DEPARTMENT OF RETIREMENT SERVICES Federated City Employees' Retirement System Police and Fire Department Retirement Plan

> The Honorable Mayor and City Council City of San Jose San Jose, California

Dear Mayor and Council Members:

The Board of Administration for the Police and Fire Department Retirement Plan is please to present its Annual Report for the Period July 1, 1998 through June 30, 1999. Some of the significant events worthy of note during this fiscal year were as follows:

- ♦ Investments earned 11.2 percent, increasing the market value of the portfolio by \$135.3 million. Investments contributed 77.0 percent of the Fund's Income.
- ♦ The Fund purchased an additional real estate holding. An office building located in Oak Brook, IL
- ♦ The Department of Retirement Services began issuing retirees' and beneficiaries' checks separately from the Finance Department beginning with the November 1998 payroll.
- ♦ The Board continues to discuss accountability and responsibility issue with the City Manager to ensure that the mandates of the California Pension Protection Act (Proposition 162) are being observed. The Board developed their proposal to Council on the structure of the Department of Retirement Services.

The Board believes that the professional services rendered by the staff, the auditors, investment counselors and the Fund performance evaluators have produced a sound fund capable of continued growth. The Board of Administration and its staff are available to provide additional information when requested.

Sincerely,

DAVID BACIGALUPI, Chair

Board of Administration

(THIS PAGE INTENTIONALLY LEFT BLANK)

BOARD OF ADMINISTRATION

The Retirement Plan is administered by a five-member Board of Administration composed of two City Council members, a representative from the Civil Service Commission, two representatives who are City employees, one from the Police Department and one from the Fire Department; in accordance with Section 2.08.400 of the San Jose Municipal Code.

As of June 30, 1998, the members of the Board were as follows:

David Bacigalupi, Board ChairmanEmployee Representative for sworn police personnel elected to the Board in November 1993. His current term expires November 30, 2001.

Richard P. Santos, Vice Chairman Employee Representative of the Fire Department elected to the Board in November 1987. His current term expires November 30, 1999.

Bill Brill Civil service commission member appointed on October 27, 1998. His current term expires December 1, 2001.

Charlotte Powers
City Council Member appointed to the Board in June 1994.

Alice Woody
City Council Member appointed to
the Board in February 1996.

DEPARTMENT OF RETIREMENT SERVICES ADMINISTRATION

HIGHLIGHTS OF THE SYSTEM

- 1. There were 2,029 contributing members in the System as of June 30, 1999.
- 2. 15 Police members and 10 Fire members received service retirements during the period of July 1, 1998 through June 30, 1999.
- 3. 11 Police members and 20 Fire members retired because of disabilities during the period of July 1, 1998 through June 30, 1999.
- 4. There are 901 retirees and 125 survivors and 41 ex-spouses receiving benefits from the System as of June 30, 1999.
- 5. There are 34 deferred vested members who terminated and left their contributions in the System and therefore will be eligible for benefits when they reach age 55.
- 6. During the reporting period, 16 members left their membership of the Retirement System and had their contributions refunded.
- 7. The market value of the Retirement Fund balance as of June 30, 1999 was \$1,165,785,396 in the Regular Fund and \$408,336,884 in the Cost-of-Living Fund for a total of \$1,574,122,380.
- 8. The Fund paid a total of \$3,404,710 for benefits in June of 1999 which included \$3,063,001 for Pension and Survivor Benefits and \$341,709 for Medical and Dental insurance. In June of 1998, the Fund paid \$3,383,399 for these benefits.
- 9. The annual time-weighted return for the entire portfolio was 11.2% for the year ending June 30, 1999.
- 10. The total income due to interest, dividends, rents, and gain on sale of investments (realized and unrealized) for the period was \$136,644,000, and averaged about \$11,387,000 per month.

SUMMARY OF THE PRINCIPAL PROVISIONS OF THE POLICE AND FIRE DEPARTMENT RETIREMENT PLAN SAN JOSE, CALIFORNIA

MEMBERSHIP

Mandatory for all full-time safety employees.

MEMBER CONTRIBUTION

All members contribute 10.22% of base salary.

CITY'S CONTRIBUTION

The City contributes 19.82% of the base salary.

INTEREST

Two percent annual interest is calculated each biweekly pay period and is added to employee contributions. This interest is derived from investments.

TERMINATION BENEFITS

Upon termination, the member shall be paid all of his/her accumulated contributions and interest in full satisfaction of all rights and benefits under this Retirement Plan. The City's contributions and interest will not be refunded to the employee.

MILITARY LEAVE CREDIT

If during employment with the City of San José a member has served in the military, the City will pay the member's contributions into the Retirement System for that period of time if the following conditions exist: (1) a time of war, a national emergency proclaimed by the President or the Congress, or (2) Service outside the United States as requested by the United Nations. This is not refundable to an employee who resigns and requests a refund of contributions.

VESTING OF PENSION CREDIT

After 10 years of service, a member may resign his/her position with the Police or Fire Department and leave the accumulated contributions in the Retirement Plan. A member who vests in this fashion is eligible to retire later at age 55 or when 20 years have elapsed form the original hire date. For a vested retirement, the monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service for members who left prior to February 4, 1996; thereafter, members leaving their monthly retirement allowance is calculated at the same rate for up to 20 years and at 3% for any years over that amount (maximum of 80%).

SERVICE RETIREMENT

Members may retire at age 50 with 25 years of service, at 55 with at least 20 years of service or at any age with 30 years of service. The monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service up to 20 years and by 3% for any years thereafter. There is a maximum of 80% (30 years of service equals 80%.)

SERVICE-CONNECTED DISABILITY

Retirement resulting from an injury or disease arising out of and in the course of such member's employment with the City. No minimum period of service required. For members with less than 20 years of service, the monthly retirement allowance is 50% of the final compensation. For members with 20 or more years of service, the monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service up to 20 years and by 3% for any years thereafter. There is a maximum of 80% (30 years of service equals 80%.)

