. It is unknown at this time when employee contributions to the Police Department Postemployment 115 Healthcare Plan and the Fire Department Postemployment 115 Healthcare Plan will begin, even though the Plan received an IRS private letter ruling on the tax qualification of the Section 115 Trust on July 9, 2014. The Postemployment Healthcare Plan is comprised of the 401(h) Plan and the two 115 Subtrusts.

On June 24, 2008, the City Council adopted Ordinance No. 28332 amending Chapter 3.36 of Title 3 of the San José Municipal Code to provide the City with the option to make lump sum payments of City required contributions to the Plan (referred to as prefunding).

Notes to the Basic Financial Statements *(continued)*

NOTE 5 - POSTEMPLOYMENT HEALTHCARE PLAN: NET OPEB LIABILITY AND CONTRIBUTIONS (continued)

In January 2011, the Board adopted a funding policy (referred to as the floor methodology) setting the City's funding policy contribution amount to be the greater of the dollar amount reported in the actuarial valuation or the dollar amount determined by applying the percentage rate of contribution reported in the valuation to the actual payroll, if actual payroll exceeds the actuarial payroll, for the fiscal year.

In October 2014, the Board approved implementing an incremental reduction approach to determining "actuarial equivalence" for the prefunding when the economic expansion has exceeded 58 months in duration and/or the S&P 500 has returns in excess of 130%. This approach will ensure that as business expansions and/or market valuation mature and exceed historic norms, the Plans reduce the incentive for the City to prefund its contributions. The incremental reduction to the discount rate that is used to calculate the prefunding is 15% per year, up to a maximum of 45%. In March 2022, the Board approved a modification to the incremental reduction approach that added market valuations as an additional criterion for triggering a reduction in the prefunding discount rate.

Historically, member and City contributions to the Plan have been negotiated through collective bargaining separately for Police and Fire and have not been actuarially determined. No amount was determined on an actuarial basis for the Trusts prior to fiscal year 2019.

With the passage of Measure F, the Alternative Pension Reform Settlement Framework became effective as of June 16, 2017. A Voluntary Employee Beneficiary Association (VEBA) for retiree healthcare was created and Tier 1 members were eligible for a irrevocable opt-out of the defined benefit retiree healthcare plan. The VEBA opt-in election period was October 18, 2017 through December 15, 2017, and the healthcare contributions of members who opted in to the VEBA was transferred out of the Postemployment Healthcare Plan in March 2018, after the IRS issued a private letter ruling to the Trusts allowing this. The VEBA is being implemented by the City, not ORS, and therefore it is also not under the jurisdiction of the Retirement Board.

With the implementation of Measure F, Tier 1 member contributions became fixed at 8.0% of pay effective March 25, 2018, when the VEBA was implemented. Beginning with fiscal year 2018-2019, the City's contribution toward the explicit subsidy became actuarially determined separately for Police and Fire, and the City also paid the implicit subsidy on a pay-as-you-go basis as a part of the active health premiums. In addition, the City has an option to limit its contribution for the explicit subsidy to 11.0% of Police and Fire payroll. The explicit subsidy (or premium subsidy) is paid by the Plan and is the premium for health coverage selected by the retiree, up to 100% of the premium for the lowest cost plan offered to active employees. The implicit subsidy is the difference between the expected claims cost for a retiree or spouse and the total (retiree plus City) premium.

With the implementation of Measure F and VEBA, Tier 2 members were automatically placed into the VEBA. The City and the bargaining units agreed that the City Manager should, pursuant to Municipal Code section 3.36.576(c), terminate the existing Tier 2 retiree medical benefits plan effective July 30, 2017, such that Tier 2 members shall not be provided benefits or make contributions to the Healthcare Plan. The City will, however, continue to make the same retiree healthcare contributions that it was already making in order to ensure that payment towards the unfunded liability would continue and to ensure that the healthcare plan receives its full annual required contribution each year.

In March 2018, the Board approved the contribution policy that sets the City health care contributions as a flat dollar amount, beginning with fiscal year 2019. The City's contribution for the Postemployment Healthcare Plan during the fiscal year ended June 30, 2023 was \$30,763,000, \$27,524,000 in City explicit subsidy contributions and accruals and \$3,239,000 in implicit subsidy. The City's contribution for the Postemployment Healthcare Plan during the fiscal year ended June 30, 2022 was \$30,763,000, \$27,502,000 in City explicit subsidy contributions and accruals and \$3,261,000 in implicit subsidy.

Notes to the Basic Financial Statements (continued)

NOTE 5 - POSTEMPLOYMENT HEALTHCARE PLAN: NET OPEB LIABILITY AND CONTRIBUTIONS (continued)

The City and the participating member’s contribution rates in effect for the Postemployment Healthcare Plans during the fiscal years ended June 30, 2023 and 2022 were as follows:

Period	City-Board Adopted ²		Member			
	Police	Fire	Police Tier 1	Police Tier 2	Fire Tier 1	Fire Tier 2
7/01/22 - 6/30/23	\$17,503,000 ¹	\$10,972,000 ¹	8.00 %	N/A	8.00 %	N/A
7/01/21 - 6/30/22	\$16,730,000 ¹	\$10,697,000 ¹	8.00 %	N/A	8.00 %	N/A

¹ Beginning of the year

² Explicit subsidy amounts as shown excludes accruals, adjustments and implicit subsidy.

NOTE 6 - COMMITMENTS

As of June 30, 2023 and June 30, 2022, the Plan had unfunded commitments to contribute capital for investments in the amount of \$632,024,000 and \$556,369,000, respectively.

NOTE 7 - LITIGATION

The Plan handles various claims and legal actions in the ordinary course of its business. In the opinion of management and independent legal counsel, the ultimate disposition of these matters is not likely to have a material adverse effect on the Plan’s financial position as a whole.

SCHEDULE OF EMPLOYER CONTRIBUTIONS - POSTEMPLOYMENT HEALTHCARE PLANS (unaudited)

Beginning in FYE 2010 for Police and FYE 2012 for Fire members, actual contributions were intended to phase in to the full Annual Required Contribution (ARC) as defined in the bargaining agreements and consistent with the parameters of GASB Statement No. 45, but the contribution rates were capped before the full ARC was reached. With the contribution rates capped, the ARC has been determined as the minimum amount that was consistent with the parameters of GASB Statement No. 45. No amount has been determined on an actuarial basis to fund the plan, and consequently, the schedule of employer contributions was not provided in prior years.

With the implementation of Measure F, fiscal year ending June 30, 2019 is the first year for which an Actuarially Determined Contribution was determined.

	2023		2022		2021		2020		2019

Investment Section

Pension Trust and Postemployment Healthcare Trust Funds of the City of San José, California

The Investment Section provides additional context and detail of the Plan's Investment policies, performance, benchmark indices, asset allocation, and returns.

The Plan's Total Investment Return percentages are unaudited numbers, typically provided by the investment consultant (currently Meketa Investment Group) based on the investment returns calculated by the Plan's custodian bank. In 2023, the Plan discovered that certain investment management fees were invoiced outside of, and not originally included in, the custodian bank's calculation of investment performance, covering the period of June 30, 2015, through June 30, 2023. To address this issue, the Plan engaged Macias Gini & O'Connell LLP to perform specific Agreed-Upon Procedures ("AUP") to tabulate the invoice management fees for their inclusion in recalculated investment performance figures for the period in question ("AUP Report"). The Total Investment Return percentages listed here with an asterisk are based on Macias Gini & O'Connell LLP's recalculated investment performance figures (as reflected in the AUP Report). This represents a more comprehensive total investment return than previously provided by Meketa Investment Group. The AUP Report is included with this ACFR after the "Report on Investment Activity" section on page 90.

August 23, 2023

Mr. Roberto L. Peña
Director
City of San Jose Police and Fire Department Retirement Plan
1737 North First Street, Suite 600
San Jose, CA 95112-4505

Dear Mr. Peña:

Please find below a summary of the market environment and Plan performance through June 30, 2023.

Fiscal 2023 Year in Review

We began fiscal year 2023 with positive performance across global markets, especially in the US. Investors' optimism at the time was driven by a decline in inflation measures, as the Consumer Price Index (CPI) ticked down from 9.1% to 8.5% and came in below expectations.¹ This led to longer-dated yields falling as investors reconsidered economic growth prospects and the possibility that yields had reached their peak for this economic cycle. Shorter-dated yields rose on near-term monetary policy actions and messaging that policy officials intended to remain aggressive in fighting inflation pressures into early 2023.

It was also at the start of July 2022 when we first saw an inversion in the US yield curve. The yield spread between two-year and ten-year Treasuries finished July at -0.23%.¹ Inversions in the yield curve have historically signaled building recessionary pressures.

The Federal Reserve raised interest rates by an additional 75 basis points¹ in July 2022, and again by the same amount in September. The European Central Bank also notably started increasing rates, moving off of 0%. They increased rates by 50 basis points in July 2022, followed by a surprise 75 basis point increase in September.

Federal Reserve messaging about policy going forward, combined with outsized interest rate hikes due to the slow rate of decline in inflation and a strong labor market, resulted in significant equity market declines in both August and September 2022. The September CPI release showed prices that increased 8.2% over the trailing twelve months, which was lower than the peak of 9.1%² but still above the pace of market expectations at the time. The US bond market (Bloomberg Aggregate) declined in the first fiscal quarter (-4.5%¹) as did the US Equity Market (Russell 3000), which returned -3.2% fiscal year-to-date through September.

The second quarter of fiscal year 2023 started very strong for developed market equities, on returning signs that inflation may be peaking, monetary policy tightening may relatedly slow, and hopes for a soft landing of major economies. However, as the quarter progressed, results were mixed by month and

August 23, 2023

region as the world received differing signals on inflation. Overall, US equities finished the second fiscal quarter of 2023 up (Russell 3000: +7.2%¹). Equities outside the US (MSCI ACWI ex. US: +14.3%) increased even more versus domestic stocks due in part due to the weakening US dollar. The US bond market also finished the calendar quarter in positive territory (Bloomberg Aggregate: +1.9%).¹

Inflation, as measured by CPI, declined to 6.5% by December of 2022. While progress had been made since the 2022 peak of 9.1%, there was still much work to be done to bring the pace of price increases down to the Federal Reserve's preferred range. With the exception of Japan, inflation impacted the rest of the developed world as well. Inflation in the Eurozone came in at 9.2% in December, down from a peak of 10.6%.¹ Similarly, inflation in the UK was at 9.2% in December 2022, down from a peak of 9.6%.²

The US labor market remained extraordinarily strong throughout the first two quarters of fiscal year 2023, with the unemployment rate declining to 3.5% by December, from a starting point of 3.6%.¹ The labor force participation rate remained slightly above 62% as of December. This was an increase from the lows of the pandemic, but still below the 63.4%⁴ level from before the pandemic. Average hourly earnings declined in December, finishing the calendar year at 4.8%. The strength of the labor market in the US contributed to the Federal Reserve's continued hawkish stance. In Europe and Japan, increases in unemployment had been less significant during the pandemic compared to the US, but those measures also improved.

Economic growth in the US rebounded in the first half of fiscal year 2023. The Gross Domestic Product (GDP) release for the first fiscal quarter of 2022 came in at an annualized rate of 3.2%², and the second quarter growth rate was 2.6%.² Outside the US, Eurozone growth was positive but below levels in the US, coming in at 2.5% and 1.6%³, respectively, over the same two quarters. UK growth was nearly flat at -0.2% and 0.0%⁴, and Japan grew by -0.3% and 0.2%, respectively, over those same two quarters.

Financial markets were volatile in the third quarter of the fiscal year, driven by investors continuing to adjust their interest rate and inflation expectations, as well as the failure of Silicon Valley Bank and a few other regional banks. Ultimately, however, the swift emergency actions taken by the Federal Reserve, the Treasury, and other government agencies helped alleviate some of the concerns connected to the banking sector. This, and a focus on slowing inflation and potentially peaking rates, led to most asset classes experiencing positive results for the quarter, with riskier assets leading the way.

In the third fiscal quarter, the US equity market (Russell 3000) returned 7.2%¹, and international developed market equities (MSCI EAFE) returned 8.5%. Emerging market equities (MSCI Emerging Markets) were also positive for the quarter, returning 4.0%. Chinese equities (MSCI China) rose 4.7% but generally lagged developed markets as reopening optimism was balanced by increased tensions with the US.

Fixed income markets also posted gains for the quarter, but it was a volatile period for interest rates, particularly for shorter maturities. Overall, the change in monetary policy expectations and anecdotal reports of flight-to-quality flows during the height of the concerns surrounding the banking sector drove most interest rates lower. The broad US investment grade bond market (Bloomberg Aggregate) and

August 23, 2023

high yield bonds (Bloomberg High Yield) respectively rose 3.0% and 3.6% for the quarter. High yield bonds particularly benefitted from the positive risk sentiment.

Most financial markets were strong in the final quarter of fiscal year 2023 as investors continued to contend with the track of inflation, the path of monetary policy, lingering fears from the regional banking crisis, and an uncertain economic outlook. Most equity markets posted positive returns for the quarter while fixed income markets fell slightly, as rates rose, reflecting expectations for the Federal Reserve to continue tightening policy rates.

Of the major asset classes, the US equity market (Russell 3000) led the way, returning 8.4%¹ for the quarter with most of the gains (6.8%) coming just in the month of June 2023. Notably, relatively few stocks (mainly large technology companies) accounted for most of the gains in the third and fourth quarter of fiscal year 2023 driven by optimism over artificial intelligence (“AI”) technology. Looking at the S&P 500, the index was up 16.9% in the final two quarters of fiscal 2023, though returns were quite concentrated (without the top performing 44 stocks, the index would have been negative over the same period).⁵

Developed international equities (MSCI EAFE) returned 3.0% for the final quarter of fiscal year 2023, while emerging market equities (MSCI Emerging Markets) lagged, returning just 0.9%. Continued signaling from the central banks in Europe and the UK, along with an overall stronger US dollar, weighed on relative results in developed markets. Chinese equities brought down overall results in emerging markets, with the MSCI China index falling 9.7% for the quarter. Chinese equities suffered due to a lackluster economic reopening, weak economic data, and heightened tensions with the US.

The broad US investment grade bond market (Bloomberg Aggregate) fell 0.8%² as the Federal Reserve indicated additional rate hikes were needed to combat persistent inflation. High yield bonds (Bloomberg High Yield) benefited from the “risk-on” sentiment, returning 1.7%² in the quarter ending June 30^{m2}. Commodities (Bloomberg Commodity Index) continued to soften on weakening global growth expectations and developments with China, declining 2.6% for the quarter.²

Over the full fiscal year, developed market equities posted strong returns, with US stocks slightly outperforming developed markets outside the US. Emerging market equities significantly trailed developed market equities over the period. The Russell 3000 (US equities) returned 19.0%¹ for the fiscal year, compared to the MSCI EAFE at 18.8%¹ (developed market equities), and a return of 1.8%¹ for the MSCI Emerging Markets Index. The MSCI Emerging Markets Index was greatly influenced by returns from China, as the MSCI China Index declined by 16.8% over the 12 months ending on June 30th. Within fixed income, declining inflation and a slightly longer relative duration for the index hurt Treasury Inflation Protected Securities’ full year relative results. The Bloomberg TIPS Index decreased 1.4%¹ over the full year, while the Bloomberg Aggregate Index declined by 0.9%¹. Riskier bonds held up well in the fiscal year, as the Bloomberg High Yield index increased 9.1% over the period.

Remarkably, despite a fiscal year where a recession was forecasted by many economists, GDP growth and unemployment remained unexpectedly robust, and inflation continued to decline. GDP growth in

the US was 3.2%, 2.6%, 2.0% and 2.4%¹ for the first, second, third, and fourth quarter, respectively, for fiscal year 2023. Unemployment ticked up to 3.7% during the fiscal year but ultimately settled where it started at 3.6%.² All of this occurred while the headline inflation number decreased from 9.1% in June 2022 to 3.0%² in June 2023. Finally, the yield curve remained inverted for almost the entire fiscal year, eventually deepening the inversion as the year went on. The yield spread between two-year and ten-year Treasuries finished June 2023 at -1.06%.¹

Outside the US, unemployment and inflation painted a more mixed picture. The Eurozone ended fiscal year 2023 with unemployment numbers at 6.5%, down from 6.6% at the beginning of the fiscal year.³ Japan ended with an unemployment figure where it started, at 2.6%. Inflation in the Eurozone ended the fiscal year at 6.1%, down from 8.6%² a year earlier. Inflation increased in Japan for the first time in many years, ending at 3.2%, versus 2.5%² at the beginning of the fiscal year. China notably had inflation levels at the end of the fiscal year close to 0% given the weak economic reopening.

Fiscal Year 2024 Outlook

Overall, the US economy has been much more resilient than expected, given inflation that remains above the Fed's target and one of the most aggressive monetary policy tightening campaigns in history. As we move forward, investors will be looking for clues on the track of inflation and related monetary policy, monitoring whether economies hit recessions or manage "soft landings," and keeping an eye on geopolitical issues. There are several areas that could guide markets, both positively and negatively, in fiscal year 2024. These include:

- The Federal Reserve and other Central Banks have made solid progress on the inflation fight. However, the possibility remains that the final declines of inflation to central banks' preferred range may be harder to achieve versus the progress made so far.
 - While CPI in the US finished the fiscal year at 3.0% over the trailing 12 months (it recently increased slightly to 3.2% in July 2023), the path to 2.0% may be more difficult due to changes in trade, deglobalization, as well as a stronger consumer.²
 - The Core CPI measure that strips out the more volatile energy and food categories is still far above range, finishing the fiscal year at 4.8%² and more recently falling to 4.7%² in July. Because the Federal Reserve focuses on Core measures, and the rate remains above their 2%² target, they may continue to fight inflation by keeping rates higher for longer, with the risk of pushing the economy into recession.
 - The labor market has remained relatively strong, but questions linger about whether this will persist as the impact of increased interest rates continue to flow through the economy. As consumption makes up most of the growth in the US the strength of the consumer is key. Higher credit balances and rates and the end of the reprieve on student loan payments could also influence spending going forward.
- China has seen a disappointing reopening, ongoing deleveraging, restrictions from the US, and declining trade.

August 23, 2023

- China, the second largest economy in the world, waited longer than any other country to reduce or remove COVID-related restrictions on mobility. Many market participants expected above-trend growth which has not occurred.
 - The old methods of stimulating growth in China, such as building and infrastructure projects, may have lesser utility as China continues to mature.
 - The move toward diversifying supply chains is not only happening in the US, but around the world. This has led to less trade with China, both for imports and exports, a trend that could continue to pressure economic growth. Recent legislation, such as the CHIPS Act in the US, is encouraging semiconductor manufacturers to build production plants outside of Asia.
 - Deleveraging, resulting from an overleveraged property sector, will continue to reduce economic growth as well as price increases. China will almost certainly look for ways to contain deflationary pressures to avoid a situation like Japan.
- Ongoing geopolitical issues, including the war in Ukraine and US-China relations, remain a factor and could always worsen, leading to adverse effects on global economic growth and inflation.
- The war in Ukraine continues with no immediate end in sight. Despite international condemnation and sanctions, Russia's economy has held up, allowing the country to continue to fund its war effort despite little progress.
 - The war in Ukraine also enlightened the world to a situation where China attempts a takeover of Taiwan. This has resulted in many countries and corporations beginning the process of reducing dependence on Chinese-made goods, while diversifying their supply chains.
 - Relations between the world's two largest economies, US and China, have suffered in recent years. This relationship could continue to worsen, with declining trade and increased tensions.

