FEDERATED CITY EMPLOYEES' RETIREMENT SYSTEM
POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

October 30, 2002

The Honorable Mayor and City Council
Members of the Police and Fire Department Retirement Plan
City of San Jose
San Jose, California

Dear Mayor, Council Members and Plan Members:

On behalf of the members of the Board of Administration, I am pleased to present the Police and Fire Department Retirement Plan's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002. Some significant events worthy of note during this fiscal year were as follows:

- The Plan earned -1.3% on investments, compared to -1.6% for its benchmark and -5.8% for the Trust Universe Comparison Service Public Fund Median.
- The Board continued to rebalance to their new asset allocation targets that were approved last year by:
 - Funding two emerging market equity managers, The Boston Company and Alliance Capital Management in September 2001.
 - Funding an international equities growth manager, William Blair in February 2002 to bring the international equities asset class closer to its new target.
 - Acquiring a new property, a warehouse in Eagan, MN, in January 2002, to bring the real estate asset class closer to its new target.
 - Rebalancing the domestic fixed income asset class by reducing its allocation from 35% to its new target of 28%.
- A new small cap value domestic equities manager, Trust Company of the West was funded in November 2001.
- Supplemental Retiree Benefit Reserve was established in December 2001 and the first payment to retirees was added to their April 30, 2002 check.

The Board believes that the professional services rendered by the staff, the auditors, investment counselors, and the Fund performance evaluators have produced a sound fund capable of continued growth. The Board of Administration and its staff are available to provide additional information when requested.

Sincerely,

MARK SKEEN, Chair Board of Administration

LETTER OF TRANSMITTAL

Department of Retirement Services

FEDERATED CITY EMPLOYEES' RETIREMENT SYSTEM POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

October 28, 2002

Board of Administration Police and Fire Department Retirement Plan 1737 North First Street, Suite 580 San Jose, CA 95112

Dear Board Members:

I am pleased to present the Comprehensive Annual Financial Report ("CAFR") of the Police and Fire Department Retirement Plan ("Plan") for the fiscal year ended June 30, 2002. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, rests with the Plan's management. Macias, Gini & Company LLP, the Plan's independent auditor, has audited the accompanying financial statements. Management believes internal control is adequate and the accompanying statements, schedules and tables are fairly presented and free from material misstatement.

The Plan was established in 1946 and this is the third year the Plan is using a CAFR format. Information contained in this report is designed to provide a complete and accurate financial review of the year's operations. I am proud to report that last year's CAFR was awarded the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association. I encourage you to review the narrative introduction, overview, and analysis located in Management's Discussion and Analysis beginning on page 20.

Structure of the Report

This report is presented in five sections:

- The Introductory Section contains a letter of transmittal, the Certificate of Achievement for Excellence in Financial Reporting, a listing of the professional services used, description of the Plan's management and organizational structure, and a summary of the plan provisions.
- ♦ The Financial Section contains the independent auditor's report from Macias, Gini & Company LLP, the financial statements of the Plan, certain required supplementary information and other supplementary information.
- ♦ The Investment Section contains the report of investment activity produced by Mercer Investment Consulting, the Plan's investment consulting firm, along with investment policies and graphs and schedules regarding asset allocation, asset diversification and performance.
- The Actuarial Section contains the certification letter produced by the independent actuary, Mercer Human Resource Consulting, along with the results of the Plan's last bi-annual valuation (2001).

1737 N. First St. Suite 580 San José, CA 95112-4505 td (408) 392-6700 fax (408) 392-0771 www.ci.san-jose.ca.us

LETTER OF TRANSMITTAL (Continued)

Letter of Transmittal 10/28/02 Page 2 of 4

 The Statistical Section contains graphs and schedules with comparative data related to revenue, expenses, benefits, and membership.

I trust that you and the members of the Plan will find this CAFR helpful in understanding the Police and Fire retirement plan – a plan that continues to maintain a strong and positive financial future.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Plan for its CAFR for the fiscal year ended June 30, 2001. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents meet or exceed program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid only for one year. We believe this report continues to conform to the Certificate of Achievement Program Requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This CAFR was prepared to conform with the principles of governmental accounting and reporting set forth by the Governmental Accounting Standard Board. Transactions of the Plan are reported on the accrual basis of accounting. Sufficient internal accounting controls exist to provide reasonable assurance regarding the safekeeping of assets and fair presentation of the financial statements and supporting schedules.

Major Initiatives

Transition to the new asset allocation targets set last year were nearly completed this year with the addition of two emerging market managers; a new international equities growth manager to compliment the existing value managers; and reduction of the domestic fixed income assets. In addition a new industrial property was acquired in January 2002 located in Eagan, MN.

A Supplemental Retiree Benefit Reserve was established in December 2001 and the first payment from this reserve was distributed in April 2002.

LETTER OF TRANSMITTAL (Continued)

Letter of Transmittal 10/28/02 Page 3 of 4

Changes in Plan Memberships

Plan membership changes for the defined benefit pension plan for FY2002 were as follows:

	2002	2001	Increase (Decrease)	Change	
Active Members*	2,231	2,146	85	4%	
Retired Members	1031	995	36	4%	
Survivors**	207	184	23	13%	
TOTAL	3,469	3,325	144	4%	

^{*} Active members include deferred vested members, members who have left City service but remain a member of the Plan.

Financial and Economic Summary

As expected, investment returns for the recent period was lower than in previous years. For the fiscal year ended June 30, 2002, the total return for the Plan was -1.3%, which was ahead of its Benchmark Index return of -1.6% and in the 5^{th} percentile of the Trust Universe Comparison Services' ("TUCS") Public Fund Universe. Maintaining a long-term perspective is important when dealing with retirement assets. The annualized return over the past ten-year period was 9.5%, which is ahead of the actuarial assumption rate of 8.0%.

The U.S. economy continued to work through anemic growth during the first half of 2002. Mercer believes that the historically conservative asset allocation strategy followed by the Retirement Board will continue to benefit the plan's long-term return.

Investment Summary

The Board of Administration has exclusive control of all investments of the Retirement Plan and is responsible for the establishment of investment objectives, strategies and policies. Members of the Board serve in a fiduciary capacity and must discharge their duties with respect to the Plan and the investment portfolio solely in the interest of, and for the exclusive purposes of providing benefits to, members of the Plan and defraying the reasonable cost of administration.

Compared to the TUCS Public Fund Universe, the Plan's investments turned in an above-average performance during FY2002. The portfolio's total return was -1.3% versus -5.8% for TUCS median. Over long-term periods, the portfolio has earned total annualized returns of 2.2% over the past three years and 6.7% over the past five years, and ranked in the 18th and 15th percentile, respectively, of the TUCS Public Fund Universe. The market value of the plan decreased from \$1,667,950,000 to \$1,618,646,000 net of pending purchases and sales.

^{**} Survivor total includes ex-spouses.

LETTER OF TRANSMITTAL (Continued)

Letter of Transmittal 10/28/02 Page 4 of 4

Funding

The Plan's funding objective is to meet long-term benefit obligations through contributions and investment income. As of June 30, 2001, the funding ratio of the Plan was approximately at 114.8%. A six-year history of the Plan's funding progress is presented on page 40. The net decrease in Plan assets for FY2002 was \$51,301,000. Details of the components of this decrease are included in the Statement of Changes in Plan Net Assets on page 29.

Conclusion

I would like to take this opportunity to thank the members of the Plan for their confidence in the plan management during the past year. I also want to express my thanks to the Board of Administration for its dedicated effort in supporting the staff through this past year. I thank the consultants and staff for their commitment to the Plan and for their diligent work to assure the Plan's continued successful operation.

Respectfully Submitted,

Edward F. Overton

Director, Retirement Services

CERTIFICATE OF ACHIEVEMENT

Certificate of Achievement for Excellence in Financial Reporting

Presented to

San Jose Police and Fire Department Retirement Plan, California

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2001

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

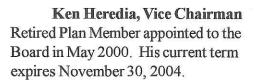

BOARD OF ADMINISTRATION

The Retirement Plan is administered by a seven-member Board of Administration composed of two City Council members, a member from the Civil Service Commission, two Plan members, one from the Police Department and one from the Fire Department, a member who has retired under the provision of the Plan and a member who holds a position in the City Administration at a level of Deputy Department Head or higher and who has experience in the investment or management of public funds, retirement funds, or institutional funds or endowment funds; in accordance with Section 2.08.400 of the San Jose Municipal Code.

As of June 30, 2002, the members of the Board were as follows:

Mark Skeen, Chairman Employee Representative of the Fire Department appointed to the Board in November 1999. His current term expires November 30, 2003.

Bret Muncy
Employee Representative for the
Police Department appointed to the
Board in December 2001. His current
term expires November 30, 2005

BOARD OF ADMINISTRATION (Continued)

Bill Brill Civil service commission member appointed on October 27, 1998. His current term expires December 1, 2005.

Mark Burton
City Administration Member
appointed to the Board in May
2000.

David CorteseCity Council Member appointed to the Board in January 1, 2001.

George Shirakawa Jr. City Council Member appointed to the Board in January 1, 2001.

SUMMARY OF THE PRINCIPAL PLAN PROVISIONS

MEMBERSHIP

Mandatory for all full-time safety employees.

