SECTION I – BOARD SUMMARY

SECTION I – BOARD SUMMARY

This report measures the assets and liabilities of the City of San José Police and Fire Department Postemployment Healthcare Plan for funding purposes only. Separate reports are provided for financial reporting.

Dashboard

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION I – BOARD SUMMARY

The charts on the previous page are intended to provide a quick overview of the current valuation results compared to the prior valuation results. The charts at the top show contributions for FYE 2026 and 2027 for Police (left chart) and Fire (right chart). The normal cost, represented by the red line, is the expected cost of the explicit premium subsidy benefits attributable to the current year of service. All contributions above the normal cost go toward paying off the Unfunded Actuarial Liability (UAL). The blue line represents the projected contribution amount based on the 2024 valuation. The implicit subsidy payment is not shown as it is funded on a pay-as-you-go basis as a part of the health premiums for active employees. The City’s implicit subsidy payment is approximately \$6.5 million for FYE 2027.

The charts at the bottom of the previous page summarize the funded status as of the June 30, 2024 and 2025 actuarial valuations. The stacked bars represent the Actuarial Liability for the explicit subsidy, with the liability separated into components for members currently receiving benefits, vested terminated members, and active members. These amounts are only for the portion of the plan intended to be pre-funded, so they do not include the implicit subsidy. The green lines represent the assets, and the funded percentage is shown next to it.

More detail and discussion is provided in the following sections.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION I – BOARD SUMMARY

Contributions

The benefits under the Plan have two components: the explicit and implicit subsidies. The explicit subsidy (or premium subsidy) is paid by the Plan. It is the premium for the retiree's selected health coverage, up to 100% of the premium for the lowest-cost plan offered to active employees, plus the premium for the retiree's selected dental plan. The implicit subsidy is the difference between the expected claims cost for a retiree or spouse and the total (retiree plus city) premium.

Before FYE 2019, member and City contributions to the plan were negotiated through collective bargaining and were not actuarially determined. With the implementation of Measure F, member contributions became fixed at 8.0% of pay, and the City's contribution toward the explicit subsidy became actuarially determined separately for Police and Fire. However, the City has the option to limit its contribution for the explicit subsidy to 11% of the Police and Fire payroll. Finally, the City also pays the implicit subsidy on a pay-as-you-go basis as part of active health premiums. Because the Board's role is related to the funding of the explicit subsidy, this report focuses on the status of that funding and the development of the Actuarially Determined Contribution (ADC) for the pre-funded benefits.

Table I-1 shows the contribution amounts for the fiscal years ending in 2026 and 2027.

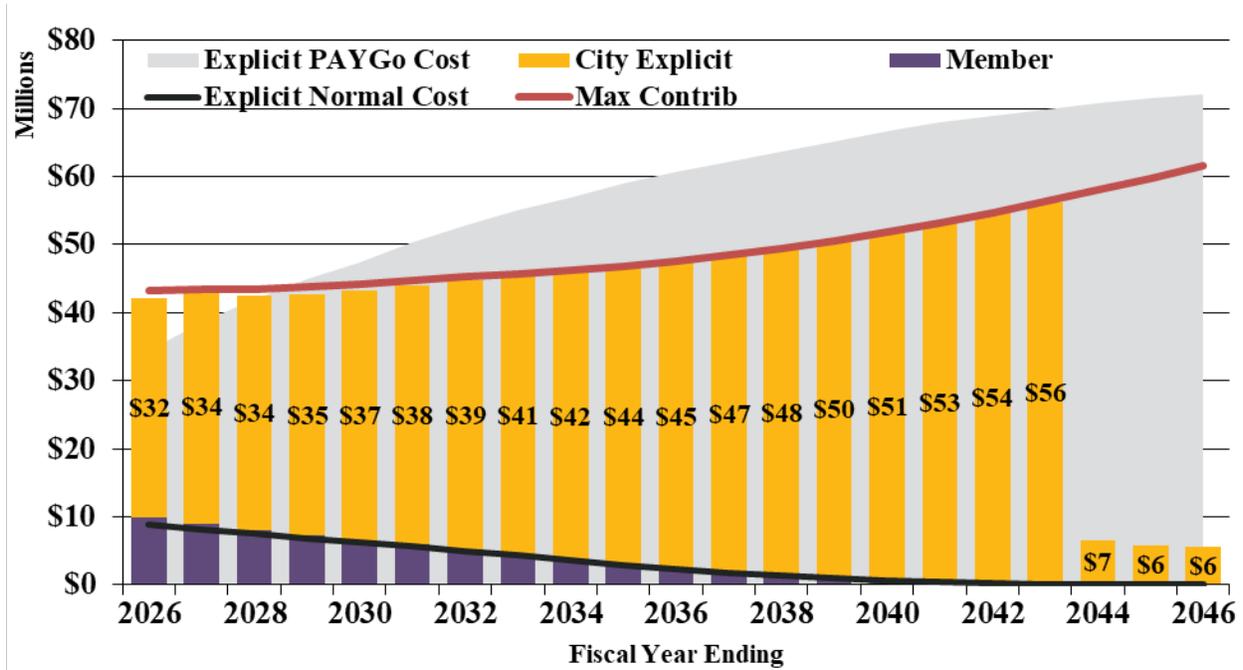

Table I-1				
Summary of Trust Contribution Amounts				
	FYE 2026	FYE 2027	% Change

Dollar amounts in thousands

SECTION I – BOARD SUMMARY

The chart below shows the projected contributions to the Plan. The purple bars represent the member contributions, and the gold bars are the City’s contributions to pre-fund the explicit subsidy. The red line represents the sum of member contributions and the City’s optional cap. To the extent the bars rise above the red line, the projected contributions exceed the City’s optional cap. The gray area behind the bars represents the projected annual benefit payments.

Projected Contributions FYE 2026-2046

Because new entrants are only entitled to catastrophic disability benefits and do not contribute to the Plan, the member contributions are expected to decline as current active members eligible for full benefits retire or otherwise leave active employment with the City. The City’s actuarially determined contribution is expected to increase faster than payroll as the member contributions decrease. The Plan has historically had positive net cash flow, but we only expect that to last through FYE 2028. The significant decrease in 2044 is due to the full amortization of the initial amortization bases established in 2017.