Plan Investment Results and Asset Allocation for the Retirement Plan^{1,2}

The City of San Jose Police and Fire Department Retirement Plan had \$4.7 billion in assets at the end of the fiscal year. For the fiscal year, the Retirement Plan returned 7.7% net of fees, versus the Policy Benchmark (7.5%) and Investable Benchmark (7.1%). The Retirement Plan's return was above the 6.625% assumed actuarial rate of return. The Retirement Plan's standard deviation of returns was 9.8%, exhibiting lower volatility than the peer median (10.4%).

Key factors for the Retirement Plan's performance for the fiscal year include:

- *Public Equity*: The Plan's Public Equity aggregate was up 17.3% for the fiscal year, compared to a benchmark return of 15.6%. Global Equity returned 19.0%, U.S. Equity returned 19.7%, International Equity returned 16.9%, and Emerging Markets Equity returned 6.2%

¹ Performance figures calculated by custodian bank.

² Time-weighted rate of return based on the market rate of return is used as the basis for the calculation.

→ *High Yield Bonds*: The Retirement Plan's High Yield Bonds aggregate also had a strongly positive return for the fiscal year, up 9.8%. Both of the Plan's High Yield Bond funds posted returns over 9.5%.

Plan Investment Results and Asset Allocation for the Health Care Trust^{1,2}

The City of San Jose Police and Fire Department Retirement Plan Health Care Trust had \$290.5 million in assets at the end of the fiscal year. For the fiscal year, the Health Care Trust returned 8.1% net of fees, compared to the Policy Benchmark return of 7.6%.

Within the Health Care Trust, Growth returned 15.2% versus the Growth Benchmark return of 15.2%, Low Beta returned 3.9% compared to the ICE BofA 91 Days T-Bills TR of 3.6%, and Other returned -1.8%, outperforming the Other benchmark by 180 basis points over the fiscal year period.

Summary

Performance for the City of San Jose Police and Fire Department Retirement Plan over the fiscal year exceeded its Policy and Investable Benchmarks. Compared to the Public Peer Group over \$1 Billion Net Return, performance over the fiscal year ranked better than median, while also taking on less risk than the peers. We believe that the Retirement Plan has a high probability of achieving the actuarial rate over the long-term, while exhibiting lower volatility than peers. We are looking forward to continuing our work with Staff and the Board of Administration to assist the Retirement Plan in meeting its obligations to participants.

Sincerely,

Laura Wirick, CFA, CAIA
Managing Principal

Jared Pratt, CFA, CAIA

Independent Accountant’s Report on Applying Agreed-Upon Procedures

Boards of Administration and Chief Executive Officer
Federated City Employees’ Retirement System
Police and Fire Department Retirement Plan

We have performed the procedures enumerated below on the City of San José Federated City Employees’ Retirement System and the Police and Fire Department Retirement Plan (the “Retirement Plans”) inclusion of invoice management fees in the investment performance of the Retirement Plans for the years ended June 30, 2015, through June 30, 2023 (the Subject Matter). The Retirement Plans’ management are responsible for the Subject Matter.

The Retirement Plans have agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of assisting the Boards of the Retirement Plans in evaluating the inclusion of invoice management fees in the investment performance of the Retirement Plans for the years ended June 30, 2015, through June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows:

1. We obtained the total fund market values at June 30, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, and 2023, for the following funds:

- Police and Fire Department Pension Plan (PF Pen)
- Police and Fire Department Healthcare Trust (PF HCT)
- Federated City Employees’ Retirement System Pension Plan (Fed Pen)
- Federated City Employees’ Retirement System Healthcare Trust (Fed HCT)

Finding: No exceptions were noted as a result of this procedure.

2. We obtained the invoiced management fee transaction detail from the general ledger for each fund and period end from procedure 1 and summarized each fund’s management fees by year end.

Finding: No exceptions were noted as a result of this procedure.

3. Using the total fund market values and invoiced management fees obtained in procedures 1 and 2, we calculated the ratio (percentage) of the invoiced management fees to total fund market values for each year.

Finding: No exceptions were noted because of this procedure.

4. We recalculated the respective years' investment returns by subtracting the invoiced management fee percentages calculated in procedure 3 from the one-year net returns as reported by Meketa in their June Quarterly Reviews.

Finding: Results of this procedure are presented below.

	6/30/2023	6/30/2022	6/30/2021	6/30/2020	6/30/2019	6/30/2018	6/30/2017	6/30/2016

Statement of Investment Policy

PENSION - INCLUDES THE 401(H) INVESTMENTS

EXECUTIVE SUMMARY

The purpose of this document is to set forth the goals and objectives of the San José Police and Fire Department Retirement Plan, and to establish guidelines for the implementation of investment strategy.

This document will be reviewed at least annually. Any revisions to this document may be made only with the approval of the Board.

This investment policy was approved on May 4, 2023. The asset allocation was approved on March 3, 2022.

The Board of Administration recognizes that a stable, well-articulated investment policy is crucial to the long-term success of the Plan. As such, the Board members have developed this Investment Policy Statement with the following goals in mind.

- To clearly and explicitly establish the objectives and constraints that govern the investment of the Plan's assets,
- To establish a long-term asset allocation with a high likelihood of meeting the Plan's objectives given the explicit constraints, and
- To protect the financial health of the Plan through the implementation of this stable long-term investment policy.

This document includes detail on the Plan's adopted asset allocation policy (summarized in Appendix A) and process, including the selected Functional asset class structure and the Plan benchmarks approved by the Board. It also includes the Plan's policy on manager selection, retention, evaluation, and termination, as well as the Plan's adopted risk policy, with specific risk parameters summarized in Appendix B.

Throughout this document, expected returns and volatilities were based on capital market assumptions from the general consultant.

I. SAN JOSÉ POLICE AND FIRE DEPARTMENT RETIREMENT PLAN GOALS

The San José Police and Fire Department Retirement Plan was established to provide retirement income for San José Police and Fire Department Retirement Plan employees and their families. The Plan's assets are structured to provide growth from capital gains and income, while maintaining sufficient liquidity to meet beneficiary payments.

II. INVESTMENT OBJECTIVES

The investment strategy of the San José Police and Fire Department Retirement Plan is designed to ensure the prudent investment of Plan assets in such a manner as to provide real growth of assets over time while protecting the value of the assets from undue volatility or risk of loss.

A. Risk Objectives

1. To accept the optimal level of risk required to achieve the Plan's return objective as stated immediately below.
2. To target total portfolio investment risk consistent with the investment beliefs and strategic goals set forth by the San José Police and Fire Department Retirement Board.
3. To consider the financial health of the Sponsor when assuming investment risks.
4. To use diversification to minimize exposure to company and industry-specific risks in the aggregate investment portfolio.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS (continued)

B. Return Objective

1. In a manner consistent with the goals stated in Section I above, to manage the Plan's assets as to achieve the highest, reasonably prudent return possible.

III. INVESTMENT CONSTRAINTS

A. Legal and Regulatory

The San José Police and Fire Department Retirement Plan is a defined benefit retirement program for certain employees of the Police and Fire departments of the City of San José in the State of California. The terms of the Plan are described in the San José Municipal Code.

B. Time Horizon

The Plan will be managed on a going-concern basis. The assets of the Plan will be invested with a long-term time horizon (ten to twenty years or more), consistent with the participant demographics and the purpose of the Plan.

C. Liquidity

The Board members intend to maintain sufficient liquidity to meet at least five years of anticipated beneficiary payments, net of plan sponsor and member contributions.

D. Tax Considerations

The Plan is a tax-exempt entity. Therefore, investments and strategies will be evaluated only on the basis of expected risks and potential returns.

IV. RISK AND RETURN CONSIDERATIONS

The Board members accept the risks associated with investing in the capital markets (market risks), but will minimize wherever possible those risks for which the Plan is unlikely to be compensated (non-market or diversifiable risks).

V. DIVERSIFICATION

The Board members of the San José Police and Fire Department Retirement Plan recognize that an important element of risk control is diversification. Therefore, investments will be allocated across multiple classes of assets, chosen in part for their low correlation of expected returns. Within each asset type, investments will be distributed across many individual holdings, with the intention of further reducing volatility.

The specific degrees of diversification within asset classes will be addressed in each separate account manager's investment guidelines, or in each commingled manager's fund documents.

The purpose of the functional classifications and major asset classes are defined in the language and table below.

A. Functional Sub-portfolios

The investment strategy for the Investment Program employs three functional sub-portfolios to construct the comprehensive asset allocation. The allocation to the sub-portfolios is assessed at least annually and is based on projected capital market assumptions. The Chief Investment Officer ("CIO") shall review the relative size and composition of these sub-portfolios and advise the Investment Committee ("IC") of any necessary revisions to the allocation among the sub-portfolios.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

- 1. Growth Sub-portfolio:** The purpose of the Growth Sub-portfolio is to grow invested assets over the long term in order to pay future benefits. This portfolio is characterized by a long investment horizon and can, therefore, accept a higher level of volatility. Assets in this portfolio may be volatile, have reduced liquidity, and derive the bulk of their return from capital appreciation. These assets include public and private equity, corporate and other debt with credit risk premiums, private real estate and other private assets. The success of this portfolio will be measured primarily by compounded annual growth rates in conjunction with the annualized standard deviation of returns as the primary measure of risk. Performance evaluation will, therefore, focus on the long-term total risk-adjusted return of the portfolio.
- 2. Low Beta Sub-Portfolio:** The purpose of the Low Beta Sub-portfolio is to ensure that the overall (total portfolio) a) is relatively immune from market fluctuations while providing a source of alpha, b) is a source of capital for purchasing undervalued assets in the Growth sub-portfolio, and c) has adequate assets available to pay benefits over an extended timeframe (the immunized cash portfolio). It will contain an “absolute return” program that invests in risk assets in isolation but whose combined long and short betas are relatively neutral to market movements, an immunized cash portfolio, as well as cash and cash-like assets such as short-term bonds, derivatives, and other investments that provide fixed, contractual cash flows with a minimum level of credit risk. For the immunized cash portfolio, the Board has established a target allocation amount of up to 60 months’ worth of projected benefit payments in the Low Beta Sub-portfolio, which will be drawn down and replenished annually. The Low Beta portfolio is expected to provide a stable offset to the rest of the portfolio during periods of severe market stress and to effectively dampen the market volatility across the entire portfolio. The success of the Low Beta Sub-portfolio will be measured by its ability to offset declines in value in the Growth Sub-portfolio, as well as its ability to provide liquidity during times of market stress.
- 3. Other Sub-Portfolio:** The purpose of the Other Sub-portfolio is to ensure that the overall portfolio is specifically protected against inflation risks while also providing for further diversification. The success of the Other sub-portfolio will be measured by its ability to protect the portfolio from inflation risk while also providing an additional source of return and diversification.

B. Interaction between the Functional Sub-Portfolios

The allocations to the Growth, Low Beta, and Other sub-portfolios will vary over time. When Growth assets are undervalued, the Low Beta Sub-portfolio will act as a source of funds and when Growth assets are overvalued the Low Beta sub-portfolio will act as a use for harvested growth portfolio returns. The Growth and Other sub-portfolios will be subject to the volatility of the markets in which each functional sub-portfolio invests. In order to reallocate between the functional sub-portfolios, the CIO and the General Consultant will conduct an annual capital review to assess the relative value and risks associated with each asset class and deliver a review of the capital markets to the Board. The Consultant will provide the Board current forward-looking risk and return assumptions for all major asset classes. In conjunction with this review, the CIO will provide a recommendation of how best to allocate assets within each functional sub-portfolio. If necessary, the CIO will recommend changes in target allocations to the underlying asset classes in order to deploy the Investment Program’s assets effectively in the upcoming year. While considering changes to the allocation to each functional sub-portfolio, the CIO will view the totality of all functional portfolios, and consider the impact of changes to the overall risk and return profile of the total portfolio.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

Public Equity - Growth

The purpose of Public Equity is to provide the Plan exposure to the total return due to equity capital owners, including exposure to capital appreciation from economic growth, while managing volatility relative to the equity market.

Private Markets - Growth

The purpose of Private Markets is to provide the Plan exposure to asset growth and income while diversifying the portfolio and capturing an illiquidity premium.

Emerging Market Bonds - Growth

The primary purpose of Emerging Market Bonds is to provide the Plan exposure to rates and credit risk within emerging markets.

High Yield Bonds - Growth

The primary purpose of High Yield Bonds is to provide the Plan with exposure to high yielding corporate debt.

Market Neutral Strategies - Low Beta

The purpose of Market Neutral Strategies is to produce alpha based returns while reducing overall Plan volatility and increasing Sharpe ratio.

Bonds (Immunized Cash Flows) - Low Beta

The purpose of Bonds (Immunized Cash Flows) is to provide liquid funds for expected outflows and allow for other assets to be invested in an illiquid fashion.

Treasury Inflation-Protected Securities (TIPS) - Other

The purpose of TIPS is to provide exposure to inflation in addition to interest rates.

Core Real Estate - Other

The purpose of Core Real Estate is to produce the Plan income and price appreciation while maintaining a low correlation to both stocks and bonds.

Long-Term Government Bonds - Other

The purpose of Long-Term Government Bonds is to provide a positive return in highly stressed market environments, with a low correlation to equity risk.

Core Bonds - Other

The purpose of Core Bonds is to produce returns and income for the Plan by providing exposure to rates and credit risk.

Commodities - Other

The purpose of Commodities is to increase the Plan's portfolio diversification and provide a hedge against unexpected inflation.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

VI. ASSET ALLOCATION POLICY

Asset Allocation and Portfolio Construction

- A.** The Board recognizes that establishing an appropriate strategic asset allocation (SAA) portfolio is critical to the long-term success of the investment program, as asset allocation is the single biggest determinant of the expected risk and return of the Plan.
- B.** In arriving at the SAA, the Board shall follow a *building block* approach whereby it approves a series of benchmark portfolios, each offering expected risk and return characteristics that are preferable to the one before it. This building block approach is further explained below:
- 1.** *Liability Benchmark Portfolio (LBP)*. As the first step in the portfolio construction process, the Board shall approve a LBP. The LBP is the portfolio that offers the lowest possible expected funding risk, where funding risk is defined as the risk that assets will grow at a slower rate than the plan's liabilities. The LBP is expected to consist solely of bonds that match the duration of the liabilities.
 - 2.** *Low-Cost Passive Portfolio (LCPP)*. If the Board believes a portfolio can be constructed that offers expected return / risk characteristics that are preferable to those of the LBP, but does not wish to invest significant resources in staff and consultants, the Board would then approve a LCPP. The LCPP would be simple to construct and implement and would consist only of public market asset classes managed on a passive basis. It would exclude private market asset classes and hedge funds, which are complex and costlier to implement.
 - 3.** *Strategic Asset Allocation Portfolio (SAAP)*. If the Board believes an even more diversified portfolio would enhance the risk-adjusted return characteristics of the Plan and justify a meaningful investment in staff and consulting resources, the Board would then develop and approve an SAAP. The SAAP would be more complex than the LCPP because it would likely include private market asset classes and / or hedge funds. The staff and consulting resources required to manage such a portfolio would significantly increase the cost and administrative complexity of the Plan.
 - 4.** *Investable Benchmark Portfolio (IBP)*. The Benchmark Portfolio would include the same underlying benchmarks as the SAAP, but would use a beginning-of-month weight for each asset class. This will account for weighting differences to the SAAP in asset classes that take more than one year to invest (private markets asset classes).
- C.** The Board believes the above building-block approach represents a thoughtful way of approaching its asset allocation decisions, as it makes each step in the portfolio construction process clear and explicit. It also requires the Board to consider and confirm the rationale for accepting the potential incremental risk, complexity and cost introduced by moving from one portfolio model to the next. Their relative merits would include evaluation on a net-of-expenses basis.
- D.** The benchmarks approved by the Board as of the date of this document, and the expected return of each, are described below:
- 1.** A LBP consisting of a market benchmark with a duration profile similar to the Plan's liabilities. The expected return for the LBP is 3.1% (20 years / geometric mean) as of the date of this document.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

2. A LCPP consisting of the following asset classes and targets, and the broad, commonly-used market indices that could be used for each asset class, are shown in Appendix A. The expected return for the LCPP is 6.3% (20 years / geometric mean) as of the date of this document.
3. A SAAP consisting of the following asset classes and targets shown in Appendix A. The expected return of the SAAP is 7.1% (20 years / geometric mean) as of the date of this document.

Asset Allocation Tools & Methods

- A. The LBP will be re-evaluated annually following the results of the annual actuarial study. LCPP and SAAP shall be established and modified based on the results of formal asset allocation studies performed approximately every three years or when a significant market correction occurs. The capital market assumptions (CMA) used in such studies shall be reviewed and updated annually or when the S&P 500 experiences a decrease of more than 20% from peak. The Board shall consult with the general investment consultant in connection with such asset allocation studies and CMA reviews.
- B. Asset allocation studies shall be designed to ensure rigorous and objective analysis, and minimize decision-making bias by:
 1. Requiring the use of a portfolio construction engine ("Engine"); and
 2. Requiring that the Board and IC always focus first on establishing the most reasonable and defensible inputs to the Engine. That is, if the Board is uncomfortable with the results of the Engine, it shall respond by reviewing the reasonableness of the inputs to the Engine, rather than simply modifying the results.
- C. When arriving at the LCPP and the SAAP, asset allocation studies shall include the four basic steps outlined below:
 1. Step 1: Inputs
 - a. For each study, the Board shall approve the inputs to the Engine including:
 - Permitted asset classes (Permitted asset classes for the LCPP shall include only public markets and permitted asset classes for the SAA Portfolio shall include both public and private markets);
 - CMAs; and
 - Material constraints (e.g. maximum allocations to certain asset classes), along with supporting rationale.
 - b. The CIO shall propose the inputs to the IC, with prior input from the Board's general investment consultant, and work with the investment consultant throughout the process to make subsequent revisions to inputs, based on feedback from the IC.
 - c. The Board, IC, CIO and investment consultant are expected to reach a consensus regarding the above inputs and the Board shall formally approve them. Staff shall document the process by which it arrives at its recommended inputs.
 2. Step 2: Modeling and Analysis
 - a. The investment consultant will incorporate the approved inputs into the Engine to be used to identify and analyze potential asset allocation choices for each study and present the results to the CIO.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

- b. The Board expects that the Engine will rely on mean-variance optimization (“MVO”).
 - c. The Board shall also consider the results of the MVO analysis under additional constraints to ensure adherence with approved risk limits including:
 - Stress testing, including historical scenario analysis and factor-specific testing;
 - Liquidity analysis under normal and stressed conditions; and
 - Cash flow management requirements for the immunization of certain projected benefits and expenses.
- 3. Step 3: Recommendations**
- a. The CIO will present the current asset allocation and a number of reasonable alternatives along the so-called “efficient frontier” for the Board to consider.
 - b. In presenting the alternatives, the CIO initially will present only the return / risk characteristics of each alternative and will not reveal the underlying asset class allocations (i.e. “blind” format). This will allow the Board / IC to focus initially on the return / risk implications of each alternative, rather than the underlying asset allocations.
 - c. After the Board has engaged in a preliminary discussion and analysis of the alternatives, the underlying asset allocations of each alternative will be revealed for further consideration.
 - d. The Board / IC may provide feedback to the CIO and investment consultant, which may require further analysis and a request for revised recommendations for the Board / IC to consider.
- 4. Step 4: Approvals**
- a. The Board / IC will review the final analyses and recommendations from the CIO and general consultant and approve:
 - Low Cost Portfolio Benchmark weights; and
 - Strategic Asset Allocation Portfolio weights, target and ranges (maximum - minimum).