MEMBER CONTRIBUTION

All members contribute 10.25% of base salary.

CITY'S CONTRIBUTION

The City contributes 14.22% of the base salary.

INTEREST

Two percent annual interest is calculated each biweekly pay period and is added to employee contributions. This interest is derived from investments.

TERMINATION BENEFITS

Upon termination, the member shall be paid all of his/her accumulated contributions and interest in full satisfaction of all rights and benefits under this Retirement Plan. The City's contributions and interest will not be refunded to the employee.

MILITARY LEAVE CREDIT

If during employment with the City of San Jose a member has served in the military, the City will pay the member's contributions into the Retirement System for that period of time if the following conditions exist: (1) a time of war, a national emergency proclaimed by the President or the Congress, or (2) Service outside the United States as requested by the United Nations. This is not refundable to an employee who resigns and requests a refund of contributions.

VESTING OF PENSION CREDIT

After 10 years of service, a member may resign his/her position with the Police or Fire Department and leave the accumulated contributions in the Retirement Plan. A member who vests in this fashion is eligible to retire later at age 55 or when 20 years have elapsed form the original hire date. For a deferred vested retirement, the monthly retirement allowance is calculated with the same formula as a service retirement for those who separated on or after February 4, 1996 (See Below). Otherwise the calculation for the monthly retirement allowance is final compensation multiplied by 2 1/2% multiplied by years of service.

SUMMARY OF THE PRINCIPAL PLAN PROVISIONS (Continued)

SERVICE RETIREMENT

Members may retire at age 50 with 25 years of service, at 55 with at least 20 years of service or at any age with 30 years of service. The monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service up to 20 years and by 3% for the next five years. For those that retired on or after February 4, 2000 (or separated by, for deferred vested), final compensation is multiplied by 4% thereafter. There is a maximum of 85% (30 years of service equals 85%.)

SERVICE-CONNECTED DISABILITY

Retirement resulting from an injury or disease arising out of and in the course of such member's employment with the City. No minimum period of service required. For members with less than 20 years of service, the monthly retirement allowance is 50% of the final compensation. For members with 20 or more years of service, the monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service up to 20 years and by 3% for the next five years. For those that retired on or after February 4, 2000, final compensation is multiplied by 4% thereafter. There is a maximum of 85% (30 years of service equals 85%.)

NON-SERVICE-CONNECTED DISABILITY

Retirement resulting from other than a service-connected disability with at least 2 years of service. For members with 2 to 19 years of service, the monthly retirement allowance is 32% multiplied by the final compensation for first two years plus one percent for each additional year. For members with 20 or more years of service, the monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service up to 20 years and by 3% for the next five years. For those that retired on or after February 4, 2000, final compensation is multiplied by 4% thereafter. There is a maximum of 85% (30 years of service equals 85%.)

EARLY SERVICE RETIREMENT

Retirement at age 50 to 55 with at least 20 years of service. Members' retirement allowance shall be calculated as if the member were at least 55, and then reduced according to guidelines set forth in Section 3.36.810 of the City of San Jose Municipal Code.

MANDATORY RETIREMENT

Age 70.

SURVIVORSHIPALLOWANCE

The spouse will receive 37 1/2% of the final compensation if the member dies while entitled to immediate retirement for service, dies at any age due to a service-connected injury or illness, is retired for service, or is retired for service-connected disability. Optional Retirement Allowances are available.

SUMMARY OF THE PRINCIPAL PLAN PROVISIONS (Continued)

For those that retire on or after February 4, 2000, the surviving spouse of a member who is entitled to a retirement benefit greater than 75% of final compensation gets a spousal benefit equal to 50% of the member benefit up to a maximum of 42.5% of final compensation.

If the member dies before age 55 with two or more years of services due to a non-service connected injury or illness, or if the member is retired for non-service connected disability, the spouse will receive 24% of final compensation for two years of service and 0.75% for each year thereafter (Maximum: 37-1/2%.)

Surviving child or children conceived prior to retirement will receive the following:

1 child receives 25% of the final compensation 2 children share 37 1/2% of the final compensation 3+ children share 50% of the final compensation

Unless the death is service-connected in which case the eligible child or children will receive:

1 child receives 25% of the final compensation
2 children share 50% of the final compensation
3+ children share 75% of the final compensation

The maximum family benefit is 75% of the final compensation. If the sum of spousal benefit plus the children's benefit is greater than 75%, the children's benefit is reduced. Dependent children are paid to age 18 or to age 22 if full-time students.

REMARRIAGE OF SPOUSE

If the employee is 55 at time of death and has twenty years of service, or the member is entitled to 30 years of service regardless of age, the spouse will retain allowance for life. If less than 20 years or under age 55, the spouse loses the allowance upon a remarriage, <u>unless</u> the person was an eligible surviving spouse as of October 1, 1999 or becomes an eligible surving spouse of a member who had retired as of October 1, 1999.

POST-RETIREMENT MARRIAGE

Effective June 11, 2002, the Post-Retirement Optional Settlement allows for payment of an annuity to a spouse a member marries after retirement. To do this, the member must take a reduced allowance to provide the spouse a benefit. The election of the Post-Retirement Optional Settlement must be filed within 30 days after the date of the marriage if a retiree marries after June 12, 2002. If the retiree marries after June 12, 2002, the election becomes effective one year from the date of marriage

<u>MANAGEMENT</u>

The System is under the management of a seven member Board of Administration consisting of two City Council persons, a Civil Service Commissioner, and two elected employees who are members of the retire-

SUMMARY OF THE PRINCIPAL PLAN PROVISIONS (Continued)

ment plan, a member who has retired under the provisions of the Plan and a member who holds a position in the City Administration at a level of Deputy Department Head or higher and who has experience in the investment or management of public funds, retirement funds, or institutional fund or endowment funds.

The Board of Administration is a policy-making body and responsible for the proper operation of the Plan. The Plan operates as an independent trust, separate and distinct from the City and other entities. The administration of the Plan is under its guidance and direction and is subject to such rules, regulations and directives as it may adopt from time to time. Members, except for public members, serve without compensation. The City Attorney provides legal advice and counsel.

ADMINISTRATION

A full-time Director is employed by the Board. He serves as Secretary and Chief Executive Officer to the Board of Administration. The Fund pays the cost of the personnel who are employed for the purpose of managing the Retirement Plan. It also pays any directly related administrative costs.

Deutsche Bank is employed as custodian of fund assets and collector of investment income.

ACTUARIAL SOUNDNESS

Plan and benefit provisions are periodically reviewed to assure continuing actuarial soundness.

INVESTMENT AUTHORITY AND POLICY

The investment authority is broad and flexible, allowing maximum utilization of the System's resources. Nationally known investment advisory services including Alliance Capital; Bank of Ireland; Boston Company; Boston Partners; Brandes Investment Partners; Chicago Capital Management; Credit Suisse; GE Asset Management; Globalt; MIG Realty Advisors; New Amsterdam Partners; PMRealty Advisors; Provident Investment Counsel; Rhumbline; Seix Investment Advisors; Trust Company of the West; UBS Global Asset Management; William Blair & Company; Woodford Capital Management; and Zurich Scudder are retained for full-time investment counsel. Mercer Investment Consulting is retained as the pension consultant.

COST OF LIVING

The Board of Administration determines the change in the cost of living (COL) each year using the December Consumer Price Index for the San Francisco-Oakland Metropolitan Area published by the Bureau of Labor Statistics of the United States Department of Labor. The Board determines the change to be effective beginning April first of each year. A maximum of 3% is granted with any excess accumulated for use in future years. An amendment to the cost-of-living provisions to provide a flat 3% adjustment was effective February 1, 2002. Survivors will be paid their first COL increase as if they were a new retiree according to the above schedule.

The Board of Administration City of San José Police and Fire Department Retirement Plan

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying statements of plan net assets of the City of San José Police and Fire Department Retirement Plan (Plan), as of June 30, 2002 and 2001, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 2(a), the financial statements of the Plan are intended to present only the plan net assets and changes in plan net assets, of the Plan. They are not intended to present the financial position and changes in financial position of the City of San José in conformity with accounting principles generally accepted in the United States of America,

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of the Plan as of June 30, 2002 and 2001, and the changes in plan net assets for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The required supplementary information as listed in the table of contents is not a required part of the financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and do not express an opinion on it.

Our audits were made for the purpose of forming an opinion on the financial statements taken as a whole. The Management's Discussion and Analysis, data designated as other supplementary information and data designated as investment, actuarial and statistical sections in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole. The Management's Discussion and Analysis and the investment, actuarial and statistical sections have not been subjected to the auditing procedures applied in the audits of the financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANAYLYSIS

Department of Retirement Services

FEDERATED CITY EMPLOYEES' RETIREMENT SYSTEM
POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

We are pleased to provide this overview and analysis of the financial activities of the Police and Fire Department Retirement Plan ("the Plan") for the fiscal year ended June 30, 2002. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Letter of Transmittal, which begins on page 3 of this report.