SECTION I – BOARD SUMMARY

Funded Status

Table I-2 below summarizes the Actuarial Liability, Market Value of Assets, Unfunded Actuarial Liability, and funded percentage for the Plan as of June 30, 2024 compared to June 30, 2025. The Actuarial Liability for the explicit subsidy increased 4.6% for Police and 3.5% for Fire. At the same time, assets increased 14.5% for Police and 16.9% for Fire due to contributions and investment returns. As a result, the Unfunded Actuarial Liability decreased by 3.1% for Police and 6.2% for Fire, and the funded percentage for the explicit subsidy increased from 43.6% to 47.8% for the Police and from 42.1% to 47.5% for Fire.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION I – BOARD SUMMARY

The chart below shows the historical trend of assets and the Actuarial Liability for the explicit subsidy on a funding basis for the City of San José Police and Fire Department Postemployment Healthcare Plan. Over the last 10 years, the UAL for the explicit subsidy has decreased by \$65 million. Assets increased by \$274 million, and the Actuarial Liability increased by \$209 million. The increase in Actuarial Liability includes the impact of reducing the discount rate from 6.875% in 2016 to 6.00% in 2021. The asset increase has been primarily attributable to contributions and investment returns. In the future, asset growth will become more dependent on investment returns as benefit payments grow to equal or exceed contributions.

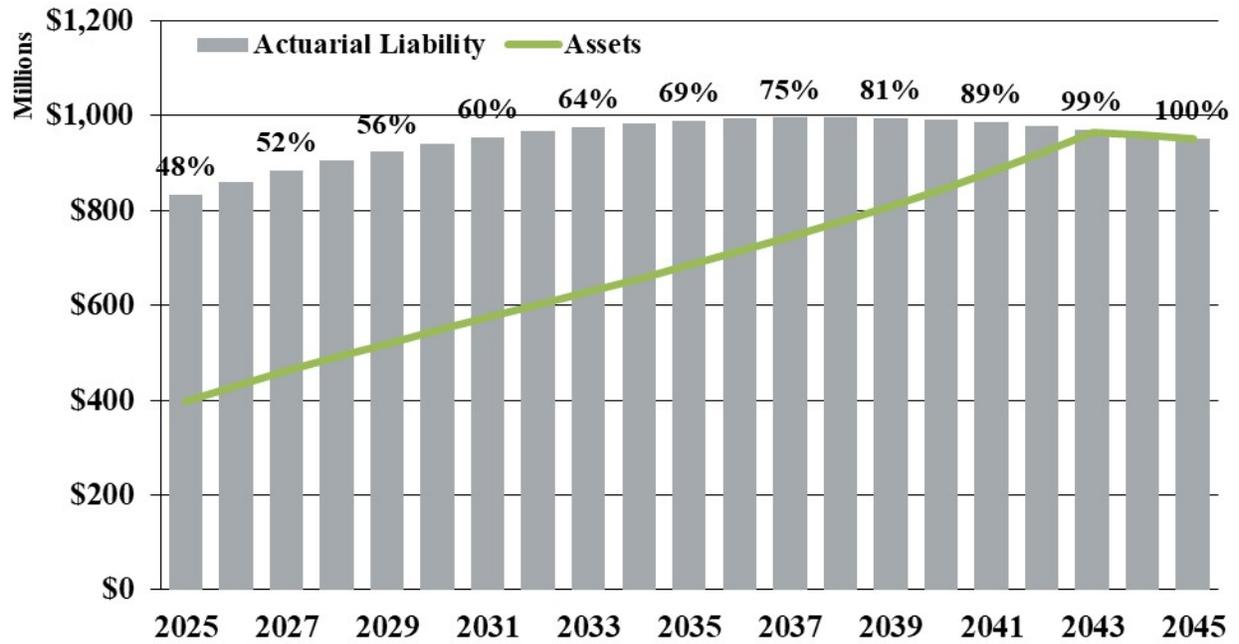

The chart on the next page shows a 20-year projection of assets and Actuarial Liability (AL), as well as the projected funded percentage for the explicit subsidy. If all assumptions are met in the future, including an expected return of 6.25% each year, and the City does not impose its optional contribution cap, the Actuarial Liability for the explicit subsidy is expected to peak in 2038, and the funded percentage for the explicit subsidy is expected to reach 100% by 2045. If the City imposes its optional contribution cap every year, the funded percentage for the explicit subsidy is expected to reach 99% by 2045.

SECTION I – BOARD SUMMARY

Projected Assets and Actuarial Liability 2025-2045

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION I – BOARD SUMMARY

Changes Since the Prior Valuation

Table I-3 below breaks out the sources of the changes in UAL for the fiscal year ending June 30, 2025. The total UAL for the explicit subsidy decreased about \$19.5 million since the prior year.

Table I-3			
Changes in Unfunded Actuarial Liability - Explicit Subsidy Only			
	Police	Fire	Total
Unfunded Actuarial Liability, June 30, 2024	\$ 282,986	\$ 172,531	\$ 455,517
Unfunded Actuarial Liability, June 30, 2025	<u>274,192</u>	<u>161,792</u>	<u>435,984</u>
Change in Unfunded Actuarial Liability	\$ (8,794)	\$ (10,739)	\$ (19,533)
<u>Sources of Changes</u>			
Contributions above Tread Water	\$ (3,008)	\$ (2,342)	\$ (5,350)
Investment Experience	(11,981)	(6,905)	(18,886)
Demographic Experience	2,824	(2,277)	547
Premium Experience	27,019	14,604	41,623
Assumption Changes	(5,443)	(3,120)	(8,563)
Discount Rate Change	<u>(18,205)</u>	<u>(10,699)</u>	<u>(28,904)</u>
Total Changes	\$ (8,794)	\$ (10,739)	\$ (19,533)

Dollar amounts in thousands

Contributions in excess of the Tread Water amount reduced the UAL by \$5.4 million. The Tread Water amount equals the normal cost plus administrative expenses plus the interest on the UAL. If all assumptions are met, contributions equal to the Tread Water amount would result in no change to the dollar amount of the UAL. In addition, investment experience decreased the UAL by about \$18.9 million, the discount rate change from 6.00% to 6.25% decreased it by about \$28.9 million, and other assumption changes decreased it by about \$8.6 million. Higher-than-expected premiums, primarily for Medicare-eligible health plans, increased the UAL by \$41.6 million, and demographic experience increased it by about \$0.5 million.