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

Rebalancing

- A.** The CIO shall adhere to the SAAP asset and sub-asset class “targets” approved by the Board and shall rebalance to within the approved range at least quarterly if the actual weights at the sub-asset class levels are not within 10% of the approved target, considering the cost of more frequent rebalancing. For example, if the target allocation for an asset class is 20%, re-balancing will be triggered quarterly when the actual allocation for the asset class deviates by +/- 2% (i.e. 10% x 20%, reaching 18% or 22%). The CIO may use discretion to rebalance to within the approved range at more frequent intervals than quarterly, and when actual weights are within 10% of the approved target, subject to an assessment of market risk, active risk, and transactions costs. When a change to the SAAP is made by the Board, the CIO and the investment team will rebalance to the new target weights as expeditiously as possible, or in tranches if directed by the Board. The CIO shall also use his discretion in rebalancing to the new SAAP in the event that instant liquidation of managers within an asset class may work against the interests of the Plan. Changes to the weights of illiquid asset classes may take several quarters to implement, and the CIO shall keep the IC apprised of the progress toward the new SAAP. Synthetic rebalancing through an overlay provider may also be used when appropriate. The Immunized Cash Flows portfolio is exempt from this rebalancing provision, as it is amortizing by design.
- B.** Total plan active risk (i.e. tracking error) is to be maintained below 3%. While asset class exposures may fall within acceptable capital allocation ranges as noted above, total plan tracking error is not to exceed this 3% threshold.

Evaluating Asset Allocation Decisions

- A.** The Board shall periodically evaluate the effectiveness of its asset allocation decisions using the above portfolio benchmarks (i.e. Liability Portfolio Benchmark, Low-Cost Passive Portfolio, and Strategic Asset Allocation Portfolio).
- B.** The following table uses hypothetical returns to illustrate how the above benchmarks shall be used to evaluate the Board's asset allocation decisions.

Portfolio Benchmark	Net Return (%)	Value Added (%)	Conclusions
A. Liability Benchmark Portfolio	3.1%	N/A	
B. Low Cost Passive Portfolio	6.3%	3.2% (B - A)	By deviating from a portfolio with modest funding risk to a low-cost, passive portfolio that does not require significant staff or consulting resources, the Board shall have added net value of 3.2%
C. SAA Portfolio	7.1%	0.8% (C - B)	By enhancing the passive portfolio with investments in private markets and hedge funds, the Board added net value of 0.8%

- C.** The Board will evaluate two additional benchmarks in order to assess the value added by the CIO, investment staff, and the investment consultants:
- 1. Actual Portfolio:** This is the actual portfolio implemented by the CIO and investment staff with support from investment consultants. The Actual Portfolio includes private markets and hedge funds and reflects any active management exercised by the CIO and the underlying investment managers, subject to Board-approved policies and CIO-approved procedures.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS (continued)

2. **Investable Benchmark Portfolio:** The Investable Benchmark Portfolio is identical to the SAAP but is adjusted for the fact that the SAAP is not constantly “investable” with respect to private market asset classes. For private markets, the Investable Benchmark Portfolio would apply the best available private market benchmarks and, for weighting purposes, would reflect the pacing plans for private markets (assuming the pacing plans are reasonable). For example, if the private equity pacing plan called for 12% to be invested in private equity by the end of the performance measurement period, then the Investable Benchmark Portfolio would reflect a 12% allocation to private equity, even though the SAA Portfolio calls for 22% to be invested in private equity.

The following table illustrates how the performance of the CIO would be evaluated. Again, the returns are hypothetical and for illustration purposes only.

Portfolio Benchmark	Net Return (%)	Value Added (%)	Conclusions
A. Actual Portfolio	7.5	0.5% (A - B)	CIO outperformed the Benchmark Portfolio from these sources: i) manager selection (including security selection effects) and ii) other effects
B. Benchmark Portfolio	7.0	N/A	

- D. For the benefit of stakeholders, the Board shall also measure and report for comparison purposes, on a quarterly basis, the actual portfolio return relative to the return of the LCPP and relative to commonly cited benchmarks, including:
 1. A 60% equity and 40% fixed income portfolio (“60 / 40 Portfolio”) comprised of 60% MSCI ACWI IMI (net, unhedged) and 40% Bloomberg Barclays Global Aggregate Bond Index; and
 2. A peer group benchmark consisting of other U.S. public pension plans similar in size to the plan, as reported in the InvestorForce Public DB > \$1B Net.

VII. MANAGER SELECTION, RETENTION, EVALUATION & TERMINATION POLICY

Background

- A. The Board has delegated to the CIO the authority to select and terminate all investment managers of the Plan subject to constraints and parameters contained herein. Such authority shall be further subject to Manager Selection, Retention, Evaluation & Termination Procedures (“Procedures”), approved by the CIO, that provide more detailed constraints and parameters.
- B. It is the Board’s intention that the CIO shall have the necessary authority and resources to effectively select, retain, evaluate, and terminate investment managers with the exception of co-investments (due to the investment concentration risk of co-investments). This exception does not pertain to funds where an external manager has discretion.
- C. Accordingly, the CIO shall have the authority to:
 1. Manage the Investment Personnel of the Plan, including:
 - a. Recommending to the CEO the appointment and duties of all professional, technical, and clerical employees of the Investment Division;
 - b. Directing and supervising all Investment Personnel on a day-to-day basis; and

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

- c. Evaluating all Investment Personnel and managing their professional development.
 2. Select and terminate investment consultants to assist in the selection, retention, evaluation, and termination of investment managers.
 - a. The CIO may use the services of the general investment consultant appointed by the Board. Alternatively, if the services of the general consultant can be unbundled to separate manager research services, the CIO may select a consultant(s) of his or her choice to carry out manager research services that would otherwise have been included in the general investment consultant scope of services.
 - b. The CIO shall ensure that the total fees and expenses associated with the consultants he or she selects are reasonable and shall provide a report of such fees and expenses to the Investment Committee and the Board on at least a quarterly basis.
 - c. While the CIO shall have the authority to select and terminate investment consultants to assist staff in selecting, retaining, evaluating and terminating investment managers, the Board shall approve all contracts with investment consultants selected by the CIO to ensure such contracts reflect fair and reasonable value for the Plan.
 3. Delegation of authority to the CIO to select and terminate investment managers reflects the Board's desire to:
 - a. Promote efficiency and effectiveness in the manager selection and termination processes;
 - b. Focus the Board's time and attention on investment policy, asset allocation, and oversight, rather than manager selection and termination; and
 - c. Establish clear accountability on the part of the CIO and investment staff for manager selection, retention, evaluation, and termination.

General Constraints and Parameters

- A. The CIO's authority to select and terminate investment managers shall be subject to the following general constraints and parameters:
 1. Investment managers shall meet the following **minimum qualifications** to be selected to manage any assets of the fund:
 - a. Be **registered as an investment advisor** under the Investment Advisor's Act of 1940 or comparable legislation, unless the manager represent and warrants that it is exempt from such registration under applicable law.
 - b. Agree to enter into a contract with the Plan requiring them to perform their services consistent with the fiduciary services established under (a) the Investment Advisor's Act of 1940; (b) California law applicable to fiduciaries of public employee retirement systems, which includes the California State Constitution, Art. XVI sec. 17 and the San José Municipal Code and / or (c) terms and conditions substantially comparable to the foregoing that are satisfactory to the Plan.
 2. The nature and size of the manager's mandate shall be consistent with:
 - a. The asset allocation policy of the Plan;

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

b. Applicable constraints (e.g. **manager or strategy concentrations**) contained in this Investment Policy Statement; and the total Plan **active risk limit(s)**¹ contained in the risk section of this IPS.

3. Notwithstanding paragraph 2) b) above, the CIO shall not approve the selection of an investment management firm for mandates that exceed the following limits:

Basis*	Description	Strategy Limit ²
Vehicle	Separately managed accounts (active)	15%
	Commingled funds and SMAs (public, passive)	No limit ³
	Commingled funds (public, active)	15%
	Commingled funds (hedge funds)	15%
	Commingled funds (private strategies)	15% ⁴
Public Markets ⁵	Passive strategies	No limit
	Active strategies	15%
		Transaction Limit ⁶
Private Markets	Total \$ commitment to asset class (e.g. Private Debt)	150% of Board-approved pacing plan (cumulative) ⁷
	Primary fund commitment (1st allocation to mgr.)	2%**
	Primary fund commitment (follow-on)	3%**
	Secondary fund investment	1%**

¹ Active risk or tracking error limits may apply at the total fund level, or another aggregation (e.g. public markets assets only, excluding private markets). Risk limits may also be based on concentration, expressed for example, as a percentage (%) of some total amount of risk

² Percentage (%) of total Plan assets allowable per investment strategy

³ Rationale: Fund is constrained by the asset allocation. This is the "default" option for investing, and scale determines pricing

⁴ For private strategies, limit applies to the capital invested plus future callable commitments

⁵ Some of these limits related to public markets may be "interim", to be replaced by risk-based limits for example

⁶ Percentage (%) of total Plan assets allowable per investment manager.

⁷ This would allow, for example, a commitment in Year 1 that is 50% above "plan". The "cumulative" provision would allow for a "catch-up" for any slower-than-planned investments in prior years

* To be selected, the manager must satisfy the "Vehicle" constraint and the appropriate "Public Markets" or "Private Markets" constraints

** Percentage (%) of total plan assets

4. When a market movement is the cause of a breach in the above limits, it should be reported to the IC at the earliest of a mutually agreed-upon time during which the Investment Committee could convene with a quorum, or at the next regularly scheduled Investment Committee meeting, along with a report on how the breach was addressed, or a recommendation to address the breach.

Manager Selection

Manager Selection Process

A. The process used to select an investment manager shall, at a minimum, include the following elements:

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

1. Imposition of a Quiet Period / No Contact policy. Board members and staff shall not have contact with individuals or entities who are seeking engagement by the Plan in response to an RFP, RI, purchase order, or other solicitation or contracting process, except in accordance with the published terms of the contracting process or except for, and limited to, contact necessary in connection with ongoing Plan business with an individual or entity. The Plan's RFPs, RFIs, and other contract solicitations shall include notice that a "quiet period" will be in place from the beginning of the contracting process until the selection of the successful party such that these communications shall not occur, except as provided above. As part of the contracting process, potential contracting parties shall be required to disclose potential conflicts of interest. Board members and staff shall not use or attempt to use influence, outside of the individual authority to cause the organization to enter into a contract with any individual or entity. Board members and staff may refer individuals or entities for consideration for contracting to the appropriate Plan staff member(s) responsible for the particular procurement or contract process.
 2. Identification of a mandate to implement the Board's SAA Policy Portfolio.
 3. Comprehensive **operational due diligence** performed by the investment staff, qualified investment consultant, or qualified quasi-discretionary investments manager;
 4. In the case of private markets, comprehensive **operational due diligence** performed by the investment staff, qualified investment consultant, or qualified quasi-discretionary investment manager;
 5. **Legal review** by qualified investment counsel of the manager agreement and related documentation;
 6. **An internal meeting of investment officers, including the CIO** and the officer responsible for the asset class in question, during which staff's due diligence analysis is reviewed and debated and a staff recommendation is made;
 7. **Approval by the CIO;**
 8. **Concurrence by a qualified investment consultant** or quasi-discretionary investment manager as to the reasonableness of the selection decision; and
 9. Written affirmation to the Investment Committee by the CIO that the process used to select the manager complied with applicable policies and the Procedures. Such affirmation shall be submitted to the Investment Committee at the next regularly scheduled Investment Committee meeting following the selection of the manager.
- B.** The procedures shall include any **checklists and templates** to be used in the due diligence process. Such Procedures shall be presented to the Investment Committee for review and input at least every three years, or sooner upon request of the Investment Committee or any member of the Board.
- C.** Whenever amendments are made to the Procedures, a copy shall be provided to the Investment Committee at its next regularly scheduled meeting.
- D.** Should any Investment Officer responsible for performing manager due diligence and preparing manager selection and termination recommendations to the CIO cease to be employed by the City for any reason, the CIO shall inform the Investment Committee immediately.
- E.** The selection of an investment manager that would contravene a provision of this policy or the Procedures shall require Investment Committee approval.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

- F. A file or files shall be established to serve as a permanent record of the due diligence process for each investment manager hired and shall contain a summary of the due diligence information and analysis generated during the search process, as well as the legal documentation.
- G. The **internal audit plan** of the internal auditor shall include a review of a random sample of investment manager selection decisions at least once per year to confirm compliance with this policy and the Procedures approved by the CIO, the scope of which shall not include the investment performance of such selection decisions. The results of such review shall be reported to the Audit Committee and the Investment Committee.
- H. A **“Watch List”** will be established for underperforming managers and managers under extraordinary review for qualitative reasons, and will be maintained by the General Consultant.
 - 1. Quantitative criteria for underperformance which would trigger placement on the Watch List includes manager underperformance versus the appropriate benchmark over a three and / or five year period.
 - 2. Potential actions resulting from placement on the Watch List include finding appropriate resolution of outstanding issues, renewed confidence in the manager or strategy, or determination that the termination of the manager or strategy is appropriate.
 - 3. Investment staff will identify underperforming managers in conjunction with consultants.
 - 4. As necessary, nuanced investment strategies or fund types may require customized review.
- I. The Plan will seek alignment of interests when negotiating fees while pursuing the best net of fees performance results. Investment costs shall be monitored, controlled, and whenever possible negotiated to ensure cost effectiveness. The Board shall give consideration to the impact of administrative expenses, external management fees and performance fees when establishing the asset mix policy of the Plan. The Board will be provided reports on investment costs of the Plan at least annually.
- J. The Plan’s staff, in coordination with its investment consultants and legal counsel, will negotiate, monitor, and report on fees with investment managers regularly to ensure market competitiveness and appropriateness.
- K. The Plan will seek to ensure that excessive fees are not being paid for alternative assets by reviewing manager fees at least annually. Fee structures could incorporate fixed fees, performance based fees, high water marks, waterfall, hurdles, floors and caps. The Plan may also incorporate multi-year performance periods with clawbacks as needed.

Manager Termination Procedures

- A. City of San José Office of Retirement Services investment staff is aware that the ongoing review and analysis of investment managers is just as important as the due diligence implemented during the investment manager selection process. The performance of the investment managers will be monitored on an ongoing basis and it is at the CIO’s discretion to take corrective action by terminating and / or replacing an investment manager if it is deemed appropriate at any time for any reason.

The CIO, in agreement with the appropriate consultant for the manager / asset class in question, may terminate an investment manager or product due to a variety of reasons. These reasons can include but are not limited to the following:

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

1. Plan asset allocation change
2. limited market opportunity
3. style drift
4. violation of policies and guidelines
5. key personnel turnover
6. failure to achieve performance or risk objectives
7. legal or regulatory action
8. any change deemed likely to impact or impair investment performance
9. any other material adverse events, whether reputational or financial, that could be expected to cause significant headline risk.

Termination of private funds is typically not possible. If the CIO wishes to exit a private fund, they may evaluate opportunities for secondary market sales of fund interests.

The CIO will report any termination actions at the next Committee meeting, detailing the rationale for action.

XIII. RISK POLICY

Purpose and Scope

The purpose of this Risk Policy is to ensure that the total portfolio investment risk is consistent with the investment beliefs and strategic goals set forth by the San José Police and Fire Retirement Board. This document defines the roles and responsibilities for maintaining this Risk Policy, management of the investment risks of the Plan, and monitoring the results. It also articulates the Board's philosophy towards investment risk. The Plan intends to use risk management to make more informed decisions and improve the likelihood of achieving its strategic goals and objectives within the appendix, specific risk targets and limits are established.

The Risk Policy will cover investment risk, liquidity risk, credit risk, and funding risk. The Risk Policy will not cover enterprise risk concepts such as operational risk, regulatory risk, legal risk, and counterparty risks.

Objectives

The objective of the risk management program are:

- A. To communicate the Plan's commitment to risk management and the central role in achieving Plan goals and objectives;
- B. To formalize and communicate a consistent approach for managing risk;
- C. To ensure the investment risks assumed by the Plan are appropriate given the financial health of the Sponsor;
- D. To ensure the Plan operates within the agreed risk tolerance and risk limits.

Definitions

To aid with the interpretation of this policy, a glossary of terms is included in the Appendix D, which defines all the technical terms use in this policy.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS (continued)

Governance

Consistent with the Board's governance model, which delegates specific authority, responsibility, and accountability to others based on areas of expertise, this Risk Policy defines the following roles and responsibilities. The Board retains sole responsibility of governing the Plan, setting investment policy and risk policy, and monitoring the Investment Program. The Board delegates specific areas of responsibility while retaining appropriate oversight of the delegated activity.

Board of Administration

The Board maintains the sole and plenary authority and fiduciary responsibility for the Investment Program. The Board also understands it may delegate certain responsibilities under the Investment Program for purposes of administrative efficiency and expertise. The areas of the Investment Program the Board may not delegate include:

- A.** Engaging Board consultants and service providers
- B.** The governance model of the Investment Program
- C.** Monitoring the Investment Program
- D.** Establishing and maintaining investment policy, including:
 - 1.** The Investment Policy Statement ("IPS")
 - 2.** This Risk Policy
 - 3.** Investment objectives
 - 4.** Strategic asset allocation
 - 5.** Allocation-level performance benchmarks
 - 6.** Risk philosophy

Investment Committee

The Investment Committee ("IC") is a subset of the Board assigned to review investment related matters in greater detail. The IC has been assigned authority to assist the Board in its duties by meeting on at least a quarterly basis regarding matters of investment policy, risk management, portfolio structure, vendor selection, real estate operations, human resources, reporting, and monitoring. Please refer to the IC Charter for specific detail.

Staff

San José Retirement Services Staff ("Staff"), including the Chief Executive Officer (CEO) and Chief Investment Officer (CIO), is broadly responsible for supporting the Board in the effective execution of the Investment Program. The CIO has been delegated authority to execute specific elements of the Investment Program as outlined herein. Staff risk operating zones are defined in Appendix C.