Financial Highlights

- The net assets of the Plan at the close of the fiscal year 2002 are \$1,620,129,000 (net assets held in trust for pension benefits and post-employment healthcare benefits). All of the net assets are available to meet Police and Fire's ongoing obligations to plan participants and their beneficiaries.
- The Plan's total net assets held in trust for pension benefits and post-employment healthcare benefits decreased by \$51,301,000, or 3.1%, primarily as a result of market declines.
- The Plan's funding objective is to meet long-term benefit obligations through contributions and investment income. As of June 30, 2001, the date of our last actuarial valuation, the funded ratio for Police and Fire was approximately 114.8%. In general, this indicates that for every dollar of benefits due we have approximately \$1.15 of assets to cover it.
- Additions to Plan Net Assets for the year were \$13,681,000, which includes member and employer contributions of \$45,966,000, an investment loss of (\$33,011,000), and net securities lending income of \$726,000.
- Deductions from Plan Net Assets increased from \$55,321,000 to \$64,982,000 over the prior year, or approximately 17.5%.

Management's Discussion and Analysis Page 2 of 8

Overview of the Financial Statements

The following discussion and analysis are intended to serve as an introduction to the Plan's financial statements, which are comprised of these components:

- 1. Statement of Plan Net Assets
- 2. Statement of Changes in Plan Net Assets
- 3. Notes to the Financial Statements

Please note, however, that this report also contains other supplementary information in addition to the basic financial statements themselves.

The Statement of Plan Net Assets is a snapshot of account balances at fiscal year-end. It indicates the assets available for future payments to retirees and any current liabilities that are owed at this time.

The Statement of Changes in Plan Net Assets, on the other hand, provides a view of current year additions to and deductions from the plan.

Both statements are in compliance with Governmental Generally Accepted Accounting Principles (GAAP). GAAP requires certain disclosures and that state and local governments report using the full accrual method of accounting. The Plan complies with all material requirements of these pronouncements.

The Statement of Plan Net Assets and the Statement of Changes in Plan Net Assets report information about the Plan's activities. These statements include all assets and liabilities, using the full accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current years' revenues and expenses are taken into account regardless of when cash is received or paid. All investment gains and losses are shown at the trade date, not settlement date. In addition, both realized and unrealized gains and losses are shown on investments.

These two statements report the Plan's net assets held in trust for pension benefits and postemployment healthcare benefits (net assets)—the difference between assets and liabilities—as one way to measure the Plan's financial position. Over time, increases and decreases in the Plan's net assets are one indicator of whether its financial health is improving or deteriorating. Other factors, such as market conditions, should also be considered in measuring the Plan's overall health. (See the Plan's financial statement on pages 28-29 of this report.)

Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the financial statements. (See Notes to Financial Statements on pages 30-38 of this report.)

Management's Discussion and Analysis Page 3 of 8

Other Information. In addition to the financial statements and accompanying notes, this report presents certain required supplementary information concerning the Plan's progress in funding its obligations to provide pension benefits to members (see Required Supplementary Information beginning on page 39 of this report.)

The schedules of administrative expenses, investment manager fees and other investment expenses, and payments to consultants are presented immediately following the required supplementary information on pensions.

Financial Analysis

As previously noted, net assets may serve over time as a useful indication of the Plan's financial position (see Table 1 on page 23). The assets of the Plan exceeded its liabilities at the close of fiscal year 2002.

Currently \$1,620,129,000 in total net assets is held in trust for pension benefits and postemployment healthcare benefits. All of the net assets are available to meet the Plan's ongoing obligation to plan participants and their beneficiaries.

As of June 30, 2002, total net assets decreased by 3.1% over the prior year primarily due to reductions in the fair value of investments, which decreased \$73,979,000 from last year.

Despite variations in the stock market, The Plan's management and actuary concur that the Plan remains in a financial position to meet its obligations to the plan participants and beneficiaries.

Reserves

The Plan's reserves are established from contributions and the accumulation of investment income, after satisfying investment and administrative expenses. In December 2001 the Supplemental Retiree Benefit Reserve (SRBR) was established. The SRBR represents funds required by statute to be set aside from investment earnings to provide supplemental benefits to retirees.

Under GASB 25, investments are stated at fair value instead of at cost and include the recognition of unrealized gains and losses in the current period. These gains and losses are held in an account called "Designated for unrealized gains on investments held", established in 1996.

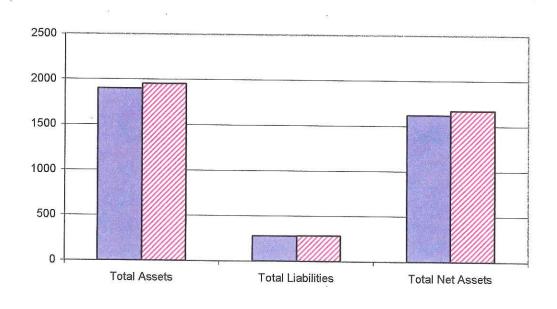

The decline in the fair value of investments and the five-year smoothing of investment gains and losses resulted in a reduction in the "Designated for unrealized gains on investments held" of approximately \$71,670 as of June 30, 2002.

Management's Discussion and Analysis Page 7 of 8

THE POLICE AND FIRE PLAN ACTIVITIES

The market decline resulted in decreased net assets by \$51,301,000, thereby accounting for a 3.1% decrease over the prior year. Key elements of this decrease are described in the sections that follow.

Revenues-Additions to Plan Net Assets

The reserves needed to finance retirement benefits are accumulated through the collection of employer and employee contributions and through earnings on investment income (net of investment expense). Additions for the fiscal year ended June 30, 2002, totaled \$13,681,000. (See Table 2 on page 24.)

By fiscal year-end, overall additions had decreased by \$21,738,000, or 61.4%, from the prior year due primarily to investment losses. The investment section of this report reviews the results of investment activity for the fiscal year ended June 30, 2002.

Expenses—Deductions from Plan Net Assets

Police and Fire was created to provide lifetime retirement annuities, survivor benefits and permanent disability benefits to qualified members and their beneficiaries. The cost of such programs includes recurring benefit payments, as designated by the plan, refund of contributions to terminated employees, and the cost of administering the system.

Deductions for the fiscal year ended June 30, 2002 totaled \$64,982,000, an increase of 17.5% over June 30, 2001 (see Table 3 on page 24). Increases in retirement benefits, healthcare insurance premiums and administrative expenses were the main reasons for increased expenses. Retirement benefits expense increased due to benefit enhancements, SRBR distribution and increased number of beneficiaries. Health insurance costs increased due to higher premiums and administrative expenses increased primarily as a result of an increase in payroll costs due to increased staffing. Police and Fire has consistently met its administrative expense budget. There were no material variances between budgeted and actual expenditures.

The Plan's Fiduciary Responsibilities

The Plan's Board and management staff are fiduciaries of the pension trust fund. Under the California Constitution the assets can only be used for the exclusive benefit of plan participants and their beneficiaries.

Requests for Information

This financial report is designed to provide the Board of Administration, Mayor and City Council, our membership, taxpayers, and investment managers with a general overview of the Plan's finances and to account for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

NOTES TO FINANCIAL STATEMENTS For the Fiscal Years Ended June 30, 2002 and 2001

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the City of San José Police and Fire Department Retirement Plan (the Plan) is provided for general information purposes only. Employees and members should refer to the City of San José Municipal Code for more complete information.

(a) General

The Plan, consisting of a single employer Defined Benefit Pension Plan and a Postemployment Healthcare Plan, was established in 1961 and last amended June 19, 2001, to provide retirement benefits for employees of the Police and Fire Departments of the City of San José (the City). The Plan is considered to be a part of the City's financial reporting entity and is included in the City's general-purpose financial statements as a pension trust fund. The Plan is administered by the Director of Retirement Services, an employee of the City, under the direction of a Board of Administration. The contribution and benefit provisions and all other requirements are established by City ordinance. The Plan is responsible for all direct administrative costs except for certain support services, which are provided by the City.

All sworn officers of the City's Police and Fire Departments are required to be members of the Plan. Total payroll amounted to approximately \$201,715,000 and \$175,221,000 for 2002 and 2001, respectively. Covered payroll amounted to approximately \$181,298,000 and \$157,666,000 in 2002 and 2001, respectively.

Participants of the Postemployment Healthcare Plan are also participants of the Defined Benefit Pension Plan. As of June 30, 2002 and 2001, employee membership data related to the Plan was as follows:

	2002	2001
Defined Benefit Pension Plan:		
Retirees and beneficiaries currently receiving benefits	1,238	1,179
Terminated vested members not yet receiving benefits 2	VACTI NG3	37
Active members (MACTIVE + ACTIVES)	2,178	2,109
Total	3,469	3,325
Postemployment Healthcare Plan:		
Retirees and beneficiaries currently receiving benefits	1,151	1,123
Terminated vested members not yet receiving benefits	15	7
Active members	2,178	2,109
Total	3,344	3,239

The Plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

(b) Pension Benefits

An employee with 10 or more years of service who resigns and leaves his/her contributions in the Plan; an employee who reaches the normal retirement age of 55 with 20 years of service; an employee of age 50 with 25 years of service; an employee of any age with 30 years of service; or an employee of age 70 with no service requirement is entitled to monthly pension benefits equal to 2.5% of their final salary for each year of service up to 20 years. For each year of service after 20 years, an employee is entitled to 3% of their final average monthly salary up to a maximum benefit of 80% of their final compensation. For those that retired on or after February 4, 2000 (or separated by, for deferred vested), final compensation is multiplied by 4% thereafter. There is a maximum of 85% (30 years of service equals 85%).