SECTION II – CERTIFICATION

SECTION II – CERTIFICATION

The purpose of this report is to present the annual actuarial valuation of the City of San José Police and Fire Postemployment Department Healthcare Plan. This report is for the use of the Board in setting actuarially determined amounts for the City to contribute to the Plan. There are separate reports for accounting and financial reporting under GASB Statements 74 and 75.

In preparing our report, we relied on information, some oral and some written, supplied by the Plan. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

The health and discount rate assumptions were adopted by the Board of Administration at the November 6, 2025, and January 21, 2026, Board meetings, respectively, based upon our recommendations. All other assumptions in this report were adopted at the November 6, 2025, Board meeting based on our input and recommendations from our experience study covering plan experience through June 30, 2025. Please refer to the experience study report and presentations for both the October 2, 2025, and November 6, 2025, Board meetings for the rationale for each assumption. We believe these assumptions are reasonable for the purpose of the funding valuation.

The liability measures and funding ratios in this report are for the purpose of establishing contribution amounts. These measures are not appropriate for assessing the sufficiency of Plan assets to cover the estimated cost of settling the Plan's benefit obligations.

Cheiron utilizes ProVal actuarial valuation software leased from Winklevoss Technologies (WinTech) to calculate liabilities and project benefit payments. We have relied on WinTech as the developer of ProVal. We have a basic understanding of ProVal and have used ProVal in accordance with its original intended purpose. We have not identified any material inconsistencies in assumptions or output of ProVal that would affect this valuation.

Health care trends for this valuation were developed using the Society of Actuaries (SOA) Long-Run Medical Cost Trend Model. The SOA Long-Run Medical Cost Trend Model and its baseline projection are based on an econometric analysis of historical U.S. medical expenditures and the judgments of experts in the field. The long-run baseline projection and input variables have been developed under the guidance of the SOA Project Oversight Group.

We have relied on the Society of Actuaries as the developer of the Model. We have reviewed the Model, have a basic understanding of it, and have used it in accordance with its original intended

CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT

SECTION II – CERTIFICATION

purpose. We have not identified any material inconsistencies in the Model's assumptions or outputs that would affect this valuation.

Deterministic projections in this valuation report were developed using H-scan, a proprietary tool used to illustrate the impact of changes in assumptions, methods, plan provisions, or actual experience on the future financial status of the Plan. H-scan uses standard roll-forward techniques that implicitly assume a stable active population.

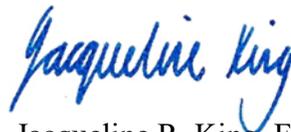

Future actuarial measurements may differ significantly from the current measurements due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; and changes in plan provisions or applicable law.

This report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board as well as applicable laws and regulations. Furthermore, as credentialed actuaries, we collectively meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys, and our firm does not provide any legal services or advice.

This report was prepared for the Board for the purposes described herein. Other users of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to any other user.

SECTION III – ASSETS

SECTION III – ASSETS

Assets are invested in two trust vehicles: a 401(h) account within the pension plan and a separate 115 Trust, with separate sub-trusts for Police and Fire. All City contributions are made to the 115 Trust, while member contributions are made to the 401(h) account. Some benefit payments are paid from the 401(h) account and some are paid from the 115 Trust.

Statement of Change in Market Value of Assets

Table III-1 and Table III-2 show the changes in the Market Value of Assets for the last two fiscal years for Police and Fire separately. The implicit subsidy is shown as both a contribution and a payment from the Plan, but it is not actually contributed to the trust or paid from the trust. It is paid directly by the City as a part of active health plan premiums.

SECTION III – ASSETS

The chart below shows the actual investment return on the Market Value of Assets for Police and Fire combined compared to the assumed return for the last 10 years. The compound average of the actual returns is about 5.8%.