General Investment Consultant

The General Investment Consultant ("GC") is appointed by the Board to provide independent, objective investment advice. The GC is a fiduciary to the Plan under California law. The GC works with Staff and specialty consultants in the development of recommendations while recognizing its fiduciary duty is to provide prudent investment advice to the Board. The GC provides advice without discretionary authority to execute on its advice. With regard to this Risk Policy, the GC contributes to the following:

- A.** Asset allocation recommendations among classes and subclasses
- B.** Investment manager selection, evaluation and termination
- C.** Investment performance monitoring
- D.** Investment risk monitoring

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS (continued)

- E. Capital markets projections
- F. Coordination with the Plan's actuary in conducting periodic asset / liability studies and other required reporting
- G. Recommend changes to the actual portfolio to achieve compliance with this Risk Policy
- H. Board education

Specialty Investment Consultants

A. Absolute Return Consultant

The Absolute Return Consultant ("AC") is appointed by the Board to provide independent, objective investment advice. The AC is a fiduciary to the Plan under California law. The AC works with Staff and the other consultants in the development of recommendations while recognizing its fiduciary duty is to provide prudent investment advice to the Board. The AC provides advice without discretionary authority to execute on its advice. With regard to this Risk Policy, the AC contributes to the following:

1. Assists with providing transparency into the absolute return investment strategies, including recent holdings and transactions.
2. Assists with the analysis of recommended investment strategies that have not yet been incorporated into the Plan including recent holdings and transactions.
3. Board education

B. Risk Advisory Consultant

The Risk Advisory Consultant ("RC") is appointed by the Board to provide independent, objective investment advice. The RC is a fiduciary to the Plan under California law. The RC works with Staff and the other consultants in the development of recommendations while recognizing its fiduciary duty is to provide prudent investment advice to the Board. The RC provides advice without discretionary authority to execute on its advice. With regard to this Risk Policy, the RC contributes to the following:

1. Asset allocation recommendations among classes and subclasses
2. Investment manager evaluation
3. Risk policy development and maintenance
4. Investment risk monitoring
5. Recommend changes to the actual portfolio to achieve compliance with this Risk Policy
6. Board education

Investment Managers

Investment Managers are delegated the responsibility of investing and managing Plan assets in accordance with the IPS, Risk Policy, and all other applicable laws and the terms of the applicable investment documents evidencing the Plan's acquisition of an interest in an investment vehicle, and other controlling documents. Investment Managers are responsible for making all investment decisions on a discretionary basis regarding assets placed under their jurisdiction and will be accountable for achieving their investment objectives. Such discretion shall include decisions to buy, hold, and sell investments in amounts and proportions that are reflective of the stated investment mandate.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

Custodian Bank

The Custodian Bank, selected by the Board to act as the principal custodian of assets of the trust, is delegated the responsibility of holding the assets and evidence of interests owned by the Plan in investment vehicles and cash (and equivalents). The Board may authorize the Custodian Bank to invest in temporary short-term fixed income investments both for the investment strategies and as a part of the cash portion of Plan assets. Such investments will be managed in general accordance with short-term fixed income investment guidelines as detailed in the Custodial Agreement. Cash managed for investment strategies shall be considered to be sub-portions of the assets managed by the directing Investment Managers.

Philosophy

An institutional investment program is inherently exposed to many types of risk. This Risk Policy focuses primarily on the investment risks caused by the markets to which the Plan is exposed (e.g. domestic equities, real estate, domestic fixed income, and others). Related risks such as counterparty, geopolitical, and fraudulent or unethical behavior, among others, are not addressed in this Risk Policy.

This Risk Philosophy represents the foundational principles on which the Investment Program is based. Every investment decision should be made with these foundational principles in mind to promote the fulfillment of fiduciary obligations. The statements below set forth the Board's Risk Philosophy, in order of importance:

Investment risk policy should consider the financial health of the sponsor

Contribution volatility (i.e. the volatility of annual contributions made to the Plan by the Sponsor) represents a significant budgetary constraint on the Sponsor's financial planning with important implications for taxpayers. The Investment Program shall, therefore, assume a level of volatility that can be tolerated by the Sponsor in both normal as well as stressed market conditions.

The funded status (i.e. funded ratio), viewed as a general proxy for the health of the Plan, is reviewed on both actuarial and fair value of assets bases. While a higher funded ratio is always preferred, the Investment Program shall not accept a level of risk that for a given probability could cause the funded ratio to fall below the limit identified in Appendix B.

The Plan will manage funding risk in three main ways:

- A. Actuarial review:** The actuary will periodically review the Plan's liabilities
- B. Asset / Liability studies:** The general consultant will periodically perform this study to identify changes in the relationship between assets and liabilities
- C. Asset Allocation:** The Plan will periodically conduct asset allocation studies to ensure:
 1. portfolio diversification
 2. expected portfolio returns over the long-term (i.e. 10 years or more) in combination with projected contributions are sufficient to meet expected liabilities

Volatility and drawdown are the primary measures of investment risk

Because the Plan must satisfy long-term liabilities and receives regular contributions from the Sponsor, the Investment Program invests for the long-term appreciation of assets. It is, therefore, able to withstand short-term volatility spikes without undue impairment of capital. For this reason, long-term volatility (i.e. 8 years or more) is considered the appropriate timeframe. Volatility is forecasted through the Plan's strategic asset allocation and risk reporting processes and is measured and monitored as outlined in Appendix B and C.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

Market corrections due to economic recession, geo-political instability, and other causes have historically proven detrimental to the funded status of the Plan. Drawdown and tail-risk metrics are designed to assess potential investment returns during such periods of market stress. Historical drawdown scenario analysis provides insight into how the portfolio would respond if it were exposed to prior stressed market conditions. Tail-risk analysis provides insight into the probabilities of experiencing a negative investment return with a small (e.g. 5%) probability. These metrics provide insight into how much may be lost during a stressed market environment. Because market corrections are statistically infrequent and typically caused by unforeseen events, neither approach can be used with certainty, but each provides insight into the potential impact a worst-case scenario may represent to the Plan and Sponsor.

Active risk, factor exposures, and liquidity must be monitored

Implementation of any strategic asset allocation introduces deviations between the Plan's actual portfolio and its policy index. While it is generally desired to minimize these differences to achieve efficiency, deviations from the policy index may be desirable for various reasons. To ensure the actual portfolio is appropriately adhering to the policy index, active risk must be measured and monitored through tracking error statistics.

Factor exposures capture the underlying economic drivers supporting asset class returns. While the policy index and actual portfolio are constructed primarily through asset class forecasts, factor exposures provide important insight into the underlying economic drivers supporting the Investment Program. Each security owned within each investment strategy has some exposure to various economic drivers. The Investment Program's total exposure to the economic drivers is, therefore, driven by the exposures inherent in those securities as well as the correlations across the factor exposures. To understand better the Plan's exposure to the economic drivers and anticipate how the Investment Program will perform under various economic environments, factor exposures must be measured and monitored.

In addition to benefit payments, the Plan must meet its obligations to pay its expenses and satisfy capital calls. Generally, these cash outflows are predictable and can be met through the normal administration of the Plan. Under stressed market conditions, however, liquidity within the Investment Program can change significantly and with little advance notice while the Plan must continue to meet its obligations. Liquidity must, therefore, be monitored and measured to ensure that the Plan can continue to meet its financial obligations during periods of market stress without being forced to sell assets at stressed prices.

Monitoring

Reporting processes are designed to provide the Board with the information needed to execute its oversight function. As such, the Board has developed the following monitoring structure.

The Investment Committee, CIO and RC will monitor the Investment Program's risk exposures quarterly. This detailed review process will include security-level exposure analysis of the Investment Program's factor exposures; asset class exposures; tracking error; tail-risk and drawdown scenario analysis, and geographic exposures.

The Board, Staff, and RC will monitor the Investment Program's adherence to this Risk Policy on a quarterly basis. This review process will summarize the detailed reporting used by the Investment Committee and also include the ranges and targets outlined in **Appendix B**.

Management

Aside from liquidity management responsibilities assigned to the CIO in the Plan's IPS, the Board retains full authority and responsibility for ensuring adherence of the Investment Program to this Risk Policy.

The Plan's risk management function is expected to evolve through time. The objective of the risk management function is to ensure the Plan operates within the Board's agreed risk tolerance and limits. The main goals of the risk management function are:

- A.** Identify: risks that will impact the Plan's ability to meet its goals and objectives;

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS (continued)

- B. Estimate the significant risks to which the Plan is exposed;
- C. Manage: risk must be managed and should be commensurate with the rewards;
- D. Communicate: risks must be reported and monitored on a regular basis.

To a large extent, many factors that impact future benefits and contributions are uncontrollable, however, the potential impacts are considered in strategy development. The Plan uses three approaches (actuarial valuation, asset / liability studies, and asset allocation studies, as discussed above) to address and manage risk.

The Board may delegate authority to the CIO and Staff for certain functions as detailed below. Delegation of authority will be coordinated with workflow, compliance and reporting procedures that are clearly defined, reviewed, and approved. The Board shall be notified timely of all investment decisions made by the CIO and their implications to the Plan.

A. Rebalancing

Portfolio rebalancing may occur by adjusting allocations to individual investment strategies or managers or through the use of an overlay provider using derivatives.

B. Relative Risk

While the Board recognizes that the majority of investment risk over the long term is dependent on the asset allocation decision, it recognizes the cost of precisely matching the strategic asset allocation is considerable and not always optimal. In addition to asset class weightings versus policy, annualized tracking error will be used to measure the disparity of returns between the actual positions in the Investment Program compared to the strategic asset allocation. Annualized tracking error, as measured quarterly by the RC, shall adhere to the targets and ranges outlined in **Appendix C**.

IX. INVESTMENT COSTS

The Board members intend to monitor and control investment costs at every level of the San José Police and Fire Department Retirement Plan.

- A. Professional fees will be negotiated whenever possible.
- B. Where appropriate, passive portfolios will be used to minimize management fees and portfolio turnover.
- C. If possible, assets will be transferred in-kind during manager transitions and Plan restructurings to eliminate unnecessary turnover expenses.
- D. Managers will be instructed to minimize brokerage and execution costs.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

Appendix D

DEFINITIONS

Actuarial Assumptions: Assumptions made by the actuary that influence the valuation of liabilities.

Active Risk: Measures the volatility of an investment strategy versus its benchmark.

Concentration Risk: Lack of diversification in exposure to markets or managers.

Confidence Interval: A range of values so defined that there is a specified probability that the value of a parameter lies within it.

Counterparty Risk: The risk that a party in a transaction does not fulfill its contractual obligation. Both sides of a contract are exposed to this risk.

Credit Risk: Also referred to as default risk. This is the risk the borrower fails to repay a loan or meet a contractual obligation.

Currency Risk: The potential loss on the price of an asset due to fluctuating foreign currency exchange rates.

Drawdown: A measure of both returns and time over which an investment experienced a decline in value from a peak to a trough. It is based on actual historical results.

Duration: Measures how long (in years) it takes to be repaid the bond's price by the bond's total cash flows. This measure is used to determine the interest rate sensitivity of the portfolio.

Funded Ratio: The ratio of assets to liabilities. Assets can be defined in terms of the fair value of assets or the actuarial value of assets. Liabilities are defined as all future benefit payments discounted at the actuarial assumed return.

Funding Risk: Also referred to as surplus risk, this is the risk of assets and liabilities not matching.

Inflation Risk: The risk that general prices of goods and services are rising, which erodes the purchasing power of money.

Interest Rate Risk: The risk that an investment will decline in value as a result of a change in interest rates. This risk is measured by its duration.

Investment Risk: The risk associated with investing in capital markets.

Liquidity: Is comprised of both the time required to complete the transaction and the impact that the transaction has on the price of the asset. There are two types of liquidity risk: Market liquidity risk and funding liquidity risk. Market liquidity risk refers to the risk that an asset cannot be sold without loss of value. Funding liquidity risk refers to the risk that the plan will not be able to meet financial obligations as they come due.

Liquidity Coverage Ratio: The ratio of liquidity available to liquidity needs.

Statement of Investment Policy *(continued)*

PENSION - INCLUDES THE 401 (H) INVESTMENTS *(continued)*

Portfolio Construction Engine: A software program relying on mean-variance optimization. Portfolio optimization requires inputs of asset class returns, standard deviations, and correlations in order to develop an output of total portfolio expected returns and standard deviations, which can be compared along with their Sharpe Ratios.

Risk: The uncertainty of an event occurring.

Standard Deviation: The square root of the average squared deviation of the returns from its mean.

Strategic Asset Allocation: The asset classes and weights that are targeted for the policy benchmark.

Tail Risk: Tail-risk measures both the probability and expected returns of a significant loss. When assuming normally distributed returns, tail-risk is the left tail of the return distribution. The normal distribution used for mean-variance optimization underestimates the risk of rare events when markets exhibit fat tails (for example, during the Global Financial Crisis).

Volatility: The standard deviation of returns. Standard deviation (SD) is the square root of the average squared deviation of the returns from its mean.

Statement of Investment Policy

HEALTHCARE - 115 SUBTRUSTS

This investment policy was approved on January 6, 2022. The asset allocation was approved on April 7, 2022.

I. San José Police and Fire Retiree Health Care Trust Fund Goals

The San José Police and Fire Retiree Health Care Trust Fund (the “Fund”) was established to subsidize postretirement healthcare benefits for San José Police and Fire Department Retirement Plan members and their families. The Fund’s assets are structured to provide growth from capital gains and income, while maintaining sufficient liquidity to meet beneficiary payments.

II. Investment Objectives

The investment strategy of the Fund is designed to ensure the prudent investment of Plan assets in such a manner as to provide real growth of assets over time while protecting the value of the assets from undue volatility or risk of loss.

A. Risk Objectives

1. To accept the optimal level of risk required to achieve the Fund’s return objective as stated immediately below.
2. To target total portfolio investment risk consistent with the investment beliefs and strategic goals set forth by the San José Police and Fire Department Retirement Plan Board.
3. To consider the financial health of the Sponsor when assuming investment risks.
4. To use diversification to minimize exposure to company and industry-specific risks in the aggregate investment portfolio.

B. Return Objective

1. In a manner consistent with the goals stated in Section I above, to manage the Fund’s assets as to achieve the highest, reasonably prudent return possible.

III. Investment Constraints

A. Legal and Regulatory

The terms of the Fund are described in the San José Municipal Code.

B. Time Horizon

The Fund will be managed on a going-concern basis. The assets of the Fund will be invested with a long-term time horizon (ten to twenty years or more), consistent with the participant demographics and the purpose of the Fund.

C. Liquidity

The Board members intend to invest only in public markets assets, which are typically liquid on a daily or monthly basis, and in core real estate funds, which are typically liquid within one year.

D. Tax Considerations

The Fund is a tax-exempt entity. Therefore, investments and strategies will be evaluated only on the basis of expected risks and potential returns.

IV. Risk and Return Considerations

The Board members accept the risks associated with investing in the capital markets (market risks), but will minimize wherever possible those risks for which the Fund is unlikely to be compensated (non-market or diversifiable risks).

Statement of Investment Policy *(continued)*

HEALTHCARE - 115 SUBTRUSTS *(continued)*

V. Diversification

The Board members of the San José Police and Fire Department Retirement Plan recognize that an important element of risk control is diversification. Therefore, investments will be allocated across multiple classes of assets, chosen in part for their low correlation of expected returns. Within each asset type, investments will be distributed across many individual holdings, with the intention of further reducing volatility.

The specific degrees of diversification within asset classes will be addressed in each separate account manager's investment guidelines, or in each commingled manager's fund documents.

The purpose of the functional classifications and major asset classes are defined in the language and table below.

A. Functional Sub-portfolios

The investment strategy for the Investment Program employs three functional sub-portfolios to construct the comprehensive asset allocation. The allocation to the sub-portfolios is assessed at least annually and is based on projected capital market assumptions. The Chief Investment Officer ("CIO") shall review the relative size and composition of these sub-portfolios and advise the Investment Committee ("IC") of any necessary revisions to the allocation among the sub-portfolios.

- 1. Growth Sub-portfolio:** The purpose of the Growth Sub-portfolio is to grow invested assets over the long term in order to pay future benefits. This portfolio is characterized by a long investment horizon and can, therefore, accept a higher level of volatility. Assets in this portfolio may be volatile, have reduced liquidity, and derive the bulk of their return from capital appreciation. These assets include public equity. The success of this portfolio will be measured primarily by compounded annual growth rates in conjunction with the annualized standard deviation of returns as the primary measure of risk. Performance evaluation will, therefore, focus on the long-term total risk-adjusted return of the portfolio.
- 2. Low Beta Sub-Portfolio:** The purpose of the Low Beta Sub-portfolio is to ensure that the overall (total portfolio) a) is relatively immune from market fluctuations while providing a source of alpha b) is a source of capital for purchasing undervalued assets in the Growth sub-portfolio, and c) has adequate assets available to pay benefits over an extended timeframe. It will contain cash and cash-like assets such as short-term bonds and other investments that provide fixed, contractual cash flows with a minimum level of credit risk. The Low Beta portfolio is expected to provide a stable offset to the rest of the portfolio during periods of severe market stress and to effectively dampen the market volatility across the entire portfolio. The success of the Low Beta Sub-portfolio will be measured by its ability to offset declines in value in the Growth Sub-portfolio, as well as its ability to provide liquidity during times of market stress.
- 3. Other Sub-Portfolio:** The purpose of the Other Sub-portfolio is to ensure that the overall portfolio is specifically protected against inflation risks while also providing for further diversification. The success of the Other sub-portfolio will be measured by its ability to protect the portfolio from inflation risk while also providing an additional source of return and diversification.

Statement of Investment Policy *(continued)*

HEALTHCARE - 115 SUBTRUSTS *(continued)*

B. Interaction between the Functional Sub-Portfolios

The allocations to the Growth, Low Beta, and Other sub-portfolios will vary over time. When Growth assets are undervalued, the Low Beta Sub-portfolio will act as a source of funds and when Growth assets are overvalued the Low Beta sub-portfolio will act as a use for harvested Growth portfolio returns. The Growth and Other sub-portfolios will be subject to the volatility of the markets in which each functional sub-portfolio invests. In order to reallocate between the functional sub-portfolios, the CIO and the General Consultant will conduct an annual capital review to assess the relative value and risks associated with each asset class and deliver a review of the capital markets to the Board. The Consultant will provide the Board current forward-looking risk and return assumptions for all major asset classes. In conjunction with this review, the CIO will provide a recommendation of how best to allocate assets within each functional sub-portfolio. If necessary, the CIO will recommend changes in target allocations to the underlying asset classes in order to deploy the Investment Program's assets effectively in the upcoming year. While considering changes to the allocation to each functional sub-portfolio, the CIO will view the totality of all functional portfolios, and consider the impact of changes to the overall risk and return profile of the total portfolio.

Public Equity – Growth

The purpose of Public Equity is to provide the Fund exposure to the total return due to equity capital owners, including exposure to capital appreciation from economic growth, while managing volatility relative to the equity market.

Short-Term Investment Grade Bonds – Low Beta

The purpose of Short-Term Investment Grade Bonds is to provide the Fund a return while mitigating risk.

Cash – Low Beta

The purpose of Cash is to maintain sufficient liquidity for Fund benefit payments and expenses.

Core Real Estate – Other

The purpose of Core Real Estate is to produce the Fund income and price appreciation while maintaining a low correlation to both stocks and bonds.

Commodities - Other

The purpose of Commodities is to increase the Fund's portfolio diversification and provide a hedge against unexpected inflation.

Investment Grade Bonds - Other

The purpose of Investment Grade Bonds is to produce returns and income for the Fund by providing exposure to rates and credit risk.

Long-Term Government Bonds - Other

The purpose of Long-term Government Bonds is to provide a positive return in highly stressed market environments, with a low correlation to equity risk.

Statement of Investment Policy *(continued)*

HEALTHCARE - 115 SUBTRUSTS *(continued)*

VI. Asset Allocation Policy

Asset Allocation and Portfolio Construction

- A. The Board recognizes that establishing an appropriate strategic asset allocation portfolio (SAAP) is critical to the long-term success of the investment program, as asset allocation is the single biggest determinant of the expected risk and return of the Fund.
- B. The Policy Benchmark is a weighted average of the underlying benchmarks for each asset class, as outlined in Appendix A.