Final compensation is the average monthly salary during the highest 12 consecutive months of service, limited to 108% of salary paid during the 12 months immediately proceeding the last 12 months of service. These benefit rates and formulas are based on the outcome of the arbitration process and approval by the Plan Board in July 1998. In addition, retirement benefits are adjusted for an annual cost-of-living allowance (COLA). The current maximum increase in the COLA is 3% per year.

If employees terminate employment before completing 10 years of service, the right to receive their portion of the accumulated plan benefits attributable to the City's contributions is forfeited; however, an employee's accumulated contribution plus 2% interest per annum is refunded. Refunds are paid out on a lump-sum basis. The forfeited amount of the City's contributions remains in the Plan.

(c) Death Benefits

A lifetime annuity of up to 37.5% of an employee's final compensation is paid to a surviving spouse if: (1) an employee's death is service related; or (2) an employee's death is non-service related and occurs with at least 20 years of service; or (3) a retiree dies who was retired from service or who received a service related disability. Optional Retirement Allowances are available. For those that retire on or after February 4, 2000, the surviving spouse of a member who is entitled to a retirement benefit greater than 75% of final compensation gets a spousal benefit equal to 50% of the member up to a maximum of 42.5% of final compensation.

Additionally, an annual benefit for dependent children up to 18 years of age, or up to 22 years of age if a full-time student, is paid at a rate of 25% of final compensation per child with a maximum family benefit of 75% of final compensation if death is service related.

In the event the Plan is terminated, there is no provision for the distribution of net assets.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

If an employee's death is non-service related and the employee has at least 2 years of service, the Plan allows for an annual annuity of 24% of the employee's final compensation for the first 2 years of service, plus 0.75% for each year thereafter, to be paid to his/her surviving spouse until remarriage (maximum of 37.5% of final average salary or 50% of the member's benefit, whichever is greater). These benefits are also paid to the surviving spouse of a retiree on a non-service related disability. Additionally, annual benefits for dependent children up to 18 years of age, or 22 years of age if a full-time student, are as follows:

- One child 25% of final compensation
- Two children 37.5% of final compensation
- Three or more children 50% of final compensation

The maximum annual benefit paid to a family under any circumstances is 75% of final compensation. If the employee has no spouse or children, a lump sum equal to the greater of the employee's accumulated contributions or \$1,000 is paid to his/her estate.

(d) Disability Benefits

If an employee suffers a service related disability before retirement, an annual benefit is paid equal to the greater of: (1) 50% of final compensation; or (2) 2.5% of final compensation, multiplied by the number of years of service (maximum of 30 years). For members with 20 or more years of service, the monthly retirement allowance is the final compensation multiplied by 2.5% multiplied by years of service up to 20 years and by 3% for the next five years. For those that retired on or after February 4, 2000, final compensation is multiplied by 4% thereafter. There is a maximum of 85% (30 years of service equals 85%).

If an employee with at least 2 years of service suffers a non-service related disability, an annual benefit is paid equal to 32% of final compensation for the first 2 years of service plus 1% of final compensation for each successive year, up to a maximum of 50% of final compensation for an employee with up to 20 years of service. For members with 20 or more years of service, the monthly retirement allowance is the final compensation multiplied by 2½% multiplied by years of service up to 20 years and by 3% for the next five years. For those that retired on or after February 4, 2000, final compensation is multiplied by 4% thereafter. There is a maximum of 85% (30 years of service equals 85%).

(e) Postemployment Healthcare Benefits

The City of San José Municipal Code provides that retired employees with 15 years or more of service, their survivors, or those retired employees who are receiving a pension benefit of at least 37.5% of final compensation are entitled to payment of 100% of the lowest priced medical insurance plan available to an active police and fire employee. However, the Plan pays the entire premium cost for dental insurance coverage.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

(f) Plan Termination

In the event the Plan is terminated, there is no provision for the distribution of net assets.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Implementation of Governmental Accounting Standards Board Statements

GASB Statements Nos. 34 and 37

In June 1999 and in June 2001, the GASB issued Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, and Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments — Omnibus, respectively. These statements provide for the most significant change in financial reporting in over twenty years and are scheduled for a phased implementation (based on size of government) starting with fiscal years ending 2002.

The Plan has implemented GASB Statement Nos. 34 and 37 and these statements are presented according to those requirements.

(b) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Contributions are recognized as revenue in the period in which employee services are performed. Benefits and refunds of contributions are recognized when due and payable under the provisions of the Plan. Activities of the Defined Benefit Pension Plan and the Postemployment Healthcare Plan are accounted for separately. It is required that transactions of the Defined Benefit Pension Plan be accounted for in two funds: a Retirement Fund and a Cost-of-Living Fund.

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the disclosed amount of additions and deletions during the reporting periods. Actual results could differ from those estimates.

(c) Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price on the last business day of the fiscal year at current

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

exchange rates, if applicable. Investments that do not have an established market are reported at estimated fair value. The fair value of real estate investments is based on independent appraisals. Purchases and sales of securities are reflected on the trade date. Investment income is recognized as earned. Rental income is recognized as earned, net of expenses.

(d) Plan Net Assets Held in Trust for Pension and Postemployment Healthcare Benefits

The Plan is required by the City of San José Municipal Code to establish various reserves in the plan net assets (fund balance). The Defined Benefit Pension Plan Net Assets are allocated between the Retirement Fund and the Cost-of-Living Fund (see page 44). As of June 30, 2002, the fund balance, totaling \$1,620,129,000 on a combined basis for both the Retirement Fund and the Cost-of-Living Fund, is allocated as follows (in thousands):

	Retirement	Cost-of-	To	otal
	Fund	Living Fund	2002	2001
Employee contributions	\$116,705	\$35,485	\$152,190	\$139,636
Supplemental Retiree				
Benefit Reserve	19,112	-	19,112	•
Designated for unrealized				
gains on investments held	23,221	8,724	31,945	103,615
General reserve	_1,022,210	<u>394,672</u>	1,416,882	1,428,179
Total	\$1,181,248	\$ 438,881	\$1,620,129	\$1,671,430

All contributions go into the general reserve, except employee contributions and unrealized gains, for payment of future benefits as required by San José Municipal Code. Employee contributions are accounted for separately due to the possibility of their return to the member upon separation from City employment. The Supplemental Retiree Benefit Reserve (SRBR) represents funds required by Statute to be set aside from investment earnings to provide supplemental benefits to retirees. The SRBR was established in December 2001, upon adoption of Ordinance number 26536 of the City of San José Municipal Code.

(e) Allocation of Investment Income

Earnings on investments, excluding unrealized gains and losses are recorded first in the general reserve category of fund balance. An allocation is made bi-weekly from the general reserve category to the employee contributions category of fund balance based on the balance in that account at an annual rate of 2%, as specified by the City of San José Municipal Code. After the close of each fiscal year, the SRBR will be allocated 10% of the earnings in excess of the assumed actuarial rate for the Retirement Plan. Any earnings in excess of 2% and the SRBR allocation remain in the general reserve category. Based on the net decrease in net plan assets for fiscal 2002, there were no "excess earnings" to allocate.

(f) Reclassifications

Certain amounts in 2001 have been reclassified to conform to the 2002 presentation.

name, where the financial institution acts as the Plan's counterparty. Category 3 includes uninsured and unregistered investments for which the securities are held by a broker or dealer, or by its agent, or by a qualifying financial institution's trust department or agent, but not in the Plan's name. There were no investments in Categories 2 or 3 as of June 30, 2002 and 2001.

The categorization of the Plan's investments (both for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan) as of June 30, 2002 and 2001, was as follows (in thousands):

Category 1: June 30, 2002 June 30, 2001 U.S. Treasury notes and bonds: 8 10,636 \$ - Not on securities loan 6,122 - U.S. government securities: 175,199 222,662 U.S. government securities for non cash collateral 2,639 21,594 Foreign government bonds 82,059 72,651 Domestic corporate bonds 203,683 227,833 Not on securities for non cash collateral 203,683 227,833 Foreign corporate bonds 56,860 61,992 Domestic equity securities 533,951 469,554 Foreign corporate bonds 533,951 469,554 Foreign equity securities for non cash collateral 533,951 469,554 Foreign equity securities for non cash collateral 2,206 56,860 1,922 Foreign equity securities for non cash collateral 2,206 56,860 165,214 Loaned securities for non cash collateral 2,206 56,860 165,214 Loaned securities for non cash collateral 2,206 3,897 Foreign equity securities 2,20		Fai	r Value

NOTE 3 – INVESTMENTS (Continued)

The Plan's total investments, the following table presents the allocation as presented on the accompanying statements of defined benefit pension plan net assets and postemployment healthcare plan net assets as of June 30, 2002 and 2001 (in thousands):

	June 30, 2002	June 30, 2001
Investments:		
Defined Benefit Pension Plan	\$1,814,960	\$1,888,748
Postemployment Healthcare Plan	31,922	32,113
	\$1,846,882	\$1,920,861

The collective short-term investment fund is used for overnight investment of all excess cash in the Plan's funds. It is invested by the Plan Custodian, and held in the Plan Custodian's name. This fund consists of:

- Short-term fixed obligations of the U.S. government or any federal agency, or of other issuers that
 are fully guaranteed by the U.S. government or a federal agency as to repayment of principal and
 the payment of interest;
- Repurchase agreements with major banks and U.S. government securities dealers that are collateralized by obligations of the U.S. government or a federal agency, or obligations fully guaranteed by the U.S. government or a federal agency; and
- Fully insured bank deposits.