NON-SERVICE-CONNECTED DISABILITY

Retirement resulting from other than a service-connected disability with at least 2 years of service. For members with 2 to 19 years of service, the monthly retirement allowance is 32% multiplied by the final compensation for first two years plus one percent for an additional year. For members with at least 20 years of service, the monthly retirement allowance is the final compensation multiplied by 2 1/2% multiplied by years of service. There is a maximum of 75% (30 years of service equals 75%.)

EARLY SERVICE RETIREMENT

Retirement at age 50 to 55 with at least 20 years of service. Members' retirement allowance shall be calculated as if the member were at least 55, and then reduced according to guidelines set forth in Section 3.36.810 of the City of San Jose Municipal Code.

MANDATORY RETIREMENT

Age 70.

SURVIVORSHIP ALLOWANCE

The spouse will receive 37 1/2% of the final compensation if the member dies while entitled to immediate retirement for service, dies at any age due to a service-connected injury or illness, is retired for service, or is retired for service-connected disability. Optional Retirement Allowances are available.

If the member dies before age 55 with two or more years of services due to a non-service connected injury or illness, or if the member is retired for non-service connected disability, the spouse will receive 24% of final compensation for two years of service and 0.75% for each year thereafter (Maximum: 37-1/2%.)

Surviving child or children conceived prior to retirement will receive the following:

- 1 child receives 25% of the final compensation
- 2 children share 37 1/2% of the final compensation
- 3+ children share 50% of the final compensation

Unless the death is service-connected in which case the eligible child or children will receive:

- 1 child receives 25% of the final compensation
- 2 children share 50% of the final compensation
- 3+ children share 75% of the final compensation

The maximum family benefit is 75% of the final compensation. If the sum of spousal benefit plus the children's benefit is greater than 75%, the children's benefit is reduced. Dependant children are paid to age 18 or to age 22 if full-time students.

REMARRIAGE OF SPOUSE

If the employee is 55 at time of death and has twenty years of service, or the member is entitled to 30 years of service regardless of age, the spouse will retain allowance for life. If less than 20 years or under age 55, the spouse loses the allowance upon a remarriage.

MANAGEMENT

The System is under the management of a five member Board of Administration consisting of two City Council persons, a Civil Service Commissioner, and two elected employees who are members of the retirement plan.

The Board of Administration is a policy-making body and responsible for the proper operation of the Plan. The Plan operates as an independent trust, separate and distinct from the City and other entities. The administration of the Plan is under its guidance and direction and is subject to such rules, regulations and directives as it may adopt from time to time. Members, expect for public member, serve without compensation. The City Attorney provides legal advice and counsel.

<u>ADMINISTRATION</u>

A full-time Retirement Administrator is employed by the Board. He serves as Secretary and Chief Executive Officer to the Board of Administration.

The Fund Pays the cost of the personnel who are employed for the purpose of managing the Retirement Plan. It also pays any directly related administrative costs.

Bankers Trust is employed as custodian of fund assets and collector of investment income.

ACTUARIAL SOUNDNESS

Plan and benefit provisions are periodically reviewed to assure continuing soundness.

INVESTMENT AUTHORITY AND POLICY

The investment authority is broad and flexible, allowing maximum utilization of the System's resources. Nationally known investment advisory services including Alliance Capital; American Re; Bank of Ireland; Boston Partners; Brandes Investment Partners; Brinson Partners; Crabbe Huson Group; Credit Suisse; Globalt; MIG Realty Advisors; New Amsterdam Partners; PMRealty Advisors; Provident Investment Counsel; Putnam Investments; Rhumbline; Scudder Kemper Investments; Smith Graham & Company; and Woodford Gayed Management are retained for full-time investment counsel. William A. Mercer, Inc. is retained as the pension consultant.

COST OF LIVING

The Board of Administration determines the change in the cost of living (COL) each year using the December Consumer Price Index for the San Francisco-Oakland Metropolitan Area published by the Bureau of Labor Statistics of the United States Department of Labor. The Board determines the change to be effective beginning April first each year. A maximum of 3% is granted with any excess accumulated for use in future years. A retiree draws no COL increase for the first year, then receives a prorated increase for the months before the next April first. Survivors will be paid their first COL increase as if they were a new retiree according to the above schedule.

 $(THIS\ PAGE\ INTENTIONALLY\ LEFT\ BLANK)$

Plan Performance

PLAN REVENUES

The System's Retirement Fund has three principal sources of income. These are payments by the City; payments by employee members of the System; and interest, dividends, and net rental earnings from the monies invested in equities, bonds, real estate and other securities.

The pattern of revenues for the last decade is shown in the following table:

Fiscal Year Ending in June	Employer Payments	Employee Payments	Interest and Other Income	Total
1999	26,563,000	14,148,000	136,644,000	177,355,000
1998	26,547,000	12,570,000	193,114,000	232,231,000
1997	26,779,000	11,711,000	160,534,000	*199,024,000
1996	25,604,000	10,789,000	125,170,000	161,563,000
1995	25,297,512	10,689,507	56,352,881	92,339,900
1994	22,827,065	9,354,510	71,825,999	104,007,574
1993	23,803,000	9,617,000	89,662,000	123,082,000

STATEMENT OF INVESTMENT POLICY BOARD OF ADMINISTRATION POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

GENERAL ENVIRONMENT

Investments in the San Jose Police and Fire Department Retirement Plan are subject to the restrictions specified in the San Jose Municipal Code 3.36.540. Further investment management guidelines are imposed by the Board of Administration.

INVESTMENT GUIDELINES

General

The Board Shall:

- (1) Require that the Retirement System be actuarially sound to assure that all disbursement obligations will be met.
- (2) Attempt to insure that investment earnings be sufficiently high to provide a funding source, along with contributions from City employees and the City, in order to offset liabilities in perpetuity.
- (3) Strive for the highest total return on invested funds consistent with safety in accordance with accepted investment practices.