Asset Allocation Tools & Methods

- A. The SAAP will be re-evaluated annually following the results of the annual actuarial study. A formal asset allocation study will be performed approximately every three years or when a significant market correction occurs. The capital market assumptions (CMA) used in such studies shall be reviewed and updated annually or when the S&P 500 experiences a decrease of more than 20% from peak. The Board shall consult with the general investment consultant in connection with such asset allocation studies and CMA reviews.
- B. Asset allocation studies shall be designed to ensure rigorous and objective analysis, and minimize decision-making bias by:
 1. Requiring the use of a portfolio construction engine (“Engine”); and
 2. Requiring that the Board and IC always focus first on establishing the most reasonable and defensible inputs to the Engine. That is, if the Board is uncomfortable with the results of the Engine, it shall respond by reviewing the reasonableness of the inputs to the Engine, rather than simply modifying the results.
- C. When arriving at the SAAP, asset allocation studies shall include the four basic steps outlined below:
 1. Step 1: Inputs
 - a. For each study, the Board shall approve the inputs to the Engine including:
 - Permitted asset classes (Permitted asset classes for the LCPP shall include only public markets and permitted asset classes for the SAA Portfolio shall include both public and private markets);
 - CMAs; and
 - Material constraints (e.g. maximum allocations to certain asset classes), along with supporting rationale.
 - b. The CIO shall propose the inputs to the IC, with prior input from the Board’s general investment consultant, and work with the investment consultant throughout the process to make subsequent revisions to inputs, based on feedback from the IC.
 - c. The Board, IC, CIO and investment consultant are expected to reach a consensus regarding the above inputs and the Board shall formally approve them. Staff shall document the process by which it arrives at its recommended inputs.
 2. Step 2: Modeling and Analysis

Statement of Investment Policy *(continued)*

HEALTHCARE - 115 SUBTRUSTS *(continued)*

- a. The investment consultant will incorporate the approved inputs into the Engine to be used to identify and analyze potential asset allocation choices for each study and present the results to the CIO.
- b. The Board expects that the Engine will rely on mean-variance optimization (“MVO”).
- c. The Board shall also consider the results of the MVO analysis under additional constraints to ensure adherence with approved risk limits including:
 - Stress testing, including historical scenario analysis and factor-specific testing;
 - Liquidity analysis under normal and stressed conditions; and
 - Cash flow management requirements

3. Step 3: Recommendations

- a. The CIO will present the current asset allocation and a number of reasonable alternatives along the so-called “efficient frontier” for the Board to consider.
- b. In presenting the alternatives, the CIO initially will present only the return / risk characteristics of each alternative and will not reveal the underlying asset class allocations (i.e. “blind” format). This will allow the Board / IC to focus initially on the return/risk implications of each alternative, rather than the underlying asset allocations.
- c. After the Board has engaged in a preliminary discussion and analysis of the alternatives, the underlying asset allocations of each alternative will be revealed for further consideration.
- d. The Board / IC may provide feedback to the CIO and investment consultant, which may require further analysis and a request for revised recommendations for the Board / IC to consider.

4. Step 4: Approvals

- a. The Board / IC will review the final analyses and recommendations from the CIO and general consultant and approve:
 - Strategic Asset Allocation Portfolio weights, targets and ranges (maximum – minimum).

Rebalancing

- A. The CIO shall adhere to the SAAP asset and sub-asset class “targets” approved by the Board and shall rebalance to within the approved range at least quarterly if the actual weights at the sub-asset class levels are not within 10% of the approved target, considering the cost of more frequent rebalancing. For example, if the target allocation for an asset class is 20%, rebalancing will be triggered quarterly when the actual allocation for the asset class deviates by +/- 2% (i.e. 10% x 20%, reaching 18% or 22%). The CIO may use discretion to rebalance to within the approved range at more frequent intervals than quarterly, and when actual weights are within 10% of the approved target, subject to an assessment of market risk, active risk, and transactions costs. When a change to the SAAP is made by the Board, the CIO and the investment team will rebalance to the new target weights as expeditiously as possible, or in tranches if directed by the Board. The CIO shall also use his discretion in rebalancing to the new SAAP in the event that instant liquidation of managers within an asset class may work against the interests of the Plan. Changes to the weights of illiquid asset classes may take

Statement of Investment Policy *(continued)*

HEALTHCARE - 115 SUBTRUSTS *(continued)*

several quarters to implement, and the CIO shall keep the IC apprised of progress toward the new SAAP. Synthetic rebalancing through an overlay provider may also be used when appropriate. The Immunized Cash Flows portfolio is exempt from this rebalancing provision, as it is amortizing by design.

- B. Total Fund active risk (i.e. tracking error) is to be maintained below 3%. While asset class exposures may fall within acceptable capital allocation ranges as noted above, total Fund tracking error is not to exceed this 3% threshold.

VII. Manager Selection, Retention, Evaluation & Termination Policy

Background

- A. The Board has delegated to the CIO the authority to select and terminate all investment managers of the Fund subject to constraints and parameters contained herein. Such authority shall be further subject to Manager Selection, Retention, Evaluation & Termination Procedures (“Procedures”), approved by the CIO, that provide more detailed constraints and parameters.
- B. It is the Board’s intention that the CIO shall have the necessary authority and resources to effectively select, retain, evaluate, and terminate investment managers.
- C. Accordingly, the CIO shall have the authority to:
 - 1. Manage the Investment Personnel of the Plan, including:
 - a. Recommending to the CEO the appointment and duties of all professional, technical, and clerical employees of the Investment Division;
 - b. Directing and supervising all Investment Personnel on a day-to-day basis; and
 - c. Evaluating all Investment Personnel and managing their professional development.
 - 2. Select and terminate investment consultants to assist in the selection, retention, evaluation, and termination of investment managers.
 - a. The CIO may use the services of the general investment consultant appointed by the Board. Alternatively, if the services of the general consultant can be unbundled to separate manager research services, the CIO may select a consultant(s) of his or her choice to carry out manager research services that would otherwise have been included in the general investment consultant scope of services.
 - b. The CIO shall ensure that the total fees and expenses associated with the consultants he or she selects are reasonable and shall provide a report of such fees and expenses to the Investment Committee and the Board on at least a quarterly basis.
 - c. While the CIO shall have the authority to select and terminate investment consultants to assist staff in selecting, retaining, evaluating and terminating investment managers, the Board shall approve all contracts with investment consultants selected by the CIO to ensure such contracts reflect fair and reasonable value for the Plan.
 - 3. Delegation of authority to the CIO to select and terminate investment managers reflects the Board’s desire to:
 - a. Promote efficiency and effectiveness in the manager selection and termination processes;

Statement of Investment Policy *(continued)*

HEALTHCARE - 115 SUBTRUSTS *(continued)*

- b. Focus the Board’s time and attention on investment policy, asset allocation, and oversight, rather than manager selection and termination; and
- c. Establish clear accountability on the part of the CIO and investment staff for manager selection, retention, evaluation, and termination.

General Constraints and Parameters

A. The CIO’s authority to select and terminate investment managers shall be subject to the following general constraints and parameters:

1. Investment managers shall meet the following **minimum qualifications** to be selected to manage any assets of the fund:
 - a. Be **registered as an investment advisor** under the Investment Advisor’s Act of 1940 or comparable legislation, unless the manager represent and warrants that it is exempt from such registration under applicable law.
 - b. Agree to enter into a contract with the Plan requiring them to perform their services consistent with the fiduciary services established under (a) the Investment Advisor’s Act of 1940; (b) California law applicable to fiduciaries of public employee retirement systems, which includes the California State Constitution, Art. XVI sec. 17 and the San José Municipal Code and / or (c) terms and conditions substantially comparable to the foregoing that are satisfactory to the Plan.
2. The nature and size of the manager’s mandate shall be consistent with:
 - a. The asset allocation policy of the Fund;
 - b. Applicable constraints (e.g. **manager or strategy concentrations**) contained in this Investment Policy Statement.
3. Notwithstanding paragraph 2) b) above, the CIO shall not approve the selection of an investment management firm for mandates that exceed the following limits:

Basis *	Description	Strategy Limit ¹
Vehicle	Separately managed accounts (active)	15%
	Commingled funds and SMAs (public, passive)	No limit ²
	Commingled funds (public, active)	15%
	Commingled funds (private strategies)	15% ³
Public Markets	Passive strategies	No limit
	Active strategies	15%

* To be selected, the manager must satisfy the “Vehicle” constraint and the appropriate “Public Markets” or “Private Markets” constraints

** Percentage (%) of total Fund assets

4. When a market movement is the cause of a breach in the above limits, it should be reported to the IC at the earliest of a mutually agreed-upon time during which the Investment Committee could convene with a quorum, or at the next regularly scheduled Investment Committee meeting, along with a report on how the breach was addressed, or a recommendation to address the breach.

¹ Percentage (%) of total Fund assets allowable per investment strategy.

² Rationale: Fund is constrained by the asset allocation. This is the “default” option for investing, and scale determines pricing.

³ For private strategies, limit applies to the capital invested plus future callable commitments.

Basis of Calculation: Time-Weighted Rate of Return

Source: Meketa Investment Group's Quarterly Review Report dated June 30, 2023

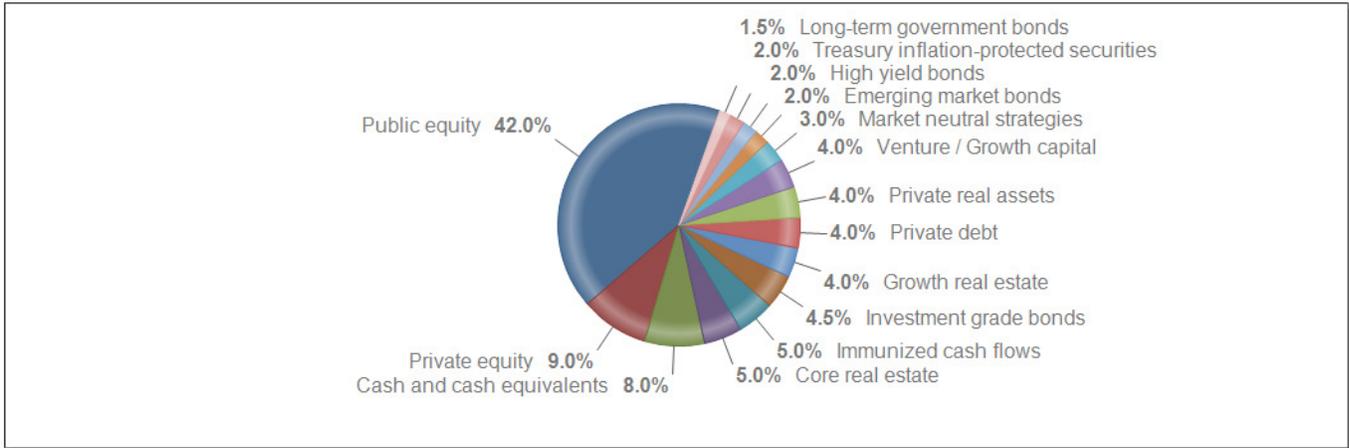

* The Plan's Total Investment Return percentages are unaudited numbers, typically provided by the investment consultant (currently Meketa Investment Group) based on the investment returns calculated by the Plan's custodian bank. In 2023, the Plan discovered that certain investment management fees were invoiced outside of, and not originally included in, the custodian bank's calculation of investment performance, covering the period of June 30, 2015 through June 30, 2023. To address this issue, the Plan engaged Macias Gini & O'Connell LLP to perform specific Agreed-Upon-Procedures ("AUP") to tabulate the invoice management fees for their inclusion in recalculated investment performance figures (as reflected in the AUP Report). The Total Investment Return percentages listed here with an asterisk are based on Macias Gini & O'Connell LLP's recalculated investment performance figures (as reflected in the AUP Report). This represents a more comprehensive total investment return than previously provided by Meketa Investment Group. The AUP Report is included with this ACFR after the "Report on Investment Activity" section on page 90.

The Plan's Total Investment Return percentages are unaudited numbers, typically provided by the investment consultant (currently Meketa Investment Group) based on the investment returns calculated by the Plan's custodian bank. In 2023, the Plan discovered that certain investment management fees were invoiced outside of, and not originally included in, the custodian bank's calculation of investment performance, covering the period of June 30, 2015 through June 30, 2023. To address this issue, the Plan engaged Macias Gini & O'Connell LLP to perform specific Agreed-Upon-Procedures ("AUP") to tabulate the invoice management fees for their inclusion in recalculated investment performance figures (as reflected in the AUP Report). The Total Investment Return percentages listed here with an asterisk are based on Macias Gini & O'Connell LLP's recalculated investment performance figures (as reflected in the AUP Report). This represents a more comprehensive total investment return than previously provided by Meketa Investment Group. The AUP Report is included with this ACFR after the "Report on Investment Activity" section on page 90.

Actuarial Section

Pension Trust and Postemployment Healthcare Trust Funds of the City of San José, California

City of San José
Police and Fire Department Retirement Plan
Annual Comprehensive Financial Report for the Fiscal Years Ended June 30, 2023 and June 30, 2022

September 7, 2023

Board of Administration
City of San José Police and Fire Department Retirement Plan
1737 North 1st Street, Suite 580
San José, CA 95112

Dear Members of the Board:

The purpose of this letter is to provide the certification for the Actuarial Section of the Annual Comprehensive Financial Report (ACFR) for the City of San José Police and Fire Department Retirement Plan (Plan) with respect to pension benefits.

Actuarial Valuation Used for Funding Purposes

Actuarial valuations are performed annually. The most recent actuarial valuation was performed as of June 30, 2022. Please refer to that report for additional information related to the funding of the Plan.

We prepared the following schedules for inclusion in the Actuarial Section of the ACFR based on the June 30, 2022 actuarial valuation.

- Summary of Actuarial Assumptions and Methods
- Schedule of Active Member Valuation Data
- Schedule of Retirees and Beneficiaries Added to and Removed from Rolls
- Analysis of Financial Experience
- Schedule of Funded Liabilities by Type
- Schedule of Funding Progress
- Summary of Plan Provisions

The funding ratios shown in the schedule of funded liabilities by type and the schedule of funding progress exhibits are ratios compared to the funding target and are for the purpose of evaluating funding progress in a budgeting context. These ratios are not appropriate for measuring or assessing the sufficiency of Plan assets to cover the estimated cost of settling the Plan's benefit obligations.

The Board of Administration is responsible for establishing and maintaining the contribution policy for the Plan. The actuarial methods and assumptions used in the actuarial valuation are adopted by the Board of Administration with advice from the actuary. In our opinion, the assumptions and methods used in the actuarial valuation for funding purposes are consistent with applicable Actuarial Standards of Practice. The actuarial cost method and the actuarial assumptions used for funding purposes are the same as those used for financial reporting purposes.

Actuary's Certification Letter - Pension *(continued)*

Board of Administration
September 7, 2023
Page 2

Actuarial Valuation Used for Financial Reporting Purposes

For financial reporting purposes, the Total Pension Liability is based on the June 30, 2022 actuarial valuation updated to the measurement date of June 30, 2023. The Board changed the price inflation assumption used in the June 30, 2022 valuation. This change is reflected effective July 1, 2022 for financial reporting purposes. There were no significant events between the valuation date and the measurement date, so the update was based upon the Total Pension Liability as of the valuation date reflecting the new assumptions and projected to the measurement date with the addition of service cost and interest cost offset by actual benefit payments.

Please refer to our GASB 67/68 report as of June 30, 2023 for additional information related to the financial reporting of the Plan. We prepared the following schedules for inclusion in the Financial Section of the ACFR based on the June 30, 2023, GASB 67/68 report.

- Change in Net Pension Liability
- Sensitivity of Net Pension Liability to Changes in Discount Rate
- Schedule of Changes in Net Pension Liability and Related Ratios
- Notes to the Schedule of Employer Contributions

Reliance on the Information Provided by the Plan and Compliance with ASOPs and GAAP

In preparing our valuations and the schedules for the ACFR, we relied on information (some oral and some written) supplied by the City of San José Office of Retirement Services. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

Future actuarial measurements for funding and financial reporting purposes may differ significantly from the current measurements presented in this ACFR due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and, changes in plan provisions or applicable law.

This letter and the schedules named above have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board as well as applicable laws and regulations. The schedules provided for financial reporting purposes have been prepared in accordance with our understanding of generally accepted accounting principles as promulgated by the GASB. Furthermore, as credentialed actuaries, we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this letter and these exhibits. This letter does not address any contractual or legal issues. We are not attorneys, and our firm does not provide any legal services or advice.

Actuarial Assumptions and Methods

DEFINED BENEFIT PENSION

Actuarial Assumptions

The economic assumptions used in this report were adopted by the Board of Administration at the November 3, 2022 Board meeting, and the demographic assumptions were adopted at the November 4, 2021 Board meeting based on the actuary's input and recommendations from the actuary's experience study covering plan experience through June 30, 2021. Please refer to the experience study report and presentations for both Board meetings for the rationale for each of the assumptions.

1) Discount Rate

6.625% net of investment expenses. The long-term expected return on assets based on Meketa's capital market assumptions for 10-year and 20-year time horizons are 5.90% and 6.90%, respectively.

2) Price Inflation 2.50% per annum.

3) Amortization Payment Growth 2.50% per annum.

4) Wage Inflation

Reflect currently bargained across-the-board increases and 3.00% per annum (0.50% real wage growth) thereafter. For this valuation, Fire members have bargained increases of 3.00% for FYE 2023. The bargaining agreement for Police members has expired.

5) Merit Salary Increase Rate

The following merit component is added to wage inflation, based on an individual member's years of service:

TABLE B-1 MERIT SALARY INCREASES					
Years of Service	Merit / Longevity	Years of Service	Merit / Longevity	Years of Service	Merit / Longevity
0	6.50%	4	5.25%	8	1.00%
1	6.50%	5	4.25%	9	0.80%
2	6.25%	6	2.50%	10 +	0.60%
3	5.75%	7	1.50%		

6) Rates of Retirement

Rates of retirement are based on age and service according to the following Tables B-2, B-3, and B-4. Tier 1 rates only apply when the member is eligible for unreduced benefits. Tier 1 vested terminated members are assumed to retire at age 50 if they have 25 or more years of service or at age 55 if they have less than 25 years of service. Tier 2 vested terminated members are assumed to retire at age 60.

TABLE B-2 TIER 1 RATES OF RETIREMENT BY AGE AND SERVICE				
Age	Police		Fire	
	<30 Years	30+ Years	<30 Years	30+ Years
50	55.0%	100.0%	35.0%	100.0%
51	45.0%	100.0%	35.0%	100.0%
52	40.0%	100.0%	35.0%	100.0%
53 - 54	30.0%	100.0%	35.0%	100.0%
55	30.0%	100.0%	30.0%	100.0%
56	30.0%	100.0%	25.0%	100.0%
57	30.0%	100.0%	20.0%	100.0%
58 - 61	50.0%	100.0%	27.5%	100.0%
62+	100.0%	100.0%	100.0%	100.0%

Actuarial Assumptions and Methods *(continued)*

DEFINED BENEFIT PENSION *(continued)*

TABLE B-3 POLICE TIER 2 RATES OF RETIREMENT BY AGE AND SERVICE				
Age	5 -19 Years	20 -24 Years	25 - 29 Years	30+ Years
50 - 56	2.0%	2.0%	2.0%	5.0%
57 - 59	7.5%	10.0%	20.0%	100.0%
60 - 61	10.0%	20.0%	35.0%	100.0%
62 - 64	25.0%	50.0%	75.0%	100.0%
65+	100.0%	100.0%	100.0%	100.0%

TABLE B-4 FIRE TIER 2 RATES OF RETIREMENT BY AGE AND SERVICE				
Age	5 - 19 Years	20 - 24 Years	25 - 29 Years	30+ Years
50 -56	1.0%	1.0%	1.0%	2.5%
57 - 59	5.0%	7.5%	15.0%	100.0%
60 - 61	7.5%	15.0%	25.0%	100.0%
62 - 64	20.0%	35.0%	50.0%	100.0%
65+	100.0%	100.0%	100.0%	100.0%

7) Rates of Termination

Tier 1 members who terminate with less than 10 years of service and Tier 2 members who terminate with less than 5 years of service are assumed to receive a refund of contributions. For terminating employees who are not assumed to receive a refund, 75% are assumed to subsequently work for a reciprocal employer and receive 3.00% pay increases per year. Termination rates do not apply once retirement rates apply. Rates of termination are shown in the following Table B-5.