The loaned securities represent securities on loan to brokers or dealers or other borrowers. The custodial agreement with the Plan Custodian authorizes such custodian to loan no more than 20% of the securities in the Plan's investment portfolio under such terms and conditions as the Plan Custodian deems advisable and to permit the loaned securities to be transferred into the name of the borrowers. The Plan receives a fee from the borrower for the use of the loaned securities. If the loaned securities are not returned by the borrower, the Plan Custodian is responsible for replacement of the loaned securities with other securities of the same issuer, class and denomination, or if such securities are not available on the open market, the Plan Custodian is required to credit the Plan's account with the market value of such unreturned loaned securities. All securities loan agreements can be terminated on demand within a period specified in each agreement by either the Plan or borrowers. Except as provided above, the Plan Custodian shall have no liability to the Board for any failure of a borrower to return loaned securities.

The loaned securities as of June 30, 2002, consisted of U.S. Treasury bonds and notes, domestic corporate bonds, domestic equity securities, and foreign equity securities. In return, the Plan receives collateral in the form of cash or securities equal to 100% of the transferred securities plus accrued interest for reinvestment.

Securities lent at year-end for cash collateral are presented as unclassified in the preceding categoriza-

NOTE 3 – INVESTMENTS (Continued)

tion of the Plan's investments, securities lent for noncash collateral is classified according to the category of the related collateral. Securities lending collateral represents investments purchased with cash collateral, as well as securities collateral that the Plan may pledge or sell without a borrower default. The Plan does not match the maturities of cash collateral with the securities on loan.

As of June 30, 2002, the underlying securities loaned by the Plan as a whole amounted to approximately \$183,203,000. The cash collateral and the non-cash collateral totaled \$180,683,000 and \$8,959,000, respectively. As of June 30, 2001, the underlying securities loaned by the Plan as a whole amounted to approximately \$241,627,000. The cash collateral and the non-cash collateral totaled \$223,334,000 and \$27,216,000, respectively. The Plan has no exposure to credit risk related to the securities lending transactions as of June 30, 2002 and 2001.

Real estate investments include a warehouse, retail center, and office building located in Northern California: an industrial complex, office building, and retail center in Southern California, apartment complexes in Houston, Texas, and in Colorado Springs, Colorado; an office building in Denver, Colorado; an office building near Chicago, IL, and a warehouse in Nashville, TN. Six of the properties located in California are jointly owned with the City's other retirement fund. One of the office buildings located in Northern California (the one located in San José) is solely invested in by the Police and Fire Plan. The properties have leases with various terms.

The Plan has made investments in forward currency contracts, which are commitments to purchase or sell stated amounts of foreign currency. The Plan utilizes these contracts to hedge the currency risk of foreign investments. At June 30, 2002 the Plan's net position in these contracts is recorded at fair value as short term foreign currency investments. The fair values of forward currency contracts are determined by quoted currency prices from national exchanges. As of June 30, 2002, total commitments in forward currency contracts to purchase and sell foreign currencies were \$48,086,000 and \$48,086,000, respectively, with market values of \$49,643,000 and \$49,566,000, respectively. As of June 30, 2001, the Plan had commitments in foreign currency contracts to purchase and sell foreign currencies of \$93,665,000 and \$93,665,000, respectively, with market values of \$92,621,000 and \$93,210,000, respectively. The Plan's commitments relating to forward currency contracts are settled on a net basis.

NOTE 4 – CONTRIBUTIONS - FUNDING POLICY

Pursuant to San José Municipal Code 3.36.1520, the Police and Fire Retirement Plan Board of Administration is authorized to determine the amount of monthly or bi-weekly contributions. Contributions to the Defined Benefit Pension Plan for both the City and the participating employees are based upon an actuarially determined percentage of each employee's base salary sufficient to provide adequate assets to pay benefits when due. Contributions to the Postemployment Healthcare Plan for both the City and the participating employees are based upon an actuarially determined percentage of each employee's base salary sufficient to provide adequate assets to pay benefits when due, over the

NOTE 4 – CONTRIBUTIONS - FUNDING POLICY (Continued)

next 10 years. The significant actuarial assumptions used to compute the actuarially determined contribution requirement are the same as those used to compute the actuarial accrued liability shown in the Schedule of Funding Progress for the Defined Benefit Pension Plan (see page 40).

The City and the participating employee contribution rates in effect during the fiscal years ended June 30, 2002 and 2001 were as follows:

	Ci	City		iployee
Period	Pension	Healthcare	Pension	Healthcare
7/01/01 - 6/22/02	14.00	1.60	8.43	1.36
6/23/02 - 6/30/02	12.01	2.21	8.44	1.81

Contributions to the Defined Benefit Pension Plan and Postemployment Healthcare Plan made by the City and the participating employees totaled \$38,485,000 and \$7,481,000, respectively, for 2002 and \$35,540,000 and \$4,674,000, respectively for 2001.

NOTE 5 - CONCENTRATIONS

No investments in any one organization represent 5% of fund net assets.

REPORT ON INVESTMENT ACTIVITY

MERCER

Investment Consulting

777 South Figueroa Street, Suite 2000 Los Angeles, CA 90017-5818 213 346 2200 Fax 213 346 2680 www.mercerlC.com

27 August 2002

Mr. Edward Overton Secretary, Board of Administration San José Police and Fire Retirement System 1737 North First Street, Suite 580 San Jose, CA 95112-4505

Dear Mr. Overton:

Thankfully, the conservative approach that the Trustees have maintained reduced the volatility of the investments significantly during a difficult fiscal year period. While the average public fund in the U.S. was down -5.8% for the year ending June 30, 2002, the San José Police and Fire Department Retirement Plan was down only -1.3%. Although this brings the 5-year annualized return down to 6.7%, the annualized return over the past ten years is 9.5%, still above the 8.0% actuarial earnings assumption rate.

A time weighted total return for the Plan assets is calculated every quarter by Mercer Investment Consulting. Mercer then compares those returns with the Trust Universe Comparison Services' (TUCS) Public Fund Universe. San José has historically adopted a more conservative asset allocation strategy than the average public fund. It is rewarding to see that this conservative strategy paid off again this year by placing the San José P&F Plan in the top 5th percentile of the TUCS Public Fund Universe.

As Mercer calculates and reviews the investment performance, calculations are based on custodial statements and are conducted in compliance with Association for Investment Management and Research (AIMR) standards. Mercer also reconciles the calculations with San José's investment managers each quarter to ensure accuracy. Economic commentary is reviewed with the Trustees to keep them informed of global and domestic developments.

The U.S. economy continued to work through anemic growth during the first half of 2002. Although the Fed continues to assure us that there is light at the end of the tunnel, there are still a number of leading economic indicators that would suggest otherwise. Europe is still struggling and although Japan's stock market appears to have turned the corner, most of its appreciation was the result of a rise in the Yen's exchange rate versus the dollar.

27 August 2002
Mr. Edward Overton
San José Police and Fire Retirement System

Because the economy lost momentum, the Fed held interest rates at a 40-year low of 1.75%. Inflation concerns also stalled as consumer prices increased only 0.6% during the second quarter and the CPI showed a year-over-year increase of only 1.7%. Interest rates fell during the fiscal year ending June 30,2002, which had a positive impact on bond prices. The Lehman Brothers Aggregate Bond Index gained 8.6% during the year which was good, but a far cry from the 11.2% return last year. While the U.S. bond markets showed some strength, global bonds performed even better due to the decline in the valuation of the dollar. The Salomon Smith Barney World Government Bond Index was up 14.0% during the same fiscal year period and the international bond manager's return was even higher at 14.4%.

U.S. equities performed poorly with the Standard & Poor's 500 Index falling -18.0%. The collective return of San José's domestic equity managers' was down -14.4%, but that was much stronger than the overall market. The same benefit was achieved by San José's international equity managers. While the Europe, Asia and Far East (EAFE) Index was down -9.5% for the fiscal year, the managers' collective return was down -8.4%. Another international equity asset class (Emerging Markets) was added in September 2001. That proved to be a timely entrance because that index was up 9.2% from September 1, 2001 and the two emerging markets managers were up 15.1% and 17.5% through the end of the fiscal year.

Real estate investments also aided performance, posting a 5.3% return for the fiscal year while Mercer's median real estate manager returned 5.1%. The housing market remained resilient as new home sales jumped 8.1% in May and mortgage applications increased at a record pace. Personal consumption continued to increase in the first half of 2002.

Mercer continues to be optimistic about economic growth in the latter part of 2002 and continuing on for the next two or three years. As growth sets in, interest rates will most likely begin to rise which will reduce the Retirement Plan's liabilities. Economic growth will also begin to override the nervousness in the capital markets and trust in corporate accounting should return.

Sincerely,

STATEMENT OF INVESTMENT POLICY BOARD OF ADMINISTRATION POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

GENERAL ENVIRONMENT

Investments in the San Jose Police and Fire Department Retirement Plan are subject to the restrictions specified in the San Jose Municipal Code 3.36.540. Further investment management guidelines are imposed by the Board of Administration.