Asset Allocation

The following policy has been identified by the Board of Administration as having the greatest expected investment return, and the resulting positive impact on asset values and funded status without exceeding a prudent level of risk. The Board determined this policy after evaluating the implications of increased investment return versus increased variability of return for a number of potential investment policies with varying commitments to stocks and bonds.

It shall be the policy of the Plan to invest its assets in accordance with the maximum and minimum range, valued at market, for each asset class as stated below:

Asset Class	<u>Minimum</u>	<u>Target</u>	<u>Actual</u>	<u>Maximum</u>
Bonds	25%	35%	43%	60%
Bonds - Global	0%	10%	7%	15%
Stocks - U.S.	30%	35%	40%	40%
Stocks - International	0%	10%	7%	15%
Real Estate	0%	10%	3%	15%

It is understood that the fund managers at any point in time may not be fully invested. However,

managers are expected to be fully funded and cash positions in excess of 7% require the manager to notify the Board of Administration in writing. While the Plan's assets may be partially invested in cash equivalents, for asset allocation purposes these funds shall be considered invested in the asset classes of the respective managers. In turn, each manager's performance will be evaluated on the total amount of funds under its management.

The asset allocation ranges established by this investment policy represent the long-term perspective. As such, rapid unanticipated market shifts may cause the asset mix to fall outside the policy range. Any divergence should be of a short-term nature. The Board of Administration will review the asset mix of the Plan on a quarterly basis and cause the asset mix to be rebalanced to within the policy range as necessary.

Investment managers may request temporary exemptions from guideline limits by submitting written requests to the Board of Administration for prior approval. For special situations, the Board of Administration can grant special exemptions from the guidelines. In no case can a manager actively exceed guideline limits without formal prior approval by the Board.

Diversification

Investment diversification is consistent with the intent to minimize the risk of large losses to the Plan. Consequently, the total fund will be constructed by the individual portfolio managers to attain prudent diversification in several asset classes. To ensure adequate diversification, no manager will hold more than 5% of its portion of the total Plan assets in any single security with the exception of government backed securities and real estate equity. As a general rule, Plan assets placed with an investment manager will not represent more than 10% of that manager's total assets.

Volatility

Consistent with the desire for adequate diversification, the investment policy is based on the assumption that the volatility (the standard deviation of returns) of the portfolio will be relative to that of the market. Consequently, it is expected that the volatility of a commitment-weighted composite of the market indices, e.g., S&P 500 Index for stocks and Salomon Brothers Broad Grade Index for bonds and U.S. T-Bills for cash, will be commensurate with the Plan's volatility.

Liquidity

Presently there is not a requirement to maintain significant liquid reserves for the payment of pension benefits. The Board has authorized the Board of Administration Secretary to review the projected cash flow requirements at least annually and indicate to investment managers the required liquidity.

Contributions are expected to be in excess of net benefit payments over the foreseeable future, resulting in a positive cash flow, which will be reinvested by the fund manager who receives the cash flow.

Fixed Income

The Board shall require that the majority of the fixed income portfolio be invested in high qual

Fixed Income (continued)

ity, (investment grade) marketable bonds as provided in Section 3.36.540. Whether a global fixed income manager is employed, or separate domestic and international fixed income managers are employed, they are to invest in accordance with the following guidelines:

- (1) Portfolio investments will be composed primarily of fixed income securities (including short term obligations) denominated in either United States or foreign currencies. Securities may be issued by domestic or foreign governments, domestic or foreign government agencies and instrumentalities, international banks or other international organizations, corporations or other forms of business organizations.
- The investment manager may also purchase securities of other categories; including, options and financial futures contracts traded over-the-counter or on organized securities exchanges, commodities exchanges or Boards of Trade. These investments may be used within prudent limits to manage risk, lower transaction costs, or augment returns as long as leverage is not applied. Derivative securities should not be utilized by portfolio managers to materially increase a portfolio's duration as characterized by its stated investment style. The manager will invest the assets at such times, in such amounts and in such investments as the manager shall determine in its discretion.
- (3) Deposits in banks or banking institutions, domestic or foreign, may be made. Because the fundamental objective is to enhance the rate of return calculated in U.S. dollars, and currency exchange gains and loses are included in the calculation of total return, currency hedging shall be permitted, at the discretion of the manager, to protect the value of specific investments in U.S. dollar terms.
- (4) Forward or future contracts for foreign currencies may be entered into for hedging purposes or pending the selection and purchase of suitable investments in, or the settlement of any such securities transactions, as the case may be.
- or more from the date of original issues, shall carry a rating of "BBB" or better by either Standard & Poors or Moodys Investor Services; or, if unrated, shall be of equivalent quality in the judgment of the investment manager to a similar domestic issue. Managers may, with prior written authorization, invest a maximum of 20% of their fixed income portfolio in bonds or notes that are rated B or BB.
- (6) The fund will be valued in United States dollars on the last business day of each month, and on such other "Valuation Dates" as the Board may deem appropriate. For valuation purposes, all foreign currency, foreign deposits and securities quoted in foreign currencies shall be converted into dollars pursuant to methods consistently followed and uniformly applied.

(7) The manager may invest a portion of the assets in commingled accounts with specific mandates such as high yield trust funds with prior approval by the Board.