Historical Rates of Return

SECTION IV – MEASURES OF LIABILITY

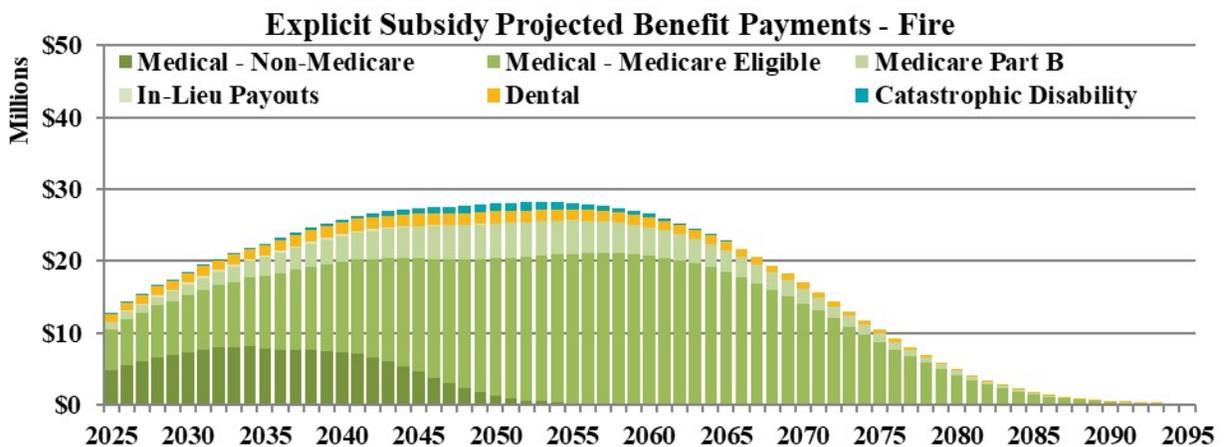

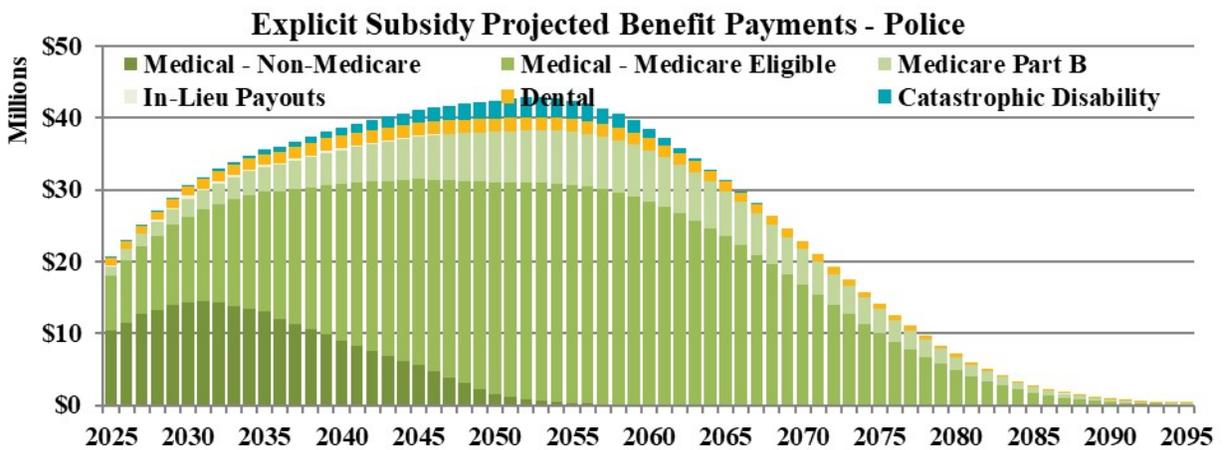

SECTION IV – MEASURES OF LIABILITY

This section presents detailed information on liability measures for the Plan for funding purposes, including:

- Projected benefit payments,
- Present value of future benefits,
- Normal cost, and
- Actuarial Liability.

Projected Benefit Payments

The projected benefit payments are the fundamental basis for the valuation representing the amount that is expected to be paid in each future year for members in the Plan as of the valuation date if all assumptions are met. The charts below show the projected benefit payments for the next 70 years.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION IV – MEASURES OF LIABILITY

Tables IV-1 and IV-2 show the expected net benefit payments for the next 20 years for the Police and Fire Departments, respectively. These payments include the expected annual implicit subsidy as well as the expected plan premium payments (the explicit subsidy).

Table IV-1 Expected Net Benefit Payments - Police Department						
Fiscal Year Ending June 30	Explicit Subsidy			Implicit Subsidy	Total Expected Payments	
	Medical	Dental	Total			
2026	\$ 19,916	\$ 1,837	\$ 21,753	\$ 4,241	\$ 25,994

Present Value of Future Benefits

The present value of future benefits represents the expected amount of money needed today, if all assumptions are met, to pay for all benefits both earned as of the valuation date and expected to be earned in the future by current plan members under the current plan provisions. Table IV-3 below shows the present value of future benefits as of June 30, 2024 and 2025.

Normal Cost

Under the Entry Age (EA) actuarial cost method, the present value of future benefits for each individual is spread over the individual’s expected working career as a level percentage of the individual’s expected pay. The normal cost rate is determined by taking the value, as of entry age into the Plan, of each member’s projected future benefits divided by the value, also at entry age, of each member’s expected future salary. The normal cost rate is multiplied by current salary to determine each member’s normal cost. The normal cost of the Plan is the sum of the normal costs for each individual. The normal cost represents the expected amount of money needed to fund the benefits attributed to the next year of service under the Entry Age actuarial cost method.

SECTION IV – MEASURES OF LIABILITY

Actuarial Liability

The Actuarial Liability represents the expected amount of money needed today, if all assumptions are met, to pay for benefits attributed to service prior to the valuation date under the Entry Age actuarial cost method. As such, it is the amount of assets targeted by the actuarial cost method for the Plan to hold as of the valuation date. It is not the amount necessary to settle the obligation.

Table IV-5 shows the Actuarial Liability as of June 30, 2024 and 2025 separately by component.

Table IV-5 Actuarial Liability

SECTION V – CONTRIBUTIONS

SECTION V – CONTRIBUTIONS

Amortization of the Unfunded Actuarial Liability

Under the contribution allocation procedure employed by the Plan, there are three components to the contribution toward the explicit subsidy: the normal cost, administrative expenses, and an amortization payment on the Unfunded Actuarial Liability (UAL). The normal cost was developed in Section IV. This section develops the administrative expenses, the UAL contribution, and the City’s actuarially determined contribution for the explicit subsidy. The implicit subsidy is funded on a pay-as-you-go basis through the payment of active health premiums.

The difference between the Actuarial Liability and the Market Value of Assets is the Unfunded Actuarial Liability (UAL). Table V-1 calculates the UAL and funded percentage for the explicit subsidy.

Table V-1			
Unfunded Actuarial Liability			
Explicit Subsidy Only			
	June 30, 2024	June 30, 2025	% Change

JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION V – CONTRIBUTIONS

The UAL for the explicit subsidy as of June 30, 2017 was amortized as a level percentage of payroll over 25 years. Subsequent amortization bases are also amortized over 25 years, but payment levels are phased in and out over three years. Table V-2 below shows the schedule of amortization bases for payment of the UAL.

Table V-2 UAL Amortization						
	Outstanding Balance	Period	Remaining Phase-in Phase-out		FYE 2027 Payment	
Police Department

Dollar amounts in thousands

SECTION V – CONTRIBUTIONS

Contributions for Administrative Expenses

Contributions for administrative expenses are set equal to \$33.00 per member for FYE 2027 (increasing 3.125 percent per year). There are currently 2,527 Police members and 1,558 Fire members, resulting in estimated administrative expenses for FYE 2027 of \$83,391 and \$51,414 respectively.

Contribution Amounts

The City pays the actuarially determined contribution for the explicit subsidy but has the option to cap its contribution at 11% of Police and Fire payroll, including the payroll for members only eligible for catastrophic disability benefits. The actuarially determined contribution is the normal cost plus administrative expenses plus the amortization payment on the UAL, less expected member contributions. Members eligible for full benefits contribute 8.00% of pay.