INVESTMENT GUIDELINES

General

The Board Shall:

- (1) Require that the Retirement System be actuarially sound to assure that all disbursement obligations will be met.
- (2) Attempt to insure that investment earnings be sufficiently high to provide a funding source, along with contributions from City employees and the City, in order to offset liabilities in perpetuity.
- (3) Strive for the highest total return on invested funds consistent with safety in accordance with accepted investment practices.

Asset Allocation

The following policy has been identified by the Board of Administration as having the greatest expected investment return, and the resulting positive impact on asset values and funded status without exceeding a prudent level of risk. The Board determined this policy after evaluating the implications of increased investment return versus increased variability of return for a number of potential investment policies with varying commitments to stocks and bonds.

It shall be the policy of the Plan to invest its assets in accordance with the maximum and minimum range, valued at market, for each asset class as stated below:

Asset Class	<u>Minimum</u>	<u>Target</u>	<u>Maximum</u>
Bonds	25%	35%	60%
Bonds - Global	0%	10%	15%
Stocks - U.S.	30%	35%	45%
Stocks - International	0%	10%	15%
Real Estate	0%	10%	15%

It is understood that the fund managers at any point in time may not be fully invested. However, managers are expected to be fully funded and cash positions in excess of 7% require the manager to notify the Board of Administration in writing. While the Plan's assets may be partially invested in cash equivalents, for asset allocation purposes these funds shall be considered invested in the asset classes of the respective managers. In turn, each manager's performance will be evaluated on the total amount of funds under its management.

The asset allocation ranges established by this investment policy represent the long-term perspective. As such, rapid unanticipated market shifts may cause the asset mix to fall outside the policy range. Any divergence should be of a short-term nature. The Board of Administration will review the asset mix of the Plan on a quarterly basis and cause the asset mix to be rebalanced to within the policy range as necessary.

Investment managers may request temporary exemptions from guideline limits by submitting written requests to the Board of Administration for prior approval. For special situations, the Board of Administration can grant special exemptions from the guidelines. In no case can a manager actively exceed guideline limits without formal prior approval by the Board.

Diversification

Investment diversification is consistent with the intent to minimize the risk of large losses to the Plan. Consequently, the total fund will be constructed by the individual portfolio managers to attain prudent diversification in several asset classes. To ensure adequate diversification, no manager will hold more than 5% of its portion of the total Plan assets in any single security with the exception of government backed securities and real estate equity. As a general rule, Plan assets placed with an investment manager will not represent more than 10% of that manager's total assets.

Volatility

Consistent with the desire for adequate diversification, the investment policy is based on the assumption that the volatility (the standard deviation of returns) of the portfolio will be relative to that of the market. Consequently, it is expected that the volatility of a commitment-weighted composite of the market indices, e.g., S&P 500 Index for stocks and Lehman Brothers Aggregate Bond Index for bonds and U.S. T-Bills for cash, will be commensurate with the Plan's volatility.

Liquidity

Presently there is not a requirement to maintain significant liquid reserves for the payment of pension benefits. The Board has authorized the Board of Administration Secretary to review the projected cash flow requirements at least annually and indicate to investment managers the required liquidity.

Contributions are expected to be in excess of net benefit payments over the foreseeable future, resulting in a positive cash flow, which will be reinvested by the fund manager who receives the cash flow.

Fixed Income

The Board shall require that the majority of the fixed income portfolio be invested in high quality, (investment grade) marketable bonds as provided in Section 3.36.540. Whether a global fixed income manager is employed, or separate domestic and international fixed income managers are employed, they are to invest in accordance with the following guidelines:

- (1) Portfolio investments will be composed primarily of fixed income securities (including short term obligations) denominated in either United States or foreign currencies. Securities may be issued by domestic or foreign governments, domestic or foreign government agencies and instrumentalities, international banks or other international organizations, corporations or other forms of business organizations.
- The investment manager may also purchase securities of other categories, including options and financial futures contracts traded over-the-counter or on organized securities exchanges, commodities exchanges or Boards of Trade. These investments may be used within prudent limits to manage risk, lower transaction costs, or augment returns as long as leverage is not applied. Derivative securities should not be utilized by portfolio managers to materially increase a portfolio's duration as characterized by its stated investment style. The manager will invest the assets at such times, in such amounts and in such investments as the manager shall determine in its discretion.
- (3) Deposits in banks or banking institutions, domestic or foreign, may be made. Because the fundamental objective is to enhance the rate of return calculated in U.S. dollars, and currency exchange gains and loses are included in the calculation of total return, currency hedging shall be permitted, at the discretion of the manager, to protect the value of specific investments in U.S. dollar terms.
- (4) Forward or future contracts for foreign currencies may be entered into for hedging purposes or pending the selection and purchase of suitable investments in, or the settlement of any such securities transactions, as the case may be.
- (5) All bonds and notes in which the assets are invested, and which mature one year or more from the date of original issues, shall carry a rating of "BBB" or better by either Standard & Poors or Moodys Investor Services; or, if unrated, shall be of equivalent quality in the judgment of the investment manager to a similar domestic issue. Managers may, with prior written authorization, invest a maximum of 20% of their fixed income portfolio in bonds or notes that are rated B or BB.
- (6) The fund will be valued in United States dollars on the last business day of each month, and on such other "Valuation Dates" as the Board may deem appropriate. For valuation purposes, all foreign currency, foreign deposits and securities quoted in foreign currencies shall be converted into dollars pursuant to methods consistently followed and uniformly applied.
- (7) The manager may invest a portion of the assets in commingled accounts with specific mandates such as high yield trust funds with prior approval by the Board.

Domestic Common Stock

The primary emphasis of the common stock portfolio will be on high quality, readily marketable securities offering potential for above average return as protection against inflation. Common stock investments are limited to those meeting all of the following criteria:

- (1) Investment in any corporation shall not exceed 5% of the outstanding shares of the corporation.
- (2) Not more than 5% of the total assets at market may be invested in preferred stocks.
- (3) Not more than 5% of any Investment Manager's portfolio at market shall be invested in the common stock of any corporation, except when:
 - The security has a weighting greater than 5% in the manager's benchmark and
 - The manager has received prior written permission from the Director, Retirement Services. The Director will then inform the Investment Committee of any exceptions that were granted.
- (4) The manager will invest the assets at such times, in such amounts and in such investments as the manager shall determine in its discretion.
- (5) Approximately 15% of the domestic equity assets will be passively managed (indexed).

International Common Stock

Developed Markets

- (1) The portfolio will be invested primarily in non-U.S. common stocks. Investment in American Depository Receipts (ADR's) is permitted but they will not be considered U.S. equities. U.S. equities are not permitted. The maximum amount of developed markets international common stock to be held is 20% of the Fund's total assets valued at market. The Board will cause the asset mix to be rebalanced to remain within the 20% restriction. A maximum of 20% of a manager's international equity portfolio may be invested in emerging markets.
- (2) Currency hedging will be permitted as part of a defensive strategy to protect the portfolio's underlying assets.
- (3) Holding cash or cash equivalents, either U.S. or non-U.S., for the purpose of protecting the portfolio against perceived adverse equity market conditions abroad, will not be permitted. However, while the manager is expected to remain fully invested over time, cash and cash equivalent holdings will be permitted up to maximum of 7% of the manager's portfolio for the purpose of making country and security adjustments to the portfolio.

(4) To ensure proper diversification, the fund will be invested in a wide variety of economic sectors and countries. No one equity position will represent more than a total of 5% of the portfolio.

Emerging Markets

- (1) The portfolio will be invested in non-U.S. common stocks. Investment in American Depository Receipts (ADR's) is permitted but they will not be considered U.S. equities. U.S. equities are not permitted. The maximum amount of emerging international common stock to be held is 8% of the Fund's total assets valued at market. The Board will cause the asset mix to be rebalanced to remain within the 8% restriction
- (2) Currency hedging will be permitted as part of a defensive strategy to protect the portfolio's underlying assets.
- (3) Holding cash or cash equivalents, either U.S. or non-U.S., for the purpose of protecting the portfolio against perceived adverse equity market conditions abroad, will not be permitted. However, while the manager is expected to remain fully invested over time, cash and cash equivalent holdings will be permitted up to maximum of 7% of the manager's portfolio for the purpose of making country and security adjustments to the portfolio.
- (4) To ensure proper diversification, the fund will be invested in a wide variety of economic sectors and countries. No one equity position will represent more than a total of 5% of the portfolio, except when:
 - The security has a weighting greater than 5% in the manager's benchmark and the manager has received prior written permission from the Director, Retirement Services. The Director will then inform the Investment Committee of any exceptions that were granted.

Real Estate

The Board may elect to invest in commercial, industrial, and residential real estate or real estate related debt instruments provided that:

- (1) The real estate is defined as any real property within the United States improved by multifamily dwelling, industrial or commercial buildings.
- (2) Real estate related debt instruments shall be defined as first mortgages.
- (3) The fund shall at no time:
 - (a) Invest directly or indirectly more than 25% of the fund's assets, valued at market, in real estate investment as defined hereinabove; nor,

- (b) Invest directly or indirectly more than 5% of the fund's assets, valued at market, in any one property, project, or debt instrument regardless of the manner of investment.
- (4) The investment advisors employed by the Board to assist in the location and acquisition of real estate must bring their proposal to the Board for approval.