TABLE B-5 RATES OF TERMINATION								
Service	Police	Fire	Service	Police	Fire	Service	Police	Fire
0	13.75%	8.50%	7	5.50%	0.80%	14	2.75%	0.50%
1	11.75%	4.00%	8	5.00%	0.70%	15	2.25%	0.50%
2	10.00%	2.75%	9	4.75%	0.60%	16	1.75%	0.50%
3	8.50%	1.75%	10	4.50%	0.50%	17	1.50%	0.50%
4	7.50%	1.25%	11	4.25%	0.50%	18	1.25%	0.50%
5	6.75%	1.00%	12	3.75%	0.50%	19+	1.00%	0.50%
6	6.00%	0.90%	13	3.25%	0.50%			

8) Rates of Disability

For Police, disability rates are equal to the CalPERS police industrial and non-industrial rates for public agencies multiplied by 90% for ages under 50 and 140% for ages 50 and older. For Fire, disability rates are equal to the CalPERS fire industrial and non-industrial rates for public agencies multiplied by 90% for ages under 50 and 180% for ages 50 and older. 100% of disabilities are assumed to be duty related. Sample disability rates of active participants are provided in Table B-6.

TABLE B-6 RATES OF DISABILITY AT SELECTED AGES									
Age	25	30	35	40	45	50	55	60	65
Police	0.16%	0.45%	0.74%	1.03%	1.32%	2.70%	6.88%	8.71%	10.47%
Fire	0.03%	0.08%	0.15%	0.28%	0.50%	5.08%	7.54%	10.77%	14.84%

Actuarial Assumptions and Methods *(continued)*

DEFINED BENEFIT PENSION *(continued)*

9) Family Composition

Percentage married is shown in the following Table B-7. Women are assumed to be three years younger than men.

TABLE B-7 PERCENTAGE MARRIED		
	Gender	Percentage
Percentage	85%	85%

10) Rates of Mortality

Mortality rates for actives, retirees, beneficiaries, terminated vested, and reciprocals are based on the sex-distinct employee and annuitant mortality tables shown below. Future mortality improvements are reflected by applying the SOA MP-2021 projection scale on a generational basis from the base year of 2010. It is assumed that 50% of active deaths are service related.

TABLE B-8 BASE MORTALITY TABLE		
Category	Male	Female
Healthy Retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy retirees
Disabled Retiree	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled retirees
Beneficiaries	1.032 times the 2010 General Member Mortality Table (PubG-2010) for healthy retirees	1.032 times the 2010 General Member Mortality Table (PubG-2010) for healthy retirees
Healthy Non-Annuitant	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy employees	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy employees

11) Administrative Expenses

Based on the 2021 Experience Study, the administrative expense assumption was set to \$1,334 per member for FYE 2022 with annual increases equal to the assumed wage inflation of 3.00%. For FYE 2024, administrative expenses are assumed to equal \$1,415 per member.

Historically, the administrative expenses were assumed to reduce the investment return assumption by 10 basis points which resulted in a higher normal cost. To maintain the same historic division of Tier 1 member and City contributions for administrative expenses for this valuation, members were allocated a portion of the administrative expenses equal to 3/11ths of the difference in normal cost that a 10-basis point reduction in the investment return assumption would cause. Tier 2 members pay 50 percent of administrative expenses.

12) Changes Since Last Valuation

The assumed price inflation and amortization payment growth rate assumptions were increased from 2.25% to 2.50%.

Contribution Allocation Procedure

The contribution allocation procedure primarily consists of an actuarial cost method, an asset smoothing method, and an amortization method as described below. All components of the contribution allocation procedure were established prior to the June 30, 2011 actuarial valuation except as specifically noted below.

Actuarial Assumptions and Methods *(continued)*

DEFINED BENEFIT PENSION (continued)

1) Actuarial Cost Method

The Entry Age actuarial cost method was used for active employees, whereby the normal cost is computed as the level annual percentage of pay required to fund the retirement benefits between each member's date of hire and assumed retirement. The actuarial liability is the difference between the present value of future benefits and the present value of future normal cost. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

2) Asset Valuation Method

For the purposes of determining the employer's contribution, the actuaries use an actuarial value of assets. The asset smoothing method dampens the volatility in asset values that could occur because of the fluctuations in market conditions. Use of an asset smoothing method is consistent with the long-term nature of the actuarial valuation process. Assets are assumed to be used exclusively for the provision of retirement benefits and expenses.

The actuarial value of assets is calculated by recognizing the deviation of actual investment returns compared to the expected return over a five-year period. The dollar amount of the expected return on the fair value of assets is determined using the actual contributions and benefit payments during the year. Any difference between this amount and the actual net investment earnings is considered a gain or loss.

Finally, the actuarial value of assets is restricted to a corridor between 80 percent and 120 percent of the fair value of assets.

3) Amortization Method

Actuarial gains and losses and plan changes are amortized over a 15-year period (16 years for gains and losses prior to June 30, 2016) beginning with the valuation date in which they first arise. Changes in methods and assumptions are amortized over a 20-year period (16 years for changes prior to June 30, 2011) beginning with the valuation date on which they are effective. Amortization payments are assumed to increase 2.50% each year. Some prior amortization periods have been adjusted in prior years to smooth the pattern of future contributions.

Summary of Pension Plan Provisions - Tier 1

1) Membership Requirement

Participation in the Plan is immediate upon the first day of employment with the City of San José as a police officer or fire fighter except for the following:

- a. Independent contractors;
- b. Person in City service principally for training or educational purposes;
- c. Auxiliary or voluntary police officers or fire fighters;
- d. Part-time or non-salaried employees; and
- e. Employees receiving credit in any other retirement or pension system.

Persons eligible for Tier 1 membership include:

- a. Any police officer hired prior to August 4, 2013 or any firefighter hired prior to January 2, 2015.
- b. Any person who was a member of this Plan as an employee of the police department prior to August 4, 2013, and terminated employment with the City, and returned to employment with the City in a position covered by this Plan on or after August 4, 2013.
- c. Any person who was a member of this Plan as an employee of the fire department prior to January 2, 2015, and terminated employment with the City, and returned to employment with the City in a position covered by this Plan on or after January 2, 2015.
- d. Any person accepting employment in the police department or fire department of the City on or after January 1, 2013, who is otherwise eligible for this Plan and who was an active member in another California public retirement system with which this Plan has reciprocity under Part 16, and who has a break in service of less than six months from that covered employment and employment with the City.

2) Final Compensation

The highest 12 consecutive months of compensation in covered employment. However, in determining final compensation, no compensation in the last 12 months of employment that exceeds 108% of compensation during the 12 months immediately preceding the last 12 months shall be considered. Compensation excludes overtime pay and expense allowances.

3) Credited Service

Years of service in covered employment plus service purchased for military leave of absence, Federated service, and unpaid leaves of absence.

4) Contributions

Member:

The amount needed to fund 3/11ths of normal cost (excluding normal cost for reciprocal benefits) calculated under the Entry Age actuarial cost method.

Employer:

The Employer contributes the remaining amounts necessary to fund the Plan in accordance with the Board's funding policy.

5) Service Retirement

Eligibility:

Age 55 with 20 years of service, age 50 with 25 years of service, age 70 with no service requirement, or any age with 30 years of service. Reduced benefits are also available at age 50 with 20 years of service.

Summary of Pension Plan Provisions - Tier 1 *(continued)*

Benefit:

Police: 2.5% of final compensation for each year of credited service up to 20 years plus 4.0% of final compensation for each year of credited service in excess of 20, subject to a maximum of 90% of final compensation.

Fire: For members with less than 20 years of service, 2.5% of final compensation for each year of credited service. For members with 20 or more years of service, 3.0% of final compensation for each year of service, subject to a maximum of 90% of final compensation.

6) Service Connected Disability Retirement

Eligibility:

No age or service requirement.

Benefit:

Police: 50% of final compensation plus 4.0% of final compensation for each year of credited service in excess of 20, subject to a maximum of 90% of final compensation.

Fire: For members with less than 20 years of service, 50% of final compensation. For members with 20 or more years of service, 3.0% of final compensation for each year of service, subject to a maximum of 90% of final compensation.

7) Non-Service Connected Disability Retirement

Eligibility:

Two years of service.

Benefit:

For members with less than 20 years of service, 32% of final compensation plus 1% of final compensation for each year of service in excess of two. For members with 20 or more years of service, the benefit amount equals the amount that would be calculated under the service retirement formula.

8) Non-Service Connected Death

Less than 2 years of service:

Lump sum benefit equal to the greater of accumulated employee contributions with interest or \$1,000.

Active members ineligible for service retirement and disabled retirees on a non-service-connected disability:

Spouse receives 24.0% of final compensation plus 0.75% of final compensation for each year of service in excess of two, subject to a maximum of 37.5% of final compensation. If a member has eligible dependent children, an additional benefit is payable as follows:

1 Child: 25.0% of final compensation

2 Children: 37.5% of final compensation

3+ Children: 50.0% of final compensation

The total benefit payable to a family is limited to 75.0% of final compensation.

If a member does not have a spouse or eligible dependent children, a lump sum benefit equal to the greater of accumulated employee contributions with interest or \$1,000.

Active members eligible for service retirement, service retirees, and disabled retirees on a service-connected disability:

Summary of Pension Plan Provisions - Tier 1 *(continued)*

Spouse receives the greater of 37.5% of final compensation or 50.0% of the member's service retirement benefit, subject to a maximum of 42.5% of final compensation for Police and 45% of final compensation for Fire. Eligible dependent children will receive the same benefit as defined under the non-service connected death for disabled retirees or members ineligible for service retirement. The total benefit payable to a family is limited to 75.0% of final compensation.

If a member does not have an eligible surviving spouse or surviving domestic partner or eligible surviving children, the member's estate receives a lump sum death benefit of \$1,000.

Deferred vested members eligible for service retirement:

Spouse receives 1.875% of final compensation for each year of service, subject to a maximum of 37.5% of final compensation. Eligible dependent children receive the same benefit as defined under the non-service-connected death for active members ineligible for service retirement. The total benefit payable to a family is limited to 75% of final compensation.

If a member does not have a spouse or eligible dependent children, a lump sum benefit is paid to the member's estate equal to the greater of accumulated employee contributions with interest or \$1,000.

9) Service-Connected Death

Spouse receives the greater of 37.5% of final compensation or 50.0% of the member's service retirement benefit, subject to a maximum of 42.5% of final compensation for Police and 45.0% of final compensation for Fire. If a member has eligible dependent children, an additional benefit of 25.0% of final compensation is payable for each eligible dependent child. The total benefit payable to a family is limited to 75.0% of final compensation.

If a member does not have a spouse or eligible dependent children, a lump sum benefit equal to the greater of accumulated employee contributions with interest or \$1,000 is paid to the member's estate.

10) Termination Benefits

Less than 10 years of service:

Lump sum benefit equal to the accumulated employee contributions with interest at 2.0% per annum. For members not covered by the VEBA, the lump sum also includes an amount equal to the employee contributions made to the 401(h) account accumulated with interest at 2% per annum.

10 or more years of credited service:

The amount of the service retirement benefit, payable at the later of age 55 or 20 years from date of membership.

11) Post-retirement Cost-of-Living Benefit

Benefits are increased every February 1 by 3.0%.

12) Changes Since Last Valuation

None.

Summary of Pension Plan Provisions - Tier 2

1) Membership Requirement

Any police officer who is hired by the City on or after August 4, 2013, or any fire fighter who is hired by the City on or after January 2, 2015, and who does not meet the eligibility requirements for Tier 1.

2) Final Compensation

The highest average monthly compensation of the member during any thirty-six consecutive months of covered employment. Compensation excludes overtime pay and expense allowances.

3) Credited Service

One year of service credit is given for 2,080 or more hours of City service rendered in any calendar year. A partial year (fraction with the numerator equal to the hours worked, and the denominator equal to 2,080) is given for each calendar year with less than 2,080 hours worked.

4) Member Contributions

50% of total Tier 2 contributions to the pension plan, including, but not limited to administrative expenses, normal cost and unfunded actuarial liability. Increases in members' unfunded actuarial liability contribution are limited to one-third of one percent of compensation each year. Contributions cannot be less than 50% of normal cost.

5) Unreduced Service Retirement

Eligibility:

Age 57 with five years of service.

Benefit - Member:

2.4% of final compensation for each year of credited service up to 20 years, plus 3.0% of final compensation for each year of credited service between 20 years and 25 years, plus 3.4% of final compensation for each year of credited service in excess of 25 years, subject to a maximum of 80.0% of final compensation.

Benefit - Survivor:

50% joint and survivor annuity.

6) Early Service Retirement

Eligibility:

Age 50 with five years of service.

Benefit - Member:

Reduced 7% per year for each year between age 57 and the member's age at retirement.

7) Service-Connected Disability Retirement

Eligibility:

No age or service requirement.

Benefit - Member:

The greater of:

- Monthly benefit equivalent to 50% of final compensation;
- The service retirement benefit, if eligible for service retirement;
- A service retirement benefit actuarially reduced from age 50, if not eligible for service retirement.

Summary of Pension Plan Provisions - Tier 2 *(continued)*

8) Non-Service Connected Disability Retirement

Eligibility:

Five years of service.

Benefit - Member:

1.8% of final compensation for each year of credited service if less than age 50, or the service pension benefit if older than age 50.

9) Death Before Retirement

If death occurs before retirement eligibility is reached and after two years of service:

Monthly benefit equal to 24% of final compensation plus 0.75% of final compensation for each year of service in excess of two, up to a maximum of 37.5% of final compensation.

If death occurs after retirement eligibility is reached:

Benefit equivalent to what the employee would have received if retired at the time of death.

Employees killed in the line of duty:

Monthly benefit equal to the greater of:

- 37.5% of final compensation or
- 50.0% of what the employee would have received if retired at the time of death.

10) Withdrawal Benefits

Less than five years of credited service:

Lump sum benefit equal to the accumulated employee contributions with interest.

Five or more years of credited service:

The amount of the service retirement benefit, actuarially reduced for early retirement, and payable when retirement eligibility is reached.

11) Benefit Forms

Retiree may choose an optional settlement at retirement that reduces their allowance to provide a higher survivorship allowance to their spouse / domestic partner.

12) Post-retirement Cost-of-Living Benefit

Benefits are increased every February 1 by the change in the December CPI-U for San José-San Francisco-Oakland, subject to a cap of 2.0%. The first COLA after retirement shall be prorated based on the number of months retired.

13) Changes Since Last Valuation

There have been no changes in Plan provisions since the last valuation.

September 15, 2023

Board of Administration
City of San José Police and Fire Department Retirement Plan
1737 North 1st Street, Suite 580
San José, CA 95112

Dear Members of the Board:

The purpose of this letter is to provide the certification for the Actuarial Section of the Annual Comprehensive Financial Report (ACFR) for the City of San José Police and Fire Department Retirement Plan with respect to Other Postemployment Benefits (OPEB) provided through the City of San José Police Department Postemployment Healthcare Plan (“Plan”).

Actuarial Valuation Used for Funding Purposes

Actuarial valuations are performed annually, and the most recent actuarial valuation was performed as of June 30, 2022. Please refer to that report for additional information related to the funding of the Plan.

We prepared the following schedules for inclusion in the Actuarial Section of the ACFR based on the June 30, 2022 actuarial valuation.

- Summary of Actuarial Assumptions and Methods
- Schedule of Active Member Valuation Data
- Schedule of Retirees and Beneficiaries Added to and Removed from Rolls
- Member Benefit Coverage Information
- Analysis of Financial Experience
- Schedule of Funding Progress
- Summary of Key Substantive Plan Provisions

The funding ratios shown in the member benefit coverage information and the schedule of funding progress exhibits are ratios compared to the funding target and are for the purpose of evaluating funding progress in a budgeting context. These ratios are not appropriate for measuring or assessing the sufficiency of plan assets to cover the estimated cost of settling the plan’s benefit obligations.

Historically, member and City contributions to the plan have been negotiated through collective bargaining and have not been actuarially determined. With the implementation of Measure F, member contributions are fixed at 8.0% of pay; the City’s contribution toward the explicit subsidy is actuarially determined; and, the City also pays the implicit subsidy on a pay-as-you-go basis as a part of active health premiums. In addition, the City has the option to limit its contribution for the explicit subsidy to 11% of the total Police and Fire payroll.

Actuary's Certification Letter - Police OPEB *(continued)*

Board of Administration
September 15, 2023
Page 2

The actuarial methods and assumptions used in the actuarial valuation are adopted by the Board of Administration with advice from the actuary. In our opinion, the assumptions and methods used in the actuarial valuation for funding purposes are consistent with applicable Actuarial Standards of Practice. The actuarial cost method and the actuarial assumptions used for funding purposes are the same as those used for financial reporting purposes.

Actuarial Valuation Used for Financial Reporting Purposes

For financial reporting purposes, the Total OPEB Liability is based on the June 30, 2022 actuarial valuation updated to the measurement date of June 30, 2023. The Board changed some economic and demographic assumptions for the June 30, 2022 valuation. These changes are detailed in the actuarial assumptions and methods attachment of this letter and are reflected effective July 1, 2022 for financial reporting purposes. Consequently, the update was based upon the Total OPEB Liability as of the valuation date reflecting the new assumptions and projected to the measurement date with the addition of service cost and interest cost offset by actual benefit payments.

Please refer to our GASB 74/75 report as of June 30, 2023 for additional information related to the financial reporting of the Plan. We prepared the following schedules for inclusion in the Financial Section of the ACFR as shown in the June 30, 2023, GASB 74/75 report.

- Change in Net OPEB Liability
- Sensitivity of Net OPEB Liability to Changes in Discount Rate and Healthcare Cost Trend Rates
- Schedule of Changes in Net OPEB Liability and Related Ratios
- Schedule of Employer Contributions

Reliance on the Information Provided by the System and Compliance with GAAP

In preparing our valuations and the schedules for the ACFR, we relied on information (some oral and some written) supplied by the City of San José Office of Retirement Services. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

Future actuarial measurements for funding and financial reporting purposes may differ significantly from the current measurements presented in this ACFR letter due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and, changes in plan provisions or applicable law.

This letter and the schedules named above have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of

Actuary's Certification Letter - Police OPEB *(continued)*

Actuarial Assumptions and Methods

POLICE POSTEMPLOYMENT HEALTHCARE

Economic Assumptions

The expected return on Plan assets and per person cost trend assumptions shown below were adopted by the Board of Administration with the actuary's input at the November 3, 2022 Board meeting. Please refer to the presentation for that meeting for details, including the rationale for each assumption.