SECTION VI – ACTUARIAL SECTION OF THE ACFR

SECTION VI – ACTUARIAL SECTION OF THE ACFR

The Government Finance Officers Association (GFOA) maintains a checklist of items to be included in the Plan’s Annual Comprehensive Financial Report (ACFR) to receive recognition for excellence in financial reporting. The schedules in this section are listed by the GFOA for inclusion in the Actuarial Section of the Plan’s ACFR. Liability amounts shown in these exhibits include both the explicit and implicit subsidies.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

SECTION VI – ACTUARIAL SECTION OF THE ACFR

The schedule of funding progress compares the assets used for funding purposes to the comparable liabilities to determine how well the Plan is funded and how this status has changed over the past several years. The Actuarial Liability is compared to the Actuarial Value of Assets to determine the funding ratio. Since the June 30, 2017 valuation, the Actuarial Value of Assets equals the Market Value of Assets.

**Table VI-6
Police Department - Schedule of Funding Progress**

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

Economic Assumptions

The expected return on Plan assets and per person cost trend assumptions shown below were adopted by the Board of Administration with our input at the November 6, 2025 Board meeting. Please refer to the presentation for that meeting for details, including the rationale for each assumption.

1. Expected Return on Plan Assets

6.25% per year. The Board expects a long-term rate of return of 6.5% based on Meketa’s 10-year capital market assumptions and the Plan’s current investment policy. A margin for adverse deviation was used to improve the probability of achieving the discount rate.

2. Per Person Cost Trends

Medical trends were developed using the 2025 Society of Actuaries Long-run Medical Cost Trend Model with the following parameters:

Initial trend rate for the 2026 calendar year:

Non-Medicare Eligible:	7.50%
Medicare Eligible:	6.50%
Inflation:	2.50%
Real GDP per Capita:	1.40%
Excess Medical Cost Growth:	0.90%
Expected GDP Share in 2034:	19.0%
Resistance Point:	18.0%
Year limited to GDP growth:	2075

2045	4.54	4.54	3.50	4.31	2070	4.14	4.14	3.50	3.40
2046	4.53	4.53	3.50	4.10	2071	4.09	4.09	3.50	3.40
2047	4.52	4.52	3.50	3.90	2072	4.05	4.05	3.50	3.40
2048	4.51	4.51	3.50	3.70	2073	4.00	4.00	3.50	3.40
2049	4.50	4.50	3.50	3.50	2074	3.96	3.96	3.50	3.40
2050	4.50	4.50	3.50	3.40	2075+	3.94	3.94	3.50	3.40

The table above shows the trend increases on a fiscal year basis; premium rates change on a calendar year basis. For the fiscal year beginning July 1, 2026, the trend was developed using actual calendar year 2026 premiums and a trend assumption for calendar year 2027. The trend factors vary by plan as shown in the table below.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

Plan	FY Beginning 2026 Trend
Pre-Medicare	
Kaiser Plans	8.85%
Anthem Plans	4.65%
Medicare	
Kaiser Plan	9.23%
Anthem PPO Plan	18.29%
Dental	
HMO Plan	1.76%
PPO Plan	1.75%

Deductibles, Co-payments, Out-of-Pocket Maximums, and Annual Maximum (where applicable) are assumed to increase at the above trend rates.

3. Changes Since the Last Valuation

The per-person cost trends were updated.

The discount rate was increased from 6.00% to 6.25%.

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

Demographic Assumptions

The Board of Administration adopted the discount rate at the January 21, 2026, Board meeting and adopted the other OPEB assumptions at the November 6, 2025, Board meeting based on our recommendations. The demographic assumptions shared with the pension plan shown below were adopted at the Board’s November 6, 2025, meeting based on our input and recommendations from our experience study covering plan experience through June 30, 2025. Please refer to the experience study report and presentations for both the October 2, 2025, and November 6, 2025 Board meetings for the rationale for each of the assumptions.

1. Salary Increase Rate

Wage inflation component

Reflect currently bargained across-the-board increases and 3.125% per annum (0.625% real wage growth) thereafter. For this valuation, Fire members have bargained increases of 4.00% effective July 1, 2025, 1.00% effective January 1, 2026, and 3.50% effective July 1, 2026. For this valuation, Police members have bargained increases of 7.00% effective July 1, 2025, 5.00% effective July 1, 2026, and 3.00% effective July 1, 2027.

Merit Increases

The following merit component is added to wage inflation, based on an individual member’s years of service:

Years of Service	Increase
0	6.00%
1	6.00
2	5.75
3	5.50
4	5.00
5	4.25
6	2.50
7	1.50
8	1.15
9	0.95
10+	0.75

Police members are expected to receive the following additional increases:

- July 1, 2027: 3.75% increase for any Police member with 20 or more years of service.
- July 1, 2028: 1.25% increase for any Police member with 20 or more years of service.
- 20 years of service: 5.0% increase for any Police member attaining 20 years of service after the effective dates above.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

2. Administrative Expenses

For FYE 2027, trust administrative expenses are assumed to equal \$33 per full benefit member and are assumed to increase at the ultimate wage inflation assumption of 3.125% per annum.

3. Retirement Rates

Retirement rates are based on age and service, as shown in the following Tables. Tier 1 rates only apply when the member is eligible for unreduced pension benefits.