Credit Unions

No retirement fund assets shall be deposited in any such institution in excess of an amount insured by an agency of the Federal Government, and shall be made only if the rate of return and degree of safety offered are competitive with other investment opportunities.

Manager Discretion

Any manager who is engaged in or has a direct pecuniary interest in a business other than investment counseling, such as a broker or dealer in securities shall not be permitted to use such business with regard to the Plan assets without prior written approval by the Board.

Subject to these guidelines and policies, the Fund's Investment Managers have full discretion to sell, substantiate, redeem or convert securities as they deem advisable.

It is the intention of the Board to contract with an independent agency to vote domestic equity proxies according the plan proxy voting guidelines. However, international equity proxies are to be voted by the investment managers or any agent or service selected by the investment manager.

With the consent of the Board, compliance with the foregoing guidelines may be waived, either with respect to a specific transaction or transactions, or generally. The Board will, in addition, consult with the investment manager from time to time, at the investment manager's request, as to the continuing applicability of the guidelines and whether amendments may be appropriate.

Performance Goals

In order to insure that investment opportunity available over a specific time period are fairly evaluated, the Board of Administration will utilize comparative performance statistics to evaluate investment results. Accordingly, each investment manager is expected to achieve the following minimum performance standards over a rolling five year time period or a full market cycle.

Domestic Equity Managers

(1) Performance within the top half of the appropriate Mercer's Equity Style Universe.

(2) Net of fees, manager performance shall exceed the return of the appropriate benchmark by the following:

100 basis points for large-cap equity managers, 150 basis points for mid-cap equity managers, and 200 basis points for small-cap equity managers.

(3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the manager's benchmark index without a corresponding increase in performance above that index.

Domestic Fixed Income Managers

- (1) Performance within the top half of Mercer's Bond Funds Universe.
- (2) Net of fees, manager performance shall exceed by 50 basis points, the return of the Lehman Brothers Aggregate Bond Index.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the Lehman Brothers Aggregate Bond Index without a corresponding increase in performance above the index.

International Equity Managers

Developed Markets

- (1) Performance within the top half of Mercer's International Equity Fund Universe.
- (2) Net of fees, manager performance shall exceed by 150 basis points, the return of the Morgan Stanley EAFE Index for international equity managers.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the MSCI EAFE Index without a corresponding increase in performance above the index.

Emerging Markets

- (1) Performance within the top half of Mercer's Emerging Markets Equity Peer Group.
- (2) Net of fees, manager performance shall exceed by 200 basis points, the return of the MSCI Emerging Market Free Index for emerging markets managers.

(3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the MSCI EMF Index without a corresponding increase in performance above the index.

International Fixed Income Managers

- (1) Performance above median in Mercer's International Bond Fund Universe.
- (2) Net of fees, manager performance shall exceed by 75 basis points, the return of the Salomon Brothers World Government Bond Index.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the Salomon Brothers World Government Bond Index without a corresponding increase in performance above the index.

Real Estate Managers

- (1) Performance above median in Mercer's Real Estate Funds Universe.
- (2) Net of fees, manager performance shall exceed by 150 basis points, the return of the National Counsel of Real Estate Investment Fiduciaries (NCREIF) Classic Property Index or the NCREIF Classic Property Pacific Index for the portfolio with the majority of properties in California.
- (3) The risk associated with the manager's portfolio must not exceed that of the NCREIF or NCREIF Pacific Index without a corresponding increase in performance above the index.

Periodic Reviews of Manager Performance

The performance of each manager will be reviewed versus its benchmark every quarter. These benchmarks consist of both asset class indexes and peer group universes. Each manager's performance should exceed their passive index benchmark and each manager should be above the median of an appropriate universe.

As good managers will occasionally have poor performance for several periods, there is some grace period permitted for performance to improve. Conversely, the performance will be reviewed with sufficient frequency to permit identification of substandard performance as quickly as possible.

Procedure:

- 1. Each manager is expected to produce performance equal to or better than their benchmark index for one year, three year, and five year cumulative periods.
 - Managers are considered to achieve this objective if their performance exceeds their benchmark for two of the three periods of one year or longer.
- 2. The expectation to produce above median performance in an appropriate peer group for one year, three year, and five year cumulative periods will be factored in only when the majority of investment managers are underperforming the benchmark.
 - Managers are considered to achieve this objective if they rank above the median manager for two of the three periods of one year or longer and the performance in the third period is not less than the 62nd percentile.
- 3. If a manager has less than five years performance, we will review the periods reported by the consultant, such as one quarter, one year and since inception. However, no action will be taken for placement on the watch list until two years after inception date.
- 4. If there is a failure to meet the performance objective, the following rules should be applied:
 - a) A manager's (with at least two years of performance since inception) failure to meet their objective for four successive quarters will place the manager on the watch list. If a manager is consistently on the borderline, sometimes meeting objectives and sometimes failing to meet objectives, the manager may be placed on the watch list.
 - b) During the next four quarters, the manager's performance will be closely monitored to see if it is warranted for the manager to be placed on probation.
 - c) A manager placement on probation should result in review by the Investment Committee. Upon a critical review of the manager, the Investment Committee may grant up to one year further for improvement to take place upon officially recognizing the substandard performance and explicitly granting an extension of time for improvement. At the time of granting such extraordinary extension, the Investment Committee may delegate to the Director, Retirement Services, the authority to direct the manager to immediately suspend all trading except as specifically directed by the Director. If there has been improvement in performance, the Investment Committee may extend the probation beyond one year.

During the period of any such extraordinary extension, the investment staff should monitor the portfolio and transactions of such manager to ensure that excessive risk is not being taken in an attempt to "catch up". If in the judgment of the Director, such manager is managing the portfolio in such a manner that indicates that excessive risk is being taken, the Director should use the previously delegated authority to terminate or restrict the manager's activities.

- 5. In order to be taken off probation and placed on the watch list, a manager must beat their benchmark for 2 successive quarters (i.e. March and June OR beat their benchmark at one-year following four quarters of good performance.
- 6. In order to be taken off the watch list, a manager must beat their benchmark for an additional 2 successive quarters (i.e. September and December) OR have an additional four quarters of good performance.

Extraordinary Reviews of Managers

If an event occurs within a manager's organization or is likely to impact the manager's organization, the Director, Retirement Services, shall make a determination whether such event compromises the investment process or in any other manner might negatively impact the management of the Plan's assets.

Such events would include but are not limited to:

- a) Loss of any significant investment professional directly involved with the management of Plan assets or of such significance to the manager's overall investment process as to call into question the future efficacy of that process.
- b) Sale, offer for sale, or offer to purchase the manager's business to/by another entity.
- c) Significant financial difficulty or loss of a sizable portion of the manager's assets under management.
- d) Filing or announcement of regulatory action of non-trivial nature, particularly that involving violations of the Investment Advisers Act of 1940, the Securities Act of 1933, or the Securities Exchange Act of 1934, or any state Blue Sky Law to which the manager is subject.
- e) Any other event which in the discretion of the Director appear to put the Fund's assets at risk of loss, either actual or opportunity.

Any of these events may trigger a due diligence visit to the firm by the Investment Committee, being placed on the watch list, being put on probation or termination depending on the seriousness of the event and the probability of impacting the management of the Plan's assets.

July 25, 2002

Board of Retirement City of San Jose Police and Fire Department Retirement Plan 1737 North First Street, Suite 580 San Jose, CA 95112

Dear Members of the Board:

We are pleased to present the actuarial valuation for the City of San Jose Police and Fire Department Retirement Plan prepared as of June 30, 2001 by Mercer Human Resource Consulting. The report includes:

- (1) a determination of the city contribution rates under the current and recommended actuarial methods and assumptions; and
- (2) a determination of the employee contribution rates under the current and recommended actuarial methods and assumptions.

This report conforms with the requirements of the governing state and local statutes, accounting rules, and generally accepted actuarial principles and practices.

The undersigned is a member of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained therein.

Sincerely,

Andy Yeung, ASA, EA, MAAA

Andy Yeng

ACTUARY CERTIFICATION LETTER (Continued)

Actuarial Certification

The biennial actuarial valuation required for the City of San Jose Police and Fire Retirement Plan has been prepared as of June 30, 2001 by Mercer Human Resource Consulting, Inc. In preparing this valuation, we have employed generally accepted actuarial methods and assumptions to evaluate the System's assets, liabilities and future contribution requirements. Our calculations are based upon member data and financial information provided to us by the System's staff. This information has not been audited by us, but it has been reviewed and found to be consistent, both internally and with prior years' information.

The contribution requirements are determined as a percentage of payroll. The funding objective of the plan is to determine employer rates that provide for both normal cost and either a contribution to amortize the unfunded actuarial accrued liability or a credit when actuarial assets exceed the actuarial accrued liability. Employer rates provide for both normal cost and a contribution to amortize any unfunded or overfunded actuarial accrued liabilities. The Board elected to amortize the System's unfunded actuarial accrued liability over a 40-year period, beginning in 1977, with 16 years remaining as of the June 30, 2001 valuation date.