1) Expected Return on Plan Assets

6.00% per year. The Board expects a long-term rate of return of 6.3% based on Meketa's 20-year capital market assumptions and the Plan's current investment policy.

2) Per Person Cost Trends

Medical trends were developed using the 2022 Society of Actuaries Long-run Medical Cost Trend Model with the following parameters:

<i>Initial trend rate:</i> Non-Medicare Eligible:	8.00%	Medicare Eligible:	4.00%
<i>Inflation:</i>	2.50%	<i>Real GDP per Capita:</i>	1.40%
<i>Excess Medical Cost Growth:</i>	1.00%	<i>Expected GDP Share in 2031:</i>	19.60%
<i>Resistance Point:</i>	21.00%	<i>Year limited to GDP growth:</i>	2075

POLICE DEPARTMENT - ANNUAL INCREASE %

¹ Varies by plan

The table above shows the trend increases on a fiscal year basis; premium rates change on a calendar year basis. For the fiscal year beginning July 1, 2023, the trend was developed using actual calendar year 2023 premiums and a trend assumption for calendar year 2024. The trend factors vary by plan as shown on the table on the next page.

Actuarial Assumptions and Methods *(continued)*

POLICE POSTEMPLOYMENT HEALTHCARE *(continued)*

Deductibles, Co-payments, Out-of-Pocket Maximums, and Annual Maximum (where applicable) are assumed to increase at the below trend rates.

FY BEGINNING 2023 TREND					
Pre-Medicare		Medicare		Dental	
Kaiser Plans	6.65%	Kaiser Plan	(3.82)%	HMO Plan	1.76%
Anthem Plans	10.93%	Anthem HMO Plan	4.55%	PPO Plan	11.19%
		Anthem PPO Plan	4.55%		

3) Changes Since Last Valuation

The per-person cost trends were updated.

Demographic Assumptions

The OPEB assumptions were adopted by the Board of Administration at the November 3, 2022 Board meeting based on the actuary's recommendations. The demographic assumptions shared with the pension plan shown below were adopted at the November 4, 2021 Board meeting based on recommendations from the actuary's experience study covering Plan experience through June 30, 2021. Please refer to the full experience study report for details, including the rationale for each assumption.

1) Salary Increase Rate

Wage inflation component: Reflect currently bargained across-the-board increases and 3.00% per annum (0.50% real wage growth) thereafter. For this valuation, the bargaining agreement for Police members has expired. The following merit component is added to wage inflation, based on an individual member's years of service.

POLICE TIER 1 - MERIT SALARY INCREASES					
Years of Service	Merit / Longevity	Years of Service	Merit / Longevity	Years of Service	Merit / Longevity
0	6.50%	4	5.25%	8	1.00%
1	6.50%	5	4.25%	9	0.80%
2	6.25%	6	2.50%	10+	0.60%
3	5.75%	7	1.50%		

2) Administrative Expenses

For FYE 2024, trust administrative expenses are assumed to equal \$42 per full benefit member and are assumed to increase at the wage inflation assumption of 3.00% per annum.

3) Retirement Rates

Rates of retirement are based on age and service according to following tables. Tier 1 rates only apply when the member is eligible for unreduced pension benefits. Tier 1 vested terminated members are assumed to retire at age 50 if they have 25 or more years of service or at age 55 if they have less than 25 years of service. Tier 2 vested terminated members are assumed to retire at age 60.

POLICE TIER 1 - RATES OF RETIREMENT BY AGE AND SERVICE							
Age	50	51	52	53 - 55	56 - 57	58 - 61	62+
<30 years	55.0%	45.0%	40.0%	30.0%	30.0%	50.0%	100.0%
30+ years	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Actuarial Assumptions and Methods *(continued)*

POLICE POSTEMPLOYMENT HEALTHCARE *(continued)*

POLICE TIER 2 - RATES OF RETIREMENT BY AGE AND SERVICE					
Age	50 - 56	57 - 59	60 - 61	62 - 64	65+
5 - 19 years	2.0%	7.5%	10.0%	25.0%	100.0%
20 - 24 years	2.0%	10.0%	20.0%	50.0%	100.0%
25 - 29 years	2.0%	20.0%	35.0%	75.0%	100.0%
30+ years	5.0%	100.0%	100.0%	100.0%	100.0%

4) Rates of Termination

Termination rates do not apply once a member is eligible for unreduced retirement. Sample rates of refund / termination are shown in the following table.

POLICE DEPARTMENT - RATES OF TERMINATION							
Service	Service	Service	Service	Service	Service	Service	Service
0	13.75%	5	6.75%	10	4.50%	15	2.25%
1	11.75%	6	6.00%	11	4.25%	16	1.75%
2	10.00%	7	5.50%	12	3.75%	17	1.50%
3	8.50%	8	5.00%	13	3.25%	18	1.25%
4	7.50%	9	4.75%	14	2.75%	19+	1.00%

5) Rates of Mortality

Mortality rates for actives, retirees, beneficiaries, terminated vested and reciprocals are based on the sex-distinct employee and annuitant mortality tables shown below. Future mortality improvements are reflected by applying the SOA MP-2021 projection scale on a generational basis from the base year of 2010.

POLICE DEPARTMENT - BASE MORTALITY TABLE		
Category	Male	Female
Healthy Retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy retirees
Disabled Retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled retirees
Beneficiaries	1.032 times the 2010 Public General Above Median Income Mortality Table (Pub(g)-2010(A)) for healthy retirees	1.032 times the 2010 Public General Above Median Income Mortality Table (Pub(g)-2010(A)) for healthy retirees
Healthy Non-Annuitant	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy employees	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy employees

6) Disability Rates

Police disability rates are equal to the CalPERS police industrial and non-industrial rates for public agencies multiplied by 90% for ages under 50 and 140% for ages 50 and older. 100% of disabilities are assumed to be duty related. Sample disability rates of active participants are provided in the following table:

POLICE DEPARTMENT - RATES OF DISABILITY AT SELECTED AGES									
Age	25	30	35	40	45	50	55	60	65
Police	0.16%	0.45%	0.74%	1.03%	1.32%	2.70%	6.88%	8.71%	10.47%

7) Percent of Retirees Electing Coverage Versus In-Lieu Credits

Upon retirement, members are assumed to elect coverage or enter the In-Lieu credit program according to the following table.

POLICE DEPARTMENT - FUTURE RETIREE PARTICIPATION		
	Coverage	In-Lieu
Active members	70%	30%
Terminated vested members	50%	50%

Actuarial Assumptions and Methods *(continued)*

POLICE POSTEMPLOYMENT HEALTHCARE *(continued)*

8) Dependent Coverage Election

100% of members eligible for dental are assumed to elect spousal coverage. Upon retirement, members who elect coverage are assumed to cover dependents according to the following table.

POLICE DEPARTMENT - ASSUMED FUTURE RETIREE TIER ELECTIONS				
Coverage Tier	Pre-Medicare		Medicare	
	Male	Female	Male	Female
Retiree only	18%	52%	25%	75%
Retiree and children	7%	23%	0%	0%
Retiree and spouse	32%	15%	75%	25%
Retiree and family	43%	10%	0%	0%

9) In-Lieu Assumptions

Members who elect to receive the In-Lieu credits are assumed to remain in the In-Lieu credit program for five years, after which they are assumed to elect coverage and use their In-Lieu credits. The amount of the In-Lieu credit is 25% of the subsidy for the tier of coverage for which the retiree qualifies. Future retiree medical tier qualification assumptions are provided in the following table.

POLICE DEPARTMENT - ASSUMED FUTURE RETIREE IN-LIEU CREDIT TIER				
Coverage Tier	Pre-Medicare		Medicare	
	Male	Female	Male	Female
Retiree only	22%	22%	40%	40%
Retiree and children	0%	0%	0%	0%
Retiree and spouse	23%	23%	60%	60%
Retiree and family	55%	55%	0%	0%

10) Health Plan Election

Retirees who are not yet age 65 are assumed to be eligible for Medicare when they reach age 65 and are assumed to enroll in the Medicare-eligible plan corresponding to their current pre-Medicare plan election. Future retirees are assumed to elect plans in the proportion shown in the following table.

POLICE DEPARTMENT - ASSUMED PLAN ELECTIONS FOR FUTURE RETIREES ¹			
Pre-Medicare Medical Plans	% Electing	Medicare-Eligible Medical Plans	% Electing
Kaiser DHMO	4%	Kaiser Senior Advantage	43%
Kaiser \$25 co-pay	62%	Anthem Medicare HMO	1%
Kaiser HDHP	6%	Anthem Medicare PPO	56%
Anthem DHMO	2%		
Anthem Select \$20 co-pay	8%		
Anthem Traditional \$20 co-pay	3%		
Anthem HDHP PPO	7%	Dental Plans (All Retirees)	
Anthem Select PPO	6%	Delta Dental PPO	99%
Anthem Classic PPO	2%	DeltaCare HMO	1%

¹Eligible for coverage and elect coverage

11) Voluntary Employees' Beneficiary Association Balance Drawdown

Members are assumed to draw down their VEBA balances by the blended active and retiree member plus spouse premium, without factoring in the lowest cost premium, and increased by a factor of 1.5 to estimate the adjustment from a blended active and retiree premium to a retiree only premium.

Actuarial Assumptions and Methods *(continued)*

POLICE POSTEMPLOYMENT HEALTHCARE *(continued)*

12) Married Percentage

POLICE DEPARTMENT - PERCENTAGE MARRIED		
	Males	Females
Percentage	85%	85%

13) Dependent Age

For current retirees, actual spouse date of birth was used when available. For future retirees, husbands are assumed to be three years older than their wives.

14) Changes Since Last Valuation

Plan elections assumptions and the administrative expense assumption were updated.

Claim and Health Plan Benefit Expense Assumptions

The claim and expense assumptions shown below were adopted by the Board of Administration at the November 3, 2022 Board meeting based upon the actuary's recommendations.

The claims costs are based on the fully insured premiums charged to the City for the active and retiree population in 2022 and 2023. For non-Medicare adults, the premiums for each coverage tier (retiree only, retiree plus spouse, retiree plus child(ren) and retiree plus family) were blended based on enrollment data for the 2022 calendar year. The same process was used for Medicare adults, except only Medicare-eligible retirees were included. The resulting per person per month (PPPM) cost was then adjusted using age curves. The pre-Medicare adult claims curves were then loaded for the cost of children; the load for children decreases by retiree age since older retirees have fewer children. The impact of children on Medicare costs was assumed to be de minimis. All claims costs are developed jointly for the Federated, Police, and Fire Postemployment Healthcare Plans of the City of San José but the load for children for Police and Fire was developed separately from the load for Federated.

The Inflation Reduction Act of 2022 (the Act) contains provisions that may impact the cost of benefits provided to Medicare eligible retirees. The Act provides for changes that could reduce costs and changes that could increase costs. Implementing regulations and market responses are likely to affect the net impact. Based on information currently available, the actuary doesn't expect the Act to have a material impact on costs. However, the actuary may adjust the assumptions in the future as more information emerges.

1) Average Annual Claims and Expense Assumptions

The following claim and expense assumptions were developed as of July 1, 2022 based on the premiums for 2022 and 2023. The explicit subsidy amount (100% of the premium for the lowest cost health plan available to active City employees) is assumed to grow based on the Pre-Medicare cost trend rates.

Actuarial Assumptions and Methods *(continued)*

POLICE POSTEMPLOYMENT HEALTHCARE (continued)

The following tables show the claims costs for each medical plan as of the valuation date:

POLICE DEPARTMENT - SAMPLE CLAIMS COSTS - NON-MEDICARE ELIGIBLE

Age	Unisex	
All	\$	622.79

2) Medicare Part D Subsidy

Per GASB guidance, the Part D Subsidy has not been reflected in this valuation.

3) Medicare Part B

All Medicare eligible retirees are assumed to participate in Medicare Part B.

4) Medicare Eligibility

All retirees who turn age 65 are assumed to be eligible for Medicare.

5) Annual Limits

Assumed to increase at the same rate as trend.

6) Lifetime Maximums

Are not assumed to have any financial impact.

7) Geography

Implicitly assumed to remain the same as current retirees.

8) Retiree Contributions

Retirees pay the difference between the actual premium for the elected medical plan and the lowest cost medical plan available to active members, if the retiree is eligible to receive the explicit subsidy. No retiree contributions are required for dental.

9) Changes Since Last Valuation

All claims costs were updated to reflect the changes in plan premiums and the populations covered.

Actuarial Assumptions and Methods *(continued)*

POLICE POSTEMPLOYMENT HEALTHCARE (continued)

Contribution Allocation Procedure

The contribution allocation procedure primarily consists of an actuarial cost method, an asset smoothing method, and an amortization method as described below.

1) Actuarial Cost Method

The Entry Age actuarial cost method was used for active employees, whereby the normal cost is computed as the level annual percentage of pay required to fund the retirement benefits between each member's date of hire and assumed retirement. The actuarial liability is the difference between the present value of future benefits and the present value of future normal costs. Or, equivalently, it is the accumulation of normal costs for all periods prior to the valuation date. The normal cost and actuarial liability are calculated on an individual basis. The sum of the individual amounts is the normal cost and actuarial liability for the Plan. The actuarial liability for the Plan represents the target amount of assets the Plan should have as of the valuation date according to the actuarial cost method.

2) Asset Valuation Method

The actuarial value of assets equals the fair value of assets.

3) Amortization Method

The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets. The unfunded actuarial liability as of June 30, 2017 was amortized as a level percent of payroll over a closed 25-year period. All future amortization bases will be amortized over 25-year periods with a 3-year phase-in and phase-out.

4) Contributions

The City will contribute the annual implicit subsidy as part of active employee health premiums and will prefund the explicit subsidy based on the normal cost, administrative expenses, and the amortization payment described above less expected employee contributions. The City has the option to limit its contribution to no more than 11.0% of total payroll.

Active members that are eligible for full benefits will contribute 8.0% of pay.

5) Changes Since Last Valuation

None.

POLICE POSTEMPLOYMENT HEALTHCARE *(continued)*

The schedule of funding progress compares the assets used for funding purposes to the comparable liabilities to determine how well the Plan is funded and how this status has changed over the past several years. The actuarial liability is compared to the actuarial value of assets to determine the funding ratio. Since the June 30, 2017 valuation, the actuarial value of assets is equal to the fair value of assets.

Summary of Key Substantive Plan Provisions

POLICE POSTEMPLOYMENT HEALTHCARE

Eligibility

Employees hired before July 2013 that did not elect to opt-in to the Voluntary Employees' Beneficiary Association (VEBA).

Medical/Dental

Employees who retire (include deferred vested members) with at least 15 years of service with the City ("OPEB benefit service"), or with a monthly pension equal to at least 37.5% of final compensation, are eligible to elect medical coverage upon retirement.

Tier 1 employees (hired before August 4, 2013) are eligible for unreduced service retirement at age 55 with 20 years of service, age 50 with 25 years of service, age 70 with no service requirement, or any age with 30 years of service. Reduced service retirement is available at age 50 with 20 years of service. Tier 2 employees (hired on or after August 4, 2013) are eligible for unreduced service retirement at age 60 with 10 years of service or reduced service retirement at age 50 with 10 years of service. Service credited through reciprocity agreements counts towards an employee's required service to retire, but only service with the City counts towards the required years of service to receive OPEB benefits.

Employees who become disabled with at least 15 years of service or have a monthly pension equal to at least 37.5% of final compensation are eligible to elect medical coverage upon retirement.

Spouses or domestic partners of retired members are allowed to participate if they were enrolled in the City's medical plan at the time of the member's retirement. Dependent children are eligible to receive coverage until the age of 26.

Surviving spouses / domestic partners / children of deceased members are eligible for coverage if the following conditions are met:

- 1) The employee has 15 years of service at time of death or is entitled to a monthly pension of at least 37.5% of final compensation; and,
- 2) Both the member and the survivors were enrolled in the active medical plan immediately before death; and,
- 3) The survivor will receive a monthly pension benefit.

Employees who separate from service after July 5, 1992 with 20 years of service, leaving contributions in the retirement Plan, are eligible to elect medical and/or dental coverage upon retirement.

Benefits for Retirees

Medical:

The Plan pays 100% of the premium for the lowest cost health plan available to active City employees. The member pays the difference, if another plan is elected.

To the extent that the elected plan premium is less than the maximum subsidy amount, Medicare-eligible retirees receive reimbursement of Medicare Part B premiums for themselves and their covered spouse, if applicable.

Dental:

The Plan pays 100% of the dental insurance premiums.

Cost Sharing Provisions

It is assumed for the purpose of this valuation that the City of San José will in the future maintain a consistent level of cost sharing for benefits with the retirees. This may be achieved by adjusting benefit provisions, contributions, or both.

CATASTROPHIC DISABILITY HEALTHCARE PROGRAM

Eligibility: Employees hired after June 2013 or employees who elected to opt-in to the Voluntary Employees' Beneficiary Association (VEBA).

Contributions: Employees are required to make mandatory contributions into the VEBA on a pre-tax basis.

EMPLOYEE GROUP	VEBA CONTRIBUTION RATE
Tier 1	5.0%
Tier 2	4.0%

Medical: VEBA funds can be used to reimburse members for eligible healthcare expenses. VEBA members on service-connected disability will receive benefits from the Postemployment Healthcare Plan up to age 65 once VEBA funds exhausted.

September 15, 2023

Board of Administration
City of San José Police and Fire Department Retirement Plan
1737 North 1st Street, Suite 580
San José, CA 95112

Dear Members of the Board:

The purpose of this letter is to provide the certification for the Actuarial Section of the Annual Comprehensive Financial Report (ACFR) for the City of San José Police and Fire Department Retirement Plan with respect to Other Postemployment Benefits (OPEB) provided through the City of San José Fire Department Postemployment Healthcare Plan (“Plan”).

Actuarial Valuation Used for Funding Purposes

Actuarial valuations are performed annually, and the most recent actuarial valuation was performed as of June 30, 2022. Please refer to that report for additional information related to the funding of the Plan.

We prepared the following schedules for inclusion in the Actuarial Section of the ACFR based on the June 30, 2022 actuarial valuation.

- Summary of Actuarial Assumptions and Methods
- Schedule of Active Member Valuation Data
- Schedule of Retirees and Beneficiaries Added to and Removed from Rolls
- Member Benefit Coverage Information
- Analysis of Financial Experience
- Schedule of Funding Progress
- Summary of Key Substantive Plan Provisions

The funding ratios shown in the member benefit coverage information and the schedule of funding progress exhibits are ratios compared to the funding target and are for the purpose of evaluating funding progress in a budgeting context. These ratios are not appropriate for measuring or assessing the sufficiency of plan assets to cover the estimated cost of settling the plan’s benefit obligations.

Historically, member and City contributions to the plan have been negotiated through collective bargaining and have not been actuarially determined. With the implementation of Measure F, member contributions are fixed at 8.0% of pay; the City’s contribution toward the explicit subsidy is actuarially determined; and, the City also pays the implicit subsidy on a pay-as-you-go basis as a part of active health premiums. In addition, the City has the option to limit its contribution for the explicit subsidy to 11% of the total Police and Fire payroll.

Board of Administration
September 15, 2023
Page 2

The actuarial methods and assumptions used in the actuarial valuation are adopted by the Board of Administration with advice from the actuary. In our opinion, the assumptions and methods used in the actuarial valuation for funding purposes are consistent with applicable Actuarial Standards of Practice. The actuarial cost method and the actuarial assumptions used for funding purposes are the same as those used for financial reporting purposes.