Domestic Common Stock

The primary emphasis of the common stock portfolio will be on high quality, readily marketable securities offering potential for above average return as protection against inflation. The maximum amount of common stock to be held is 55% of the Fund's assets valued at market. Common stock investments are limited to those meeting all of the following criteria as set forth in Section 3.36.540:

- (1) Stocks will be restricted to those large enough to be readily marketable and traded on a national exchange.
- (2) Corporations must have total assets of at least \$50 million or gross sales of at least \$150 million and at least 5 million shares of common stock outstanding.
- (3) Investment in any corporation shall not exceed 5% of the outstanding shares of the corporation.
- (4) Not more than 5% of the total assets at cost may be invested in preferred stocks.
- (5) Not more than 5% of any Investment Manager's portfolio at cost shall be invested in the common stock of any corporation.
- (6) The manager will invest the assets at such times, in such amounts and in such investments as the manager shall determine in its discretion.
- (7) Approximately 15% of the domestic equity assets will be passively managed (indexed).

International Common Stock

- (1) The portfolio will be invested primarily in non-U.S. common stocks. Investment in American Depository Receipts (ADR's) is permitted but they will not be considered U.S. equities. U.S. equities are not permitted. The maximum amount of international common stock to be held is 15% of the Fund's total assets valued at market. A maximum of 20% of a manager's international equity portfolio may be invested in emerging markets.
- (2) Currency hedging will be permitted as part of a defensive strategy to protect the portfolio's underlying assets.
- (3) Holding cash or cash equivalents, either U.S. or non-U.S., for the purpose of protecting

International Common Stock (continued)

the portfolio against perceived adverse equity market conditions abroad, will not be permitted. However, while the manager is expected to remain fully invested over time, cash and cash equivalent holdings will be permitted up to maximum of 10% of the manager's portfolio for the purpose of making country and security adjustments to the portfolio.

(4) To ensure proper diversification, the fund will be invested in a wide variety of economic sectors and countries. No one equity position will represent more than a total of 5% of the portfolio.

Real Estate

The Board may elect to invest in commercial, industrial, and residential real estate or real estate related debt instruments provided that:

- (1) The real estate is defined as any real property within the United States improved by multifamily dwelling, industrial or commercial buildings.
- (2) Real estate related debt instruments shall be defined as first mortgages.
- (3) The fund shall at no time:
 - (a) Invest directly or indirectly more than 25% of the fund's assets, valued at cost, in real estate investment as defined hereinabove; nor,
 - (b) Invest directly or indirectly more than 5% of the fund's assets, valued at cost, in any one property, project, or debt instrument regardless of the manner of investment.
- (4) The investment advisors employed by the Board to assist in the location and acquisition of real estate must bring their proposal to the Board for approval.

Credit Unions

No retirement fund assets shall be deposited in any such institution in excess of an amount insured by an agency of the Federal Government, and shall be made only if the rate of return and degree of safety offered are competitive with other investment opportunities.

Manager Discretion

Subject to these guidelines and policies, the Fund's Investment Managers have full discretion to

sell, substantiate, redeem or convert securities as they deem advisable. It is the intention of the Board to contract with an independent agency to vote domestic equity proxies according the plan proxy voting guidelines. However, international equity proxies are to be voted by the investment managers.

With the consent of the Board, compliance with the foregoing guidelines may be waived, either with respect to a specific transaction or transactions, or generally. The Board will, in addition, consult with the investment manager from time to time, at the investment manager's request, as to the continuing applicability of the guidelines and whether amendments may be appropriate.

Performance Goals

In order to insure that investment opportunity available over a specific time period are fairly evaluated, the Board of Administration will utilize comparative performance statistics to evaluate investment results. Accordingly, each investment manager is expected to achieve the following minimum performance standards over a rolling five year time period or a full market cycle.

Domestic Equity Managers

- (1) Performance within the top half of Mercer's Equity Funds Universe.
- (2) Net of fees, manager performance shall exceed by 200 basis points, the return of: the S&P 500 Stock Index for large-cap equity managers, the S&P Mid-cap Stock Index for mid-cap equity managers, or the Russell 2000 Stock Index for small-cap equity managers.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the manager's benchmark index without a corresponding increase in performance above that index.

Domestic Fixed Income Managers

- (1) Performance within the top half of Mercer's Bond Funds Universe.
- (2) Net of fees, manager performance shall exceed by 50 basis points, the return of the Lehman Brothers Aggregate Bond Index.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard. deviation) must not exceed that of the Lehman Brothers Aggregate Bond Index without a corresponding increase in performance above the index.

International Equity Managers

(1) Performance within the top half of Mercer's International Equity Fund Universe.

- (2) Net of fees, manager performance shall exceed by 200 basis points, the return of the Morgan Stanley EAFE Index for international equity managers.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the MSCI EAFE Index without a corresponding increase in performance above the index.

International Fixed Income Managers

- (1) Performance above median in Mercer's International Bond Fund Universe.
- (2) Net of fees, manager performance shall exceed by 50 basis points, the return of the Salomon Brothers World Government Bond Index.
- (3) The risk associated with the manager's portfolio as measured by the variability of quarterly returns (standard deviation) must not exceed that of the Salomon Brothers World Government Bond Index without a corresponding increase in performance above the index.

Real Estate Managers

- (1) Performance above median in Mercer's Real Estate Funds Universe.
- (2) Net of fees, manager performance shall exceed by 200 basis points, the return of the National Counsel of Real Estate Investment Fiduciaries (NCREIF) Pacific Index.
- (3) The risk associated with the manager's portfolio must not exceed that of the NCREIF Pacific Index without a corresponding increase in performance above the index.

Periodic Reviews of Manager Performance

The performance of each manager will be reviewed versus its benchmark every quarter. These benchmarks consist of both asset class indexes and peer group universes. Each manager's risk adjusted performance should exceed their passive index benchmark and each manager should be above the median of an appropriate universe.

As good managers will occasionally have poor performance for several periods, there is some grace period permitted for performance to improve. Conversely, the performance will be reviewed with sufficient frequency to permit identification of substandard performance as quickly as possible.

Procedure:

1. Each manager is expected to produce performance equal to or better than their benchmark in dex for one quarter, one year, three year, and five year cumulative periods.