Police Rates of Retirement							
Age	Tier 1 Years of Service			Tier 2 Years of Service			
	<25	25 – 29	30+	<20	20 – 24	25 – 29	30+
	50	0.0%	55.0%	55.0%	2.0%	2.0%	2.0%
51	0.0	45.0	55.0	2.0	2.0	2.0	5.0
52 – 54	0.0	35.0	55.0	2.0	2.0	2.0	5.0
55	25.0	37.5	55.0	2.0	2.0	2.0	5.0
56	25.0	40.0	55.0	2.0	2.0	2.0	5.0
57 – 59	25.0	40.0	55.0	7.5	10.0	20.0	55.0
60 – 61	25.0	40.0	55.0	10.0	20.0	35.0	55.0
62 – 64	100.0	100.0	100.0	25.0	50.0	75.0	100.0
65+	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Fire Rates of Retirement							
Age	Tier 1 Years of Service			Tier 2 Years of Service			
	<25	25 – 29	30+	<20	20 – 24	25 – 29	30+
	50	0.0%	40.0%	40.0%	1.0%	1.0%	1.0%
51 – 54	0.0	30.0	40.0	1.0	1.0	1.0	2.5
55	27.5	30.0	40.0	1.0	1.0	1.0	2.5
56	22.5	30.0	40.0	1.0	1.0	1.0	2.5
57	17.5	30.0	40.0	5.0	7.5	15.0	40.0
58 – 59	27.5	30.0	40.0	5.0	7.5	15.0	40.0
60 – 61	27.5	30.0	40.0	7.5	15.0	25.0	40.0
62 – 64	100.0	100.0	100.0	20.0	35.0	50.0	100.0
65+	100.0	100.0	100.0	100.0	100.0	100.0	100.0

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

Tier 1 vested terminated members are assumed to retire at age 50 if they have 25 or more years of service or at age 55 if they have less than 25 years of service. Tier 2 vested terminated members are assumed to retire at age 60.

4. Rates of Termination

Rates of termination are shown in the following table.

Service	Police	Fire
0	11.00%	6.00%
1	8.00	3.25
2	6.25	2.25
3	5.00	1.50
4	4.25	1.25
5	3.75	1.00
6	3.55	0.90
7	3.40	0.80
8	3.30	0.70
9	3.25	0.60
10	3.25	0.50
11	3.25	0.50
12	3.15	0.50
13	2.95	0.50
14	2.75	0.50
15	2.25	0.50
16	1.75	0.50
17	1.50	0.50
18	1.25	0.50
19+	1.00	0.50

Termination rates do not apply once retirement rates apply.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

5. Rates of Mortality

Mortality rates are based on the sex-distinct mortality tables shown below, multiplied by the corresponding factor. The same factor is applied to the male and female tables.

Base Mortality Tables		
Category	Table	Factor
Healthy Retirees	2016 Public Safety Above Median Income Mortality Table (PubS-2016(A)) for Healthy Retirees	1.00
Disabled Retiree	2016 Public Safety Mortality Table (PubS-2016) for Disabled Retirees	0.90
Beneficiaries	2016 General Member Mortality Table (PubG-2016) for Healthy Retirees	1.10
Healthy Non-Annuitant	2016 Public Safety Above Median Income Mortality Table (PubS-2016(A)) for Employees	0.96

Future Mortality improvements are projected by applying the SOA MP-2021 projection scale on a generational basis from the base year of 2016.

6. Disability Rates

For Police, disability rates are equal to the CalPERS Public Agency Police industrial and non-industrial rates multiplied by 77%. For Fire, disability rates are equal to the CalPERS Public Agency Fire industrial and non-industrial rates multiplied by 110%. Sample disability rates of active participants are provided in the table shown below.

Rates of Disability at Selected Ages		
Age	Police	Fire
25	0.13%	0.03%
30	0.38	0.07
35	0.62	0.14
40	0.86	0.26
45	1.11	0.46
50	1.46	2.33
55	3.74	3.43
60	4.73	4.87
65	5.69	6.74

All disabilities are assumed to be duty-related.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

7. Percent of Retirees Electing Coverage Versus In-Lieu Credits

Upon retirement, members are assumed to elect coverage or enter the In-Lieu credit program according to the following table.

Future Retiree Participation		
	Coverage	In-Lieu
Active Members	70%	30%
Terminated Vested Members	50%	50%

8. Dependent Coverage Election

Upon retirement, members who elect coverage are assumed to cover dependents according to the following table.

Coverage Tier	Pre-Medicare		Medicare	
	Male	Female	Male	Female
Retiree Only	17%	52%	23%	75%
Retiree and Children	6%	23%	0%	0%
Retiree and Spouse	30%	15%	77%	25%
Retiree and Family	47%	10%	0%	0%

100% of members eligible for dental are assumed to elect spousal coverage.

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

9. In-Lieu Assumptions

Members who elect to receive the In-Lieu credits are assumed to remain in the In-Lieu credit program for five years, after which they are assumed to elect coverage and use their In-Lieu credits. The amount of the In-Lieu credit is 25% of the subsidy for the tier of coverage for which the retiree qualifies. Future retiree medical tier qualification assumptions are provided in the following table.

Assumed Future Retiree In-Lieu Credit Tier				
Coverage Tier	Pre-Medicare		Medicare	
	Male	Female	Male	Female
Retiree Only	17%	17%	37%	37%
Retiree and Children	0%	0%	0%	0%
Retiree and Spouse	23%	23%	63%	63%
Retiree and Family	60%	60%	0%	0%

10. Health Plan Election

Retirees who are not yet age 65 are assumed to be eligible for Medicare when they reach age 65 and are assumed to enroll in the Medicare-eligible plan corresponding to their current Pre-Medicare plan election. Future retirees are assumed to elect plans in the proportion shown in the following table.

Assumed Plan Elections for Future Retirees			
	% Electing		% Electing
Pre-Medicare Medical Plans		Medicare-Eligible Medical Plans	
Kaiser DHMO	5%	Kaiser Senior Advantage	43%
Kaiser \$25 Co-pay	62%	Anthem Medicare PPO	57%
Kaiser HDHP	6%		
Anthem DHMO	3%		
Anthem Select \$20 Co-pay	8%		
Anthem Traditional \$20 Co-pay	3%		
Anthem HDHP PPO	9%	Dental Plans (All Retirees)	
Anthem Select PPO	3%	Delta Dental PPO	99%
Anthem Classic PPO	1%	DeltaCare HMO	1%

Eligible for coverage and elect coverage

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

11. Voluntary Employees' Beneficiary Association Balance Drawdown

Members are assumed to draw down their VEBA balances by the blended active and retiree member plus spouse premium, without factoring in the lowest cost premium, and increased by a factor of 1.625 to estimate the adjustment from a blended active and retiree premium to a retiree only premium.