Actuarial Valuation Used for Financial Reporting Purposes

For financial reporting purposes, the Total OPEB Liability is based on the June 30, 2022 actuarial valuation updated to the measurement date of June 30, 2023. The Board changed some economic and demographic assumptions for the June 30, 2022 valuation. These changes are detailed in the actuarial assumptions and methods attachment of this letter and are reflected effective July 1, 2022 for financial reporting purposes. Consequently, the update was based upon the Total OPEB Liability as of the valuation date reflecting the new assumptions and projected to the measurement date with the addition of service cost and interest cost offset by actual benefit payments.

Please refer to our GASB 74/75 report as of June 30, 2023 for additional information related to the financial reporting of the Plan. We prepared the following schedules for inclusion in the Financial Section of the ACFR as shown in the June 30, 2023, GASB 74/75 report.

- Change in Net OPEB Liability
- Sensitivity of Net OPEB Liability to Changes in Discount Rate and Healthcare Cost Trend Rates
- Schedule of Changes in Net OPEB Liability and Related Ratios
- Schedule of Employer Contributions

Reliance on the Information Provided by the System and Compliance with GAAP

In preparing our valuations and the schedules for the ACFR, we relied on information (some oral and some written) supplied by the City of San José Office of Retirement Services. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

Future actuarial measurements for funding and financial reporting purposes may differ significantly from the current measurements presented in this ACFR letter due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and, changes in plan provisions or applicable law.

This letter and the schedules named above have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of

Actuarial Assumptions and Methods

FIRE POSTEMPLOYMENT HEALTHCARE

Economic Assumptions

The expected return on Plan assets and per person cost trend assumptions shown below were adopted by the Board of Administration with the actuary's input at the November 3, 2022 Board meeting. Please refer to the presentation for that meeting for details, including the rationale for each assumption.

1) Expected Return on Plan Assets

6.00% per year. The Board expects a long-term rate of return of 6.3% based on Meketa's 20-year capital market assumptions and the Plan's current investment policy.

2) Per Person Cost Trends

Medical trends were developed using the 2022 Society of Actuaries Long-run Medical Cost Trend Model with the following parameters:

<i>Initial trend rate:</i> Non-Medicare Eligible:	8.00%	Medicare Eligible:	4.00%
<i>Inflation:</i>	2.50%	<i>Real GDP per Capita:</i>	1.40%
<i>Excess Medical Cost Growth:</i>	1.00%	<i>Expected GDP Share in 2031:</i>	19.60%
<i>Resistance Point:</i>	21.00%	<i>Year limited to GDP growth:</i>	2075

FIRE DEPARTMENT - ANNUAL INCREASE %

¹ Varies by plan

The table above shows the trend increases on a fiscal year basis; premium rates change on a calendar year basis. For the fiscal year beginning July 1, 2023, the trend was developed using actual calendar year 2023 premiums and a trend assumption for calendar year 2024. The trend factors vary by plan as shown in the table on the next page.

Actuarial Assumptions and Methods *(continued)*

FIRE POSTEMPLOYMENT HEALTHCARE *(continued)*

Deductibles, Co-payments, Out-of-Pocket Maximums, and Annual Maximum (where applicable) are assumed to increase at the below trend rates.

FY BEGINNING 2023 TREND					
Pre-Medicare		Medicare		Dental	
Kaiser Plans	6.65%	Kaiser Plan	(3.82)%	HMO Plan	1.76%
Anthem Plans	10.93%	Anthem HMO Plan	4.55%	PPO Plan	11.19%
		Anthem PPO Plan	4.55%		

3) Changes Since Last Valuation

The per-person cost trends were updated.

Demographic Assumptions

The OPEB assumptions were adopted by the Board of Administration at the November 3, 2022 Board meeting based on the actuary's recommendations. The demographic assumptions shared with the pension plan shown below were adopted at the November 4, 2021 Board meeting based on recommendations from the actuary's experience study covering Plan experience through June 30, 2021. Please refer to the full experience study report for details, including the rationale for each assumption.

1) Salary Increase Rate

Wage inflation component: Reflect currently bargained across-the-board increases and 3.00% per annum (0.50% real wage growth) thereafter. For this valuation, Fire members have bargained increases of 3.00% for FYE 2023. The following merit component is added to wage inflation, based on an individual member's years of service:

FIRE DEPARTMENT - MERIT SALARY INCREASE					
Years of Service	Merit / Longevity	Years of Service	Merit / Longevity	Years of Service	Merit / Longevity
0	6.50%	4	5.25%	8	1.00%
1	6.50%	5	4.25%	9	0.80%
2	6.25%	6	2.50%	10+	0.60%
3	5.75%	7	1.50%		

2) Administrative Expenses

For FYE 2024, trust administrative expenses are assumed to equal \$42 per full benefit member and are assumed to increase at the wage inflation assumption of 3.00% per annum.

3) Retirement Rates

Rates of retirement are based on age and service according to the following tables. Tier 1 rates only apply when the member is eligible for unreduced pension benefits. Tier 1 vested terminated members are assumed to retire at age 50 if they have 25 or more years of service or at age 55 if they have less than 25 years of service. Tier 2 terminated vested members are assumed to retire at age 60.

FIRE DEPARTMENT TIER 1 - RATES OF RETIREMENT BY AGE AND SERVICE							
Age	50	51-54	55	56	57	58-61	62+
<30 years	35.0%	35.0%	30.0%	25.0%	20.0%	27.5%	100.0%
30+ years	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Actuarial Assumptions and Methods *(continued)*

FIRE POSTEMPLOYMENT HEALTHCARE *(continued)*

FIRE DEPARTMENT TIER 2 - RATES OF RETIREMENT BY AGE AND SERVICE					
Age	50-56	57-59	60-61	62-64	65+
5 - 19 years	1.0%	5.0%	7.5%	20.0%	100.0%
20 - 24 years	1.0%	7.5%	15.0%	35.0%	100.0%
25 - 29 years	1.0%	15.0%	25.0%	50.0%	100.0%
30+ years	2.5%	100.0%	100.0%	100.0%	100.0%

4) Rates of Termination

Termination rates do not apply once a member is eligible for unreduced retirement. Sample rates of refund / termination are shown in the following table.

FIRE DEPARTMENT - RATES OF TERMINATION							
Service	Service	Service	Service	Service	Service	Service	Service
0	8.50%	5	1.00%	10	0.50%	15	0.50%
1	4.00%	6	0.90%	11	0.50%	16	0.50%
2	2.75%	7	0.80%	12	0.50%	17	0.50%
3	1.75%	8	0.70%	13	0.50%	18	0.50%
4	1.25%	9	0.60%	14	0.50%	19+	0.50%

5) Rates of Mortality

Mortality rates for actives, retirees, beneficiaries, terminated vested and reciprocals are based on the sex-distinct employee and annuitant mortality tables shown below. Future mortality improvements are reflected by applying the SOA MP-2021 projection scale on a generational basis from the base year of 2010.

FIRE DEPARTMENT - BASE MORTALITY TABLE		
Category	Male	Female
Healthy Retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy retirees	1.002 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy retirees
Disabled Retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled retirees	0.915 times the Public Safety Mortality Table (PubS-2010) for disabled retirees
Beneficiaries	1.032 times the 2010 Public General Above Median Income Mortality Table (Pub(g)-2010(A)) for healthy retirees	1.032 times the 2010 Public General Above Median Income Mortality Table (Pub(g)-2010(A)) for healthy retirees
Healthy Non-Annuitant	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy employees	0.979 times the 2010 Public Safety Above Median Income Mortality Table (Pub(s)-2010(A)) for healthy employees

6) Disability Rates

Fire disability rates are equal to the CalPERS fire industrial and non-industrial rates for public agencies multiplied by 90% for ages under 50 and 180% for ages 50 and older. 100% of disabilities are assumed to be duty related. Sample disability rates of active participants are provided in the table below:

FIRE DEPARTMENT - RATES OF DISABILITY AT SELECTED AGES									
AGE	25	30	35	40	45	50	55	60	65
Fire	0.03%	0.08%	0.15%	0.28%	0.50%	5.08%	7.54%	10.77%	14.84%

7) Percent of Retirees Electing Coverage Versus In-Lieu Credits

Upon retirement, members are assumed to elect coverage or enter the In-Lieu credit program according to the following table.

FIRE DEPARTMENT - FUTURE RETIREE PARTICIPATION		
	Coverage	In-Lieu
Active Members	70%	30%
Terminated Vested Members	50%	50%

Actuarial Assumptions and Methods *(continued)*

FIRE POSTEMPLOYMENT HEALTHCARE *(continued)*

8) Dependent Coverage Election

100% of members eligible for dental are assumed to elect spousal coverage. Upon retirement, members who elect coverage are assumed to cover dependents according to the following table.

FIRE DEPARTMENT - ASSUMED FUTURE RETIREE TIER ELECTIONS				
Coverage Tier	Pre-Medicare		Medicare	
	Male	Female	Male	Female
Retiree only	18%	52%	25%	75%
Retiree and children	7%	23%	0%	0%
Retiree and spouse	32%	15%	75%	25%
Retiree and family	43%	10%	0%	0%

9) In-Lieu Assumptions

Members who elect to receive the In-Lieu credits are assumed to remain in the In-Lieu credit program for five years, after which they are assumed to elect coverage and use their In-Lieu credits. The amount of the In-Lieu credit is 25% of the subsidy for the tier of coverage for which the retiree qualifies. Future retiree medical tier qualification assumptions are provided in the following table.

FIRE DEPARTMENT - ASSUMED FUTURE RETIREE IN-LIEU CREDIT TIER				
Coverage Tier	Pre-Medicare		Medicare	
	Male	Female	Male	Female
Retiree only	22%	22%	40%	40%
Retiree and children	0%	0%	0%	0%
Retiree and spouse	23%	23%	60%	60%
Retiree and family	55%	55%	0%	0%

10) Health Plan Election

Retirees who are not yet age 65 are assumed to be eligible for Medicare when they reach age 65 and are assumed to enroll in the Medicare-eligible plan corresponding to their current pre-Medicare plan election. Future retirees are assumed to elect plans in the proportion shown in the following table.

FIRE DEPARTMENT - ASSUMED PLAN ELECTIONS FOR FUTURE RETIREES ¹			
Pre-Medicare Medical Plans	% Electing	Medicare - Eligible Medical Plans	% Electing
Kaiser DHMO	4%	Kaiser Senior Advantage	43%
Kaiser \$25 co-pay	62%	Anthem Medicare HMO	1%
Kaiser HDHP	6%	Anthem Medicare PPO	56%
Anthem DHMO	2%		
Anthem Select \$20 co-pay	8%		
Anthem Traditional \$20 co-pay	3%		
Anthem HDHP PPO	7%	Dental Plans (All Retirees)	% Electing
Anthem Select PPO	6%	Delta Dental PPO	99%
Anthem Classic PPO	2%	DeltaCare HMO	1%

¹Eligible for coverage and elect coverage

11) Voluntary Employees' Beneficiary Association Balance Drawdown

Members are assumed to draw down their VEBA balances by the blended active and retiree member plus spouse premium, without factoring in the lowest cost premium, and increased by a factor of 1.5 to estimate the adjustment from a blended active and retiree premium to a retiree only premium.

Actuarial Assumptions and Methods *(continued)*

FIRE POSTEMPLOYMENT HEALTHCARE *(continued)*

12) Married Percentage

FIRE DEPARTMENT - PERCENTAGE MARRIED		
	Males	Females
Percentage	85%	85%

13) Dependent Age

For current retirees, actual spouse date of birth was used when available. For future retirees, husbands are assumed to be three years older than their wives.

14) Changes Since Last Valuation

Plan elections assumptions and the administrative expenses assumption were updated.

Claim and Health Plan Benefit Expense Assumptions

The claim and expense assumptions shown below were adopted by the Board of Administration at the November 3, 2022 Board meeting based upon the actuary's recommendations.

The claims costs are based on the fully insured premiums charged to the City for the active and retiree population in 2022 and 2023. For non-Medicare adults, the premiums for each coverage tier (retiree only, retiree plus spouse, retiree plus child(ren) and retiree plus family) were blended based on enrollment data for the 2022 calendar year. The same process was used for Medicare adults, except only Medicare-eligible retirees were included. The resulting per person per month (PPPM) cost was then adjusted using age curves. The pre-Medicare adult claims curves were then loaded for the cost of children; the load for children decreases by retiree age since older retirees have fewer children. The impact of children on Medicare costs was assumed to be de minimis. All claims costs are developed jointly for the Federated, Police, and Fire Postemployment Healthcare Plans of the City of San José but the load for children for Police and Fire was developed separately from the load for Federated.

The Inflation Reduction Act of 2022 (the Act) contains provisions that may impact the cost of benefits provided to Medicare eligible retirees. The Act provides for changes that could reduce costs and changes that could increase costs. Implementing regulations and market responses are likely to affect the net impact. Based on information currently available, the actuary doesn't expect the Act to have a material impact on costs. However, the actuary may adjust the assumptions in the future as more information emerges.

1) Average Annual Claims and Expense Assumptions

The following claim and expense assumptions were developed as of July 1, 2022 based on the premiums for 2022 and 2023. The explicit subsidy amount (100% of the premium for the lowest cost health plan available to active City employees) is assumed to grow based on the pre-Medicare cost trend rates.

Actuarial Assumptions and Methods (continued)

FIRE POSTEMPLOYMENT HEALTHCARE (continued)

The following tables show the claims costs for each medical plan as of the valuation date:

FIRE DEPARTMENT - SAMPLE CLAIMS COSTS - NON-MEDICARE ELIGIBLE

FIRE DEPARTMENT - SAMPLE CLAIMS COSTS - DENTAL		
Dental Blended		
Age	Unisex	
All	\$	622.79

2) Medicare Part D Subsidy

Per GASB guidance, the Part D Subsidy has not been reflected in this valuation.

3) Medicare Part B

All Medicare eligible retirees are assumed to participate in Medicare Part B.

4) Medicare Eligibility

All retirees who turn age 65 are assumed to be eligible for Medicare.

5) Annual Limits

Assumed to increase at the same rate as trend.

6) Lifetime Maximums

Are not assumed to have any financial impact.

7) Geography

Implicitly assumed to remain the same as current retirees.

8) Retiree Contributions

Retirees pay the difference between the actual premium for the elected medical plan and the lowest cost medical plan available to active members, if the retiree is eligible to receive the explicit subsidy. No retiree contributions are required for dental.

9) Changes Since Last Valuation

All claims costs were updated to reflect the changes in plan premiums and the populations covered.

Actuarial Assumptions and Methods *(continued)*

FIRE POSTEMPLOYMENT HEALTHCARE *(continued)*

Contribution Allocation Procedure

The contribution allocation procedure primarily consists of an actuarial cost method, an asset smoothing method, and an amortization method as described below.

1) Actuarial Cost Method

The Entry Age actuarial cost method was used for active employees, whereby the normal cost is computed as the level annual percentage of pay required to fund the retirement benefits between each member's date of hire and assumed retirement. The actuarial liability is the difference between the present value of future benefits and the present value of future normal costs. Or, equivalently, it is the accumulation of normal costs for all periods prior to the valuation date. The normal cost and actuarial liability are calculated on an individual basis. The sum of the individual amounts is the normal cost and actuarial liability for the Plan. The actuarial liability for the Plan represents the target amount of assets the Plan should have as of the valuation date according to the actuarial cost method.

2) Asset Valuation Method

The actuarial value of assets equals the fair value of assets.

3) Amortization Method

The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets. The unfunded actuarial liability as of June 30, 2017 was amortized as a level percent of payroll over a closed 25-year period. All future amortization bases will be amortized over 25-year periods with a 3-year phase-in and phase-out.

4) Contributions

The City will contribute the annual implicit subsidy as part of active employee health premiums and will prefund the explicit subsidy based on the normal cost, administrative expenses and amortization payment described above less expected employee contributions. The City has the option to limit its contribution to no more than 11% of total payroll.

Active members that are eligible for full benefits will contribute 8.0% of pay.

5) Changes Since Last Valuation

None.

FIRE POSTEMPLOYMENT HEALTHCARE *(continued)*

The schedule of funding progress compares the assets used for funding purposes to the comparable liabilities to determine how well the Plan is funded and how this status has changed over the past several years. The actuarial liability is compared to the actuarial value of assets to determine the funding ratio. Since the June 30, 2017 valuation, the actuarial value of assets is equal to the fair value of assets.

Summary of Key Substantive Plan Provisions

FIRE POSTEMPLOYMENT HEALTHCARE

Eligibility

Employees hired before July 2013 that did not elect to opt-in to the Voluntary Employees' Beneficiary Association (VEBA).

Medical/Dental

Employees who retire (include deferred vested members) with at least 15 years of service with the City ("OPEB benefit service"), or with a monthly pension equal to at least 37.5% of final compensation, are eligible to elect medical coverage upon retirement.

Tier 1 employees (hired before August 4, 2013) are eligible for unreduced service retirement at age 55 with 20 years of service, age 50 with 25 years of service, age 70 with no service requirement, or any age with 30 years of service. Reduced service retirement is available at age 50 with 20 years of service. Tier 2 employees (hired on or after August 4, 2013) are eligible for unreduced service retirement at age 60 with 10 years of service or reduced service retirement at age 50 with 10 years of service. Service credited through reciprocity agreements counts towards an employee's required service to retire, but only service with the City counts towards the required years of service to receive OPEB benefits.

Employees who become disabled with at least 15 years of service or have a monthly pension equal to at least 37.5% of final compensation are eligible to elect medical coverage upon retirement.

Spouses or domestic partners of retired members are allowed to participate if they were enrolled in the City's medical plan at the time of the member's retirement. Dependent children are eligible to receive coverage until the age of 26.

Surviving spouses / domestic partners / children of deceased members are eligible for coverage if the following conditions are met:

- 1) The employee has 15 years of service at time of death or is entitled to a monthly pension of at least 37.5% of final compensation; and,
- 2) Both the member and the survivors were enrolled in the active medical plan immediately before death; and,
- 3) The survivor will receive a monthly pension benefit.

Employees who separate from service after July 5, 1992, with 20 years of service, leaving contributions in the retirement plan, are eligible to elect medical and / or dental coverage upon retirement.

Benefits for Retirees

Medical:

The Plan pays 100% of the premium for the lowest cost health plan available to active City employees. The member pays the difference if another plan is elected.

To the extent that the elected plan premium is less than the maximum subsidy amount, Medicare-eligible retirees receive reimbursement of Medicare Part B premiums for themselves and their covered spouse, if applicable.

Dental:

The Plan pays 100% of the dental insurance premiums.

Cost Sharing Provisions

It is assumed for the purpose of this valuation that the City of San José will in the future maintain a consistent level of cost sharing for benefits with the retirees. This may be achieved by adjusting benefit provisions, contributions, or both.

CATASTROPHIC DISABILITY HEALTHCARE PROGRAM

Eligibility: Employees hired after June 2013 or employees who elected to opt-in to the Voluntary Employees' Beneficiary Association (VEBA).

Contributions: Employees are required to make mandatory contributions into the VEBA on a pre-tax basis.

EMPLOYEE GROUP	VEBA CONTRIBUTION RATE
Tier 1	5.0%
Tier 2	4.0%

Medical: VEBA funds can be used to reimburse members for eligible healthcare expenses. VEBA members on service-connected disability will receive benefits from the Postemployment Healthcare Plan up to age 65 once VEBA funds exhausted.