- Managers are considered to achieve this objective if their performance exceeds their benchmark for two of the three periods of one year or longer or any three periods.
- 2. Each manager is expected to produce above median performance in an appropriate peer group for one quarter, one year, three year, and five year cumulative periods. Managers are consid ered to achieve this objective if they rank above the median manager for two of the three periods of one year or longer and the performance in the third period is not less than the 62nd percentile.
- 3. If there is a failure to meet any objectives, the following rules should be applied:
 - a) A manager's failure to meet either objective for one or two quarters is not a cause for concern.
 - b) A manager's failure to meet either objective for three successive quarters merits probationary status.
 - c) A manager's failure to meet either objective for four successive quarters should result in termination. Upon a critical review of the manager, the Investment Committee may grant a further two quarters for improvement to take place upon officially recognizing the substandard performance and explicitly granting an extension of time for improve ment. At the time of granting such extraordinary extension, the Investment Committee may delegate to the Administrator the authority to direct the manager to immediately suspend all trading except as specifically directed by the Administrator.

During the period of any such extraordinary extension, the investment staff should monitor the portfolio and transactions of such manager to ensure that excessive risk is not being taken in an attempt to "catch up". If in the judgment of the Administrator, such manager is managing the portfolio in such a manner that indicates that excessive risk is being taken, the Administrator should use the previously delegated authority to terminate or restrict the manager's activities.

Extraordinary Reviews of Managers

If an event occurs within a manager's organization or is likely to impact the manager's organization, the Administrator shall make a determination whether such event compromises the investment process or in any other manner might negatively impact the management of the Plan's assets.

Such events would include but are not limited to:

a) Loss of any significant investment professional directly involved with the management of Plan assets or of such significance to the manager's overall investment process as to call into question the future efficacy of that process.

- b) Sale, offer for sale, or offer to purchase the manager's business to/by another entity.
- c) Significant financial difficulty or loss of a sizable portion of the manager's assets under management.
- d) Filing or announcement of regulatory action of non-trivial nature, particularly that involving violations of the Investment Advisers Act of 1940, the Securities Act of 1933, or the Securities Exchange Act of 1934, or any state Blue Sky Law to which the manager is subject.
- e) Any other event which in the discretion of the Administrator appear to put the Fund's assets at risk of loss, either actual or opportunity.

September 24, 1999

Mr. Ed Overton Secretary, Board of Administration San Jose Police & Fire Department Retirement Plan 777 North First Street, Suite 750 San Jose, CA 95112

Dear Mr. Overton:

For the fiscal year ending June 30, 1999 investment returns again exceeded expectations. One year ago it was hard to imagine another year of double digit returns but the 11.2% total return of the Plan was exceptional and well ahead of the actuarial assumption rate of 8.0%. We continue to be less optimistic about a repeat performance but last year's return of 11.2% was near the top third of the public fund peer universe.

Financial markets continued to be quite volatile in the Fall, 1998 due to the Asian Crisis. However, things settled down considerably over the last six months and even the international emerging country equity markets rebounded nicely. The Retirement Plan's international equity managers produced returns of 14.5% for the year and domestic (U.S.) equity managers did even better with a 15.4% return.

Real estate equity managers produced more subdued returns of 9.1% due to the low inflationary environment. On the other hand, the Federal Reserve expressed some concerns over the return of inflation by raising interest rates in late June. The bond markets had been anticipating the increase in rates and consequently investment returns for bond managers were negative in the last half of the fiscal year. The end result for the fiscal year was a return of 2.2% for domestic bond managers and a return of 5.0% for the global bond manager.

Although bond returns were low, the Plan's asset allocation to equities provided a significant benefit to the total return. These asset allocation decisions were made by the Retirement Board based on maintaining a long term investment horizon. This patient strategy continued to provide exceptional returns.

A Marsh & McLennan Company

Mr. Ed Overton September 24, 1999 Page 2

Considering the exceptional investment returns, it should also be noted that the asset allocation model adopted by the Retirement Board is more conservative than the average U.S. public retirement plan. The defensive allocation strategy combined with a well diversified mix of investment managers should be an advantage when the capital markets go through a downturn. That statement is not intended as a prediction but as confirmation that the asset mix is prudent.

It has been our pleasure to work with the Trustees and staff in establishing, implementing and maintaining a sound investment policy. Thank you for the opportunity to be of service.

Respectfully submitted,

Thomas J. Lightvoet

Independent Auditors' Report

The Board of Administration
City of San Jose Police and Fire Department
Retirement Plan:

We have audited the financial statements of the City of San Jose Police and Fire Department Retirement Plan (the Plan) as of and for the years ended June 30, 1999 and 1998, as listed in the accompanying table of contents as "Financial Statements." These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the City of San Jose Police and Fire Department Retirement Plan's net assets as of June 30, 1999 and 1998, and changes in those net assets for the years then ended in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in Schedules I through 4 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information included in Schedules 5 through 8 is not a required part of the basic financial statements, but is required by the Governmental Accounting Standards Board. We were unable to apply certain limited procedures to the Year 2000 information because of the nature of the subject matter underlying the disclosure requirements and because sufficiently specific criteria regarding the matters to be disclosed have not been established. In addition, we do not provide assurance that the City of San Jose (the City) is or will become Year 2000 compliant, that the City's Year 2000 remediation efforts will be successful in whole or in part, or that parties with which the City does business are or will become Year 2000 compliant. The aforementioned supplementary information, except for Schedules 5 through 8 that are marked "Unaudited" on which we express no opinion, has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements June 30, 1999 and 1998

(1) Description of the Plan

The following description of the City of San Jose Police and Fire Department Retirement Plan (the Plan) is provided for general information purposes only. Employees and members should refer to the City of San Jose Municipal Code for more complete information.