The actuarial value of assets used for the purposes of this valuation anticipates the adoption of the Supplemental Retiree Benefits Reserve (SRBR) program. The adoption of this program reduced the value of the assets by \$21,874,871 as of June 30, 2001.

The ratio of actuarial value of assets to actuarial accrued liabilities increased from 112.8% to 114.8% as a result of this valuation. The primary cause of the increase was the greater than expected investment return on the System's assets.

The Board has adopted new non-economic assumptions following the experience study of the System as of June 30, 2001.

In our opinion, the recommended assumptions and methods, when applied in combination, fairly represent past and anticipated future experience of the System.

A list of the supporting schedules we prepared for inclusion in the actuarial, statistical and financial sections of the Systems CAFR report is provided below.

- 1. Summary of Assumptions and Funding Method
- 2. Schedule of Active Member Valuation Data

ACTUARY CERTIFICATION LETTER (Continued)

- 3. Retirees and Beneficiaries Added to and Removed From Payroll
- 4. Actuarial Analysis of Financial Experience
- 5. Assumption Changes
- 6. Solvency Test
- 7. Major Provisions of the Retirement Plan
- 8. Schedule of Funding Progress
- 9. System Membership and Benefit Statistics

Future contribution requirements may differ from those determined in the valuation because of:

- differences between actual experience and anticipated experience;
- changes in actuarial assumptions or methods;
- changes in statutory provisions; and
- differences between the contribution rates determined by the valuation and those adopted by the Board.

This report conforms with the requirements of the governing state and local statutes, accounting rules, and generally accepted actuarial principles and practices. The undersigned is a member of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Mercer Human Resource Consulting, Inc.

SUMMARY OF ASSUMPTIONS AND FUNDING METHOD

The following assumptions have been adopted by the Retirement Board as of June 30, 2001:

Valuation Interest Rate

8%

Inflation Rate

4.50%

Cost-of-Living Adjustment

3.00%

Post-Retirement Mortality

(a) Service

Males

1994 Male Group Annuity Mortality Table

(set back 3 years)

Females

1994 Female Group Annuity Mortality Table

(set forward 1 year)

(b) Disability

PERS Industrial Disability Table 88 92 (set back 4 years)

Pre-Retirement Mortality

Withdrawal Rates

Based upon the 6/30/2001 Experience Analysis Based upon the 6/30/2001 Experience Analysis

Disability Rates

Based upon the 6/30/2001 Experience Analysis

Service Retirement Rates

Based upon the 6/30/2001 Experience Analysis

Salary Scales

10.30% for the first five years of service. Graded increases thereafter ranging from 10.10% at age 25 to 4.60% at ages 60 and over. Of the

total salary increases, 4.50% is for inflation.

Percentage of Members

Married

85%

Reciprocity

75% of all terminated vested members are assumed to be employed

by a reciprocal entity.

Assets

Five year smoothed recognition of total market return that differs from

the 8% return target.

Funding Method

The System's liability is being funded on the Entry Age Normal Cost method with the Unfunded Actuarial Accrued Liability being amortized over a period of 40 years beginning in 1977, with 16 years remaining on the June 30, 2001 valuation date. Actuarial gains and losses are reflected in the Unfunded Actuarial Accrued Liability.

 / (Employer Financed Portion of Liabilities)
- * These numbers have been revised

ASSUMPTION CHANGES

Changes were made to some of the assumptions. Following were the most significant:

- Disability Duty disability rates are decreased. This reduces costs.
- Service Retirement Service Retirement rates are decreased. This reduces costs.
- Salary Increase The merit and longevity salary increase assumption is changed to reflect actual salary increases over the last two years. This increases costs.
- Post-Retirement Mortality The new mortality table includes a setback (i.e., a mortality improvement) for disability retirees to reflect the Plan's mortality experience when compared to the standard table that was adopted. The change increases costs.
- Medical and Dental Premium Increases Short-term premium increases are raised to reflect anticipated experience. This increases costs.

MAJOR PROVISIONS OF THE RETIREMENT PLAN

Briefly summarized below are the major provisions of the 1961 San Jose Police and Fire Department Retirement Plan, as amended through June 30, 2001.

Final Average Salary (FAS)

Final average salary is defined as the highest 12 consecutive months of compensation earnable, not to exceed 108% of compensation paid to the member during the 12 months immediately preceding the last 12 months of service. FAS excludes overtime pay and expense allowances.

Return of Contributions

If a member should resign or die before becoming eligible for retirement, his or her contributions plus 2% interest per annum will be refunded.

Service Retirement Benefit

Members with 20 years of service who have attained age 55 are eligible to retire. Members age 70 (no service requirement) and members with 30 years of service, regardless of age, are also eligible to retire.

The normal service retirement benefit is 2.5% of FAS per year of service up to 20 years of service, 3.0% of FAS per year of service for the next 5 years of service, and 4.0% of FAS per year of service over 25, not to exceed 85% of FAS.

A special study was performed by the plan's prior actuary in 1992 (and subsequently adopted by the Board) which allows members with 25 years of service to retire at age 50 with unreduced benefits. Otherwise, members age 50 with 20 years of service receive their accrued service retirement benefit, reduced for interest below age 55.

Ten years of service are required for vesting purposes.

Disability Benefit

Nonservice-connected

Members with 2 years of service, regardless of age, are eligible for nonservice-connected disability. The benefit is 32% of FAS for the first 2 years of service plus 1% of FAS for each successive year. The maximum benefit is 50% of FAS.

Service-connected

Members may retire regardless of length of service, and the benefit is the greater of 2.5% of FAS per year of service up to 20 years of service, 3.0% of FAS per year of service for the next 5 years of service, and 4.0% of FAS per year of service over 25 (maximum 85% of FAS) or 50% of FAS.

MAJOR PROVISIONS OF THE RETIREMENT PLAN (Continued)

Death Benefit (before and after retirement)

Nonservice-connected

Eligibility is based on 2 years of service, regardless of age. The spouse receives 24% of FAS for the first 2 years of service plus 0.75% of FAS for each successive year. The maximum benefit is the greater of 50% of the member's benefit and 37.5% of FAS.

If a member has eligible dependent children (under age 18, or age 22 if a full time student), the benefits are as follows:

1 child

25% of FAS

2 children

37.5% of FAS

3 or more children

50% of FAS

The total benefits payable to a family shall not exceed 75% of FAS.

If a member does not have a spouse nor dependent children at death, a lump sum equal to the greater of the member's contributions or \$1,000 is paid to the estate.

These benefits are payable for active member deaths and deaths after nonservice-connected disability retirement.

Service-connected

The spouse receives the greater of 50% of the member's benefit and 37.5% of FAS. Eligible dependent children receive 25% of FAS per child. The total benefits payable to a family shall not exceed 75% of FAS.

These benefits are payable for active member deaths and deaths after service-connected disability retirement and service retirement.

Death Benefit - Inactive Members (after retirement)

The spouse receives 1.875% of FAS per year of service, not to exceed 37.5% of FAS. Eligible dependent children receive the following:

1 child

1.25% of FAS per year of service

2 children

1.875% of FAS per year of service

3 or more children

2.5% of FAS per year of service

The total benefits payable to a family shall not exceed 75% of FAS.

Cost of Living

The increase in retirement allowance is set at 3% a year.

Post-Retirement Health and Dental

Retirees and survivors with 15 years of service, or receiving a benefit of at least 37.5% of FAS, receive the same medical coverage that the City pays for an active member. Members must have retired from active service to be eligible.

MAJOR PROVISIONS OF THE RETIREMENT PLAN (Continued)

Members' Retirement Contributions

The members' contribution rates are recalculated on an actuarial basis at each actuarial study. The members presently contribute at the rate of 9.79% (effective 6/23/02 rate changed to 10.25%) of pay.

City's Retirement Contributions

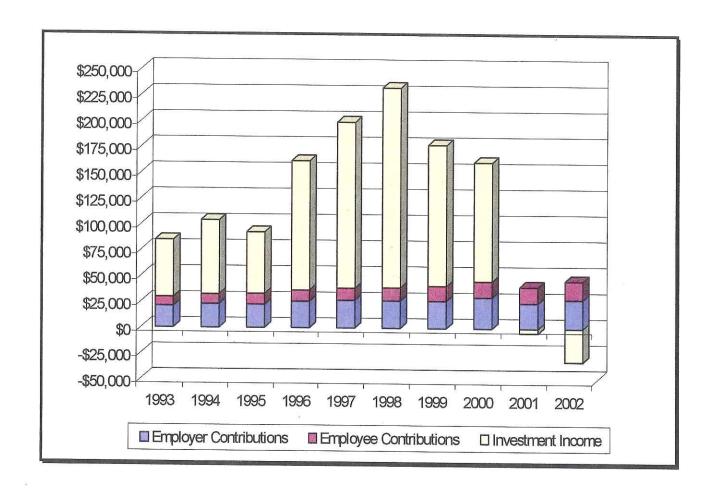

The City presently contributes at a rate of 15.60% (effective 6/23/02 rate changed to 14.22) of pay for all members. The City rate is the percentage of salary necessary, on an actuarial basis, to provide for the payment of the benefits promised, also taking into account the contributions being made by the members and the assets on hand. These rates are changed in accordance with the results of each actuarial study.