12. Married Percentage

Gender	Percentage
Males	85%
Females	70%

13. Dependent Age

For current retirees, actual spouse date of birth was used when available. For future retirees, male retirees are assumed to be three years older than their partner, and female retirees are assumed to be three years younger than their partner.

14. Changes Since the Last Valuation

Retirement, termination, mortality, and disability rates, the percentage of female members assumed to be married, the merit salary scale, the wage inflation, the administrative expense assumptions and the VEBA account balance increase factor were updated for this valuation.

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

Claim and Health Plan Benefit Expense Assumptions

The claim and expense assumptions shown below were adopted by the Board of Administration at the November 6, 2025 Board meeting based upon our recommendations.

The claims costs are based on the fully insured premiums charged to the City for the active and retiree population in 2025 and 2026. For non-Medicare adults, the premiums for each coverage tier (retiree only, retiree plus spouse, retiree plus child(ren) and retiree plus family) were blended based on enrollment data for the 2025 calendar year. The same process was used for Medicare adults, except only Medicare-eligible retirees were included. The resulting per person per month (PPPM) cost was then adjusted using age curves. The pre-Medicare adult claims curves were then loaded for the cost of children; the load for children decreases by retiree age since older retirees have fewer children. The impact of children on Medicare costs was assumed to be de minimis. All claims costs are developed jointly for the Federated, Police, and Fire Postemployment Healthcare Plans of the City of San José but the load for children for Police and Fire was developed separately from the load for Federated.

The claims costs and trend assumptions reflect the Inflation Reduction Act of 2022 (the Act), including associated regulations and market responses to date. As the regulations and market responses evolve, the impact on future costs could vary significantly from those assumed in this valuation.

1. Average Annual Claims and Expense Assumptions

The following claim and expense assumptions were developed as of July 1, 2025 based on the premiums for 2025 and 2026. The explicit subsidy amount (100% of the premium for the lowest-cost health plan available to active City employees) is assumed to grow based on the Pre-Medicare cost trend rates.

The following tables show the claims costs for each medical plan as of the valuation date:

Age	<u>Sample Claims Costs - Non-Medicare Eligible</u>					
	<u>Kaiser</u>		<u>Anthem HMO</u>		<u>Anthem PPO</u>	
	Male	Female	Male	Female	Male	Female
40	\$13,531	\$16,499	\$19,867	\$23,471	\$24,318	\$29,877
45	13,706	15,998	19,386	22,169	24,852	29,145

<u>Sample Claims Costs - Dental</u>	
<u>Dental Blended</u>	
Age	Unisex
All	702.43

2. Medicare Part D Subsidy

Not applicable.

3. Medicare Part B

All Medicare eligible retirees are assumed to participate in Medicare Part B.

4. Medicare Eligibility

All retirees who turn age 65 are assumed to be eligible for Medicare.

5. Annual Limits

Assumed to increase at the same rate as trend.

6. Lifetime Maximums

Are not assumed to have any financial impact.

7. Geography

Implicitly assumed to remain the same as current retirees.

8. Retiree Contributions

Retirees pay the difference between the actual premium for the elected medical plan and the lowest cost medical plan available to active members if the retiree is eligible to receive the explicit subsidy. No retiree contributions are required for dental.

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

9. Changes Since the Last Valuation

All claims costs were updated to reflect the changes in plan premiums and the populations covered.

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

Contribution Allocation Procedure

The contribution allocation procedure primarily consists of an actuarial cost method, an asset smoothing method, and an amortization method as described below.

1. Actuarial Cost Method

The Entry Age actuarial cost method was used for active employees, whereby the normal cost is computed as the level annual percentage of pay required to fund the retirement benefits between each member's date of hire and assumed retirement. The Actuarial Liability is the difference between the present value of future benefits and the present value of future normal costs. Or, equivalently, it is the accumulation of normal costs for all periods prior to the valuation date. The normal cost and Actuarial Liability are calculated on an individual basis. The sum of the individual amounts is the normal cost and Actuarial Liability for the Plan. The Actuarial Liability for the Plan represents the target amount of assets the Plan should have as of the valuation date according to the actuarial cost method.

2. Asset Valuation Method

The Actuarial Value of Assets equals the Market Value of Assets.

3. Amortization Method

The Unfunded Actuarial Liability is the difference between the Actuarial Liability and the Actuarial Value of Assets. The Unfunded Actuarial Liability as of June 30, 2017 was amortized as a level percent of payroll over a closed 25-year period.

All subsequent amortization bases are amortized over 25-year periods with a 3-year phase-in and phase-out. With the 3-year phase-in and phase-out, the second year's payment is two times the first year's payment increased for assumed payroll growth, and the third years' payments are three times the first year's payment increased for assumed payroll growth. Subsequent payments increase for assumed payroll growth. After 25 years, the process reverses, and the 26th year's payment is two-thirds of the 25th year's payment, increased for assumed payroll growth, and the 27th year's payment is one-third of the 25th year's payment, increased for assumed payroll growth.

4. Contributions

The City contributes the annual implicit subsidy as part of active employee health premiums and prefunds the explicit subsidy based on the normal cost, administrative expenses, and the amortization payment described above, less expected employee contributions. The City has the option to limit its contribution to no more than 11% of total payroll.

Active members who are eligible for full benefits contribute 8.00% of their pay.

APPENDIX B – ACTUARIAL ASSUMPTIONS AND METHODS

5. Changes Since the Last Valuation

None.

APPENDIX C – SUMMARY OF PLAN PROVISIONS

APPENDIX C – SUMMARY OF PLAN PROVISIONS

Postemployment Healthcare Plan

Eligibility: Employees hired before July 2013 that did not elect to opt-in to the Voluntary Employees' Beneficiary Association (VEBA).

Medical/Dental:

Employees who retire (include deferred vested members) with at least 15 years of service with the City (“OPEB benefit service”), or with a monthly pension equal to at least 37.5% of final compensation, are eligible to elect medical coverage upon retirement. Tier 1 employees (hired before August 4, 2013) are eligible for unreduced service retirement at age 55 with 20 years of service, age 50 with 25 years of service, age 70 with no service requirement, or any age with 30 years of service. Reduced service retirement is available at age 50 with 20 years of service. Tier 2 employees (hired on or after August 4, 2013) are eligible for unreduced service retirement at age 60 with 10 years of service or reduced service retirement at age 50 with 10 years of service. Service credited through reciprocity agreements counts towards an employee’s required service to retire, but only service with the City counts towards the required years of service to receive OPEB benefits.