(a) General

The Plan, consisting of a single employer Defined Benefit Pension Plan and a Postemployment Healthcare Plan, was established in 1961 and last amended June 30, 1997, to provide retirement benefits for employees of the Police and Fire Department of the City of San Jose (the City). The Plan is considered to be a part of the City's financial reporting entity and is included in the City's general purpose financial statements as a pension trust fund. The Plan is administered by the Retirement Administrator, an employee of the City, under the direction of a Board of Administration. The contribution and benefit provisions and all other requirements are established by City ordinance. The Plan is responsible for all direct administrative costs except for certain support services, which are provided by the City.

All sworn officers of the City's Police and Fire Department are required to be members of the Plan. Total payroll amounted to approximately \$162,100,000 and \$149,550,000 for 1999 and 1998, respectively. Covered payroll amounted to approximately \$140,826,000 and \$131,511,000 in 1999 and 1998, respectively.

Participants of the Postemployment Healthcare Plan are also participants of the Defined Benefit Pension Plan. As of June 30, 1999 and 1998, employee membership data related to the Plan was as follows:

	1999	1998
Defined Benefit Pension Plan: Retirees and beneficiaries currently	×-	:
receiving benefits	1,070	1,016
Terminated vested members not yet receiving benefits Active members	24 2,016	35 1,994
Total	3,110	3,045
Postemployment Healthcare Plan: Retirees and beneficiaries currently		
receiving benefits Terminated vested members not yet	985	925 -
receiving benefits Active members	3 2,016	35 1,989
Total	3,004	2,949

The Plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements June 30, 1999 and 1998

(b) Pension Benefits

An employee with 10 or more years of service who resigns and leaves his/her contributions in the Plan; an employee who reaches the normal retirement age of 55 with 20 years of service; an employee of age 50 with 25 years of service; an employee of any age with 30 years of service; or an employee of age 70 with no service requirement is entitled to monthly pension benefits equal to 2.5% of their final salary for each year of service up 20 years. For each year of service after 20 years, an employee is entitled to 3% of their final average monthly salary up to a maximum benefit of 80% of their final compensation. Final compensation is the average monthly salary during the highest 12 consecutive months of service, limited to 108% of salary paid during the 12 months immediately proceeding the last 12 months of service. These benefit rates and formulas are based on the outcome of the arbitration process and approval by the Plan Board in July 1998. In addition, retirement benefits are adjusted for an annual cost-of-living allowance (COLA). The current maximum increase in the COLA is 3% per year.

If employees terminate employment before completing 10 years of service, the right to receive their portion of the accumulated plan benefits attributable to the City's contributions is forfeited; however, an employee's accumulated contribution plus 2% interest per annum is refunded. Refunds are paid out on a lump-sum basis. The forfeited amount of the City's contributions remains in the Plan.

(c) Death Benefits

An annual annuity of up to 37.5% of an employee's final compensation is paid to a surviving spouse until remarriage if: (1) an employee's death is service related; or (2) an employee's death is non-service related and occurs with at least 20 years of service; or (3) a retiree dies who was retired from service or who received a service related disability. Additionally, an annual benefit for dependent children up to 18 years of age, or up to 22 years of age if a full-time student, is paid at a rate of 25% of final compensation per child with a maximum family benefit of 75% of final compensation if death is service related.

If an employee's death is nonservice related and the employee has at least 2 years of service, the Plan allows for an annual annuity of 24% of the employee's final compensation for the first 2 years of service, plus 0.75% for each year thereafter, to be paid to his/her surviving spouse until remarriage (maximum of 37.5% of final compensation). These benefits are also paid to the surviving spouse of a retiree on a nonservice related disability. Additionally, annual benefits for dependent children up to 18 years of age, or 22 years of age if a full-time student, are as follows:

- One child 25% of final compensation
- Two children 37.5% of final compensation
- Three or more children 50% of final compensation

The maximum annual benefit paid to a family under any circumstances is 75% of final compensation. If the employee has no spouse or children, a lump sum equal to the greater of the employee's accumulated contributions or \$1,000 is paid to his/her estate.

Notes to Financial Statements June 30, 1999 and 1998

(d) Disability Benefits

If an employee suffers a service related disability before retirement, an annual benefit is paid equal to the greater of: (1) 50% of final compensation; or (2) 2.5% of final compensation, multiplied by the number of years of service (maximum of 30 years).

If an employee with at least 2 years of service suffers a nonservice related disability, an annual benefit is paid equal to 32% of final compensation for the first 2 years of service plus 1% of final compensation for each successive year, up to a maximum of 50% of final compensation for an employee with up to 20 years of service. For employees with more than 20 years of service, the benefit paid is 3% of final compensation multiplied by the number of years of service, not to exceed 80% of final compensation.

(e) Postemployment Healthcare Benefits

The City of San Jose Municipal Code provides that retired employees with 15 years or more of service, their survivors, or those retired employees who are receiving a pension benefit of at least 37.5% of final compensation are entitled to payment of 100% of the lowest priced medical insurance plan available to an active police and fire employee.

(f) Plan Termination

In the event the Plan is terminated, there is no provision for the distribution of net assets.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Contributions are recognized as revenue in the period in which employee services are performed. Activities of the Defined Benefit Pension Plan and the Postemployment Healthcare Plan are accounted for separately. It is required that transactions of the Defined Benefit Pension Plan be accounted for in two funds: a Retirement Fund and a Cost-of-Living Fund.

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the disclosed amount of additions and deletions during the reporting periods. Actual results could differ from those estimates.

(b) Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price on the last business day of the fiscal year at current exchange rates, if applicable. Investments that do not have an established market are reported at estimated fair value. The fair value of real estate investments is based on independent appraisals.

Purchases and sales of securities are reflected on the trade date. Investment income is recognized as earned. Rental income is recognized as earned, net of expenses.

Notes to Financial Statements June 30, 1999 and 1998

(c) Plan Net Assets Held in Trust for Pension and Postemployment Healthcare Benefits

The Plan is required by the City of San Jose Municipal Code to establish various reserves in the plan net assets (fund balance). The Defined Benefit Pension Plan Net Assets are allocated between the Retirement Fund and the Cost-of-Living Fund (see Schedule 1). The Postemployment Healthcare Plan Net Assets are in the Retirement Fund only (see Schedule 2). As of June 30, 1999, the fund balance, totaling \$1,579,385,000 on a combined basis for both the Retirement Fund and the Cost-of-Living Fund, is allocated as follows (in thousands):

•	Retirement Cost-of-Living		Total		
	Fund	<u>Fund</u>	1999	1998	
Employee contributions Unrealized gains on	\$ 98,882	31,716	130,598	121,773	
investments held General reserve	159,610 919,894	46,522 322,761	206,132 1,242,655	179,106 1,145,053	
Total	\$ 1,178,386	400,999	1,579,385	1,445,932	

(d) Allocation of Investment Income

Earnings on investments, excluding unrealized gains and losses are recorded first in the general reserve category of fund balance. An allocation is made biweekly from the general reserve category to the employee contributions category of fund balance based on the balance in that account at an annual rate of 2%, as specified by the City of San Jose Municipal Code. Any earnings in excess of 2% remain in the general reserve category.

(3) Investments

The Plan's investments for both the Defined Benefit Pension Plan and the Postemployment Healthcare Plan are categorized to give an indication of the level of custodial risk assumed by the Plan at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the Plan or its agent in the Plan's name. Category 2 includes uninsured and unregistered investments for which the securities are held by a qualifying financial institution's trust department or agent in the Plan's name, where the financial institution acts as the Plan's counterparty. Category 3 includes uninsured and unregistered investments for which the securities are held by a broker or dealer, or by its agent, or by a qualifying financial institution's trust department or agent, but not in the Plan's name. There were no investments in Category 2 as of June 30, 1999.

Notes to Financial Statements June 30, 1999 and 1998

The categorization of the Plan's investments (both for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan) as of June 30, 1999, was as follows (in thousands):

		Category 1	Category 3	Total
Short-term foreign currency investments U.S. Treasury bonds and notes:	\$	-	17,141	17,141
Not on securities loan Loaned securities for noncash		22,982		22,982
collateral		28,107	·	28,107
U.S. government sponsored agencies Foreign government bonds:		165,879	_	165,879
Not on securities loan Domestic corporate bonds:		113,083	_	113,083
Not on securities loan Loaned securities for noncash		160,055	_	160,055
collateral		2,902		2,902
Foreign corporate bonds Domestic equity securities:		19,376	-	19,376
Not on securities loan Loaned securities for noncash		604,583		604,583
collateral Foreign equity securities:		4,602	_	4,602
Not on securities loan Loaned securities for noncash		169,832	_	169,832
collateral Collective short-term investment fund		3,016	— 48,559	3,016 48,559
Conserve short term investment rand				
	\$:	1,294,417	65,700	= 1,360,117
Real estate investments Loaned securities for cash		₽		119,313
collateral				93,332
Securities lending collateral				96,766
Total investments, at fair value	e			\$ 1,669,528

Of the Plan's total investments, the following table presents the allocation as presented on the accompanying statements of defined benefit pension plan net assets and postemployment healthcare plan net assets as of June 30, 1999 (in thousands):

Investments: Defined Benefit Pension Plan	\$	1,641,277
Postemployment Healthcare Plan	\$ _	28,251 1,669,528

Notes to Financial Statements June 30, 1999 and 1998

The collective short-term investment fund is used for overnight investment of all excess cash in the Plan's funds. It is invested by the Plan Custodian, and held in the Plan Custodian's name. This fund consists of:

- Short-term fixed obligations of the U.S. government or any federal agency, or of other issuers that are fully guaranteed by the U.S. government or a federal agency as to repayment of principal and the payment of interest;
- Repurchase agreements with major banks and U.S. government securities dealers that are collateralized by obligations of the U.S. government or a federal agency, or obligations fully guaranteed by the U.S. government or a federal agency; and
- Fully insured bank deposits.

The loaned securities represent securities on loan to brokers or dealers or other borrowers. The custodial agreement with the Plan Custodian authorizes such custodian to loan securities in the Plan's investment portfolio under such terms and conditions as the Plan Custodian deems advisable and to permit the loaned securities to be transferred into the name of the borrowers. The Plan receives a fee from the borrower for the use of the loaned securities. If the loaned securities are not returned by the borrower, the Plan Custodian is responsible for replacement of the loaned securities with other securities of the same issuer, class and denomination, or if such securities are not available on the open market, the Plan Custodian is required to credit the Plan's account with the market value of such unreturned loaned securities. All securities loan agreements can be terminated on demand within a period specified in each agreement by either the Plan or borrowers.

The loaned securities as of June 30, 1999, consisted of U.S. Treasury bonds and notes, domestic corporate bonds, domestic equity securities, and foreign equity securities. In return, the Plan receives collateral in the form of cash or securities at 102% to 105% of the principal plus accrued interest for reinvestment.

Securities lent at year-end for cash collateral are presented as unclassified in the preceding categorization of the Plan's investments; securities lent for noncash collateral are classified according to the category of the related collateral.

Securities lending collateral represents investments in a securities lending collateral investment pool purchased with cash collateral, as well as securities collateral that the Plan may pledge or sell without a borrower default.

As of June 30, 1999, the underlying securities loaned by the Plan as a whole amounted to approximately \$131,958,000. The cash collateral and the noncash collateral as a whole totaled \$96,766,000 and \$41,129,000, respectively. The Plan has no exposure to credit risk related to the securities lending transactions as of June 30, 1999.

Real estate investments include a warehouse, retail center, and office building located in Northern California; an industrial complex, office building, and retail center in Southern California; apartment complexes in Houston, Texas, and in Colorado Springs, Colorado; and an office building in Denver, Colorado. The properties located in California are jointly owned with the City's other retirement fund. The properties have leases with various terms.