Employees who become disabled with at least 15 years of service or have a monthly pension equal to at least 37.5% of final compensation are eligible to elect medical coverage upon retirement.

Spouses or domestic partners of retired members are allowed to participate if they were enrolled in the City’s medical plan at the time of the member’s retirement. Dependent children are eligible to receive coverage until the age of 26.

Surviving spouses/domestic partners/children of deceased members are eligible for coverage if the following conditions are met:

1. The employee has 15 years of service at time of death or is entitled to a monthly pension of at least 37.5% of final compensation; and,
2. Both the member and the survivors were enrolled in the active medical plan immediately before death; and,
3. The survivor will receive a monthly pension benefit.

**CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT**

APPENDIX C – SUMMARY OF PLAN PROVISIONS

Employees who separate from service after July 5, 1992 with 20 years of service, leaving contributions in the retirement plan, are eligible to elect medical and/or dental coverage upon retirement.

Benefits for Retirees:

Medical: The Plan pays 100% of the premium for the lowest cost health plan available to active City employees. The member pays the difference if another plan is elected.

To the extent that the elected plan premium is less than the maximum subsidy amount, Medicare-eligible retirees receive reimbursement of Medicare Part B premiums for themselves and their covered spouse, if applicable.

Dental: The Plan pays 100% of the dental insurance premiums.

Premiums: Monthly premiums before adjustments for 2025 and 2026 are as follows.

JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT
APPENDIX C – SUMMARY OF PLAN PROVISIONS**

Cost-Sharing Provisions:

It is assumed for the purpose of this valuation that the City of San José will in the future maintain a consistent level of cost sharing for benefits with the retirees. This may be achieved by adjusting benefit provisions, contributions, or both.

CITY OF SAN JOSÉ POLICE AND FIRE DEPARTMENT POSTEMPLOYMENT HEALTHCARE PLAN
JUNE 30, 2025 ACTUARIAL VALUATION FUNDING REPORT

APPENDIX C – SUMMARY OF PLAN PROVISIONS

Catastrophic Disability Healthcare Program

Eligibility: Employees hired after June 2013 or employees who elected to opt-in to the Voluntary Employees' Beneficiary Association (VEBA).

Contributions: Employees are required to make mandatory contributions into the VEBA on a pre-tax basis.

Employee Group	VEBA Contribution Rate
Tier 1	5.0%
Tier 2	4.0%

Medical: VEBA funds can be used to reimburse members for eligible healthcare expenses.

VEBA members on service-connected disability will receive benefits from the Postemployment Healthcare Plan only up to age 65 once VEBA funds are exhausted.

Note: The summary of major plan provisions is designed to outline principal plan benefits. If the Department of Retirement Services should find the plan summary not in accordance with the actual provisions, the actuary should immediately be alerted so the proper provisions are valued.

APPENDIX D – GLOSSARY OF TERMS

APPENDIX D – GLOSSARY OF TERMS

1. Actuarial Assumptions

Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, and retirement; changes in compensation; rates of investment earnings, and asset appreciation or depreciation; procedures used to determine the Actuarial Value of Assets; and, other relevant items.

2. Actuarial Cost Method

A procedure for determining the actuarial present value of pension plan benefits and expenses and for developing an allocation of such value to each year of service, usually in the form of a normal cost and an Actuarial Liability.

3. Actuarial Gain (Loss)

A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions during the period between two actuarial valuation dates, as determined in accordance with a particular actuarial cost method.

4. Actuarial Liability

The portion of the actuarial present value of projected benefits that will not be paid by future normal costs. It represents the value of the past normal costs with interest to the valuation date.

5. Actuarial Present Value (Present Value)

The value as of a given date of a future amount or series of payments. The actuarial present value discounts the payments to the given date at the assumed investment return and includes the probability of the payment being made. As a simple example: assume you owe \$100 to a friend one year from now. Also, assume there is a 1% probability of your friend dying over the next year, in which case you will not be obligated to pay him. If the assumed investment return is 10%, the actuarial present value is:

$$\begin{array}{rcl}
 \text{Amount} & & \text{Probability} \\
 \$100 & \times & \text{of Payment} \\
 & & \frac{1}{(1+\text{Discount Rate})} \\
 & & \frac{1}{1/(1+.1)} \\
 & & = \$90
 \end{array}$$

6. Actuarial Valuation

The determination, as of a specified date, of the normal cost, Actuarial Liability, Actuarial Value of Assets, and related actuarial present values for a pension plan.

APPENDIX D – GLOSSARY OF TERMS

7. Actuarial Value of Assets

The value of cash, investments, and other property belonging to a pension plan as used by the actuary for the purpose of an actuarial valuation. The purpose of an Actuarial Value of Assets is to smooth out fluctuations in market values. This way long-term costs are not distorted by short-term fluctuations in the market.

8. Amortization Payment

The portion of the pension plan contribution, which is designed to pay interest and principal on the Unfunded Actuarial Liability in order to pay for that liability in a given number of years.

9. Entry Age Normal Actuarial Cost Method

A method under which the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated as a level percentage of pay from the individual's date of entry into the plan to the individual's assumed cessation of employment.

10. Normal Cost

That portion of the actuarial present value of pension plan benefits and expenses which is allocated to a valuation year by the actuarial cost method.

11. Unfunded Actuarial Liability

The excess of the Actuarial Liability over the Actuarial Value of Assets.

12. Funded Percentage

The ratio of the Actuarial Value of Assets to the Actuarial Liability.

13. Mortality Table

A set of percentages that estimate the probability of death at a particular point in time. Typically, the rates are annual and based on age and sex.

14. Discount Rate

The assumed interest rate used for converting projecting dollar related values to a present value as of the valuation date.

15. Medical Trend

The assumed increase in dollar related values in the future due to the increase in the cost of health care.