Notes to Financial Statements June 30, 1999 and 1998

The Plan has made investments in forward currency contracts, which are unrecorded commitments to purchase or sell stated amounts of foreign currency. Gains or losses on the disposition of the commitments are recorded at the time of settlement. The fair values of forward currency contracts are determined by quoted currency prices from national exchanges. As of June 30, 1999, total commitments in forward currency contracts to purchase and sell foreign currencies were \$11,545,000 and \$29,810,000, respectively, with market values of \$11,406,000 and \$29,223,000, respectively. As of June 30, 1998, the Plan had commitments in foreign currency contracts to purchase and sell foreign currencies of \$33,307,000 and \$35,074,000, respectively, with market values of \$32,993,000 and \$34,031,000, respectively.

(4) Contributions – Funding Policy

Contributions to the Defined Benefit Pension Plan for both the City and the participating employees are based upon an actuarially determined percentage of each employee's base salary sufficient to provide adequate assets to pay benefits when due. Contributions to the Postemployment Healthcare Plan for both the City and the participating employees are based upon an actuarially determined percentage of each employee's base salary sufficient to provide adequate assets to pay benefits when due, over the next 10 years. The significant actuarial assumptions used to compute the actuarially determined contribution requirement are the same as those used to compute the actuarial accrued liability shown in the Schedule of Funding Progress for the Defined Benefit Pension Plan (see Schedule 5).

Contribution rates for the City and the participating employees for 1999 and 1998 were established in accordance with actuarially determined requirements computed through actuarial valuations performed as of June 30, 1995 and 1997, and approved by the Police and Fire Retirement Plan Board of Administration. For the period from July 1, 1997 through March 7, 1998, pursuant to the requirements of the June 30, 1995 actuarial valuation, the City contributed 19.92% and 1.69% of annual covered payroll for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan, respectively, and participating employees were required to contributed 8.01% and 1.39%, respectively, of their annual covered payroll.

For the period from March 8, 1998 through November 14, 1998, pursuant to the requirements of the June 30, 1997 actuarial valuation, the City contributed 15.61% and 1.67% of annual covered payroll for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan, respectively, and participating employees were required to contribute 8.31% and 1.39%, respectively, of their annual covered payroll. For the period from November 15, 1998 through June 30, 1999, the City contributed 18.43% and 1.67% of annual covered payroll for the Defined Benefit Pension Plan and the Postemployment Healthcare Plan, respectively, and participating employees were required to contribute 8.31% and 1.39%, respectively, of their annual covered payroll to such plans. Contributions to the Defined Benefit Pension Plan and the Postemployment Healthcare Plan made by the City and the participating employees totaled \$35,991,000 and \$4,720,000, respectively, for 1999 and \$34,413,000 and \$4,704,000, respectively, for 1998.

(5) Concentrations

No investments in any one organization represent 5% of fund net assets.

Actuarial valuations have been performed biennially (through June 30, 1997).

- (a) The second June 30, 1997, actuarial valuation reflects the impact of improved Police and Fire Department retirement benefit formula awarded in the arbitration process and enacted on July 31, 1998. The improved benefit will be paid retroactively to all members who retired on or after February 4, 1996.
- (b) Reported at "smoothed market" value determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a five-year period.

CITY OF SAN JOSE POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

Required Supplementary Information – Year 2000 Disclosure (Unaudited – See accompanying independent auditors' report.)

The following Year 2000 disclosure information is provided in accordance with Governmental Accounting Standards Board Technical Bulletin 98-1, issued October 1998, and amended by Technical Bulletin 99-1, dated March 29, 1999.

The Year 2000 issue is the result of shortcomings in many electronic data processing systems and other equipment that may adversely affect operations. For many years, programmers eliminated the first two digits from a year when writing programs. If not corrected, many of these programs will not be able to distinguish, for example, between the year 2000 and the year 1900. The last two digits "00" are the same.

The City of San Jose (the City) has completed an inventory and assessment of mission critical computer systems and other electronic equipment that may be affected by the Year 2000 issue and which are necessary for conducting City operations. The identified critical systems, relative to the Police and Fire Department Retirement Plan, are listed below, along with the stage of progress made through June 30, 1999:

<u>System</u>	Stage		
Membership Accounting and Payroll System	Implemented		
Financial Accounting and Reporting Systems	Implemented		
Technology Support Systems	Validation and Testing		

Each system was evaluated in accordance with the guidelines listed below:

Awareness Stage

Encompassed establishing a budget and project plan for addressing the Year 2000 issue.

Assessment Stage

When the organization begins the actual process of identifying all of its systems and individual components of the systems that may be at risk due to the Year 2000 issue.

Remediation Stage

When the organization actually makes changes to systems and equipment to make them Year 2000 compliant.

CITY OF SAN JOSE POLICE AND FIRE DEPARTMENT RETIREMENT PLAN

Required Supplementary Information – Year 2000 Disclosure, (Continued)

(Unaudited – See accompanying independent auditors' report.)

Validation and Testing Stage

When the organization validates and tests the changes made during the remediation stage.

Implemented Stage

The organization validates the systems functionality and brings them operationally on-line.

In addition to internal resources, the City has committed over \$10,000,000 for Year 2000 efforts city-wide. Contingency plans continue to be developed to ensure mission critical operational functions will proceed without significant interruption after January 1, 2000.

Because of the unprecedented nature of the Year 2000 issue, its effects and the success of remediation efforts will not be fully determinable until the year 2000 and thereafter. Although management believes the efforts to over come the Year 2000 problem will be successful, management cannot assure that the City of San Jose is, or will be, Year 2000 ready; that the City's remediation efforts will be successful in whole or in part; or that parties with whom the City does business will be Year 2000 ready.
